Did you ever compare a delicious, flaky,
delicately browned loaf of bread made
from

Snowy Butte Flour

With the sad results achieved from the use of cheaper flour?
The one, the highest triumph of cookery—the most useful of
all the arts; the other, a monument to wasted energy, blasted
hopes and poor judgment. But why continue the compar-
ison? If you have made the mistake in the past, trying to
exist on inferior flour, redeem yourself by ordering Snowy
Butte flour only in future.

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF

DEAFNESS OR HARD HEARING
ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you
a full history of my case, to be used at your discretion.
About five years ago my right ear began to ring, and this kept on getting worse, until I lost
my hearing in this ear entirely.
I underwent a treatment for catarrh, for three months, without any success, consulted a num-
ber of physicians, among others, the most eminent ear specialist of this city, who told me that
only an operation could help me, and even that only temporarily, that the head noises would
then cease, but the hearing in the affected ear would be lost forever.
I then saw your advertisement accidentally in a New York paper, and ordered your treat-
ment. After I had used it only a few days according to your directions, the noises ceased, and
to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you
heartily and beg to remain Very truly yours,
F. A. WERMAN, 730 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.
Examination and YOU CAN CURE YOURSELF AT HOME at a nominal
advice free. INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL.

Land for Sale.

I have 1560 acres of land, all in one
tract, on Antelope creek for sale. It
is situated 18 miles from Jacksonville,
12 miles from Central Point, and 10
miles from Medford. I will sell this
land in tracts of 100 acres up until all
is sold, at \$10 per acre. It is good
farming and grazing land, and a good
stock range on the outside. I will
sell all, or as low as 100 acres in a
tract. Inquire of Wm. BYRNE, Jack-
sonville Or.

The Trip of the Season.

A winter trip to southern Califor-
nia and Arizona via the famous
Shasta Route is one never to be for-
gotten. Renewed acquaintance with
this section will ever develop fresh
points of interest and added sources
of enjoyment under its numberless re-
sorts of mountain, shore, valley and
plain. Two trains leave Portland
daily, morning and evening, for Califor-
nia. These trains are equipped
with the most improved pattern of
standard and tourist sleeping cars,
and the low rates place the trip in
reach of all. For illustrated guides

If the old saying, "All the world
loves a lover," is true, then the fiction
in The Cosmopolitan for January
should be popular indeed. All the
stories vary in treatment, plot and
action, from Frances Courtenay Bay-
lor's charming story, "Capit's Practi-
cal Joke," to Maarten Maarten's
strong domestic tragedy, "Her Father-
er's Wife," but all have love for a
central theme.

Pains in the Back

Are symptoms of a weak, torpid or
stagnant condition of the kidneys or
liver, and are a warning it is extremely
hazardous to neglect, so important
is a healthy action of these organs.
They are commonly attended by loss
of energy, lack of courage, and some-
times by gloomy foreboding and de-
pendency.

"I had pains in my back, could not sleep
and when I got up in the morning felt
worse than the night before. I began tak-
ing Hood's Sarsaparilla and now I can
sleep and get up feeling rested and able to
do my work. I attribute my cure entirely
to Hood's Sarsaparilla." Mrs. J. N. Perry,
care H. S. Copeland, Pike Road, Ala.

Curing a Gun Shy Dog.
An old hunter tells the following
story relative to gun shy dogs:

"A few years ago I owned an Irish
terrier who was not only frightened
out of his wits at the report of a gun,
but who would flee at the sight of one
or even at the sound of the 'click' caused
by closing the breech. To cure him
I used to take him on a chain fastened
to a belt around my waist and used to
fire continually at small birds. Occa-
sionally I let him chase a rabbit, shot
at close in front of his nose as I
dared and then let him pick it up.
This was of course teaching him bad
manners, but to cure him of running in
was an easier matter than breaking
him of being gun shy. After a month
or two of this sort of thing—and it very
often meant dragging him out by main
force—he began to understand that the
gun was quite harmless to himself and
that there was fun to be had some-
times in addition. Eventually when-
ever he saw me pick up the gun he went
wild with excitement, and to the day
of his death, although only a terrier,
he was one of the best dogs with the
gun I ever had."

Guarding the French President.

President Loubet is well protected.
His secret guard consists of twelve
men under the orders of a police com-
missioner. These men watch constantly
over his person. When he receives,
they mingle with the guests close by
him, and when he goes out they follow
him and have orders never to lose him
an instant from view. When he drives,
they accompany him on bicycles, and
it is only then that they can be recog-
nized. This guard of thirteen men
alone costs the state the nice little sum
of 75,000 francs a year.—Chicago Rec-
ord-Herald.

The Lamb and the Bunko Victim.

It is a common saying that the per-
son who buys a "gold brick" or invests
in "green goods" gets just what he de-
serves in view of the wide publicity
constantly given in the press about
such transactions. But the examples
of lamb shearing in finance are quite
as common, and the loser of a fleece is
deserving of about the same measure
of sympathy that the bunko victim
usually receives.—Los Angeles Herald.

Grain-O! Grain-O!

Remember that name when you want a de-
licious, appetizing, nourishing food drink to
take the place of coffee. Sold by all grocers
and liked by all who have used it. Grain-O is
made of pure grain. It aids digestion and
strengthens the nerves. It is not a stimulant,
but a health builder, and the children as well
as the adults can drink it with great benefit.
Costs about 1/4 as much as coffee. 15c. and 50c.
per package. Ask your grocer for Grain-O.

The Greasewood.

A plant which thrives in the arid re-
gion of the west is the greasewood, the
young plants of which have a milky
sap and the old wood a resinous gum
known to be soluble in certain hydro-
carbon solvents of rubber. From the
young greasewood sap two inventors
have discovered a method of making
artificial india rubber. By this pro-
cess they are enabled to obtain a gum-
my mass of brown color, highly flex-
ible, elastic, combustible and seems to
possess the characteristics of india
rubber, except that it has rather a bal-
samie odor, differing from the odor of
commercial rubber. The gum can be
vulcanized by the addition of a quan-
tity of sulphur in the same manner as
the india rubber of commerce.

Growing Pecans.

It is the fashion now in Georgia to
set pecan groves. The trees have been
found to grow and thrive well in that
climate, and they have varieties which
bear nuts as much larger than the or-
dinary wild nut which we used to
know as the improved chestnut is
better than the small wild nut. Trees
planted fifteen to twenty years ago
are producing profitable crops, and
hundreds of acres have been set to
them within the last ten years, while
planting is going on now at a greater
rate than ever before. One man near
Columbus, Ga., is about to set eighty
acres, and it may not be long before
we see them coming by the carload for
our Christmas nut trade.—American
Cultivator.

Market "on the Hoof."

A farm should, first of all, produce
everything that can be consumed, then
crops to be sold, and the less of the
latter the better. Stock should be kept
sufficient to consume all food products,
and the corn, oats, hay, etc., should be
marketed "on the hoof." Why sell
rattle or hogs to feeders when they
may be fed at home?—Farm and
Ranch.

Repairing Neatly Done

Never thought of such a
sign for a medicine did you?
Well, it's a good sign for
Scott's Emulsion. The body
has to be repaired like other
things and Scott's Emulsion is
the medicine that does it.

These poor bodies wear out
from worry, from over-work,
from disease. They get thin
and weak. Some of the new
ones are not well made—and
all of the old ones are racked
from long usage.

Scott's Emulsion fixes all
kinds. It does the work both
inside and out. It makes soft
bones hard, thin blood red,
weak lungs strong, hollow
places full. Only the best ma-
terials are used in the patching
and the patches don't show
through the new glow of health.

No one has to wait his turn.
You can do it yourself—you
and the bottle.

This picture represents
the Trade Mark of Scott's
Emulsion and is on the
wrapper of every bottle.
