Grim of Willow Springs precinct called on THE TIMES a few days ago. We are sorry to learn that he intends leaving this section before long. McDaniel are putting the finishing touches on The Criterion, which will soon be one of the nearest public resorts in Southern Oregon. Gay, who has efficiently filled the position of letter carrier at Portland for a number of years, resigned last week. He is a son-in-law of Mr. and Mrs. D. Linn of Jacksonville. Dr. J. S. Bobannon, who is well and favorably known in Southern Oregon, and Ada Epps are charged in the superior court of San Francisco with obtaining \$300 under false pretenses from M. Mulvey of Portland, who is suffering with a cancer in the mouth. It is likely that this is a case that is not founded on a just complaint.

If you want the latest in furniture, call at Norris' shop in Jacksonville and see one of his folding screens. They are superior to anything in that line. Everybody should have one. Geo. W. Bice, formerly a resident of Eagle Point, but who now lives at Adna, Wash., was in the valley last week. He was looking for timber, and will soon return, accompanied by several friends. THE TIMES is in receipt of the compliments of Mr. and Mrs. J. H. Hoffman. They have been the recipients of the congratulations and best wishes of their many friends, in which THE TIMES joins heartily. John F. Miller has been re-appointed as postmaster of Jacksonville, and will serve us in that capacity four years more. He has made a painstaking, efficient official, and there was no opposition to his re-appointment. When in Medford ask for Myers, the popular jeweler. His stock of goods cannot be beaten in Southern Oregon, if equaled. He sells and repairs diamonds, jewelry, watches and clocks, cheaper and better than anyone else. Mr. and Mrs. Horace Pelton of Sam's Valley have returned from California, where they spent their honeymoon. They have been the recipients of the congratulations and best wishes of their many friends, in which we join. Choice Utah re-cleaned alfalfa seed, Red clover seed, Garden and flower seeds, New onion sets, For sale at NUNAN'S, Jacksonville. The county clerk has issued license to marry to G. R. Singleton and Miss Dora Roach; to Wm. Evans and Miss Mary Perdue; to M. S. Biden and Hattie Marshall of Medford; to Smith McKenzie and Mabel Plumer of Ashland. J. B. Coeyman, who was known as Merle while he lived in the vicinity of Gold Hill, and who attempted to kidnap the little daughter of H. G. Kesterson of Grant's Pass, has been adjudged insane and was sent to the asylum Saturday. Dick Nichols, who was raised in Sam's Valley and is well known in Southern Oregon, is among those arrested for participating in the lynching at Lookout, Modoc county, Calif. It is not likely that anybody will be convicted for the crime, as public sentiment seems in favor of the lynchers. It seems that the principal reason why "Twist Love and Duty" was not presented at Jacksonville was that H. A. Rayner, who played the leading role, proved quite objectionable to the balance of those in the cast. The Record says it takes a charitable view of the matter when it calls him bad actor and a fool. The Town Talk says that C. C. Wing, who recently purchased the corner lots on Fourth street, back of the Ashland depot, will not at present build the fine, modern hotel which he had planned, to cost not less than \$8000. The building was to be pushed to completion; but since the city council has refused to grant liquor license it has been deemed unwise to construct the building. Wm. Clark, the well-known horseman, called on THE TIMES one day this week. From him we learn that J. D. Heard has purchased E. D. Elwood's Tybalt colt "Old Folks" for \$3000. Thompson, a wealthy citizen of San Francisco, paying \$300 for him. The horse has much natural speed and can pace at a 2:10 gait. Tybalt is proving a first-class sire, having a number of colts that have plenty of speed and good temper. The main building of the factory at Clearfield, Pa., in which was being manufactured the non-explosive powder discovered by Sherman Clark (formerly of Jacksonville and Gold Hill) was burned a short time since. Three men lost their lives in the flames. Hyde Ricketts, who also resided here for some time, is interested in the plant, which will be rebuilt at an early date. The loss is estimated at \$60,000. What is claimed for the powder—that it would not explode—was thoroughly proved by the fire. G. A. Woods and M. L. Hawley of the Union Mill and Lumber Co. of Ashland have petitioned the court of that city for a franchise for 50 years for an electric street railway, which will traverse the main lines of traffic. Soon after their arrival in that city they purchased the old Ashland planing mill plant with a valuable water-power right, and it is the latter which is intended to be the basis of the proposed railway. The promoters agree to equip a system which will afford a good service, the fare to be five cents one way and to begin work within six months, and to complete the system within 12 months from the time work begins. John A. Boyer, who has been suffering with a cancer in his face for about a year, died last Tuesday morning. The funeral will take place today, under the auspices of Jacksonville Lodge No. 10, I. O. O. F., and Ruth Rebekah Degree Lodge No. 4, of which he was a prominent member. Mr. Boyer was a resident of Jacksonville for more than a quarter of a century, and always had the highest esteem of the whole community. He was engaged in merchandising for a few years, succeeding his father in the store on California street after his death. Afterward he entered the employ of C. C. Beekman, with whom he remained until physically unable to perform his duties. The soul of honor, kind and accommodating, he will be missed by many. St. Valentine's Ball. Eaton are conducting an excellent lunch counter and restaurant in the building formerly occupied by Geo. Kurtz and E. M. Wilson. Give them a call, for they will treat you well. Mr. Gurnea, who will engage in business at Ashland entirely, is consolidating his stock of goods here with that there. We are sorry to lose him, as he is a thorough gentleman and enterprising citizen. We are informed that H. M. Crowell, son of Judge Crowell, who went to San Francisco with Peil & Bolton's excursion, has entered the naval service of the Government for four years, and is now on the high seas. Amy, who recently bought a tract of land near Central Point, of Messrs. Ramsey and Rodgers, will have it planted in fruit—mostly apples. A dramatic entertainment will be given on the night of Jan. 24th, to consist of a play which will extinguish the organ debt incurred by our school directors. It promises to be quite interesting. W. F. Horn of Grant's Pass, the clever insurance agent, was in Central Point a short time ago, and did considerable business for the Massachusetts Mutual, one of the leading companies of the United States. Rev. N. S. Hollocroft of Portland, the Baptist evangelist, holding a series of meetings at the Baptist church in Central Point. He is an able minister, and has created a deep religious interest in the large audiences which greet him. Asbury Beall, who has been in Mendocino and Seneca counties during the past two years, returned one day last week. He has become a benedict, since he left here, and was accompanied home by his wife. Sold by druggists and mailed by Ely Bros., 56 Warren St., New York. Proberta, Calif. MESSRS. ELY BROS.—I have been afflicted with catarrh for twenty years. D. C. GRIM.

Mining News. Miles McNally of Spokane, a prominent mining man, is in Jacksonville on a tour of inspection. J. R. O'Neill, who is engaged in mining near Gold Hill, was at Ashland one day last week. The dry spell continues and miners are wondering if no more rain is going to fall. Placer mines are at a standstill. A New Jersey trust company has taken a mortgage of \$100,000 on mining claims along Klamath river, below Happy Camp, Calif. Drilling operations have been resumed by the Southern Oregon Oil Co., plenty of funds for future operations having been secured. Herman W. Scheld of Yreka and G. E. Whipp of Cripple creek, Calif., were here this week, and went to Applegate to inspect a mine on Applegate. Smith Bros., who recently sold a half interest in the Baby mine, have purchased E. Ray's ledge, situated two miles from Gold Hill, paying \$500 therefor. They will commence its development soon. Friday evening the big drill of the Unappqua Valley Oil Co., which is operating at the White place in Myrtle creek district, struck a seepage of petroleum at a depth of 60 feet, the sand pump bringing up from a pint to a quart of oil every trip it made. The price of copper has reached the lowest level at which it can be profitably mined by a great many American producers, though the gamblers may force the price still lower. Lake copper is quoted in New York at 11 1/2 cents, electrolytic at 11 cents and casting at 10 1/2 cents. While these figures are maintained new ventures are out of the question. A few days since a chute of fine ore, considerably above the average, was tapped in the main shaft of the Ashland mine, which has now attained a depth of 840 feet. The shaft is going down steadily and the good ore continues. Stopping goes on at the 600-foot and 700-foot levels, and the drifts are being pushed along at the 800 foot level. The usual crew of 30 men is employed. A special from Lewiston, Mont., says: A reliable report has reached here of the discovery of an immense diamond field in the northeastern part of Fergus county, which has driven all the prospectors of Spotted Horse and Maiden wild with excitement. When the report reached the former place that Tiffany, the well-known New York jeweler, had pronounced the gems of the first water, excitement knew no bounds, and a party of prospectors immediately started for the Blood Creek country, where the find was made, to locate ground in what has proven to be a genuine diamond field. A Great Success. "The Spinners' Convention," held at U. S. Hall a few evenings since, was witnessed by a large audience, which expressed its entire satisfaction therewith. It was quite a novel affair inasmuch, and entirely new in Southern Oregon. The young ladies who had it in charge are to be congratulated upon the success that attended their industry and ability. Heart-shaped posters and programmes had been issued, that were quite appropriate to the event. There was an interesting prelude, which was well received, and consisted of a song "Little Black Me," by Leona Ulrich, a difficult violin solo by Mary DeBar and some pretty dancing by Frances Kenney and Fleta Ulrich. All of them did well. The convention was then called to order, which consisted of the following characters. They were well sustained and created much amusement: Josephine Jane Green, president Young Ladies' Single Blessedness Society, Sophia A. Muller; Priscilla Abigail Hodge, secretary; Margaret Krause; Calmity Jane Higgins, treasurer; Mabel Prim; Tiny Short, Clara Elmer; Jerusha Matilda Spriggins, Isa Cook; Patience Desire Mann, Maude Prim; Betsy Bobbett, Kate Broad; Polly Jane Pratt, Edith Priest; Belinda Bluegrass, Josephine Donegan; Rebecca Rachel Sharpe, Helen Mar Colvig; France Touchment Fenceral, Bertha O'Neil; Hanner Beagersaff, Lella Prim; Professor Make Over, Lewis Ulrich; Richard Carvel, Dick Donegan. A Mysterious Case. Capt. Wm. F. D. Horne, youngest son of the late Mr. and Mrs. L. Horne, who was born in Jacksonville, was recently found in San Francisco with his neck and face badly cut. The slashes did not cut deep enough to cause serious injury; but his nervous system was found to be completely wrecked. Throughout the day he remained delirious, with occasional lucid moments. He can recollect nothing for several days prior to his attempt at self-destruction. A few days before he arrived from Prescott, A. T., where he had been visiting his brother Edward. He went direct to the Occidental Hotel and retired. At 12 o'clock he sent for a physician. Later in the afternoon he came down to the office, read the newspapers and then disappeared. His friends noticed that he was not in his usual condition, but no serious thought was given to it until news of his act reached them. Capt. Horne was at the time of his departure from the Philippines acting commissary for his regiment. He is a graduate of West Point and has served in the army with distinction. It is reported that he is addicted to the use of liquor. Children Especially Liable. Burns, bruises and cuts are extremely painful, and if neglected often result in blood poisoning. Children are especially liable to such mishaps, because not so careful. As a remedy DeWitt's Witch Hazel Salve is unequalled. Draws out the fire, stops the pain, soon heals the wound. Beware of counterfeiters. Sure cure for piles. "DeWitt's Witch Hazel Salve cured my baby of eczema after two physicians gave her up," writes Jas. Muck, N. Webster, Ind. "The sores were so bad she soiled two or five dresses a day." City Drug Store, Jacksonville, and Dr. J. Hinkle, Central Point.

IN MODERN DAYS
Ways of Doing Things Have Vastly Changed--The Science of Medicine, Especially, Has Made Rapid Advances.
"Few things have developed as rapidly during the past few years as the science of medicine," said a well-known practitioner recently. "And the most striking phase in its progress is in the treatment of the blood."
"In the old days symptoms were treated and the blood disregarded. Now it is the root of the disease that is attacked, and the most important development of modern medical science has been in discovering that, in most diseases, this lies in the condition of the blood. If the blood is thin or poor, the nerves cannot receive their proper nourishment, the system becomes run down and in a condition to invite disease. Build up the blood, restore the worn-out nerves and you remove the cause. And when the cause is gone, the disease will follow."
An instance of the truth of this is the case of the little son of Mrs. Minnie Parrish, living at Donora, Washington Co., Pa. In an interview the mother says: "Our little boy was terribly afflicted with boils on his back, legs and feet. He was pale and sallow and his system was completely run down. He had no appetite and his stomach caused him great distress. We had him treated by good doctors at St. Louis and Indianapolis, but their efforts did him little good. Then we took him to Pittsburg, hoping the change would help him. While there a doctor refused to vaccinate him, because his blood was in bad condition and gave us a certificate to that effect. We tried various remedies, but without avail. He grew worse, instead of better, and I am sure he could not have lived long if he had not been relieved."
"A friend from Dubuque, Iowa, advised us to give him Dr. Williams' Pink Pills for Pale People. In June, 1900, one year after his trouble commenced, he began to take Dr. Williams' Pink Pills for Pale People, and half of the first box caused improvement. He began to eat and play and was so much better that we kept on giving them to him until he had taken three boxes and was cured. He has no more sores and today is perfectly well and the happiest boy on the street."
At all druggists, or direct from Dr. Williams Medicine Company, Schenectady, N. Y., fifty cents per box; six boxes for two dollars and fifty cents.

CONSTIPATION
"I have gone 16 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief; such was my case until I began using CASCARETS. I now have from one to three passages a day, and if I was rich I would give \$200 for each movement; it is such a relief."
