Poison Oak
Poison Ivy
are among the best known
of the many dangerous
wild plants and shrubs.
To touch or handle them
quickly produces swelling
and inflammation with in-
tense itching and burning
of the skin. The eruption
soon disappears, the suffer-
er hopes forever; but
almost as soon as the little blisters
and pustules appeared the poison had reached
the blood, and will break out at regular
intervals and each time in a more aggra-
vated form. This poison will loiter in the
system for years, and every atom of it
must be forced out of the blood before you
can expect a perfect, permanent cure.

SSS Nature's Antidote
FOR
SSS Nature's Poisons,
is the only cure for Poison Oak, Poison
Ivy, and all noxious plants. It is com-
posed exclusively of roots and herbs. Now
is the time to get the poison out of your
system, as delay makes your condition
worse. Don't experiment longer with
salves, washes and soaps—they never cure.
Mr. S. M. Marshall, bookkeeper of the Atlanta
(Ga.) Gas Light Co., was poisoned with Poison
Oak. He took Sulphur, Arsenic and various
other drugs, and applied externally numerous
lotions and salves. At last he was cured
and inflammation was so severe he was
almost blind. For eight years the poison would
break out every season. His condition was much
improved after taking one bottle of S. S. S., and
a few bottles cleared his blood of the poison, and
all evidences of the disease disappeared.
People are often poisoned without
knowing when or how. Explain your case
fully to our physicians, and they will
cheerfully give such information and ad-
vice as you require, without charge, and
we will send at the same time an interest-
ing book on Blood and Skin Diseases.

The SPORTING WORLD

Our Billiardists Abroad.
Several of our leading manipulators
of the cue are seeking honors and
shekels in foreign lands this season,
and consequently the home interests of
both pool and billiards are suffering.
Of the billiardists who have ventured
across the Atlantic the best known is
Jacob Schaefer, who recently won the
great championship tourney in Mad-
ison Square Garden, New York.
Schaefer has for several years been
the most prominent figure in the Amer-

ican billiard arena. He is the greatest
exponent of the balk line game in the
world today. George Slosson of New
York can defeat Schaefer at cushion
caroms.
Schaefer made a very successful trip
to Europe a year ago, winning a large
amount of money in London and Paris.
He brought with him on his return last
summer a French crack named Baruel,
who performed creditably in Amer-
ica. Baruel returned to Paris recently
with Schaefer.
It is Schaefer's intention to compete
in the various tournaments to be held
during the winter in the foreign cap-
itals. He will also participate in many
specially arranged matches and hopes
to come back with a comfortable bal-
ance in his pocketbook.

Remarkable Cure for Croup.
A LITTLE BOY'S LIFE SAVED.

I have a few words to say regarding
Chamberlain's Cough Remedy. It
saved my little boy's life and I feel
that I cannot praise it enough. I
bought a bottle of it from A. E.
Steere of Goodwin, S. D., and when I
got home with it the poor baby could
hardly breathe. I gave the medicine
as directed every ten minutes until
he "threw up," and then I thought
sure he was going to choke to death.
We had to pull the phlegm out of his
mouth in great long strings. I am
positive that if I had not got the
bottle of cough medicine my boy
would not be on earth today.—JOEL
DEWITT, Inwood, Iowa. For sale by
City Drug Store.

Sheep and Cattle on Range.

Wyoming has 35,000,000 acres of
good grazing lands. There are about
1,000,000 cattle and 3,000,000 sheep in
the state. Between the cattlemen and
sheepmen exists a feud that not infre-
quently leads to murder. Sheep, as
you may or may not know, feed in so
close order that when a flock has fed
over a range not a spear of grass re-
mains. Cattle browse at random and
leave behind more than they eat, so
that the range may provide sustenance
for two or three herds, one following
the other.

Vereschagin's Next Picture.

Roosevelt at San Juan Hill is to be
the subject of a painting by Vassili
Vereschagin, the painter of battle
scenes. The famous Russian artist ar-
rived in New York from Europe recently
to conduct an exhibition of his
painting at the Art Institute. He an-
nounced his intention to devote two
years or more to the work of portray-
ing on canvas the battle, which, he
thinks, because of Roosevelt's elevation
to the presidency, is the most interest-
ing war scene of recent times to Amer-
icans.

Oil on Troubled Waters.

A test of a cannon that throws a
shell designed to scatter oil on boister-
ous waves was recently made. The
shell is of wood and conical in shape.
It contains two gallons of oil. At one
end of the projectile is a vent. This is
covered with paper, which is blown
off as the shell leaves the piece, allow-
ing the oil to escape. In this way it is
the purpose of the inventor to calm a
rough sea for the distance of a mile,
making a smooth path for a lifeboat to
follow on her way to disabled vessels.

Negro Population Doubled.

There are twice as many negroes in
the United States today as there were
when Lincoln set them free, and the
last census returns show a white popu-
lation of 67,000,000 and a negro popu-
lation of 8,850,000, with about 500,000
Indians, Chinese and Japanese. The
death rate among the negroes in the
cities where they live in the congested
districts and "where every law of na-
ture and sanitation is defied" is nearly
double that of the whites and is far in
excess of the birth rate, and this high
mortality has led some to think that
the negro is dying out. The census fig-
ures show that this belief is erroneous.
The increase of negro population in the
rural districts more than makes up for
the loss in the cities, and the rural sur-
plus flock cityward in sufficient num-
bers to fill up the ranks. The negro
population is increasing rapidly, not as
rapidly as in slavery days, but as rap-
idly as the whites.—San Francisco
News.

Animal Tamers Blamed.

As tamers and keepers of animals
dark men never succeed. Visits to zoos
and menageries show them to be in-
variably fair fellows, with yellow or
brown hair and with blue eyes. Thus
at the zoological garden in this city
there is not a keeper who is dark. John
McMullen of the lion house has light
hair, a yellow mustache and violet
orbs. Lover of the wolves and foxes is
still more markedly blond, and in the
antelope house, the snake house and
the small mammal house light colors
still prevail. One of the most pro-
nounced blonds at the zoo was John
Thompson, who is now in Honolulu
making casts of fishes for a museum
there. Thompson was one of the most
successful keepers the zoo has ever
had. Not only snakes and turtles, his
specialty, but lions, foxes, wolves, deer
and many other animals took to him
naturally, and he was never scratched
or bitten.—Philadelphia Record.
