This School offers to girls a broad and thorough education, combined with the rdvantages of a healthful and refined home. It occupies a large and attractive building in the immediate vicinity of the City Park. The sanitary condition of the premises has been made a matter of special attention. The bed chambers, class and recitation rooms are large and thoroughly ventilated; and the construction of the building is such that every room is open to the sunlight. The greatest care has been taken to provide all the necessary appointments of a well-equipped school, and to furnish every facility for training pupils in the most approved methods. The aim of the school is to give thorough and well-crossed in the development of giving and young women, fitting them for college when that is desired, and to aid in the development of true and womanly character.
