State Superintendent Ackerman has been notified that the county courts of Lake and Douglas have followed the intention of the law for the establishment of school libraries passed at the last session of the legislature, by levying a tax equal to at least 10 cents for each person between the ages of 4 and 20 years. It is not known how many counties contemplate taking such action, and some are wondering if the decision of the circuit judge at Hillsboro would govern in this case—that the word "may" means "shall." The law says the county court "may in its discretion," etc. The following table, showing the number of persons of school age in each county of the first judicial district, will indicate the amount which would be raised for the purpose indicated, should all of them take action: Jackson, 5,153 pupils, \$515.30. Josephine, 2,775 pupils, \$277.50. Klamath, 1,073 pupils, 107.30. Lake, 977 pupils, \$97.70. Many Millions for War. He has an orchard of about 35 acres already in bearing, from which he harvested last year apples to the value of several thousand dollars. He has a novel, economical method of digging holes for planting. The iron bar he makes a hole in the ground to a depth of about three feet, and into this he places giant powder. Aside from making an excavation sufficiently large for planting the tree, it loosens the earth for some distance on all sides and at the bottom, to the advantage of the tree roots. A Few Hints to the Citizens of Jacksonville. HOW TO HELP YOUR TOWN. Talk about it. Write about it. Beautify the streets. Sell all you can and buy all you can at home. If you are rich invest in something that will employ somebody. Be courteous to strangers who come among you, so they will go away with good impressions. Always cheer on the men who go in for improvements. Your portion of the cost will be nothing. Don't kick at any proposed improvement because it is not at your own door, or for fear that your taxes will be raised a little. HOW TO HURT YOUR TOWN. Oppose improvements. Mistrust its public men. Run it down to strangers. Go to some other town to trade. Refuse to advertise in your home paper. Be careful to discredit the motives of public-spirited men. Lessen your face when a stranger talks of locating in your town. If a man wants to buy your property charge him two prices for it. Refuse to see merit in any scheme which does not directly benefit you. Probate Court. The following business has been transacted in this court since the last report of THE TIMES: Estate of Annie Egglewood. Order made for sale of real property. Estate of minor heirs of Geo. Schumpf. WONDERFUL SUCCESS

A Talk of Interest to the Young by One Who Has Had Both Bad and Good Fortune.

"Success rarely, if ever, comes until after many failures," said Mr. Emory T. Hubbard. "The failures we do not hear of, but the successes make men famous." Mr. Hubbard is a man who, after many failures, at last achieved success and he talks interestingly about it. He is a trained nurse and masseur, living at No. 139 May street, Pasadena, Calif. To a reporter he said: "I had almost given up hope, but finally I attained that for which I sought—health. Something over ten years ago I underwent two surgical operations and as a result my nervous system broke down. I became all run down, weak and exhausted; I could not sleep, was constipated, my liver was bad and my blood very much out of order. "In the latter part of 1895, after five doctors had been treating me for as many years without doing me any good, I saw an advertisement in the paper and began taking Dr. Williams' Pink Pills for Pale People. When I had taken half the second box I found I was getting better and I kept on until I was cured. "I had almost given up hope, but finally I attained that for which I sought—health.
