The Best Prescription for Malaria, Chills and Fever is a bottle of GROVE'S TASTELESS CHINA TONIC. It is simply iron and quinine in a tasteless form. No cure, No pay. Price 50c.

The Commoner. (Mr. Bryan's Paper.)

The Commoner has attained within six months from date of the first issue a circulation of 100,000 copies, a record probably never equaled in the history of American periodical literature. The unparalleled growth of this paper demonstrates that there is room in the newspaper field for a national paper devoted to the discussion of political, economic and social problems. To the columns of The Commoner Mr. Bryan contributes his best efforts and his review of political events as they arise from time to time can not fail to interest those who study public questions. The Commoner's regular subscription price is \$1.00 per year. We have arranged with Mr. Bryan whereby we can furnish his paper and THE WEEKLY TIMES together for one year for \$2.00. The regular subscription price of the two papers when subscribed for separately is \$2.50.

A Cough

"I have made a most thorough trial of Ayer's Cherry Pectoral and am prepared to say that for all diseases of the lungs it never disappoints." J. Early Finley, Ironton, O. Ayer's Cherry Pectoral won't cure rheumatism; we never said it would. It won't cure dyspepsia; we never claimed it. But it will cure coughs and colds of all kinds. We first said this sixty years ago; we've been saying it ever since. Three sizes: 25c, 50c, \$1. All druggists. Consult your doctor. If he says take it, then do as he tells you. Do not take it if he does not. He knows. Leave it with him. We are willing. J. C. AYER CO., Lowell, Mass.

HERB AND THERE.

A fine assortment of up-to-date visiting cards can always be found at THE TRAMES OFFICE. H. W. Corbett has been elected president of the Lewis & Clark centennial exposition. The Boers surprised a detachment of the Royal Yeomanry Jan. 24d, and captured 25 of the force. Fresh bread, pies, cakes and other pastry, of superior quality, can be obtained at The Boss regularly. Satisfaction guaranteed. The Senate committee on pensions has ordered a favorable report on Senator Hanna's bill to grant a pension of \$5000 a year to Mrs. McKinley. The Salem Sentinel has opened a vigorous campaign against Gov. Geer, and is making the alleged injudicious loans of the state school funds an issue against him. If troubled with a weak digestion, belching, sour stomach, or if you feel ill after eating, try Chamberlain's Stomach and Liver Tablets. Price, 25 cents. Samples free at City Drug Store. Resolutions have been offered, both in the House and Senate, expressing sympathy with the misfortunes of the Boers. They ask that the British treat the vanquished people with humane consideration. Kelly Wiley (colored), who was arrested on a charge of robbing Albert Lowenthal of \$10,000 worth of diamonds at the Hotel Portland two months ago, was sentenced to seven years in the penitentiary. The treaty for the transfer and sale of the West Indies, St. Thomas, St. Croix and St. John, to the United States was consummated Thursday last through the final signing by the representatives of both countries. Robert Fitzsimmons, the ex-champion heavy-weight pugilist, fell down a flight of stairs in the Orpheum Theater in Brooklyn. He complained of severe pains in his back and side, and it is feared that his spine has been hurt. J. Pierpont Morgan's huge steamship combination is said to include the American, Red Star, White Star, Atlantic Transport, Leyland, Wilson and Dominion lines, and probably the Cunard, which is about all of the big lines between New York and Great Britain. Representatives of Cuban agricultural and business interests to the amount of eighty million dollars have petitioned Congress to grant reciprocity trade relations with Cuba. Failure to obtain an American market, so they assert, will result in a disastrous financial crisis. State Treasurer Charles S. Moore has received a remittance of \$1650 from the Soldiers' Home at Roseburg from the treasurer of the National Home for disabled volunteer soldiers. This is for the quarter ending Dec. 31, 1901, and is for 66 occupants of the Oregon Soldiers' Home. Europe does not credit the German emperor with disinterested motives in sending Prince Henry to the United States and inviting the daughter of President Roosevelt to christen the royal yacht. Diplomats of other courts acknowledge that William has made a master political stroke. Rey. J. M. Yinzing, pastor of the Bedford St. M. E. Church, Cumberland, Md., says: "It affords me great pleasure to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used it and know others who have never known it to fail." For sale by City Drug Store. The English reserve the exclusive right to abuse Joe Chamberlain. Although they may hoot him on the streets, caricature him in the public prints and express their dissatisfaction with his colonial policy in any other way that occurs to them, when a German chancellor joins in it becomes quite a different matter. "Yes, I am an open candidate for the election to the United States Senate, to succeed Mr. Simon," said Hon. C. W. Fulton of Astoria, who has been spending a few days in Baker city. "I am here solely in my own interests, and have nothing to say on the gubernatorial or congressional questions. All the candidates are my friends, and I have all I want to do to take care of my own battie." Senator Clark of Montana is said to be the richest man in the world. His Arizona mine, "The Great Verde," is probably the greatest the world has ever seen. He is reported to have already refused \$500,000 for it, and well he may, for experts estimate that there are 23,000,000 tons of ore in sight, and that if properly worked the mine will yield annually \$180,000,000.

At the annual convention of the Travelers' Protective Association held in Portland recently, the following officers were elected: A. N. Smith, president; E. Shelley Morgan, secretary and treasurer; vice-presidents, T. W. Atherton, C. W. Hanson, J. A. Waidle, L. W. Carnahan, Max Friedenthal, board of directors, John S. Baill, Otto Guthman, S. Julius Mayer, Charles Rosenfeld, Frank P. King and George W. Collins.

The Duke of Manchester married Miss Zimmerman because he was bankrupt and needed money." So declared Col. N. B. Knight, father of Miss Portia Knight, when he alighted from the Atlantic line steamship Mesaba. "He paid ardent attention to my daughter," the colonel continued, "when she was on the stage in London. She finally came to the conclusion he was trifling with her, and, being heartbroken, she went to France, where she entered a convent. He wrote her many letters, and nearly every one said it she did not return to him he would commit suicide. Thinking he was sincere, she quit the convent and returned to London. Then the Duke went to Paris, where he met Miss Zimmerman, and her aunt arranged their marriage. It was the case of an urgent need of a few dollars on the part of a scion of the nobility, and they were married. Prior to this time he wrote my daughter heart-breaking letters."

WASHINGTON LETTER

(Special Correspondence.) One hundred more policemen for this city and a rearrangement of committee handling of District affairs in congress are two features which impress Representative Jenkins of Wisconsin as being vital at this time, one for the present and the other for the future welfare of the District of Columbia. As a leading member of the house committee on the District of Columbia Mr. Jenkins has for a number of years been a close observer of the attitude of congress to the District and has also kept himself posted regarding the detailed workings of the municipal government of the capital. In discussing the matter the other day Mr. Jenkins said: "As far as the local police force is concerned it is a splendid body of men, and it is only repeating what others continually remark to say that this is the best governed city in the United States. I am reliably informed that the average policeman in this city works thirty-six hours out of forty-eight. Now here is a chance for the humanitarian to get in some good work. There is a growing demand for the reduction of the hours of labor, and it is a sad commentary on the national government that right here at the seat of government men whose duty it is to protect life and property and be continually exposed should be compelled to work as the police officers of this city are compelled to work."

Washington's Shiny Foot.

The big ornamental brass doors at the eastern entrance of the senate wing of the capitol have as long as the oldest employee of the big building can remember been noted for a singular peculiarity. One of the scenes represented on the door is that of Washington passing through Trenton, the ladies of the city strewing flowers in his way. Washington is mounted, and his right foot extends beyond the usual lines of ornamental work. The foot is strikingly prominent because of the high polish on it, which makes it glisten in the morning sunlight with all the brightness of gold. The guides at the capitol always show those handsome brass doors to visitors and explain to them the meaning of the scenes depicted on them. Almost invariably some one of the group of visitors steps forward and, putting his or her thumb on the shiny foot of the Father of His Country, remarks while rubbing it: "What makes this foot so shiny?" The guide invariably replies: "That is just what does it." Then the visitors laugh and are taken to other points of interest, and their places are soon taken by another group to repeat the scene, including the foot rubbing and the query about the cause of the phenomenon.

The Capital's Plump Women.

"The thing that impresses me most about the Washington crowds," said a woman who has been spending the past two years in the City of Mexico, "is the comforting number of fat women. Before I went to Mexico I used to think overplump women weren't good to look at, but now I admire them all hugely. There aren't any of them in the Mexican capital. Spanish women everywhere else put on flesh as they grow past their first youth, but in the City of Mexico they grow painfully thin. The climate is worse on the complexion than that of Colorado. It dries the skin and gives it a dull, sallow look. Washington women look like pictures to me. Their skins are so clear and they're so delightfully plump. An antiobesity specialist would starve to death in Mexico." All He Could Get. Senator Burrows of Kalumazoo and Senator McMillan of Detroit are not only colleagues, but also close friends. They are given to joking each other at times. A day or two Senator Burrows had occasion to go to the department of agriculture in behalf of a constituent. On his way back he met Senator McMillan, who stopped him and said: "Where have you been, my son?" "Over at the agricultural department," replied Senator Burrows. "Did you get anything?" asked Senator McMillan. "Nothing but a pretty plant that gave me for my wife," replied Senator Burrows. "That was the only thing I could find that was not in the classified service."

Opposed to Penny Postage.

Representative Loud of California, chairman of the committee of postoffice and post roads, talked with the president the other day about postal legislation. Mr. Loud is opposed to penny postage. "That is out of the question," he said. "With penny postage there would be a deficit of at least \$35,000,000 a year in the receipts of the postoffice department." Mr. Loud is opposed to government ownership of telegraph lines, as has recently been proposed. Appreciated the Joke. Representative Richardson of Tennessee, the minority leader of the house, formally presented the president with a beautifully bound set of his compilations of the messages and papers of the presidents of the United States. In making the presentation Mr. Richardson laughingly asked the president to read carefully the constitution and Declaration of Independence. The president took the joke good naturedly and said that he would.

To Protect the Flag.

Seven senators have introduced bills to prevent the destruction of the American flag. Senator Penrose heads the list and bases his measure on strong grounds. He claims that the government is permitting the flag to be debased in the Philippines, and in Manila the stars and stripes are used to advertise saloons and as signboards on places of objectionable reputation. CARL SCHOFIELD.

FACTS IN FEW LINES

In France duels are most frequent in winter; in Italy, in the spring. The exports of Canada increased from \$106,449,244 in 1895 to \$195,641,533 in 1901. It is said that \$2,000,000 will be needed for the repair of our warships during the next fiscal year. If the sea were emptied, and the world's rivers had to refill it, it would take them 40,000 years to do so. A blue book recently issued shows that the postal department of the British Isles employs 173,000 persons. Over 5,000 motor carriages and 1,100 motor cycles are accounted for on the registry books of the Paris police. The latest society fad among the fashionable women in England is that of being photographed as a moving picture. The lord mayor of London receives a salary of £10,000 a year and has to spend twice that sum to maintain the dignity of his position. Of late there has developed among the native Hawaiians, especially among the younger men, a desire to engage in a seafaring life. Thousands of apparatuses for making ice have been invented. The patent office is packed with pots, etc., some of which cost \$25 apiece. The last American camel died in southwestern Arizona a few weeks ago. The camels came to the United States from Egypt and Smyrna in 1857. A number of automobile lorries are being made in Brussels for use in the Congo Free State. Each of them will do the work of sixty-five native carriers. Hungarian vineyard owners are rejoiced at the routing of the phylloxera, and they expect soon to be shipping their fiery wines to all parts of the world again. The establishment in Rome of an American library has been ordered by royal decree. It will contain all publications relating to the new world since its discovery. Bamboo pens have been used in India for over a hundred years. They are made like the ordinary quill pen and for a few hours' writing are said to be very serviceable. A Harvard professor has discovered what he considers the remains of an extinct volcano at Schuylerville, N. Y., a small country place already famous in American history. The ocean used to be considered about as deep as its deepest as the highest mountains are high. It has now been proved to be half as deep again—that is, 46,236 feet. According to a French army paper, suicide is more common in the French army than in any other in Europe. Of the annual death rate in all branches of the service suicide accounts for 5 per cent. Shocking accounts have been received at Cracow of wholesale flogging of Polish children by Prussian schoolmasters for refusing to learn the catechism and prayers in German in Wreszenia. Chicago is making a specialty of sending through the mails envelopes fastened with buckles. The buckles are of white enamel and old gold. They take the place of a gummed flap and a seal. According to the Pall Mall Gazette, the British workman has almost abandoned his clay pipe and shag in favor of the twopenny packet of cigarettes with a portrait of a favorite actress or khaki clad general.

IT SCARES PEOPLE

Who come of a consumptive family when they begin to cough and the lungs are painful. But it is a fact beyond dispute that consumption is not and cannot be inherited. The microbe which breeds disease must absolutely be received by the individual before consumption can be developed. Men and women who have been afflicted with obstinate coughs, bronchitis, bleeding of the lungs, emaciation and weakness, have been perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the cough, heals the lungs, and builds up the body with solid flesh. "When I commenced taking your medicine, eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sunderland, of Chesapeake, Calvert Co., Md. "At times I could not even walk across the room without my head being tremble, and that I would never be well again. At last I concluded to try Dr. Pierce's medicine. I bought a bottle of 'Golden Medical Discovery,' took it, and soon commenced to feel a little better, then you directed me to take both the 'Golden Medical Discovery' and the 'Favorite Prescription,' which I did. Altogether I have taken eighteen bottles of 'Golden Medical Discovery,' twelve of the 'Favorite Prescription,' and five vials of 'Pelle's.' I am now almost entirely well, and do all my work without any pain whatever, and can face with more ease than I could formerly."

BRIEF MENTION.

Trespass notices, printed on cloth, on sale at THE TIMES Printing House. A San Francisco society man and his wife have been arrested for spending too much money. It was not of their manufacture, though. The Oregonian says the Portland Eick built a \$100,000 building on the \$25,000 lot he recently purchased in that city. It will be six stories high. Deeds, mortgages, leases, bonds, bills of sale and every imaginable kind of legal blanks—the latest and best—are constantly on hand at THE TIMES OFFICE. The town of Chilpancingo, situated in central Mexico, was wrecked by an earthquake lately. Six hundred people were killed outright, and a large number hurt more or less seriously. A large quantity of newspapers, suitable for wrapping, pasting on walls, putting under carpets, etc., can be obtained cheap, in quantities to suit, at THE TIMES Printing House. The celebrated Snap Shot, the best medicine in the world for allaying inflammation in man or beast, can be found at Dr. Robinson's drug store, also at Dr. Hinkle's, Central Point. Try it. Cut this out and take it to City Drug Store, and get a free sample of Chamberlain's Stomach and Liver Tablets, the best physic. They also cure disorders of the stomach, biliousness and headache. Dr. Harper of Chicago University has figured out that between \$26,000,000 and \$27,000,000 are yet needed to complete that institution, and Mr. Rockefeller is expected to supply as much of it as cannot be coaxed out of others. Mr. Lawson, owner of Borallima, has challenged the owners of The Abbott, Lord Derby and Cresceno to trot two fast races, \$20,000 each, and the def has been accepted for the two first-named horses. The other will spend the year in the stud. There are eight pacers that have paced in 2:02 or better, as follows: Star Pointer 1:59, John R. Gentry 2:00, Prince Alert 2:00, Joe Patchen 2:01, Little Boy 2:01, Robert J. 2:01, Anacoda 2:01 and Coney 2:02. How many have now alive expected during the day of the high-wheel sulky to see or read such an array of extremely fast sidewheelers. The shrinkage in British securities since the beginning of the ill-starred South African war is without precedent. The Bankers' Magazine says that the net decrease in the value of 325 selected British securities amounts to £143,946,000. The common stock of nineteen British railroads has lost in two years £69,000,000; and the decline in railroad debentures and preferences is some £30,000,000 more. And this is but a little fraction of the total cost of the war. "Some time ago my daughter caught a severe cold. She complained of pains in her chest and had a bad cough. I gave her Chamberlain's Cough Remedy according to directions, and in two days she was well and able to go to school. I have used this remedy in my family for the past several years and have never known it to fail," says James Prendergast, West India Islands. The pains in my chest indicated an approaching pneumonia, which in this instance was undoubtedly ward off by Chamberlain's Cough Remedy. It contracts any tendency of a cold toward pneumonia. For sale by City Drug Store.

Dependent from reasons unknown

to their families or friends, tired of living and determined to die, Nanna Ungerman, night telephone operator, and her chum, Mrs. Ollie Grant, a divorced woman, drank arsenic in deadly quantities at McMinnville, Jan. 22d, both succumbing the next day. Miss Ungerman called up several operators along the telephone line and told them she and her companion were tired of living, and were taking the poison at the time the message was sent. The grim announcement was not believed, however. Both were prominent and popular young women, from the leading families of the town, and had pleasant homes and, so far as is known, no reason existed for their self-destruction.

NOTICE TO TRESPASSERS.

To Whom It May Concern: Notice is hereby given that all persons are strictly forbidden from entering or in any manner trespassing on the premises of the undersigned, described as follows: THE NEW & THE WIG of the NEW & WIG, Sec. 6, Twp. 38, S. W. Attention is called to Section 1794 of the Criminal Code of Oregon, which reads as follows: If any person other than an officer on lawful business shall go or trespass upon any lands or premises not his own, and shall fail, neglect or refuse to depart therefrom immediately, and remain away until permitted to return upon the verbal or printed or written notice of the owner or person in the lawful occupation of said lands or premises, such trespasser shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not less than five nor more than fifty dollars, and shall be committed, in default of payment of fine and costs imposed, to the jail of the county in which the offense is committed one day for each two dollars of the said fine and costs. The law will be strictly enforced against all trespassers, as well as legal damners. F. Duval has been placed in charge of the above premises. C. B. ROSTELL.

FORFEITURE NOTICE.

To J. F. KELLEY AND CHAS. BERRY: YOU AND EACH OF YOU ARE HEREBY notified that I have expended during the year 1900 one hundred and fifty dollars and during the year 1901 eighty dollars in labor upon the Black Bear, Vassee Girl and American Belle mining claims, situated in Colman creek district, Jackson county, Or., under the provisions of Sec. 2201 of the Revised Statutes of the United States, to hold said claims for the period ending December 31, 1901. And, if within ninety days after the publication of this notice you fail or refuse to contribute your proportion of such expenditure as a co-owner, your interest in said claim will become the property of the subscriber, your co-owner, who has made such required expenditure by the terms of said section. DAN McNEEN. Dated Jacksonville, Jan. 3, 1902.

You cannot afford to disregard the warnings of a weak and diseased heart and put off taking the prescription of the world's greatest authority on heart and nervous disorders—

Dr. Miley's Heart Cure.

If your heart palpitates, flutters, or you are short of breath, have smothering spells, pain in left side, shoulder or arm, you have heart trouble and are liable to drop dead any moment. Major J. W. Woodcock, one of the best known oil operators in the country, dropped dead from heart disease recently, at his home in Portland, Ind., while moving his lawn.—The Press. Mrs. M. A. Bissell, Watkins, N. Y., whose portrait heads this advertisement, says: "I write this through gratitude for benefits I received from Dr. Miley's Heart Cure. I had palpitation of the heart, severe pains under the left shoulder, and my general health was miserable. A few bottles of Dr. Miley's Heart Cure cured me entirely. Sold by All Druggists.
