## PEOPLE OF THE DAY

**Maxim on Wireless Telegraphy.**  
 Sir Hiram Maxim is one of those  
 who believe that the Marconi or any  
 other system of wireless telegraphy  
 will be so limited in its practical uses  
 as not to materially affect the cable or  
 other established telegraph lines. In  
 a recent London interview Sir Hiram  
 likened the wireless system to the set-  
 ting up of a small pool of  
 water.

Two boys can communicate with  
 each other from opposite sides of the  
 pond by making ripples of water, but  
 if a hundred boys are making waves at  
 one time confusion would result. Two  
 wireless operators, he says, may be  
 working in a placid pool, and either  
 consequently can send waves a great

SIR HIRAM MAXIM.

distance, where with very delicate ap-  
 paratus they may be able to detect  
 them and cause them to make a break  
 in the electrical circuit. But when  
 many other boys are attracted by the  
 success to the pool they may be all  
 making waves at once.  
 Sir Hiram admits, of course, that  
 wireless telegraphy is of enormous  
 value to ships signaling each other  
 with the shore in case of fogs, but  
 can never take the place of wires for  
 land service or for transmitting with  
 certainty and safety important mes-  
 sages across the ocean.

## Shot in His Left Leg.

For all kinds of sores, burns, bruises,  
 or other wounds DeWitt's Witch  
 Hazel Salve is a sure cure. Skin dis-  
 eases yield to it at once. Never fails  
 in cases of piles. Cooling and heal-  
 ing. None genuine but DeWitt's.  
 Beware of counterfeits. "I suffered  
 for many years from a gunshot  
 wound in my left leg," says A. S.  
 Fuller, English, Ind. "It would not  
 heal and gave me much trouble. I  
 used all kinds of remedies, to no pur-  
 pose, until I tried DeWitt's Witch  
 Hazel Salve. A few boxes completely  
 cured me." City Drug Store, Jack-  
 sonville, and Dr. J. Hinkle, Central Point.

## May Return to His Old Place.

Professor Mark W. Harrington, once  
 occupying the chair of astronomy at  
 Ann Arbor and subsequently chief of  
 the United States weather bureau at  
 the national capital, is said to be work-  
 ing as a day laborer in a north Pacific  
 coast lumber camp. Shortly after the  
 political changes which led to Profes-  
 sor Harrington's downfall in Wash-  
 ington his health failed. Insomnia un-  
 dermined his strength and impaired his  
 activity. Within the last six or eight  
 years he has had a variety of experi-  
 ences. He was president of the Uni-  
 versity of the State of Washington for  
 a year or two, went to the orient,  
 where he was overtaken by scarlet fe-  
 ver, and after his return to this coun-  
 try worked on a Louisiana sugar plan-  
 tation. Still more recently he filed a  
 homestead claim in the fir forests of  
 Washington, but instead of clearing  
 the land himself he entered the employ  
 of a lumber company at Port Blakely.  
 An Ann Arbor dispatch says that his  
 outdoor life is improving his health,  
 conducting to sleep and restoring his  
 ambition. He has hopes of returning  
 to his old place in the intellectual and  
 scientific world.

## Good for Rheumatism.

Last fall I was taken with a severe  
 attack of muscular rheumatism which  
 caused me great pain and annoyance.  
 After trying several prescriptions and  
 rheumatic cures, I decided to use  
 Chamberlain's Pain Balm, which I  
 had seen advertised in the South  
 Jerseyman. After two applications  
 of this remedy I was much better, and  
 after using one bottle was completely  
 cured.—SALLIE HARRIS, Salem, New  
 Jersey. For sale by City Drug Store.

## Good for Milk Extra.

A distinguished senator of the United  
 States went to Atlantic City a week or  
 so ago for a few days' stay. He took  
 a room at one of the American plan ho-  
 tels, agreeing to pay \$8 a day for his  
 meals and room.  
 The next morning after he arrived he  
 was seized with an attack of rheumatic  
 gout. The doctor he called told him he  
 must eat nothing but bread and milk.  
 He stayed at the hotel for five days  
 and ate bread and milk three times a  
 day, touching nothing on the elaborate  
 menus. On the sixth day he sent for  
 his bill. This is the way it came:  
 "To room and board, five days at \$8,  
 \$40.  
 "To fifteen dishes bread and milk at  
 25c, \$3.75."  
 "But," expostulated the senator, "I  
 ate none of the meals. You shouldn't  
 charge me for the bread and milk."  
 The clerk silently pointed to the line,  
 "Dishes not on the bill of fare are  
 charged extra," and the senator says  
 he will make it cost them \$1,000 by the  
 time he has told all his friends to keep  
 away.—New York World.

 pincushion—that is made from a paste-

board box covered with white silk and  
 lined with violet quilted satin. The  
 puff around the edge answers for a pin-  
 cushion.

## Neglect Means Danger.

Don't neglect biliousness and con-  
 stipation. Your health will suffer  
 permanently if you do. DeWitt's  
 Little Early Risers cure such cases.  
 M. B. Smith, Butternut, Mich., says  
 "DeWitt's Little Early Risers are the  
 most satisfactory pills I ever took.  
 Never gripe or cause nausea." City  
 Drug Store, Jacksonville, Dr. J.  
 Hinkle, Central Point.

## Raise Food at Home.

We must raise more of our food at  
 home and pay out less cash! That ap-  
 plies not to all but to many farmers.  
 It has come to be a habit to patronize  
 the butcher, grocer and baker until a  
 good share of the food on some farms  
 is grown, baked or canned elsewhere.  
 Cash is hard to earn at present prices  
 of farm produce, and when we pay it  
 out in this way we are forced to pay  
 big profits to the handlers. We are  
 sometimes told that it costs more in  
 the end to grow food on the farm, but  
 that is not always so, because the ex-  
 tra labor has no such cash value as the  
 money we pay out of our pocket. With  
 many of us the time has come when  
 we must reduce cash expenses as far  
 as possible and utilize farm labor and,  
 if possible, unsalable products in pro-  
 viding food to eat and sell. Some of  
 us are trying to do special crop farm-  
 ing on farms that ought to be used for  
 a great variety of crops.—Rural New  
 Yorker.

## The Population of New York.

The population of the city of New  
 York, according to the census of 1900,  
 was 3,437,202. Of this number 1,270,-  
 000 are foreign born, all but about 50,-  
 000 being natives of Europe. It is a  
 matter of frequent discussion how  
 many New Yorkers were born in New  
 York. The census does not tell that,  
 but its returns do show that 1,802,719  
 of the population of 3,437,202 were  
 born in the state of New York. Deduct-  
 ing the foreign born population and  
 this New York state population, it  
 leaves us only 274,414 citizens who  
 were born in other states than New  
 York. Of the native American citizens  
 of New York six out of every seven  
 were born in New York state. That  
 seems rather a surprising piece of in-  
 formation, for the reason that one sees  
 and hears so much of New Yorkers  
 who come to New York from Connecti-  
 cut, Massachusetts, California, Mary-  
 land, Illinois, Ohio and lately Pennsylv-  
 ania that he gets an impression that  
 the town draws heavily and somewhat  
 impartially from all states. The truth  
 is that it draws aspiring, successful and  
 well to do men from all over the coun-  
 try, but recruits the bulk of its popula-  
 tion either from near at hand or from  
 across the seas. Poorer people don't  
 come great distances to New York to  
 seek their fortunes unless they come in  
 steamers.—Harper's Weekly.

 subscription making a volume of over 600 pages, teeming with all the latest and most  
 reliable information that experience and science can supply. No letter proof of its popu-  
 larity can be offered than its enormous circulation, which extends into every state, each number  
 being read by no less than a million readers.

## THE ART CALENDAR

Combines a portfolio reproducing in color one of the greatest of modern paintings and four  
 other masterpieces in single tone, each 9x13, suitable for framing

It also includes Weather Forecasts for every day in the year, space for Daily Memoranda,  
 Monthly Guide to Work Outdoors and In, When to Buy and Sell, How to Combat All Pests of  
 Home or Farm, Household Hints, Census Returns, Statistics, etc.  
 The Calendar proper comprises 24 pages, 9x13, and is embellished by a beautiful repro-  
 duction in all its original colors of a most charming and famous painting entitled "Writing  
 to Papa," the picture representing a little girl seated at a table with pen in hand and  
 diligently writing her first letter to her fond papa. Four additional masterpieces in single  
 tone are also included, separate from the text of the calendar, each 9x13 inches. The sub-  
 jects are: 1—"A typical old master"—"The Last Supper" by Leonardo da Vinci. 2—"The  
 greatest example of modern architecture"—"The Capitol at Washington." 3—"The finest  
 sculpture of this age"—"Angel with Tablet," by Augustus Saint Gaudens. 4—"The Oracle"  
 by Harry Rowland, a typical American painter.

By a new and novel arrangement the printed pages can be easily turned and thus their  
 valuable contents preserved for reference instead of being torn off and destroyed, as is the  
 case with the ordinary calendar. In short, this work is a combination art portfolio, calendar,  
 almanac, and weather forecasts of the utmost practical value.

Do not delay or fail to take advantage of this great offer, for never before was so much  
 offered for so small a sum. Remember we send both papers a full year, in-  
 cluding the Calendar as above described, all postpaid, at the very low price stated.  
 Address all orders to  
**THE TIMES Jacksonville, Oregon.**
