A FINANCIER'S LUCK

How it Changed when Things Seemed Going from Bad to Worse.

Mr. Charles H. Bradley, the president of the State Investment Co., with offices in the American Trust Building, Cleveland, Ohio, is known in business and social circles throughout Cleveland not only as a person of ability but as a man of sterling integrity. In speaking of his experience, he said:

"It was about three years ago. I was just recovering from a long attack of typhoid fever and my strength was so long in returning that it seemed I would never be a sound, healthy man again. My appetite was poor and my nerves unstrung and the doctor's medicine did not help me at all.

"Things were going from bad to worse when one day I chanced to read a statement of a man who had been cured of trouble similar to mine by the use of Dr. Williams' Pink Pills for Pale People. It encouraged me to try them. By the time I had used the first box I felt a decided improvement and I kept on taking them until I had used six boxes. By that time I was restored to perfect health.

"I consider Dr. Williams' Pink Pills the best remedy made for troubles like mine and am always glad to recommend them."

The after-effects of fevers and other acute diseases are frequently worse than the ailment itself and the utmost care is required during this stage in order that permanent evils do not result. The system is worn out in its long struggle with the disease; the blood is impoverished and the nerves weakened. Vitality is low. The blood needs to be purified and supplied with the elements to build up the wasted tissues, the nerves need a tonic to strengthen them. Dr. Williams' Pink Pills for Pale People will do this as no other medicine will. They are an unfailing specific not only for the after-effects of fevers, of grip and of other acute diseases, but also for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, palpitation of the heart, pale and sallow complexion, and all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all druggists, or will be sent postpaid on receipt of price, fifty cents a box, or six boxes for two dollars and fifty cents, by addressing Dr. Williams' Medicine Co. Schenectady, N. Y.

LATEST DISPATCHES

A BRUTAL DEED.

PORTLAND, Ore., April 30.—The police have a couple of suspects arrested as the result of a brutal assault upon Miss Faith Stewart in the "Bad Lands," Sunday night. The facts did not come to light until Tuesday, at which time the police were informed.

Faith Stewart is a rescue worker among the slums of Portland. While returning home Sunday night from an errand of mercy she was assaulted by five white men, and so brutally beaten that she is in a dying condition. The men are said to be of the class who live off the earnings of fallen women. The brutal deed has aroused the city to such a fever of resentment that there would be a lynching bee in short order were the real culprits discovered. Several arrests have been made, but no positive evidence has been proven against any of them. Many of the tough characters of the slums are leaving town in order not to be mixed up in the affair. It is supposed the assault is the work of those angered because Miss Stewart has rescued a number of fallen girls from the down town dance halls, where they were proving a big source of revenue to their employers.

RELIGIOUS ORDERS AGITATED.

NEW YORK, April 30.—Religious circles in this city are considerably worked up over the declaration of Methodist ministers that there must be a relaxation in church rules so that dancing, card playing, theatre parties, etc., can be enjoyed by members of the churches without being considered wrong. The Methodist ministers in Chicago recently urged that the church rules be modified to include such "harmless amusements" as mentioned. Many Methodist ministers of this city concur with the Chicago ministers, and their declarations have caused a veritable cyclone of contending opinions in religious circles. Some of the more "straight-laced" brethren bitterly denounce such sentiments as worthy of the thoughts of his satanic majesty.

BOER LEADERS SURRENDER.

NEW YORK CITY, April 30.—A London dispatch states that Delarey and three other Boer leaders have surrendered to the British in South Africa.

LONDON, April 30.—A report received here to the effect that Delarey and other Boer leaders have surrendered has caused general rejoicing. It is believed the movement will break the back of the war in South Africa. The war department is awaiting a confirmation of the news.

EUGENE EXCITEMENT.

EUGENE, Ore., April 30.—This place is in a furore of excitement over a rich strike in the Treasure mine on Blue river. A ledge 20 feet wide has been struck, from which ore taken out assayed \$2,000 to the ton. At first the report of the marvelous strike was received as a fake story, but responsible parties claim that it is genuine. It is the talk of the town.

WAS DREYFUS GUILTY?

CHICAGO, Ill., April 30.—A statement was made by H. Leroux, a French lecturer, by the students of the Chicago University yesterday, in which the lecturer claimed Dreyfus had admitted his guilt of conspiracy against the French government at the time he was pardoned. This surprising statement has caused considerable comment in different circles in this city, and the opinion is that the lecturer is seeking notoriety.

AGAINST IMPERIALISM.

NEW YORK CITY, April 30.—The anti-imperialists have started a vigorous fight against the administration. A number of secret meetings have already been held in this city. Carl Schurz is the leader.

THE BEEF TRUST.

WASHINGTON, D. C., April 30.—The Republican ways and means committee has decided to do nothing against the beef trust. The bill is being held up while Knox investigates.

POSTMASTER ARRESTED.

WOODBURN, Ore., April 30.—Postmaster Toozee of this place has been arrested for breaking quarantine. His children were taken with scarlet fever, and after the place was placed under quarantine the postmaster went down town. The officers immediately placed him under arrest.

TURKS WERE DEFEATED.

VIENNA, Austria, April 30.—The Macedonian rebels have defeated the Turks at Kadine, in the province of Macedonia. The fighting was fierce on both sides, the loss being considerable. No quarter was shown on either side.

HUGGED PADERWSKI.

NEW YORK CITY, April 30.—Paderwski, the famous pianist, sailed for Europe this morning. Hundreds of women were at the boat landing to shake hands and wave him a good-bye. One fashionably dressed young woman threw her arms around his neck and was presented from other hysterical demonstrations by the boat guards.

THE "WATER CURE."

The old adage "where there is so much smoke there must be some fire" might be applied to the barbarous cruelties alleged to have been practiced by the American soldiers on the natives in the Philippines. At best war is a cruel game. But no excuse remains for torturing victims with the "water cure," for which General Smith is now being tried. This practice consisted in stretching the victim so that he could not move and then letting water slowly drip upon the end of his nose. Such atrocious methods on the part of people claiming to be civilized must have caused even Satan to shudder with horror. Your soldier from the Philippines will tell you that it is easy enough for an outsider to criticize actions of the soldiers in that country; that to face heat, swamp fever and death in all shapes, to see comrades murdered on picket duty and in other ways by the natives, is enough to make man a demon. There is some truth in what he says, but after making plenty of allowance for the cause of his bitterness it is impossible to excuse such actions on the part of a man wearing the straps of one of the most civilized nations on earth. A brave man can die if need be. Aye, die and honor the country he served; and it were better for him to die by treachery or any other way than to live to dishonor his country by such methods as is alleged to have been practiced in the Philippines.

Placer Miners Busy.

It's an ill wind that blows nobody good. The late spring rains are proving beneficial to placer miners. The extra water supply will cause mining to be carried on much later than usual, and make the summer cleanups that much larger.

You can't make him eat either. You can stuff food into a thin man's stomach but that doesn't make him use it.

Scott's Emulsion can make him use it. How? By making him hungry, of course. Scott's Emulsion makes a thin body hungry all over. Thought a thin body was naturally hungry didn't you? Well it isn't. A thin body is asleep—not working—gone on a strike. It doesn't try to use its food.

Scott's Emulsion wakes it up—puts it to work again making new flesh. That's the way to get fat.
