No. 20

A STRANGE ACCIDENT LATEST DISPATCHES

Fall From a Horse Results in Paralysis.

While Mr. L. J. Davis, of Manistee, Mich., was riding his horse near the railroad, the animal was frightened at a passing train and became unmanageable. The horse plunged and, although Mr. Davis is a good rider, the movement was so quick and unexpected that he was thrown from his saddle and struck the pavement with his head and shoulders. He was picked up unconscious and it was at first thought his neck had been broken; but an examination revealed that this was not the case. When he came to his senses he was found partially paralyzed.

In telling the story, Mr. Davis said to the reporter of the Manistee Times: "It was three days and nights after the accident before I came to know anyone, and then I found my left side was paralyzed. I could not move even a finger or toe on my left side and my left eye was affected. A doctor treated me for three months after I was hurt but I got no better. After this had gone on for a couple of years I saw an account in a paper of how a man was cured of creeping paralysis by Dr. Williams' Pink Pills for Pale People, and I thought perhaps they would help me. And they did. I began to get better immediately and kept taking them till I was cured. I am doing my work now without difficulty and recommend Dr. Williams' Pink Pills for Pale People to every one whom I hear complain."

Mr. Davis is a marine engineer on the tug Stevens and, although the accident took place eleven years ago, he has not had a touch of the complaint since his marvelous cure by Dr. Williams' Pink Pills for Pale People.

It is a reasonable claim that if Dr. Williams' Pink Pills for Pale People will cure severe cases of this nature they will readily accomplish as good results in lesser afflictions of the nerves. That this is so is substantiated by statements from thousands of people who have been cured by them. They are a positive specific for all diseases arising from a damaged nervous system or poor blood. Dr. Williams' Pink Pills for Pale People are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box; six boxes for two dollars and fifty cents, by addressing Dr. Williams' Medical Company, Schuylkill, N. Y.

VOLCANOES ARE ACTIVE.

St. THOMAS, D. W. I., May 10.—A river of fire has covered St. Pierre, a town of 20,000 people, on the island of Martinique, one of the group of the French West Indies, and only about 20 people escaped with their lives. All of the others were buried under tons of molten lava, consisting of an overflow from an active volcano. Most of the shipping in the harbor was also destroyed. Volcanoes on adjoining islands are also active, and considerable loss of life is reported. Ships passing recently in sight of Martinique report that a dark shadow of ashes still hovers over the island, obscuring even the light of the sun. For some weeks past the underground fires have been growing in an alarming manner, but not even the most timid feared such a terrible catastrophe. The tidal wave of lava descended upon the city in the early morning with such swiftness that thousands were probably buried before they had time to realize their danger. The survivors were rescued by a French ship.

NEW YORK, May 10.—The French Cable Company steamer line has saved 450 people from St. Pierre, who managed to escape to places of safety in the harbor. They tell harrowing tales of their escapes, and of many of the people who now lie buried in the City of the Dead.

Volcanic eruptions continue, and the British West Isles are in great danger. Congress has voted \$100,000 for the sufferers. The whole civilized world is shocked at the sudden and terrible fate of those who perished in the ruins of the city.

CHUNKS OF GOLD.

MANILA, P. I., May 14.—An American prospector has caused considerable excitement here by exhibiting a lot of coarse gold and several nuggets. He would not tell where he found them, but he had the appearance of a man who had had a hard experience.

It has been known for a long time that gold existed in the Philippines, for the Spanish bartered with the natives for it in early days. There will be a swarm of prospectors to the mountains just as soon as the country becomes more settled. To penetrate the wilderness at the present time is as much as a man's life is worth, not alone from the natives but deadly reptiles and other things found in tropical countries.

ANOTHER LAND RUSH.

POCATELLO, Idaho, May 14.—Already there are a number of prospective settlers gathering at this place to take advantage and make a run on the Fort Hall Indian reservation when it is thrown open for settlement, July 17. The opening involves 400,000 acres ceded to the government by the Shoshone and Bannock Indians. All of the land within seven miles of Pocatello will be sold at public auction. Some of it is available for town property, and there is apt to be considerable rivalry at the sale.

GAS FAMINE.

WASHINGTON, D. C., May 14.—Through congressmen the Department of Agriculture has distributed several thousands of pounds of seed to consumers all over the United States. Twice as many seeds were sent out this year than during former years. These sample seeds are grown upon the United States experimental farms in various parts of the Union.

GENERAL SMITH'S CASE.

WASHINGTON, D. C., May 14.—The court findings in the case of General Jacob Smith, the man who gave orders to make "Samar a howling wilderness and kill all males over 10 years old," will be announced in a day or so, according to information given out by the war department. The order of General Smith has stirred up no end of controversy, many papers bitterly denouncing his action as cruel and inhuman, while others hold that it was the only way in which the war could be ended.

CITY OF DEAD PEOPLE.

FORT DE FRANCE, May 14.—The work of taking out the dead in the city of St. Pierre continues, although the workers are forced to seek relief often from the terrible stench that arises from the dead bodies. An American war ship has touched here to-day on its way to offer what assistance is in its power.

Some of the supplies contributed by other countries have arrived and are being distributed among the starving survivors. A great cloud, like a black mourning pall, still hangs over the island. The heat is intense and the unhealthy season is at hand to add to the distress of every one on the islands.

LONDON, England, May 14.—The disaster is much worse than first reported on the French West India Islands. The dead will reach 2,000. The eruption continues, but is moderating.

WASHINGTON, D. C. May 14.—American vessels have been dispatched to St. Pierre to give general relief and help bury the dead.

OREGON HONORED.

WASHINGTON, D. C., May 14.—Oregon has been awarded 14 gold medals, five silver, 17 bronze and 82 honorable mentions at the Charleston Fair.

SOUTHERN OREGON NEWS

A BRIEF RESUME OF HAPPENINGS AND PROGNOSTICATIONS OF INTEREST.

Travel north is so heavy that passenger trains often come in two sections.

Dr. B. R. Freeland, who has been at Ashland, returned to Portland Sunday.

The Eagle Point Sunday school will hold a picnic June 5th. It is in a flourishing condition.

Fayne Strahan Moore has been granted a divorce from her convicted husband by a South Dakota court.

A party of 50 Norwegians have arrived at Klamath Falls, near which place they have bought a large body of land.

Subscriptions for Mr. Bry an's paper The Commoner, the leading Democratic newspaper in the United States are taken at THE TIMES OFFICE.

The county clerk has issued a license for matrimony to J. E. T. Wilson and Rose Souk, also to Henry Schafer and Clara Perry.

For sale: 225 feet of 4-inch pipe, 12 inch taper, 2 elbows, No. 1 giant, with nozzles. All in good order and used but little. Enquire at THE TIMES OFFICE.

President Clayton of the Southern Oregon Normal School has been called to Ohio by the serious illness of his daughter. He will be back as soon as her danger is past.

G. W. Mackey has reopened the Medford Photo Gallery in Adkins' building, C street, opposite Jackson County Bank. Up-to-date work and reasonable prices.

The case of J. G. Mack, commissioner of Multnomah county, who sued the Oregonian for damages in the sum of \$50,000, very properly returned a verdict for the defendant.

It seems that all danger to fruit from frost is past, and the prospects for the most bountiful fruit crop Southern Oregon has ever known are flattering. The trees are loaded.

The wife of Conductor Blew, who underwent an operation at a Portland hospital recently, is convalescing. She will be able to return to her home at Roseburg this week.

On Tuesday evening this week the names of 3600 voters who had registered for the June election were recorded in the Jackson county clerk's office. The registration will probably reach 4000.

If you want the latest in furniture, call at Norris' shop in Jacksonville and see one of his folding Davenport. They are superior to anything in that line. Everybody should have one.

Ashland has a city ordinance prohibiting the sale of liquor; yet it seems impossible to enforce it. Brad Radcliff was arrested for violating it, but the jury juries empaneled were unable to agree on a verdict and the case was dismissed.

When in Medford ask for Myers, the popular jeweler. His stock of goods cannot be beaten in Southern Oregon, if equaled. He sells and repairs diamonds, jewelry, watches and clocks, cheaper and better than anyone else.

The U. S. Senate has passed Senator Mitchell's bill ratifying the agreement with the Klamath Indians, under which they cede to the United States the disputed portion of their reservation, aggregating 621,824 acres, for which they are to be paid \$537,007, something over 85 cents per acre.

It had been supposed that John Rueck, the venerable miner, who died in Willow Springs district a few months ago, was possessed of considerable wealth, as he had been a miner in that vicinity for more than 40 years and when it was one of the richest camps on the coast. An industrious search has been instituted by the administrator of his estate, but it has proven fruitless.

The Ashland C. E. Union is preparing for the coming State Convention, which will be held in that place June 20th to 23d, inclusive. The convention will bring over of the largest delegations of visitors ever brought together there at one time. The state officials estimate the number of delegates from points north and east of Eugene from 100 to 200. A rate of \$8 for the roundtrip from Portland has been made.

Dr. B. R. Freeland, a dentist who has practiced considerably in Southern Oregon, has sued the City and Suburban Railway Co. of Portland for \$5000 damages. According to the allegations in the complaint, the corner of Grand avenue and East Morrison street has been a regular stopping place for the cars, and on March 28, 1902, Freeland, desiring to go to Mount Tabor, was about to get on a car at this point when the motor-man negligently turned on the power without any previous warning, the car was started and Freeland was precipitated violently to the ground, striking his head and back. He avers that his nervous system was shocked, his left hand lacerated, and that since then he has been unable to practice his profession.

Health is Wealth.

Every variety of water treatment, massage, electricity, X-ray manual movements, rest cure, etc.; skilled nurses and manipulators of both sexes; elegant treatment rooms; beautiful location, quiet, every room and department steam-heated. Garden City Sanitarium, E. San Jose, Cal Write for descriptive circular.

JOSEPHINE COUNTY ITEMS.

Some Matters of Interest Concerning our Neighbors.

Mr. and Mrs. D. H. Stovall are visiting in Portland.

H. H. McClung has returned from a trip to Trinity county, Calif.

Mrs. L. M. Pike has been visiting her mother, Mrs. Dora Connor of Ashland.

W. F. Horn, who has been at Denver, Col., for sometime, on mining business, has returned.

Shrader, the so-called "divine healer," is infesting Grant's Pass. He should be let severely alone.

T. Hannum of Great Bend, Kansas, who is the guest of his brother, W. M. Hannum, while at a hotel in Grant's Pass Sunday, fell from an elevation and broke his arm.

When you are in Grant's Pass don't fail to call on Henry Walter, the clever proprietor of the Oregon. He keeps an up-to-date resort, supplied with fine liquid refreshments, and will treat you well.

The Republican candidate for county judge of Josephine is a successful business man, against whom nothing can be said. He is a member of the firm of Williams Bros., who have been prominent in the development of Grant's Pass and Josephine county.

One of the best qualified and worthiest candidates before the people of Josephine county is W. H. Fallin, who aspires to the office of assessor of Josephine county. He was deputy sheriff under J. G. Hiatt for four years, and filled the position with ability and to the satisfaction of all. Mr. Fallin has had other places of responsibility, and always discharged his trust ably and faithfully.

It is reported that the actual survey of the proposed Oregon and Pacific railroad, which Capt. Draper and his colleagues propose to build between Grant's Pass and Crescent city, has begun; at least surveyors and engineers have already arrived and started work. It is to be hoped that the enterprise will fully materialize, as it will prove of great benefit to not only Josephine county but the whole of Southern Oregon.

MINES OF SOUTHERN OREGON; ALSO ELSEWHERE

Latest Reports From One of Our Chief Industries.

J. D. Graham has sold his mine, situated near Gold Hill, to E. M. Walbank of Siskiyou county, Calif. It has been a good producer.

Wm. Fox and George F. Fendall brought to Ashland this week some samples of fine ore from the old Patterson mine, located near Cole's, Calif., which they are developing. They feel much encouraged over the prospects.

It has been reported that a rich strike has been made in S-rdine creek district, adjoining the Lucky Bart mines, by J. N. Hays. At a depth of 15 feet the vein shows 12 inches of free milling ore, assaying \$25 per ton.

A late dispatch from Grant's Pass says that a large smelter and complete plant for mining and treating copper ore has been received at Grant's Pass for the Sowell copper mines at Waldo, and will be set up and put in operation at once. The Sowell copper mines are in the same district in which the noted properties of Colonel Draper are located. These mines were purchased of Sowell Bros. by an Eastern syndicate known as the Mountain Copper Company. It was reported that the price paid was \$75,000. Since taking possession the Mountain Copper Company has extensively developed the mines and thoroughly opened them up. Much tunneling and sinking has been done, the main shafts penetrating the mountain to a depth of several hundred feet. A vast body of high-grade copper ore has been uncovered, and the owners are fully convinced that they will have one of the best and leading copper producers of the West. Feeling confident of their property, they have gone ahead and are putting in a smelter, that the mines may be worked on the extensive scale they justify. The Sowell mines are another of the Waldo copper properties that make the building of a railroad from that district an absolute necessity.

The S. F. Bulletin of Saturday last

contains a photograph of Miss Sophia Muller of Jacksonville, a young lady well and favorably known, followed by the annexed paragraph dated Oakland, May 10th: "Word has been received from Portland through relatives that Miss Sophia Muller, formerly of this city, has been forced to relinquish her musical studies and a tour she had planned because of the serious illness of her father, Max Muller, County Treasurer of Jackson county. Miss Muller was one of the best-known singers of this city, and the announcement that she had given up her studies has caused much regret. Mr. Muller, who is also known in this city, and is prominent in Portland because of the political position he holds, has been very ill, and his beautiful daughter would be in no place but at his bedside. Miss Muller resided in this city for several years, during which time she sang at many prominent recitals and concerts. She possesses a remarkably powerful and rich soprano voice, and is a young lady of very gracious manners. Miss Muller was known socially to a large number of people. When she left this city for Portland a short time ago she fully intended making a tour of the Northwest States if possible and returning to Oakland for the next year; but her father's illness has forced her to give up her musical aspirations."

REAL ESTATE TRANSFERS.

The following deeds have been recorded in the office of the county recorder since our last issue: United States to W. M. Elliott, patent to 100 acres in twp. 28, s. 2, w. 4. Narcissa Colvin to G. E. Neuber et al, parcel of land on F street, block 38, Jacksonville, 85. Heirs of Richard Harrgrave to Mary E. Gray, 10 acres in d. l. c. No. 67, twp. 38, s. 1, w. 81. Peter Redlinger to Paul Fehler, 4 1/2 acres in d. l. c. No. 99, twp. 27, s. 2, w. 4. George N. Anderson to George Irwin, 7 1/2 acres in Helman's d. l. c. Gray to C. C. Pearson, n. e. 1/4 of n. w. 1/4 of sec. 13, twp. 35, s. 1, e. 22. C. C. Pearson to Ralph E. Gray; same property, \$100. Robt. A. Gray to William R. Lamb, 10 acres in d. l. c. No. 67, twp. 38, s. 1, w. 81.

MINING LOCATIONS.

G. H. Corona mining claim, Meadows district May 8, 1902. D. R. Andrus and J. A. Smith, mining claim, Gail's creek district; May 6, 1902. W. F. and L. W. Wright and E. Shafer, mining claim, Applegate district; May 3, 1902. Louis Brownworth gives notice of location of licks and water right in Piesack creek mining district; April 28, 1902. J. N. Matney, S. E. Strickland and H. D. Norton, Mountain View lode, Applegate district; May 7, 1902.

RAILROAD DEED.

O. & C. R. R. and U. T. Co. to J. E. Davidson, 80 acres in section 25, township 38, s. 1, w. 4, w. M.; \$200.

MINING TRANSFERS.

J. W. Odgers to G. A. Gregory, 3 1/2 int. in quartz mines Prospect and Homestead, in section 12, township, s. 1, w. 81. J. E. Shearer to Caroline Shearer, 1/2 interest in Steamboat quartz lode, Jackson county; \$1. W. W. Christie to W. C. Wyman, 1/4 interest in the Houck & Curtis placer claims in Evans creek district; \$1.

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man woman and child.

If you have not tried it, send for free sample. Its agreeable taste will surprise you. SCOTT & BOWNE, chemists, 409-415 Pearl Street, New York. 50c. and \$1.00. all druggists.

Corn Ground and Summer Fallow Next

The Snowy Butte Shops

Central Point,

Are prepared to make a new lag, GUARANTEED TO RUN TRUE, on short notice, and would suggest that it is a good time to overhaul the plows and get ready for business. Our new foreman, Mr. Swanson, is proving to be just a little better than any other smith in the county on plow and wagon work.

A Trial Will Convince You.
