A PINK BOOKLET

And What Came from One Woman's Reading It.

A woman in Rome, N. Y., Mrs. W. T. Clark, was cured of stomach trouble and nervousness by a certain medicine and gave the manufacturers permission to use her statement recommending the preparation. This was published in a booklet and thrown around at the doors.

Now Mrs. William Metot, also of Rome, was ailing, and, happening to read the book, came across the description of Mrs. Clark's case. In some respects their symptoms were similar, so she went to Mrs. Clark's house at No. 818 West Thomas street, and asked her about it. Mrs. Metot tells the story as follows: "I had been miserable for a long time, suffering with the troubles which come with the turn of life. It made me sick to my stomach, I had smothering spells every once in a while and, if I walked any distance, my limbs felt like sticks. My head felt just as if I was going to be crazy and with it all I was afflicted with nervousness and heart trouble. I felt so bad that I did not see anything to live for.

"I went to a doctor but he didn't do me much good and so I was pretty well discouraged. Then I saw in a booklet that was thrown around, how Mrs. Clark was cured. I went to see her and upon her recommendation I went that very day and got some of Dr. Williams' Pink Pills for Pale People.

"I felt better before the first box was all taken and continued using them until I was well. My husband is sick and is going to take them and so in my sister, I have recommended Dr. Williams' Pink Pills for Pale People to many people and will continue to do so for I know what they will do for my own experience."

Mrs. Metot lives at No. 426 W. Bloomfield street, Rome, N. Y. Her statement is another proof of the well known popularity of Dr. Williams' Pink Pills for Pale People. Among the many diseases they have cured are locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion, and all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box; or six boxes for two dollars and a half, by addressing Dr. Williams Medicine Co., Schenectady, N. Y.

JOSEPH M. RADER

Has All of the Qualities for the Office of Sheriff.

Genial, obliging and honest, there is no more popular candidate than Joseph M. Rader, nominee for sheriff on the Democratic ticket. He is a native son and well known to the people of Southern Oregon, having been born on the family homestead near Eagle Point, of pioneer stock, about 35 years ago. He has a commanding presence, is cool and firm in time of danger, and has all of the other qualities which serve to make a good sheriff. The people will make no mistake in giving him the office. He did not ask for the nomination, but his friends urged him to accept it for party reasons, and because he had all of the qualifications to faithfully perform the duties of such an office. The Rader family is known for its integrity in business matters, its hospitality and kindly neighborliness. Joe shares these qualities. He was educated in the public schools of this county, and has pursued the cattle business, he and his brother being among the leading stock-growers of Jackson county. No man stands higher among his business associates than he does. His native good sense can be relied upon in every issue in case he is elected.

JOSEPHINE COUNTY ITEMS.

Some Matters of Interest Concerning our Neighbors.

Mrs. W. R. Nipper's parents arrived from Texas a few days since, on a visit. Mr. and Mrs. D. S. Cook are being visited by their daughter, Mrs. Ray Carlon.

Rev. Mr. Ross is being visited by his brother, J. R. Rosser, of Birmingham, Ala.

Col. Wain-Morison Draper has arrived from San Francisco, accompanied by his son and daughter.

Jas. T. Logan, foreman of the Simmons-Cameron mines, had one of his feet badly cut one day last week.

E. M. Albright, who is interested in some of the best copper mines in Josephine county, was in Grant's Pass a few days ago.

The people of Josephine county will vote on the proposition of a high school, allowing hops to run at large, at the ensuing election.

Senator Mitchell's bill for an U. S. assay office at Portland has been favorably reported by the Senate, and the prospects for its passage are favorable.

John Galvin is paying relatives and friends living in Grant's Pass a visit. He has been engaged in newspaper work at San Francisco since living here.

The engineers of the proposed Oregon Pacific R. R. have finished the preliminary surveys in about Grant's Pass, and will soon transfer their operations to Waldo, surveying this way.

W. H. Fallin is one of the very best men in the county for the position he aspires to. He has been tried in official positions before and has always given satisfaction. If elected he will make a first-class assessor.

The slanders being peddled about Hon. J. O. Booth are simply campaign lies, without any foundation in fact. He is one of our best, most successful and enterprising citizens, and will make a county judge everybody will be proud of.

Geo. S. Calhoun, who is traveling for a wholesale grocery company, at Ashland last Friday, was compelled to go to San Francisco for surgical treatment. He struck himself in the groin with his sample case, while at Los Angeles a few weeks ago, and became worse when he reached Oregon.

Like a Drowning Man.

"Five years ago a disease the doctors called dyspepsia took such hold of me that I could scarcely go," writes Geo. S. Marsh, well-known attorney of Newport, Ore. "I took quantities of pepsin and other medicines, but nothing helped me. As a drowning man grabs at a straw I grabbed at Kodol. I felt an improvement at once, and after a few bottles am sound and well." Kodol is the only preparation which exactly reproduces the natural digestive juices, and consequently is the only one which digests any food and cures any form of stomach trouble. City Drug Store, Jacksonville, and Dr. J. Hinkle, Central Point.

Strikes a Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. G. Green of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run-down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by City Drug Store.

LATEST DISPATCHES

PELEE AGAIN SPOUTING.

FORT DE FRANCE, May 28.—The entire northern end of the island of Martinique is deserted. As a result of Monday's eruption none of those who remained on Mone Rouge escaped. The mountain is still in a state of active eruption. Rivers of lava boil down its sides and plunge into the sea with a hiss and a roar that can be heard for miles. The terror-stricken inhabitants have but one prayer, and that is to get as far away from the scene as possible—they care not where. Most of them are in a pitiful condition. Several people have been executed for looting and robbing the helpless.

STRIKE MORE COMPLICATED.

PORTLAND, Ore., May 28.—The strike situation here is more complicated than ever. The master builders refuse to resume operations because the unions demand that the material used by them bear the stamp of the union. This is in line with the boycott of the unions against the mills. The result is that all kind of building is tied up tighter than ever. One hundred carpenters, plumbers and glaziers are idle. The builders are trying to compel unions to accept material from the unfair mills.

THE OHIO PLATFORM.

CLEVELAND, Ohio, May 28.—The first plank adopted by the Ohio state republican party, in its second day's session today, was a tribute to President McKinley. The convention further commands the re-enactment of the Chinese exclusion act, favors the Isthmian canal, denounces trusts, favors reciprocity in Cuba, and indorses the administration in its philippine policy. Congressman Grosvenor was unanimously chosen chairman. This convention, in a sense, shows what the national platform of the republican will be.

ELECTRICAL TRANSPORTATION.

NEW YORK, May 28.—Thos. A. Edison's electric transportation problem is solved. A successful experiment was made this morning. It will be the means of greatly increasing the speed of vessels. The inventor has been working on the plan for some time.

JOHN S. ORTH

A Native of Jackson County who will Make a Good County Clerk.

Another native son whose clean-cut career will tell largely in his favor when the votes are counted is John S. Orth, a native of Jacksonville, who, at the earnest solicitation of friends, consented to run for county clerk on the Democratic ticket. Not only is he genial and competent, but he has sterling business qualities, a firm character and a knowledge of human nature, all of which make him well fitted to fill the position.

Mr. Orth was born October 9, 1872, and is therefore 29 years of age. His father, the late John Orth, was a butcher by trade, and one of the leading business men of Jacksonville. Upon his death John, then a mere boy, took charge of the business, and by careful management has continued to conduct it upon a good paying basis, and today is regarded as one of the solid and successful men of the county. He is a young man of correct social and business habits, of fine native ability, superior judgment, and has a good practical education, supplemented by a wide and critical knowledge of business. He has never sought office. Mr. Orth is a man of clean and sturdy character, which invites confidence. As county clerk he would be an efficient and pleasant official, and would early establish a kindly relation between himself and those having business at the county seat.

Our Locomotives the Best.

The ten locomotives recently sent to France have been found very satisfactory, and as this number is only the first shipment of an order for fifty of them, it shows that foreign people appreciate the value of American products that has become very prominent during the past fifty years, and that is Hostetter's Stomach Bitters, the standard medicine for stomach, liver and bowel complaints. Many people who have experimented for years with unknown remedies without finding relief have been brought back to health by its use. Then this is surely the medicine for you. It will cure dyspepsia, indigestion, constipation, flatulency and malacia, fever and ague. We urge you to try it. Our private stamp is over the neck of the bottle.

LANE PROPERTY BONDED

For \$10,000 by a Montana Expert this Week.

It is reported that the mining claim on Sardine creek, near Gold Hill, controlled by G. W. Lane, has been bonded by Montana capitalists for \$10,000. The deal, it is claimed, was consummated this week. During the past few days an expert, formerly in the employ of Marcus Daly, has been quietly looking over the district, and after examining the Lane property took a bond in the interest of his employers.

How To Gain Flesh

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Somewhat the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking

Bright's Disease.

The largest sum ever paid for a prescription changed hands in San Francisco Aug. 30, 1901. The transfer involved in coin and stock \$112,500 and was paid by a party of business men for a specific for Bright's Disease and Diabetes hitherto incurable diseases.

They commenced the serious investigation of the specific Nov. 15, 1900. They interviewed scores of the cured and tried it out on its merits by putting over three dozen cases on the treatment and watching them. They also got physicians to name chronic, incurable cases, and administered it with the physician or judges. Up to Aug. 25 eighty-seven per cent. of the test cases were either well or progressing favorably.

There being but thirteen per cent. of failures, the parties were satisfied and closed the transaction. The proceedings of the investigating committee and the clinical reports of the test cases were published and will be mailed free on application. Address JOHN J. FURLOW CO.
