

DECEMBER THIRD

A Date that Will Never be Forgotten by One Woman.

"I will never forget the third day of December, 1897, as long as I live," said Mrs. H. A. Fletcher, of No. 232 West Hancock street, Manchester, N. H., to a reporter recently.

"For on that day," she continued, "I received a shock of an apopleptic character. It was so severe that the sight of my right eye was affected, causing me to see objects double. I was confined to my bed about four weeks, at one time being told by the doctor that I could not get well. When I could leave my bed I was in such a nervous state that I could not sleep at night. I would get up and sit on a chair until completely tired out and then go back to bed and sleep from exhaustion."

"Nothing seemed to help you?" ventured the reporter.

"Nothing that the doctor gave me did much good," replied she. "After being under his care for six weeks and not seeing any improvement, I gave up hope until my sister, Mrs. Loveland, of Everett, persuaded me to try Dr. Williams' Pink Pills for Pale People. I began taking them with the result that I experienced relief the second day. The first night after taking the pills I lay awake only a short time and the second night I rested well. From that time I slept well every night and soon got well and strong."

"My niece has taken these pills for weak nerves and poor blood and found them very beneficial."

In order that there could be no doubt as to the genuineness of her statement Mrs. Fletcher made affidavit to it before William W. Forbes, a notary public, at Manchester on July 25, 1901.

Dr. Williams' Pink Pills for Pale People will not only effect a cure in cases similar to the one above but, acting directly on the blood and nerves, are an unfailing specific for such diseases as partial paralysis, St. Vitus' dance, sciatica, neuralgia, nervous headache, after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness in either male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price, fifty cents a box, or six boxes for two dollars and fifty cents, by addressing Dr. Williams' Medicine Company, Schenectady, N. Y.

LATEST DISPATCHES

THE LATEST FROM TRACY.

SALEM, July 29.—Word has been received that Tracy, the will-o'-the-wisp, has again been located in the vicinity of Seattle, and Warden T. J. Jones left today for the Sound to join Sheriff Cadine, who recently abandoned an open hunt but at the same time is carrying on a still one that promises to lead to the ending of Tracy's career.

MORE CORONATION TROUBLES.

LONDON, July 29.—Admission tickets are again being issued for the postponed coronation ceremony in Westminster Abbey; but owing to the uncertainty of the date, occasioned by the continued ill health of King Edward, there is a decided lack of interest in the great event.

Coronation seats cannot be sold even at reduced prices, there being a steadily increasing feeling of uneasiness respecting the King's condition, cables the London correspondent of the Tribune. Outwardly there is every indication that the coronation will occur in a fortnight. Medical bulletins are favorable, rehearsals are in progress, proclamations have been posted; the process of re-decorating the approaches to the Abbey have been resumed and preparations are making for the naval review; but, notwithstanding all these signs of optimism, there are persistent reports that the coronation will be deferred a second time.

DESTRUCTIVE KANSAS STORM.

LARIMORE, Kan., July 29.—A terrific wind and hail storm swept over this section today, doing an immense amount of damage to crops. Not less than 15,000 acres of grain was beaten into the ground and will be a total loss.

NOTED JEWISH RABBI DEAD.

NEW YORK, July 29.—Chief Rabbi Joseph Bear, the recognized leader of the orthodox Jews in America died, today from the effects of a blood clot in the brain. Rabbi Bear was a profound scholar, being specially well versed in the ancient civil and religious history of the Jewish people, and he was a pulpit orator of national prominence.

LABOR TROUBLES.

ST. PETERSBURG, Russia, July 29.—Labor troubles have again broken out in city in greater intensity than ever, and 4,000 more workmen have gone out on a strike. Police and military discipline is so strict that no disorder has taken place, though angry crowds gather from time to time on the streets and serious trouble may occur at any time.

TRYING TO SQUARE THEMSELVES.

SAN FRANCISCO, July 29.—Mayor Schmitz refuses to act as referee or to listen to any evidence in the matter of the alleged fake Jeffries-Fitzsimmons fight, though requested by both pugilists. He says he has no time for such things. From the evidence before him he is inclined to think the fight ended as per agreement between the men; but says it is for the pugilists to convince the public or the Examiner, which made the charge, that the fight was square, as it is not his business to do such things.

Both Fitzsimmons and Jeffries profess to be highly indignant at the stand taken by the Examiner and say there is no evidence of fraud—that the contest ended in the eighth round because Fitz was put out fairly and squarely and there was no collusion whatever.

AN INLAND EARTHQUAKE.

OMAHA, July 29.—Reports today from Northern and Western Nebraska indicate that yesterday's earthquake was more general than at first reported, and quite severe in some places. At Oakdale buildings were shaken perceptibly, and at Battle Creek the disturbance lasted half a minute. Tilden, Norfolk, Creighton, Plainview, Pierce and Neligh report shocks lasting 20 seconds, and at Elgin three distinct quakes were felt.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, 455 North Second St., New York, N. Y. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

A PORTLAND PARTY

En Route to Crater Lake—Prof. Johnson is With Them.

A party consisting of A. H. Shogren, Miss Shogren, Miss Annie Shogren and E. T. Case of Portland, under the management of Prof. A. J. Johnson of Astoria, arrived in Medford Tuesday morning, and after outfitting left Wednesday for a 10-days trip to Crater Lake, John Woolf with two teams furnishing transportation. Prof. Johnson is a forestry expert, and is connected with the Department of Agriculture in Washington. His work on this trip will be to look over the forests about Mt. Mazama, to ascertain whether there will be a crop of tree seeds this fall or not, for many kinds of forest trees do not bear seed every year.

Prof. Johnson gathers seeds each year for the Agricultural Department, the principal varieties being conifers, and medicinal trees and shrubs. He also supplies seeds to various foreign governments, among them being England, France, Spain, Germany, Austria, Italy, Belgium, Holland and Sweden. He has already sent many seeds to Japan and Australia, and this year he has Chili on his list, that country having lately taken up forestry work. Prof. Johnson has done more than any other man on this coast to bring the timber resources of Oregon and its matchless quality of lumber to the attention of the Eastern people, for he has been the moving spirit in getting together the complete collections of Oregon timber which were exhibited at the Chicago World's Fair, the Omaha, Buffalo and Charleston expositions, besides for the Portland and other lesser fairs; also being in charge of the Oregon timber exhibit at each of them, and by his explanation and talks made his exhibit a place of much importance to visitors.

Prof. Johnson has made a survey of many townships of timber land in Oregon for the Department. He states that one-eighth of Oregon's timber has been swept away by fire, set by hunters, stockmen and settlers.

A First-class Educational Institution.

The Southern Oregon State Normal School is making thorough preparation for the coming year's work. The buildings are being remodeled and repaired, and extensive additions to the chemical and physical departments are being made. The faculty is composed of strong teachers consecrated to the work, and each department is in the hands of a specialist.

A year's course in Latin and in Economics has been added to further prepare teachers for high school work. The training department will be especially strong. A man of splendid education and wide experience will be at the head of this department. Much attention will be given to oratory, and athletics will be made prominent.

The citizens of Ashland have guaranteed some \$200 as prizes for excellence in these lines. The City Library of 2000 volumes is thrown open to students of the institution. Board and lodging can be had at from \$2.50 per week to \$4.00. Climate healthy. Course of study practical and exhaustive. For catalogue of announcements, write B. F.
