HAPPILY SURPRISED

A CLEVELAND GIRL'S UNEXPECTED GOOD FORTUNE.

How She Was Made Happy After Weeks During Which Her Life Was Despaired of.

"I had lost hope and so had my family," said Miss Flora Hanna, of No. 34 Euclid avenue, Cleveland, Ohio. "Two years ago," she continued, "I suffered from a severe attack of typhoid fever. For three weeks my life was despaired of and finally when the fever left me I was so weak that it was months before I could sit up in a chair. The ravages of the fever left me a physical wreck. My blood was impoverished and I looked like a corpse. I had not the slightest inclination for food, in fact the thought of eating filled me with disgust. I was listless and tired. The tonic prescribed by my physician did not strengthen me."

"I had often heard of Dr. Williams' Pink Pills for Pale People and concluded I would give them a trial. At first the pills did not seem to do me much good and I became discouraged but determined to persevere, thinking if they did not do me any good they would do no harm. But I was happily surprised, as I had scarcely finished taking the first box when I began to improve. I continued until I had taken five boxes. My strength gradually came back and my appetite returned and I was a well girl again. I am positive that it was Dr. Williams' Pink Pills which effected my complete restoration to health. I have recommended them to my friends and those who gave them a fair trial have always been satisfied with results. A persistent use of this remedy will ensure a good complexion, bright eyes and red lips. I know this from experience."

Dr. Williams' Pink Pills have a double action—on the blood and on the nerves. It is not claimed that these pills are a cure-all, but the very nature of the remedy makes it efficacious in a wider range of diseases than any other. It is a scientific preparation designed to cure disease through a direct action on the blood and nerves. Impoverished blood and badly fed nerves are the cause of nearly every ailment that effects mankind.

Dr. Williams' Pink Pills for Pale People are sold by all druggists and will be sent postpaid on receipt of price, fifty cents per box or six boxes for two dollars and a half, by addressing Dr. Williams Medicine Co., Schenectady, N. Y.

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic. I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial, but gradually grew worse until I could hardly hear, taste or smell. I concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." EUGENE FORBES, Lebanon, Kan.

Hood's Sarsaparilla
Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.

Southern Oregon Mines

The Chas. Bachelor's placer claim, located in Sardinia creek district, has been sold to Mr. Ketchum, formerly connected with the Black Channel mine, who is fitting it up on an extensive scale.

A \$30 nugget was picked up not long since in the Pearce placers, located in Poorman's creek district, three miles south of Jacksonville. There has been in progress during the past summer in those mines. Besides moving dirt, the owners of the property were having them in shape for larger and better work. The old channel, which has never been accurately located, has been found, and work can be followed in a more systematic way in the future.

Since the starting up of their smelter a short time ago the Sowell copper mines, situated in Waldo district, Josephine county, have shipped several tons of copper. These are the property of Sowell Bros. They have several teams on the road hauling the smelted product to Grant's Pass, from where it is shipped to San Francisco. The richness and extent of the ore body uncovered, and the success being met in mining the ledges, have led the owners of the Sowell mines to feel justified in putting in a larger smelter.

J. M. Clark, now of Portland, has purchased the Booth-Dysett hydraulic placer mines, in the Jump-off-Joe district, and the adjoining farms of Pollock and Davis, in northern Josephine county. The consideration for the farms and placers is \$25,000 cash. Mr. Clark is a brother of Senator Clark of Montana, and was formerly a resident of Butte; but has now become extensively interested in Oregon mining properties. The property just purchased in Josephine county includes 777 acres, and comprises some of the richest placer ground in Southern Oregon. It is the intention of Mr. Clark to equip his newly acquired placer fields in such a way as to make them one of the largest hydraulic mining properties in this section of the state.

The Stockton, Calif., U. S. Land Office recently made a decision in a contest for a quartz patent on land already patented as a placer mine, deciding against the quartz claimant on the fact that the quartz ledge claimed was not known to exist at the time the placer patent was granted. The patent to the land in dispute was decided as vested absolutely by the placer patent in 1874. The quartz claimant did not initiate a contest until 1898. The first issue raised in the case, the fact of a hearing to determine the right, was decided on appeal, both by the commissioner and the secretary of the interior, favorable to the quartz claimant. Placer patents are, therefore, clearly regarded as subject to review and voidable if they properly include lode deposits of minable value known at the date of application for the patent, regardless of the interval of the time that may have elapsed since the issuance of the patent. It would seem that lodes known to be valuable at the time of application for patent are subject to location at any time, and controlled as to ownership and use by the mining statutes just exactly as if they were unpatented public land.

The Golden Drift Mining Co., which is building the big power dam across Rogue river, three miles above Grant's Pass, are now putting in the immense gates and digging out the race and bays for the reception of 12 turbine wheels. The dam itself is built completely across the river, and all that remains to finish its construction is to build it up to the required height, giving a 20-foot fall to the water. The twelve turbines will develop 5000 horse-power. This is 2000 horse-power more than the company at first intended to develop; but with the call that is already being offered for water and power, and for the purpose of satisfying the growing needs of the future, the promoters of the enterprise deemed it wise to enlarge the entire structure over the first plan. The power house will contain two sets of pumps, one of which will force the volume of water to the giants in the placer diggings and the other will pump water up to lift the water to the three irrigating ditches that will water the city and the farms of the valley round about. The enterprise is in its entirety not completed before next summer, so extensive and great is the amount of work to be done.

To Cure a Cold in One Day.
Take Laxative Bromo-Quinine Tablets. All druggists refund the money if it fails to cure. Get a signature on each box.

An Investigation in Progress.

The Government has not ordered the land offices to refuse applications of those wanting to locate timber claims. The action taken applies only to former filings, as entries are received as usual, with more strict enquiries. There are upwards of 140,000 acres located in the Roseburg district, and about the same in The Dalles district, not yet proven up on. These are to be investigated by the special agents of the general land office now in this section for that purpose. It will doubtless develop that everything is straight upon the part of the officials, and that there is no cause of complaint against them.

RELIGIOUS.

Mrs. Baldwin and her daughter arrived Tuesday evening from San Francisco, en route to their home at The Dalles. They will visit with relatives in St. Mary's Academy and Rev. J. D. Murphy.

Six ladies and gentlemen who live in Wisconsin on Monday made proof on their claims, located near McCallister's Springs, before County Clerk Orth. They evidently are of the opinion that Oregon timber is O. K.

The newly-elected officers of the Presbyterian C. E. Society held their usual monthly business meeting on Friday evening. A full attendance of members and an enthusiastic interest in the work predict a good work for the winter. Three new members were added to the roll. At the close of the meeting the Social Committee gave an informal entertainment and served refreshments.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous membrane. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is tenfold to the good they possibly accomplish. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, setting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in the United States.

TRESPASS NOTICE.

Hunters and all others are hereby notified not to trespass on the lands of Alice and E. B. Hanley, situated in Pothah Bay precinct. The law will be strictly enforced against all offenders.

A. E. AND M. F. HANLEY.

LOCAL NOTES.

L. W. Fansher, an expert horticulturist, returned in Medford a few hours Monday.

Geo. F. Wilson, who has been filling the position of engineer at Olson's mill, has returned to Medford.

Riley Lamar, who is well known in Grant's Pass and Medford, was recently married at Lompoc, Calif.

N. Cooke, R. F. Dean and E. M. Ferguson of Willow Springs precinct were among those in Medford Monday.

Many of the farmers have begun plowing. This work has been delayed very much this season, owing to lack of rain.

Geo. S. Howard, who has been employed on Dr. Ray's enterprises for some time past, has returned to Medford.

W. N. Kouns of Cole's, Calif., and his family recently passed through the valley, en route home from a visit along the coast.

D. H. Hartson, the attorney, who practices law in Medford for some time past, has gone to Klamath Falls, with the intention of locating.

R. P. George and Joe Russell, prominent stockmen of Josephine county, were in our town Monday, driving a big bunch of cattle to market.

Roy Finney, while playing football at the school house a few days since, fell and broke one of his arms. Dr. Gale rendered the fracture.

Edmund Beeson of Wagner creek, an enterprising stockman, this week received a large number of cattle from Douglas and Coos counties.

Hon. B. F. Mulkey, the efficient president of the Southern Oregon Normal School, has been joined by his family, who arrived at Ashland Friday.

Capt. Jason Wheeler of Albany has been granted a pension of \$8 per month under the Indian war veteran law. This is one of the very first pensions granted in the State.

The Oregon Observer announces the marriage of Frank Fetsch, the tailor, and a young lady living in Grant's Pass. The Mining Journal says that it is no such a thing, however.

Fred Welch, well known throughout Southern Oregon, has returned to Grant's Pass. For the past two years he has been in Dawson, Alaska. He will return there next March.

The heaviest rain storm of the season commenced Friday evening and continued the greater portion of the next day. A large quantity of moisture fell, thoroughly soaking the ground.

Mrs. A. Wolf of Farmer's Flat is being visited by her daughter, Mrs. Retha Dollarhide, and her husband, as also the daughter's brother. They arrived from Northern California last week.

Prof. W. T. Van Scoy was in Jacksonville lately, making final proof on his homestead claim, situated not far from Ashland. Bruce Allen and E. A. Hildreth, Sr., were his witnesses.

John Broad and Thos. Reid of Forest creek, proprietors of the Oregon Belle mine, were in town Tuesday. Different parties have been investigating this valuable property, with intentions of purchasing it at a big price.

Thos. C. Norris has received a full line of new harness and saddles, which they are selling at very reasonable prices. They also keep an excellent assortment of second-hand goods in the same building and execute upholstery of every description.

On account of the meeting of the State Irrigation Association, to be held in Portland, November 18th, the Southern Pacific Company will sell tickets for the round trip for one and one-third fare on the certificate plan. Tickets on this account will be good for six days.

Miss Maud Wilson, who has had considerable experience in this line, has opened a millinery store in West Medford, in the building formerly occupied by Palm & Wortman. She will keep a well-assorted stock of millinery of the latest styles.

Acker's Blood Elixir positively cures chronic blood poisoning and all scrofulous affections, even the most obstinate skin system tonic and purifier. Money refunded if you are not satisfied. 50c each, young and well matched, two fine cows, several head of cows and calves agricultural implements, etc.

Will Isaacs is circulating a petition, addressed to the members of the legislature, asking for the better protection of fish in Rogue river. Certainly laws which will protect the finny tribes from being exterminated and rapacious fishermen should be passed.

H. D. Jones, who is in charge of the Maybell Miding Co.'s property, as keeper for Sheriff Rader, was here for a short time Monday. He is under the impression that the difficulties under which that enterprise is laboring will be amicably settled soon.

The celebrated Custer whisky, although a very old brand, is becoming more popular every day. None other has a greater sale. This choice article can be found at Dunington & Duff's.

A car load of Greek laborers have been put to work on the Klamath Lake R. R., under contract. They worked on the big slide that went across the S. P. track above Delta, Calif., recently, and are gradually displacing all other classes of labor in railroad work.

J. B. Welch of Meadows precinct was in Medford Saturday. Somebody has complained to the authorities that he was dumping saw dust from his mill in Evans creek, and he was summoned hither by Fish Warden Parker. There was no real foundation to the complaint.

E. T. Staples and C. C. Anderson of Boise City, Idaho, have purchased the interests of the Ashland Mfg. Co., one of Southern Oregon's largest industrial institutions. The sale was made on a basis of \$80,000, and the property involved in the transaction includes 3500 acres of yellow fir, sugar and red pine, in the Nell creek district, the mill there, the planing mill and lumber yard, including the stock of lumber on hand, in Ashland.
