Do not always receive the sympathy and attention which they deserve. Their ailments are regarded as purely imaginary, or natural and unavoidable at their time of life. Disease and infirmity should not always be associated with old age. The eye of the gray haired grandsire may be as bright and the complexion as fair as any of his younger and more vigorous companions.

Good Blood is the secret of healthy old age, for it regulates and controls every part of the body, strengthens the nerves, makes the muscles elastic and supple, the bones strong and the flesh firm; but when this life fluid is polluted or poisoned and loses its nutritive, health sustaining elements, then there is a rapid decline of the vital powers, resulting in premature old age and disease. Any derangement of the blood quickly shows itself in an ulcer, sore, wart, tumor or some other troublesome growth upon the body, and rheumatic and neuralgic pains become almost

constant, accompanied with poor digestion and cold extremities. S. S. S. being purely vegetable, is the safest and best blood purifier for old people. It does not shock or burt the system like the strong mineral remedies, or hurt the system like the strong mineral remedies, but gently and thoroughly cleanses the blood and stimulates the debilitated organs, when all bodily ailments disappear. S. S. S. is just such a tonic as old people need to improve a weak digestion and tone up the Stomach. If there is any hereditary taint, or the remains of some disease contracted in early life, S. S. S. will search it out and remove every vestige of it from the system.

Convening of Congress.

Washington, Dec. 2.-The annual message to Congress of President by the journal clerk, shows that they Roosevelt was delivered yesterday noon. It was well received, bristling as t did with suggestions, recommendations and comment. Long before the gavels fell in the two Houses large crowds thronged about the doors of the visitors' galleries, seeking admittance. A bright, sunny day brought out many women who were conspicuous among the visitors. As the hour for the opening approached the crowds about the doors increased, but many were necessarily disappointed, as the space allotted to outsiders was claimed early. There were many out-f-town visitors. To be seen in the corridors and obbies on both sides were many public officials, who left the department to witness the opening.

It is feared a majority of the villagers have perished.

Redhot iron caps were placed on the heads of Christians, while burning 2:04 and of Prince Direct 2:07. petroleum was poured on their feet.
