## AFTER MANY YEARS

How Good Fortune Came at Last to a Woman in Southern Missouri.

Good fortune sometimes comes after hopeless years of waiting. So it was with Mrs. T. M. Taylor, of No. 737 Walnut street, Springfield, Mo. For years she had suffered with severe stomach trouble that Dr. Williams' Pink Pills for Pale People cured her, as the following interview will show.

"I was afflicted with stomach trouble for about ten years," she said to a reporter. "About a year ago it became acute. Just before confinement I was suddenly seized by a severe attack of indigestion. I was under the constant care of a physician for months, but did not get more than temporary relief. My stomach felt as if it were full of stones, my kidneys had become affected and my back hurt dreadfully. Sometimes I could hardly get around because of the pain, the least exertion put me out of breath, my head would get dizzy till everything seemed to swim around me, my limbs ached—I was miserable.

"How was I cured?" By Dr. Williams' Pink Pills for Pale People. I saw an account in a paper of what this remedy had accomplished in a somewhat similar case and I began taking them. One box caused an improvement and I kept on taking them till now I feel better than I have for years. Both my husband and myself never fail to recommend Dr. Williams' Pink Pills to all who are ailing."

Mrs. Taylor took a medicine that attacked her trouble at the root—the blood and nerves. Poor blood and disordered nerves are at the seat of nearly all the ailments which afflict mankind, and Dr. Williams' Pink Pills for Pale People have been proven to be a certain remedy for all diseases arising from this cause. They will cure locomotor ataxia, neuralgia, paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness, either in male or female.

Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price, fifty cents a box; six boxes for two dollars and a half by addressing Dr. J. C. Williams Medicine Co., Schenectady, N. Y. Be sure and get the genuine—substitutes never cured anybody. Send for free booklet of medical advice.

Wilcox of Ashland Works, each made a trip to Glendale to watch the workings of the machine, and were so well pleased with it that the firm's purchase of the patent followed.

**Wonderful Nerve.**  
Is displayed by many a man enduring pains or accidental cuts, wounds, bruises, lacerations, sore feet or stiff joints. But there's no need for it. Backen's Arnica Salve will kill the pain and cure the trouble. It's the best salve on earth for piles, too. 25c. at City Drug Store.

**A Treacherous Stream.**  
Bear creek was probably higher Saturday and Sunday than at any other time in the history of Jacksonville. It carried an immense volume of water and did a great deal of damage to the fine soil along its banks. The bridge across it, near Central Point, was considerably injured, but not carried away, as reported. The creek cut a new channel through some of the best land in Southern Oregon, in Talent and Phoenix precincts. An effort will be made to turn it into its original course.

## PIONEER SCHOOL HOUSE DESTROYED BY FIRE

Evidently the Work of an incendiary. Loss about \$6000.

Last Sunday morning, at nearly four o'clock, the horizon was suddenly with fire that could be seen for miles around. It proved to be the Jacksonville public schoolhouse, a large frame building, two stories high, that was in flames.

In a short space of time the building in which many of those who are now prominent in the business, professional and political circles of Oregon had obtained the rudiments of their education, together with its contents, including an excellent library and a large number of school books and considerable apparatus, was a mass of ruins. The loss is estimated at \$6000, upon which there is an insurance of \$3000.

The fire was doubtless incendiary in origin; but what could be the motive of the hoodlum who perpetrated this cowardly deed cannot be imagined. There had been no fire about the premises since the adjournment of school the Friday before. When first discovered the flames were shooting forth from the hallway, located about the center of the first story of the building.

The fire company responded promptly, but was powerless to do anything, as the structure burned rapidly.

This disaster could not have occurred at a more inopportune time, coming as it did at the middle of the school year. It will be found difficult to raise the necessary sum of money to attend the school, as well as to obtain the necessary supplies.

## WHAT THE VETERANS ARE PRAYING FOR.

They Want the Balance Due Them, and are Entitled to It.

The following petition has been submitted to the Oregon Legislature for its consideration:

The Territorial Legislature of the State of Oregon, by an act in the session of 1855 and 1856, agreeing to pay all veterans who served in the wars of those years the sum of \$2 per day for their services. The United States paid of this amount about 55 cents a day for such service. The total number of service rendered by said volunteers was 371,449 days. Of this time each volunteer lost about \$1.45 per day, which would make an aggregate sum of about \$530,028.60. Of course at least two-fifths of this amount has died, without leaving a widow or child. Of the above sum the State of Oregon has not paid one cent, and has not redeemed its pledges to these aged veterans, who have waited 47 years anxiously expecting the state either to secure this pay from the United States or to meet its own obligations.

"We will further state that various territories have here-tofore paid their veterans in state bonds and the United States has invariably redeemed these bonds, together with the interest prior to their maturity, and there is no reason why the United States will not redeem any bonds that your honorable body may issue or cause to be issued to these veterans in payment for their services; but whether they do or do not, it does not lessen the legal or moral responsibility of the State of Oregon to pay these grey-headed veterans or their widows, and in the event of the death of both their children, the sum of money which the Territory of Oregon agreed by an act of the Legislature to pay them."

"We therefore petition your honorable body to appropriate \$300,000 in 3-year bonds, drawing 10 per cent. interest, to be used in paying these veterans the difference between what the Territory of Oregon agreed to pay them and what the United States did pay them for their services; and inasmuch as this matter has been neglected so many years, until the majority of them are in their graves, we as citizens of Oregon pray your honorable body be the obligations of the State of Oregon to these veterans at the present session of the Legislature."

Notices for the location of placer and quartz mines, etc., up-to-date and complete, for sale at this office.

Good reports are coming in from all of the placer mines. The heavy rains have not kept up a full pipeline for all of the hydraulics, and the giants are being operated as never before. The smaller placer mines are also being worked to good advantage.

Miners' liens, deeds to mines, water-right locations and other mining blanks always on hand at this office.

Cook & Howland's placers, located in Jump-off-Joe district, are being successfully operated, with two giants, which are kept busy continually.

Several acres of ground will be washed this season, and a first-class result is predicted. A. C. Howland is superintending the mines, assisted by W. H. Miller, the foramen, and several other experienced miners.

The American Mining Code, standard authority on all subjects pertaining to mining, water-rights, etc., is kept on hand at this office.

Over \$200 in nuggets and coarse gold was picked off the bedrock of the Dry Diggings, located near Grant's Pass, during the past week. The grounds now being worked by the Golden Drift Company are supposed to be the richest ever before encountered. Two giants have been steadily operated since early in November, and more dirt has already been moved than was washed off during all of last season. The company looks forward to a large cleanup.

The sale of the Punch Creek mine, located in Siskiyou county, Calif., has been consummated. Mr. Grayson of Oakland, is the purchaser. The price paid was \$30,000. A payment of \$8,000 down, \$7,000 in six months and \$15,000 in a year, are the terms of the transaction. Mr. Grayson is a man of abundant resources, and he will at once expend about \$25,000 in machinery and development work.

These mines have been owned by E. H. DeWitt, A. E. Raynes, Jas. F. Farrar and Dave McCook. The latter has been working them in a small way. He has taken out sufficient ore, which he has worked in his custom mill of four stamps, to pay all cost of development work, and several small dividends as well.
