JACKSONVILLE, OREGON, WEDNESDAY, FEBRUARY 4, 1903.

HEROIC DARING

Government Life - Saving Crew Receive Gold Medals.

From the thirty-first day of October to the eleventh day of November, 1883, the crew of the U.S. life-saving station at Cleveland, Ohio, saved twenty-seven has been at Ashland, having work men and two women from vessels thrown | done at the Ashland Iron Works. ashore by the storms that lashed the waters of Lake Erie. To each of the tine men in the crew the government Isld medal "for heroic daring" was the county-seat one day this week.

One of the crew was Chas. L. Learned. While attempting to get a line to a distressed vessel, the life-boat capsized and, when the boat rolled over, he was caught helping hands revived him. The other the Senate. members of the life crew made their way to the shore and hurried for the beach apparatas. In about one hour and a half recovered that he made his way to the ty, Tuesday. some of the wreck and took his place with the crew. All hands were saved, that rheumatism quickly set in as a re- convalescent. sult of the cold and exposure. This was complicated with neuralgia, "I had ment would cause my heart to beat violently. I had to be very careful of from Keswick, Calif. my diet and suffered much distress after government service, I received something | ceived, Tuesday. over six hundred dollars in addition to

Important School Bills.

Senator Kuykendall's bills for the consolidation of school districts, and authorizing school boards to provide for the transportation of pupils to and from school, were passed by the Senate Saturday without a dissenting

The first of these measures, Senate hill 58, requires district school boards, when authorized by a majority vote of the legal voters present at any legally called school meeting to furnish transportation to and from school to all pupils living more than two miles from the school building: and also requires district school boards, when so authorized by a majority of the voters of the district, to 1903 indicate an aggregate output of suspend the district school and make siding therein, and to provide for the duction of the Transvaal mines. The transportation of any or all of such
