MISS KENNEDY'S CASE

WHY SHE LEFT HER STUDIES AT THE HIGH SCHOOL.

Every Mother of a Growing Girl Will Be Interested in the Story as Told by the Young Lady Herself.

The circumstances under which Bertha Kennedy was taken from her studies in the high school will be of interest to all mothers of growing girls. Miss Kennedy said to a reporter:

"When I was fourteen years old I began to decline in health on account of my sex, and I am sure I would never have been the healthy girl I am now if it had not been for Dr. Williams' Pink Pills for Pale People. I was utterly without color, thin as a rail, nervous and irritable, tired and lifeless and in a seriously low state of health in general. Although a good doctor was treating me, he failed to do any good and my parents felt very much alarmed about me."

"I was taken from the high school on account of my poor health, but continued to grow weaker. Then I began to take Dr. Williams' Pink Pills, and with the first few doses began to feel better. Four boxes brought about the desired result and a few boxes more restored me naturally to health. Now I have a good color, am strong and active and have not seen a sick day from that time to the present."

Miss Kennedy lives at Clinton Junction, Mass., and both she and her mother are willing to verify the above statement.

The trouble with which Miss Kennedy was afflicted often caused severe headache, loss of appetite, pale or sallow complexion, palpitation of the heart, swollen ankles or legs, nervousness, of fensive breath, etc., etc. The sufferer may exhibit one or more of these symptoms, or may have all. They simply indicate the ravages disease has made upon the system, and the more of these symptoms the patient shows the greater the necessity for prompt and persistent treatment, until they have been banished and the bloom of health is restored. To accomplish this end, Dr. Williams' Pink Pills for Pale People are the only unfailing remedy. They positively cure all suppressions and irregularities, which, if neglected, inevitably entail sickness and trouble.

At all druggists, or direct from Dr. Williams' Medicine Company, Schenectady, N. Y., fifty cents per box; six boxes for two dollars and fifty cents.

Newspaper Swindlers Should Look Out.

The latest postal laws are that the publisher can arrest anyone for fraud who takes a paper and refuses to pay for it. Under the law, the man who lets his subscription run along for sometime unpaid and then orders it discontinued leaves him liable to arrest and fine the same as for theft. It will be seen that many disputed points are decided by these decisions which are certainly only just. If a subscriber does not wish to renew his subscription, let him notify the publisher. The second decision given here will be a surprise to some publishers who believe they must stop a delinquent subscriber's subscription if ordered to. He must pay up if he wishes to discontinue his subscription. Otherwise he is held responsible for it as long as the paper is being sent to him, whether he takes it from the postoffice or not.

Shamrock III.

All true lovers of sport in this country will look forward with much interest to the arrival of the new cup challenger, Shamrock III, which the English people expect will win the cup this year. While America has held the supremacy in yacht building for years, she also holds the supremacy in medicine. Take Hostetter's Stomach Bitters as an example. No other country in the world has been able to produce a medicine so good to restore the appetite, build up the run-down system in the spring or to cure nausea, indigestion, flatulency, dyspepsia, constipation, biliousness or malaria, fever and ague. It is therefore deserving of a trial. Be sure to get the genuine with our Private Stamp over the neck of the bottle. It will cure you.

Damaging Frosts.

There has been considerable cold weather during the past week. A sharp frost occurred on two or three nights, which did more or less damage to fruit of the early varieties in many localities. Apples, peaches and almonds have suffered the most. Neither apples nor peaches were injured, however.

That Tired Feeling

Is a Common Spring Trouble.

It's a sign that the blood is deficient in vitality, just as pimples and other eruptions are signs that the blood is impure.

It's a warning, too, which only the hazardous fail to heed.

Hood's Sarsaparilla and Pills

Remove it, give new life, new courage, strength and animation.

They cleanse the blood and clear the complexion.

Accept no substitute.

"I felt tired all the time and could not sleep. After taking Hood's Sarsaparilla a while I could sleep well and the tired feeling had gone. This great medicine has also cured me of eczema." Miss C. M. Reed, Glend, Conn.

Hood's Sarsaparilla promises to cure and keeps the promise.

Malta Commandery No. 4, Knights Templar, of Ashland, according to its usual custom, attended Easter services in a body—this time at the Protestant Episcopal church, of which Rev. L. M. Idelman is rector. A large number of members of the order from every portion of Southern Oregon was present. The services were beautiful and quite interesting, and the music, furnished by a choir of 21 voices, of a superior quality. They were highly spoken of by those fortunate enough to have been there.

An Event in Society.

SEVERE ATTACK OF GRIP.

Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says E. W. Perry, editor of the Enterprise, Shortsville, N. Y. "This is the truth. I felt the cough coming, and I took a few pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose, and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it mildly. I had no idea that it would grip me, and I took it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it not only to be of less duration, but the pain was far less severe, and I had not used the contents of one bottle before my grip had bid me adieu. For sale by City Drug Store."

Nothing in It.

Coroner Pickel and C. L. Reames, deputy district attorney, were called to Ashland Monday by telephone, to investigate the death of Mary Teters, aged 21 years, the daughter of Mr. and Mrs. W. H. Teters.

An affidavit had been sworn out alleging that "deceased came to her death from a disease caused directly by beating given her by Roy E. Cook." The affidavit, whose name is withheld from publication, asserted that he was her best knowledge and belief. Roy E. Cook is the brother-in-law of the deceased.

After a thorough investigation by the officers it transpired that Miss Teters had died of pneumonia, and there was no foundation to the charge.

Horse Thief Held.

Roy Hurlbut, who was recently arrested in Lane county, on a charge of being one of Lyons' gang of horse thieves, had a preliminary examination in Justice Pymale's court Monday. The evidence was strong enough to warrant his being held to answer at the September term of the circuit court. His bonds were fixed at \$200, in default of which he was remanded to the county jail.

Valuable Mines Sold.

It is reported, upon what is supposed to be the best of authority, that the big copper ledge, known as the Blue Lead, in the Siskiyou, near the Oregon line, and owned by Messrs. Cooper, Hamilton, M. V. Adams and other parties living in Del Norte county, Cal., has been sold to parties represented by Patsy Clark of Spokane. The price agreed on is \$200,000, of which \$65,000 has already been paid.

HERBINE CURES

Fever and Ague. A dose will usually stop a chill, a continuance always cures. It is a healthy tonic. Write for a copy. See May 31, 1896, writes: "We have used Herbine in our family for eight years, and found it the best medicine we have ever used, for biliousness, bilious fever and malaria." See at City Drug Store.

Treasurer's Seventh Notice.

Office of the County Treasurer of Jackson County, Oregon, Jacksonville, March 30, 1903.

Notice is hereby given that there are funds in the county treasury for the redemption of all outstanding county warrants presented from May 10, 1901, to Nov. 10, 1903, with interest thereon at the rate of 1 per cent. per month above date.

D. H. MILLER, County Treasurer.

Danger of Colds and Grip.

The most dangerous danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of grip in less time than any other treatment. It is pleasant and safe to take. For sale by City Drug Store.

Biographical Sketch of Mr. Reames

As Given by an Oregonian Correspondent Writing from Albany.

A. E. Reames, the Democratic nominee for Congress in the First Congressional District, was born in Jacksonville, Ore., in 1862. He comes from a pioneer stock, his father, Thomas G. Reames, having come to Oregon from Kentucky in the pioneer days of 1833, and his mother is a native of Missouri.

Mr. Reames received his primary education in the public schools of Jacksonville, and then attended the University of the Pacific, at San Jose, Calif. Later he was a student at the University of Oregon. Before completing his course at Oregon's leading educational institution Mr. Reames went to Lexington, Va., and entered the law department of Washington and Lee University. While there he won the Dabner's medal. He graduated from the law department of the Virginia institution in 1890, and immediately returned to Jacksonville for the practice of his profession. However, Mr. Reames remained in Jacksonville but a short time, when he formed a partnership with E. R. Skisworth in Eugene. This lasted until 1893, when he moved to Portland and associated himself with C. M. Idelman in the practice of law. He was candidate for representative on the Democratic ticket while he lived there. In 1896 Reames returned to Jacksonville, where for a time he practiced law in partnership with Wm. M. Colvig. He was elected prosecuting attorney for the First Judicial District in 1900.

Mr. Reames married Miss Edith Touque in 1888. He was for over three years a resident of the Oregon Native Sons' Cabin at Jacksonville, and for one year held the office of grand president of the Native Sons of Oregon. He is a Shriner in the Masonic order, and belongs to the Red Men and the B. P. O. Elks.

He was met at the train by a large number of people and the High School band of Medford. Anvils boomed, bombs were exploded and there were many other demonstrations of enthusiasm and good will.

Belting called on for a speech, Mr. Reames, at the rear of the car, and for several minutes entertained his hearers. He seems sanguine of his election, and assured his auditors that he would serve them faithfully and impartially, and leave nothing undone that would be of public benefit and importance.

Jackson county now has the only real opportunity in its history to be represented in Congress by one of its own citizens—a native son—who is a gentleman of first-class ability and high character. It should give Mr. Reames at least 1000 majority.

ANOTHER BIG CAVE IN SOUTHERN OREGON

A Grant's Pass Correspondent of the Oregonian reports That.

Another limestone cave that promises to be as extensive and deep as the remarkable limestone caves of Grayback mountain, has been discovered in Josephine county. Guy Weatherly and Roy Bunton, two young men, while out hunting a few days ago in the upper Deer Creek region, uncovered from beneath a mass of mazzanta and chinapin bush a narrow opening into the mountain side. It proved to be the entrance to a cave; and by the aid of candles and lanterns they penetrated the labyrinth to a depth of 150 feet. They could have gone farther, but for the fear of becoming lost in the intricate number of chambers, rooms and tunnels, all of limestone and rock crystal. From all appearances the newly-found caves are very extensive, the explorers believing the entire mountain to be one vast honeycomb of limestone.

Beautiful stalactites hang from the ceilings of the chambers, and the pools of water covering the floors are filled with coral-like stalagmites in great clusters of the most delicate pink and blue, resembling in their matches beauty some petrified underground flower garden. Through the caves there blows a strong current of air, as if there was an open door to them on the opposite side of the mountain. Deep wells lead down to abyssal depths, apparently bottomless, but from through the thick gloom of which there comes a gurgle and distant rumble as of an underground river. Stones dropped into these glistening down, down, with at last a final splash when the water and bottom is reached. The new caves will be thoroughly explored.
