

AN OLD SORE

Will sour the sweetest disposition and transform the most even tempered, lovable nature into a cross-grained and irritable individual.

If impatience or fault-finding are ever excusable it is when the body is tortured by an eating and painful sore. It is truly discouraging to find after months of diligent and faithful use of external remedies that the place remains as defiant, angry and offensive as ever. Every chronic sore, no matter on what part of the body it comes, is an evidence of some previous constitutional or organic trouble, and that the drugs of these diseases remain in the system; or, it may be that some long hidden poison—perhaps Cancer—has come to the surface and begun its destructive work.

The blood must be purified before the sore will fill up with healthy flesh and the skin regains its natural color. It is through the circulation that the acid, corroding fluids are carried to the sore and kept it irritated and inflamed. S. S. S. will purify and invigorate the stagnant blood when all sediment or other harmful materials are washed out, fresh rich blood is carried to the diseased parts, new tissues form, and the decaying fluid begins to have a healthy and natural look; the discharge **SSSS**

S. S. S. is the only blood purifier that is guaranteed entirely vegetable. It builds up the blood and tones up the general system as no other medicine does. If you have a sore of any kind, write us and get the advice of experienced and skilled physicians for whom no charge is made. Book on Blood and Skin Diseases free.

Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures.

CURRENT COMMENT.

BUILDING IMPROVEMENTS are going merrily on in this city; and yet there are few houses to rent. Rents are rather high, too; but the only complaint heard is the lack of opportunity to get a house when wanted.

J. W. BAKER, of Cottage Grove, who was appointed game warden, to succeed L. P. W. Quimby, will assume his duties July 1st. He is a man of ability and energy, and well qualified for the position.

If, as reported, the fate of the Panama Canal treaty in Colombia is to depend on the result of a campaign of education now being carried on among the people of that distracted country, the outlook is not at all reassuring. The educational work is likely to prove a bigger undertaking than the construction of the canal.

We have heard a good deal lately of the superiority of the American workmen over the British workers, but now comes an Englishman who says the workers of the old country are better than the American, but the American managers are far superior to the British managers, and get more work out of their men. Perhaps there is some truth in that view of it. There is nothing like looking at things from all sides.

J. W. BAILEY, State Dairy and Food Commissioner, states that all butter marketed must weigh 32 ounces to the roll, and any violators will be prosecuted to the full extent of the law. He says that he finds much butter that is being marketed which weighs from 27 to 33 ounces to the roll. He has given notice that hereafter merchants must not buy or sell a roll of butter that weighs less than 32 ounces, unless the weight is labeled thereon.

The dedication of the St. Louis world's fair is the occasion of a brilliant series of articles in the May Review of Reviews on the Louisiana Purchase and its results, the exposition in forecast, and the city of St. Louis. The same number has an outline of the plans formed for the municipal exposition to be held at Dresden this summer, and the noteworthy features of several other European fairs and congresses are summarized in an article on the great gatherings of the summer and autumn at home and abroad.

The Rand mine owners in South Africa got rid of their valuable Kaffir labor at the same time they eliminated the Boers as the controlling factor. A British labor commissioner, who is investigating the feasibility of using cheap Chinese labor in these mines, says: "There is no longer any probability that Kaffir labor can be used to advantage in South Africa. The trouble is that the Kaffirs made too much money during the war. They were employed as mule drivers, and in other ways with the army. When peace was declared these Kaffirs found themselves possessed of more money than they had ever owned before, and

Spring Ailments.

There is an aching and tired feeling; the liver, bowels and kidneys teem sluggish and inactive, the digestion impaired, with little or no appetite, no ambition for anything, and a feeling that the whole body and mind is tottering. The trouble is, that during winter, there has been an accumulation of waste matter in the system. Herbine will remove it, secure to the secretions a right exit, and by its tonic effect, fully restore the wasted tissues and give strength in place of weakness. 50c. at City Drug Store.

A loquacious tongue made a parrot a great favorite in the barroom of a New York hotel, where he acquired a taste for strong drink by taking occasional sips from his friends' glasses, and in time became a regular toper, and shrieked for "gin fizz" with the best or worst of his cronies. One day he became intoxicated, and while endeavoring to fly across the room came into collision with an electric light wire, which he promptly received. He died in two hours.
