

# The Democratic Times

VOL. XXXIII.

JACKSONVILLE, OREGON, WEDNESDAY, MAY 13, 1903.

NO. 15

## WEIGHT ON HER HEAD

MRS. EGGLESTON FEARED HER REASON WOULD GIVE WAY.

Solicitude of Her Neighbors Resulted in the Relief of the Unfortunate Woman.

Mrs. Eggleston, of No. 126 Ohio street, Indianapolis, Ind., "and for days and days at a time I was obliged to stay in bed. Every attack of this trouble would leave me weak and worn out. So many excellent doctors treated me without success that I just resigned myself to my fate—I lost hope. There were many times when I feared my reason would give way."

"A nervous affliction developed which affected my muscles and at times I could not control them. I could not sleep soundly. I lost flesh and appetite and was miserable."

"A neighbor called one day and told me of some of the cures that had been made by Dr. Williams' Pink Pills for Pale People and I immediately began to try them. Relief came with the first box and I improved steadily until, by the time four boxes were taken, I was perfectly cured and I have had no return of the trouble since."

The pills which cured Mrs. Eggleston are not a patent medicine, but a prescription used for many years by an eminent practitioner who produced the most wonderful results with them, curing all kinds of weakness arising from a watery condition of the blood or shattered nerves, two fruitful causes of almost every ill to which flesh is heir. Acting directly on the blood and nerves these pills have proved a boon to women, invigorating the body and regulating the functions of the exhausted patient."

Dr. Williams' Pink Pills for Pale People have been proven to be a certain remedy for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, neuritis, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price fifty cents a box; six boxes for two dollars and a half, by addressing Dr. Williams' Medicine Co., Schenectady, N. Y. Look for the full name on every package you buy.

## Departed This Life.

Died in Salem, Ore., Friday, May 1st, 1903, Martin McElroy Cole, eldest son of Dr. G. B. Cole of Central Point, after an illness of three years.

During the last week of his sickness his father was with him, and when the end came he brought the remains to the Central Point Cemetery for interment.

The funeral services took place in the M. E. Church at Central Point, Rev. E. B. Lockhart officiating. A large concourse of friends was present, and the remains were followed to their last resting place by a long procession.

The deceased was born August 29, 1872, at Rowsburg, Ohio.

## Cures When Doctors Fail.

Mrs. Frank Chissell, Patterson, La., writes June 5th, 1901: "I had malaria fever in very bad form, was under treatment by doctors, but as soon as I stopped taking their medicine the fever would return. I used a small bottle of Herbine, found it helped me. Then bought two bottles, which completely cured me. I feel grateful to you for furnishing such a splendid medicine, and can honestly recommend it to those suffering from malaria, as it will surely cure them." Herbine, 50c bottle at City Drug Store.

## President Roosevelt's Visit.

The S. P. Co. will make a special rate on the occasion of the President's reception at Portland. Round-trip tickets will be sold May 20th for \$9.90, good returning until May 22nd; to Salem the round trip will cost \$8.30.

## Spring Medicine

There is no other season when good medicine is so much needed as in the Spring.

The blood is impure, weak and impoverished—a condition indicated by pimples and other eruptions on the face and body, by deficient vitality, loss of appetite, lack of strength, and want of animation.

## Hood's Sarsaparilla and Pills

Make the blood pure, vigorous and rich, create appetite, give vitality, strength and animation, and cure all eruptions. Have the whole family begin to take them today.

"Hood's Sarsaparilla has been used in our family for some time, and always with good results. Last spring I was all run down and got a bottle of it, as usual, and received great benefit." Miss ELEANOR BOYCE, STOWE, VT.

Hood's Sarsaparilla promises to cure and keeps the promise.

## N. D. YOUNG,

Civil Engineer and Locator of Government Land, WIMER, - OREGON.

Prices Reasonable and Satisfaction Guaranteed.

## Dr. T. T. SHAW

RESIDENT DENTIST, JACKSONVILLE, - - - OREGON.

Office in Ryan's Brick Building, California Street, two doors east of Post Office.

BEARS THE SIGNATURE OF DR. T. T. SHAW

## BRIEF MENTION.

California strawberries and vegetables are in market here.

Wool bags, fleece twine, Little's Sheep Dip, for sale at Nunan's, Jacksonville.

The May-day ball given by Ashland's lodge of Degree of Honor netted \$111.50.

We pay the highest market price in cash for sheep's wool and the hair. Nunan, Jacksonville.

H. Goodhart, a first-class mechanic, is painting the handsome residence of J. Nunan, the pioneer merchant. He never fails to please.

W. F. Marriott, the expert barber, who was until lately a resident of Medford, is assisting Nate Bates, manager of the Hotel Josephine shop at Grant's Pass.

J. W. Coffman, who was one of the original owners of the Oregon Belle mine, located in Forest Creek district, died suddenly at Grant's Pass last Friday.

We are informed that Misses Eisenhardt and Huffer will establish a hospital soon, in the residence being vacated by Dr. and Mrs. Goble, on North D street, Medford.

The Allen Stock Co. played to a crowded house Sunday night at Gold Hill and gave the fullest satisfaction. It will repeat the performance next Sunday.

J. W. Sevedge and his family leave for Burns, in a few days, to relocate. John will manipulate the reins on one of the stage lines of Harney county. Success to him.

It is reported that Doctors Cameron and Gale will establish a hospital at Ashland in the near future. The latter will be in personal charge of it, his partner remaining in Medford.

Frank C. Savage of Portland, a prominent dealer in lumber, has purchased the output of A. C. Manning's mill, located in the Dead Indian country, a number of miles east of Ashland.

Crandall & Robnett have purchased of the heirs of the late E. R. Owen the building in Central Point now occupied by W. C. Leever, and will move their stock of general merchandise into it soon.

Mrs. M. M. Johnston has sold her one-acre property, situated in South Medford, to M. Elmer of Klamath county; consideration \$350. Mike will take possession about June 1st. The deal was made through the agency of M. Belinger.

The announcement of the marriage of Harry Lynch, an energetic young man living near Talent, and Miss Lelia Anderson, the popular school teacher, has been announced. They have the congratulations and best wishes of a host of friends.

Jas. A. Roop, a well-known business man of Yreka, Calif., was married at Jacksonville Monday, to Mrs. Belle Stiff, who also came from California. Their many friends join in congratulations and wishes for a happy and prosperous future.

One of the most interesting events in the history of Jacksonville society will be the marriage of Dr. R. G. Gale and Miss Helen Colvig, a popular young couple residing at the county seat. The happy affair will take place during the present month.

Capt. R. M. Lewis of Lebanon, who is interested with Dr. Shearer and others in a big mining proposition in Steamboat district, has arrived on the scene of operations. He is accompanied by Mr. Burkhardt and another gentleman from Linn county.

Bob Haber and his son passed through the valley a few days ago, from Grant's Pass, with a string of five race horses, bound for Klamath Falls, to participate in the races there the 4th and 5th of next month. There are several good ones among 'em.

Judge Hanna has affirmed the decision of the county court, which decreed that certain claimants of the fortune left by the late Henry Amerman were not legal heirs and therefore not entitled to the relief they demanded. An appeal to the Supreme Court will be taken.

It is said that deputy sheriffs have been appointed for the purpose of enforcing the law requiring that fishermen keep not less than 600 feet away from the passages over dams. The Fish Warden reports that the greatest danger is from fishermen spreading nets near the fishways and preventing the fish from getting above the dams.

Those and Alex. Reid, the well-known miners, who went to Ireland several months ago, have returned. They saw considerable improvement in that country, and are of the opinion that the Irish people will be benefited much by the land legislation proposed by the British parliament.

Chas. Nickell, U. S. Commissioner for the District of Oregon, is fully equipped to receive applications under the timber and stone, also homestead laws. Final proofs taken, and all business connected with U. S. government lands transacted. Office with SOUTHERN OREGONIAN, Medford. Phone 211.

A. Goldness spent a few days in our city during the week. He is developing some first-class property in the copper belt of the Siskiyou, and feels very much encouraged. Not long since Mr. G. captured a huge black bear in a trap, which is said to be one of the biggest ever seen in Southern Oregon.

Judge Benson and his daughter, Miss Gail, arrived home Friday evening. They were the first passengers over the new scenic railroad. Judge Benson has been visiting for several weeks in San Francisco. From there he went to Salem, to attend the closing exercises of the Willamette University, which his daughter has been attending for the past year. Miss Benson has come home to spend her vacation with her parents.—(Klamath Republican).

## GOOD ROADS CAMPAIGN INSTITUTED.

When first the suggestion was made that the United States government should assist the states in the construction of good roads it was met with well nigh universal opposition. Road construction has been looked upon in this country as strictly an affair of local government. In fact, most of the states refuse to take part in the work, leaving it wholly in the hands of county governments. The promoters of the good-roads movement, however, have been carried forward from one position to another until they now appear to be committed to the program of giving not only state but national aid to rural highways.

Such as any rate was the position taken by the National Good Roads Convention which lately closed its sessions at St. Louis. Before adjournment the convention adopted resolutions which, after declaring that the construction of better highways is a matter of paramount importance to national prosperity, go on to say:

"We recommend the harmonious cooperation of township, county, state and national governments in the furtherance of this great end. The association believes that the appropriation heretofore made for the building of railroads, canals and improvements of rivers and harbors have been wise and beneficial, but an appropriation for the improvement of our common highways has not become necessary to extend the blessings of intelligence and promote a high order of citizenship among all classes of people and to meet the ever-growing necessities of the agricultural interests."

The adoption of such resolutions may be accepted as the beginning of a new issue in our politics. That there will be a strong support of any scheme to get appropriations from the national treasury for the improvement of highways goes without saying. Nearly every member of Congress goes there with the expectation of getting some sort of an appropriation for his district. Hitherto there has been no chance of getting an appropriation for a local public road, but there is now a possibility that such a chance will be afforded, and it is a foregone conclusion that many a congressman will be found eager to grasp it.

A Sure Thing.

It is said that nothing is sure except death and taxes, but that is not altogether true. Dr. King's New Discovery for Consumption is a sure cure for all lung and throat troubles. Thousands can testify to that. Mr. C. B. Van Metre of Shepherdstown, Va., says, "I had a severe case of bronchitis and for a year tried everything I heard of, but got no relief. One bottle of Dr. King's Discovery then cured me absolutely." It is infallible for Consumption, Whooping Cough, Grip, Pneumonia and Consumptive Try it. It's guaranteed by City Drugists. Trial bottles free. Reg. sizes 50c, \$1.00.

## Veterans Having Trouble.

Grand Commander Wood, of the Indian War Veterans of the State, says that the claimants for pensions are meeting with considerable trouble in proving up their cases in order to draw an allowance under the law made by Congress. There are few records to be found anywhere of the marriages that took place among pioneers in the '30s in Oregon territory, and it proves to be quite difficult to procure affidavits of witnesses to marriages.

Many pending pension claims for the fighters of the Indians of old Oregon are held up by the Department on the ground that the records do not show that the enlisted men drew pay from the government for the service in repelling the Indian uprisings. The fact that a man drew his pay for his service at the time practically settles the fact that he served the Government. Mr. Wood, in his work of advocating the interest of the veterans, claims that the mere fact that a man drew a blanket and a horse is sufficient evidence of the fact, no matter whether he drew regular pay or not. Every fact must be established by several affidavits.

Lately the War Department has discovered that about 20 per cent of the soldiers of the Rogue River and Yakima Wars never drew any pay from Uncle Sam. Those who have never been paid are now being listed, and it is announced that the list will be sent to Adjutant-General Gantenbehl. These men are entitled to recompense, as some of the old appropriation for the purpose still remains. The pay claims average about \$11 per month, together with 10 cents per day for the support of each horse. Data is now in course of preparation by the Department showing the status of these old claims in order that the cases may be cleared up.

Mrs. Lawrence Brown of Grant's Pass made an attempt to commit suicide last week by taking carbolic acid. She did not succeed in swallowing enough of the deadly drug to cause immediate death, and prompt medical assistance was called for. She recovered. Mrs. B. is said to be determined on self-destruction and is credited with the statement that she survives this attempt she will try it again. She is a young and her unfortunate condition is one that should be sincerely deplored. Domestic infidelity is said to be the ground of her melancholy disposition.

## DO YOU KNOW

That there is only one medicine for stomach, liver and kidney complaint that has been before the public continuously for 50 years, and that will always effect a cure, even after other remedies have failed. That medicine is

## Hostetter's Stomach Bitters.

This family remedy has become famous because it has always been found safe and reliable, and has never been known to fail. It therefore commends itself to all who suffer from

Belching, Flatulency, Loss of Appetite, Impure Blood, Indigestion, Dyspepsia, Constipation, Biliousness, Insomnia, or Malaria.

Try a bottle to-day and be convinced of its value. The genuine is for sale by all druggists.

## PERSONAL MENTION.

John A. Marsh spent a few hours in Medford yesterday.

Dr. Kondall made Ashland a visit one day this week.

Miss Clara Rader and Mrs. Sidley were in Medford Tuesday.

Mrs. K. K. Kuhl, who has been very sick, is convalescing, we are glad to say.

A. Throckmorton and C. M. Ruch of Applegate were with us the forepart of the week.

Mrs. T. M. Prim has returned from a visit with her sister, Mrs. S. Pengra of Ashland.

E. E. Miner of Gold Hill precinct was among those in Medford during the past week.

B. R. Porter and T. G. Rainey, who live north of Rogue river, were in Medford Tuesday.

Norton Bros. have gone to Jacksonville, to enter the employ of the Iowa Lumber Co.

John O. Walker has been appointed supervisor of Road District No. 24, vice Milo Caton resigned.

Jas. Cronmiller, one of the leading mechanics of this section, was a Medford visitor Tuesday.

Jas. Polton has returned from Fort Klamath. He reports that section in a flourishing condition.

J. J. Denner has gone to Redding, to resume his duties for the International Bureau of Correspondence.

J. D. Brophy of Colusa county, the well-known stock buyer, is in Southern Oregon, looking for cattle.

Mrs. H. K. Hanna left for Oakland Thursday. Her health has been quite poorly lately, we are sorry to learn.

P. W. Blackett of Gail's creek and family were in Medford Tuesday. He invested in a fine Studebaker hack while here.

W. H. Leeds, former State Printer, passed through the valley this week, en route to Salem from a visit in Southern California.

D. McCarthy, the veteran engineer, has been transferred to the Lebanon branch of the S. P. Co., and began his duties Monday.

C. Hafer, president of the Iowa Lumber Co., arrived from Council Bluffs during the past week, accompanied by his wife.

Miss Kate Reed, who has been acting as cashier for F. K. Deuel & Co. for some time past, has returned to her home, near Jacksonville.

## Chased Ball in His Sleep.

Arthur Carter, son of Major Carter, butted himself up quite seriously during a nightmare Tuesday night at the family home in Ashland. He imagined he was after a fly ball and jumped from a window, taking everything along with him, then continuing his somnambulist race through the blackberry patch, at the end of which he nabbed the imaginary baseball. His brother Clyde, who sleeps with him, was aroused and brought Arthur to the house and put him back in bed.

Arthur Carter has been practicing for two weeks with the local team preparing for the season's games. He is a new product in the baseball world, and when Captain Billy Hulen took charge of the Ashland club last season and star players were imported Carter proved himself a star of the local product and was retained, proving a match for the professional players, and has a career before him.

The bone of one arm was cracked and he was generally bruised up and scratched as a result of his dream.

## The X-Rays.

Recent experiments by practical test and examination with the aid of the X-Rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodak Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the Stomach. Kodak dyspepsia cure is always kept in the house for cases of emergency. 25c, 50c, and \$1.00 at City Drug Store.

## An Attempt at Suicide.

Mrs. Lawrence Brown of Grant's Pass made an attempt to commit suicide last week by taking carbolic acid. She did not succeed in swallowing enough of the deadly drug to cause immediate death, and prompt medical assistance was called for. She recovered. Mrs. B. is said to be determined on self-destruction and is credited with the statement that she survives this attempt she will try it again. She is a young and her unfortunate condition is one that should be sincerely deplored. Domestic infidelity is said to be the ground of her melancholy disposition.

## The Five Stages.

At 17 she said: "I want a man who is ardent in all of love's ways, and whose passionate devotion may never flag. He must be tall and broad-shouldered and handsome, with dark, flashing, soulful eyes, and if need be, go to the ends of the world for my sake."

At 20 she said: "I want a man who unites the tender sympathy of a woman with the bravery of a lion. I don't mind his being a little dispirited, because that always adds a charm. He must be, however, accomplished to the last degree, and capable of any sacrifice for my sake."

At 25 she said: "I want a man who unites with an engaging personality a complete knowledge of the world, and, if of necessity, he happens to have a pen, he must also have a future; a man whom I can trust, can look up to at all times without the slightest embarrassment."

At 30 she said: "I want a man with money. He can have any other attribute that it may be in his power to possess, but he must have money, and the more he has the better I will like it."

At 35 she said: "I want a man."

## SHAWL LOST.

On the road between Medford and Brownsboro, on the night of May 9th, a large shawl, iron-grey in color, a suitable reward will be paid for its delivery at this office.

## HERE AND THERE.

Postmaster Wilcox, of Lakeview, burns all newspapers from Bend and Prineville, under instructions from Lake county's board of health.

John Holland, a timber locator from Deadwood, S. D., died at Silver Lake, one day last week, with the most malignant type of smallpox.

Deeds, mortgages, leases, bonds bills of sale and every imaginable kind of legal blanks—the latest and best—are constantly on hand at the Times office.

The Klamath Falls Hotel has been placed under quarantine. There are a few light cases of smallpox in that town, but prompt measures having been taken to prevent its spread it is causing little uneasiness.

"Strength and vigor come of good food, fully digested. 'Force,' a ready-to-use, who want early information no burden, but sustains, nourishes, invigorates."

People do not understand the awful result of eating ketchup-laden foods, or they would rise en masse and condemn those who willfully threaten human life, by offering unfit food for sale, as they would any other criminal.

A legal attempt was made at Eugene by ministers and others to stop base-ball playing on Sunday, and the matter came to trial in the local court, resulting in the dismissal of charges preferred against the managers of the game for violation of the city's ordinance.

Blue-print maps of any township in Roseburg, Oregon, Land District, show all the vacant lands for 50 cents each. If you want early information no burden, but sustains, nourishes, invigorates."

The Indian Office has received advice of the breaking out of smallpox among the Indians on the Klamath reservation, and immediately instructed the agency physician to take charge of the cases, and to use every effort to prevent a spread of the disease. He was directed to take a large supply of vaccine points with him and to vaccinate all Indians in the infected area, or likely to be exposed.

Eddie Long, aged seven years, was admitted to the insane asylum, May 9th. It is a sad case. When the child was but two years of age the father, William Long, struck him on the head with a strap. The child grabbed the strap and to quiet it was allowed to retain the piece of leather. He became a driving idiot; but in all the five years since the father struck him has never allowed his mind to leave his grasp. He gnaws it continually during his waking hours. The parents live in Malheur county.

Blue Island, Ill., Jan. 14, 1901. Messrs. E. B. Deuel and J. B. Lockhart, I am writing you in my family for five years, and it has become my family doctor for colds in the head. I use it freely on my children. It is a Godsend to children.

Yours respectfully, J. KIMBALL. Messrs. ELY BROS.—I suffered greatly with Catarrh of the Stomach, and remedies without effect. After using one bottle of your Cream Balm I found relief and I cannot praise too highly such a remedy.

The act passed by the last Congress taxing oleomargarine and other colored imitations of butter 10 cents a pound has had a marked effect. In nine months' time there was a decline of 26,599,991 pounds in the production of oleomargarine. The tax was formerly 2 cents a pound. It is now 10 cents. The article is colored to represent butter; but if sold in its natural color or any other color than that intended to imitate butter the tax is only one-quarter of a cent. The decline in the demand is said to be proof enough that its large and heretofore growing sale was the result of its fraudulent use as butter.

## For Those Who Live On Farm.

Dr. Bergin, Pana, Ill., writes: "I have used Bergin's Snow Liniment, always recommended to my friends, as I am confident there is no better made. It is a dandy for burns." This liniment is a farm are especially liable to many accidental cuts, burns and bruises, which he rapidly cures. Bergin's Snow Liniment is kept in the house for cases of emergency. 25c, 50c, and \$1.00 at City Drug Store.

## The Five Stages.

At 17 she said: "I want a man who is ardent in all of love's ways, and whose passionate devotion may never flag. He must be tall and broad-shouldered and handsome, with dark, flashing, soulful eyes, and if need be, go to the ends of the world for my sake."

At 20 she said: "I want a man who unites the tender sympathy of a woman with the bravery of a lion. I don't mind his being a little dispirited, because that always adds a charm. He must be, however, accomplished to the last degree, and capable of any sacrifice for my sake."

At 25 she said: "I want a man who unites with an engaging personality a complete knowledge of the world, and, if of necessity, he happens to have a pen, he must also have a future; a man whom I can trust, can look up to at all times without the slightest embarrassment."

At 30 she said: "I want a man with money. He can have any other attribute that it may be in his power to possess, but he must have money, and the more he has the better I will like it."

At 35 she said: "I want a man."

## Keep the Balance Up.

It has been truthfully said that any disturbance of the balance of health causes serious trouble. Nobody can be too careful to keep this balance up. When people begin to lose appetite, or to get tired easily, the least imprudence brings on sickness, weakness or debility. The system needs a tonic, craves it and should not be denied it; and the best tonic of which we have any knowledge is Hood's Sarsaparilla. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that it enjoys as a cure. Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength, and endurance.

## FOR SALE.

A fine
