

PERSONAL MENTION.

Sheriff Rader drove down to Medford Monday evening.

Postmaster Miller of Jacksonville was a recent Medford visitor.

Dr. and Mrs. J. M. Keene are among those who are stopping in Big Butte district.

E. King and A. J. Stevens, of the Jackson County Lumber Co., were in Medford Monday.

Walter Hoag has been at the Poor-man's Creek saw mill on different occasions. What for?

Thos. Collinson of Portland, the veteran representative of Fleischner, Mayer & Co., is in the valley.

Rev. W. F. Shields attended a meeting of the R. A. M., held at Jacksonville Monday evening.

C. W. Cottam is with us again, representing M. J. Keller & Co. in his usual acceptable manner.

H. S. Brumble was in Jacksonville, after a load of sawdust from the Iowa Lumber Co.'s mill, Monday.

W. H. Parker, the attorney, left for Oakland, Cal., Sunday, and will receive medical treatment while absent.

Miss Ethel Elliott of Portland arrived Tuesday morning for a visit with friends living in Medford and Jacksonville.

Henry Martin of Siskiyou county, Calif., a prominent stockbuyer, is in this section for the purpose of buying hogs. Nobody seems anxious to sell as yet.

The party of 22 ladies and gentlemen who arrived from Omaha last week, for the purpose of securing timber land, left for California Sunday, without finding anything to suit them here.

V. P. Cokkin, who holds a responsible position in the office of the S. F. Co. at Portland, accompanied by his wife and sister, made their cousin, C. W. Conklin of Jacksonville, a short visit last week.

A. T. Lundgren, who is operating in Cook & Green district, was among us one day this week. He informs us that a great deal of development work is being done there, and that the outlook is quite promising.

Prof. N. A. Jacobs, the well-known educator, is making a visit. Mrs. Vrooman, his mother-in-law, accompanied him. He will be here from Wednesday to Friday. He is the partner of the Riverside Business College, a prominent educational institution of Southern California. We wish him success in his new venture.

All Humors

Are impure matters which the skin, liver, kidneys and other organs can not take care of without help, there is such an accumulation of them.

They litter the whole system.

Pimples, boils, eczema and other eruptions, loss of appetite, dizziness, feeling, biliousness, fits of indigestion, bad headaches and many other troubles are due to them.

Hood's Sarsaparilla and Pills

Remove all humors, overcome all their effects, strengthen, tone and invigorate the whole system.

"I had salt them on my hands so that I could not work. Hood's Sarsaparilla and it drove out the humor. I continued its use till the sores disappeared." Mrs. I. A. Brown, Rumford Falls, Me.

Hood's Sarsaparilla promises to cure and keeps the promise.

A Ghastly Confession.

Smarting from the stings of a guilty conscience John Cantrell, serving a sentence in the Indiana penitentiary for grave robbery, made confession of six horrible murders. He confessed to having killed five men and one woman, robbery being the motive. After having robbed the bodies of his victims of their effects Cantrell took them to a medical college and sold them for dissecting purposes.

This pig-blooded confession clears up several mysterious cases of dis-appearances to which clues were absolutely wanting.

There is great indignation against the medical college for handling bodies that could not but have given evidence of violent death.

Boy Cured of Colic After Physician's Treatment Had Failed.

My boy when four years old was taken with colic and cramps in his stomach. I sent for the doctor and he injected morphine, but the child kept getting worse. I then gave him a teaspoonful of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and in half an hour he was sleeping and soon recovered. —F. L. WILKINS, Shell Lake, Wis. ENTIRE TRAINS ADDED TO THE CIRCUS

Phenomenal Enlargement of Ringling Brothers' World's Greatest Shows.

Ringling Brothers' World's Greatest Shows, which exhibit in Medford Saturday, Aug. 29, has been enlarged upon such a broad scale of liberality as to almost preclude the depletion of its real magnitude on paper. The Ringling Brothers, always modern and progressive, have had for years the biggest and best show on earth; yet this season they have more than trebled their immense amusement enterprise by the addition of complete new trains, hundreds of horses and people, and by entire new shows. The crowning feature of these almost unlimited additions, the grand spectacular and pantomimic production of Jerusalem and the Crusades, in which are shown twelve hundred characters, magnificent costumes, fifteen carloads of special scenery, and an enormous triple strength cathedral pipe organ of rare volume, power and sweetness of tone. This spectacular is shown in the largest tent ever made for a circus—a vast canvas theater, arena and aerial caclive, brilliantly lighted by electricity. Jerusalem and the Crusades is but one of hundreds of marvellous attractions the Ringling Brothers have gathered from all parts of the compass. The most recent street parade—a glittering pageant fully three miles in length—is alone worth the amount charged for the circus proper. It is replete with new and novel professional attractions, displaying floats representative of every country on the globe, richly attired horsemen from every known nation, and monster herds of elephants and camels, with a division for the children, and a full hundred cages of the rarest wild animals known to zoologists. In the arena performance the Ringling Brothers introduce 375 performers, each one a premier artist. Among them are superb aerial feats by the renowned Potters and the Flying Fishers, the famous Nelson Family in an entirely new act, the Dillard troupe, direct from European triumphs in a sensational acrobatic act; the Forane Brothers, comedy acrobats; Genaro and Theol, unrivaled contortionists; the Rio Brothers, Frank Smith, known the world over as the upside-down man, and many other incomparable aerialists, acrobats and equilibrist. The riders this season include John and Michael Rooney, who have long held the championship of the world; Ben McGree, Miss May Davenport, the Waileys, recently imported from Australia; the Hobsons, the St. Louis, Rhoda Royal, John O'Brien, John Agee, Albert Thompson, Madame Royal, Miss 11a Miscy, John Slater and a host of others. In the trained animal display the Ringling Brothers present three herds of huge elephants, under the direction of Pearl Soudo, troops of cute little ponies in acts that never fail to please the children. Captain Webb's wonderful performing seals, cake-walking and high school horses in exhibitions of the highest type of equine intelligence and a marvelous new compass—sixty-one beautiful specimens of burrhead performing at one time in an ordinary circus ring. The circus performance is given on four stages, in three rings, and on a wide quarter-mile hippodrome track.

A Thorough Campaign Promised.

J. W. Baker, state game warden, will not appoint county wardens, as has been the custom heretofore, but will divide the state into districts and appoint a deputy for each district.

Linn county, he says, ranks first in the number of violations of the bird law. While many of the violations are committed by residents, he says the Portland hunters will go out on the overland and drop off at some small station and be out in the fields by sun-up and will kill a buzzy full of birds before other people are a-wake. They generally have a boy with them, and if they exceed the limit "the boy kills them." Yamhill ranks second in the violation of this law, and like Linn county has to bear the responsibility of the depredations of the Portland hunters.

Mr. Baker says that when it comes to killing unlawfully none of the counties in the state can approach Jackson and Josephine. There they are slaughtered for the hides, in season and out of season, and shipped in to California.

A special effort will be made to apprehend them, and the warden has an arrangement by which he expects to arrest and punish the guilty parties.

A WONDERFUL INVENTION.

It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to comfort the people and meet popular conditions, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, 1899. These wonderful combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used in connection with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days' time. Thousands of these electric combs have been sold in the various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich as designed these combs. They positively sell on sight. Send for sample. Men's size 35c. Ladies' 50c.—half price while we are introducing them. See Wanted Column of this paper. The Dr. White Electric Comb Co., Detroit, Ill.

Only a Mask.

Many are not being benefited by the summer vacations as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by trifles, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine, which, as we know, "builds up the whole system."

A New Corporation.

Articles incorporating the Missouri Mining Co. have been filed in the office of the county clerk by J. E. Shearer, M. O. Warner and W. M. Scott. The capital stock is placed at \$25,000, divided into shares of \$1 each, and Medford is to be the principal place of business. The present property of the company is located in Steve's Fork district. It is rapidly being put in shape for extensive operations. There is an ample supply of water, as well as a large area of ground that will pay well. The promoters of the enterprise have the best wishes of all.

Fire in Jacksonville.

Two barns in Jacksonville, located on Oregon street, one belonging to John A. Marsh and the other to the Hauser estate, were burned Tuesday, at about 11 o'clock. The first contained about a ton of hay, while the other was empty.

It was plainly a case of incendiarism. The fire department responded promptly, but could do nothing except to prevent the flames from spreading to adjacent property.

Mr. Marsh estimates his loss at \$150. There was no insurance in either case.

Dysentery Cured Without the Aid of a Doctor.

"I am just up from a hard spell of the flux" (dysentery) says Mrs. T. A. Pinner, a well-known merchant of Drummond, Tenn. "I used one bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was cured without having a doctor. I consider it the best cholera medicine in the world." There is no need of employing a doctor when this remedy is used, for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by City Drug Store.

THE OLD RELIABLE

ROYAL BAKING POWDER

Absolutely Pure

THERE IS NO SUBSTITUTE

HAS THE LOOK OF A PENSION AGENT

According to Washington Dispatches T. A. Wood May Be Disbarred.

T. A. Wood of Portland, the moving spirit in the Indian War Veterans' Association, has become involved in serious trouble with the Pension Bureau, which may lead to his department from practice before the Interior Department, if the charges lodged against him are found to be true.

For several months past the pension office has been receiving charges that Wood, in the prosecution of pension claims for Indian war veterans, has been resorting to practices which are prohibited by law. So numerous did these complaints become that five special examiners were sent to Oregon to make a thorough investigation into the practices of Wood and to determine whether he has overstepped the laws. These examiners have taken several hundred claims that were filed by Wood, but which have not been allowed because of some irregularity or lack of evidence, and notwithstanding the findings of the examiners as regards Woods, the veterans whose cases are involved are almost sure to benefit from investigation.

The law governing attorneys practicing before the Pension Office limits the fees to be collected from Indian War veterans to \$25, the understanding being that full payment shall not be made until the case passes to issue. In all the claims filed by Wood there has been an agreement signed by the claimant, insuring him self, but it is numerous charges that in addition to this amount Wood has attempted to exact additional payments from the old men because a few of them are not under seventy—yet he does not bear of any one getting the \$25 due for each quarter of the year except those who have given fit to pay Wood twenty-five dollars for the real work. He knows a good thing when he has it, to the extent that he is willing to share five dollars with any person who brings him a victim.

It is a shame that these old men who, with some exceptions, need the pity more than anything else, should be robbed of a part of it. Why don't the government pay them without the intervention of an attorney.
