## MRS. ETHEL WATKINS

GIVEN THREE MONTHS TO LIVE BY A COUNCIL OF DOCTORS.

Cured of Anemia by Dr. Williams' Pink Pills After Ordinary Medicines Had Failed.

From a despondent woman, given up to be by the best physicians she could summon, Mrs. Ethel Watkins, of No. 112 Parker street, Scranton, Pa., has become well and cheerful, a living, enthusiastic endorsement of the remedy to which she owes her life and health. Mrs. Watkins was afflicted with anemia, a disease in which the blood becomes deficient as to be unable to furnish the tissues of the body with necessary nourishment. Every organ is starved and the patient becomes white and waxen in appearance. If this condition is not quickly remedied it runs into persistent anemia, one of the most hopeless of diseases. In Mrs. Watkins' case, as usually happens, the character of the disease was not discovered until it was well advanced. She says: "If I happened to scratch or cut myself no blood would flow—just a watery looking fluid. I was absolutely this for white as a sheet and without a bit of strength. Three doctors attended me and all said I could not live three months. I had no appetite, my heart was weak, sleep did not rest me and I became despondent. The doctors' medicine did not help me and neither did anything else that I tried until, upon the advice of a friend who had been cured of anemia by Dr. Williams' Pink Pills for Pale People, I began taking them. They helped me almost immediately and, by the time I had taken seven boxes, cured me. I am always glad to recommend Dr. Williams' Pink Pills for Pale People to others." The power of Dr. Williams' Pink Pills in diseases of the blood and nerves has been shown in hundreds of cases which have not yielded to ordinary treatment. Dr. Williams' wonderful discovery, as embodied in these pills, has cured partial paralysis, St. Vitus' dance, scurvy, neuritis, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pain and ailment complicated and all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price. Fifty cents a box; six boxes for two dollars and a half, by addressing Dr. Williams Medicine Co., Schenectady, N. Y.

THE belief in general among stockmen that the price of cattle will materially advance in the near future, in fact the market is already growing stronger. The decline was due to the reported hay shortage; and now, that the buyers are convinced that they can get no more cheap cattle on that account, will in all probability advance the price to figures that will be acceptable to owners.

THE most desperate of criminals seem to be those who expect the most clemency. Now comes Chris Evans, who with Sontag took part in one of the most sensational episodes in the criminal history of the coast, asking Governor Pardee of California for release on parole. He has been confined in the state prison at Folsom during the past ten years, the officials of which have given him the recommendation of being a model prisoner. His kind cannot be in custody too long.

## That Tired Feeling is a Common Spring Trouble.

It's a sign that the blood is deficient in vitality, just as pimples and other eruptions are signs that the blood is impure.

One thousand volumes of well-selected books have been added to the Normal library this year.

The use of a good gymnasium will minimize the importance of many of the rougher sports as the year advances.

Professors Payne and Watts are creating much interest in out-of-door sports, and the students are giving their attention to wholesome exercise.

The Normal School represents fifteen counties this year. They are: Jackson, Josephine, Douglas, Lane, Multnomah, Marion, Clackamas, Coos, Curry, Crook, Klamath, Lake, Washington, Yamhill, Polk.

The Normal feels that it is a Southern Oregon institution. It rejoices in the prosperity of neighboring towns and the country tributary to them. This great section of the state should have at least one educational institution toward which all can look as a thing to be proud of and as a good educational home for their children.

## A Big Undertaking.

One of the heaviest undertakings ever begun in Southern Oregon is now under way, a corps of engineers being at work surveying for final work on the last forty miles of the Gold Hill High Line ditch, which is one of the largest ever undertaken in Oregon, and besides being used for the great placer deposits which it is intended to supply with water, will irrigate 20,000 acres of agriculture land. When completed the project will cost over \$1,000,000, a large sum of which has been assured.

The ground to be covered is in Jackson county, and the head of the ditch commences above the Rogue river falls. The placer spread comprises 20,000 acres and each year there will be 100 acres of placer worked under the ditch. The company is local in organization, and Milo P. Ward, who is one of the members, is now at Indianapolis, Ind., his old home, getting the funds to be secured.

Already 20 miles of the work is well under way, and it is expected that within a year the ditch will be in operation.

## Another Fatal Accident.

Geo. Smith, a young man residing in Big Butte precinct with his parents, Mr. and Mrs. W. H. McKee, was last Saturday the victim of an accident that proved instantly fatal.

That morning Smith had gone forth to cut down a tree. He accomplished his work, but with results that caused his death. After the tree had been cut through it snapped off in such a manner as to catch the unfortunate man, crushing him in a fearful manner. Not returning when expected, Smith's relatives instituted a search and soon found his body.

They pleaded guilty in Justice Jacobs' court, but as some of them had the wherewith to liquidate and all would be obliged to go to jail, they were allowed to go hence this time. Mr. Williams is very active and violators of the law should give him a wide berth.

## Almost a Serious Occurrence

The firing of five shots early Sunday night, four of them in quick succession, caused considerable excitement in Medford for awhile.

It seems that Walter Wyland, an individual who has been engaged in several questionable transactions lately and made himself quite obnoxious hereabouts for sometime past, went into the Hotel Nash bar, in an intoxicated and quarrelsome condition for trouble. He had been ordered out of the place before, and when he returned the bartender, Chas. B. Gay, mistrusted that he carried a concealed weapon.

Wyland declined Gay's invitation to disarm himself, when the latter fired his pistol and evidently wounded him, as blood was afterward seen on his person. Wyland then ran behind a partition and fired four shots at Gay, none of which took effect, however. The bar-room was filled with people at the time and it is surprising that somebody was not hit.

Immediately afterward Wyland obtained a horse and buggy and disappeared, whether nobody seems to know, although the rig was returned. He will be promptly arrested should he return.
