INFORMATION WANTED.

The problem of pure water supplies, not only for large cities but also for small country villages and settlements, is constantly increasing in importance. It now demands the serious attention of engineers and scientists throughout the country. Except tp 37, r 4 w; thence south along tp in thinly-settled regions, surface streams and lakes seldom furnish pure water, and at a great number of localities dependence is now placed on wells and springs. These are also beginning to be used with conspicuous success for the irrigation of rice and other products at many points in the Beginning at where Bear creek in- South, where they have been the pretersects the Willamette meridian, at dominant factor in the development

Brander Matthews, who writes correct and dreary platitudes, has de

township 37 south, range 1 west, incorporated, the necessity of tearing parison of any work published now 15, tp 37 south, r 2 west; thence south- with one published a century or more erly along Griffin creek to beginning, ago. None at the time of its introduction has been the result of a radical or deliberate effort. The change has been wrought almost unconsciously. There has been no occasion in the past for marring and mangling the English language, and no such occasion has arisen yet. There is no harm, for instance, in dropping the figal "me" from the old word programme, and the "ue" can be spared from ca'alogue. To make these changes does not require any formal convection; people simply make them. if they feel like it, and there is an end of the matter. It is no more serious than the dropping of the "u" from pariour or one "g" from waggon. To inaugurate a complete system of phonetic spelling, which, by the way, w uld have to be written "fonetic would be as wanton an act of vandalmarble statue. It might result in the removal of some inconsistencies, but it would introduce others. The Engish language is a beautiful structure, a reason which may embrace the his tory and genesis of each word behind every apparent anomaly in spelling The scholar who would attack it importance of pure water for public might easily be in better business. "I dreaded the change of life which

was fast approaching. I noticed Wine of Cardul, and decided to try a bot-

tle. I experienced some relief the

first month, so I kept on taking it for

three months and now I menstruate

with no pain and I shall take it off and

on now until I have passed the climax."

Female weakness, disordered

menses, falling of the womb and

ovarian troubles do not wear off.

They follow a woman to the change

of life. Do not wait but take Wine

of Cardui now and avoid the trou-ble. Wine of Cardui never fails

to benefit a suffering woman of any age. Wine of Cardui relieved Mrs. Webb when she was in dan-

ger. When you come to the change of life Mrs. Webb's letter will

mean more to you than it does

now. But you may now avoid the suffering she endured. Druggists

sell \$1 bottles of Wine of Cardui.
