STOCKRAISERS in Eastern Oregon have formed a combination by which they hope to dispose of their stock to a better advantage than by selling to the buyers. They will employ their own traveling salesman and will probably open retail markets. There are buyers in the field, but they quote lower prices than last year, and will buy only cattle that are in prime condition.

THE Cuban reciprocity bill passed the House with only 21 votes in the negative. All the California congressmen except Gillette voted against the measure. In the Senate all the Republicans are favorable to the bill, except Bard of California, and there are several Democrats in favor of it. It will eventually pass after a hard fight, but will not be adopted at the extra session, on account of so much time being consumed in making speeches by its op-

### Where Turkeys are Dear.

Turkeys will be a luxury to most New York people this year. The price is almost a record-breaker. Turkeys, geese and ducks are selling at 30 cents a pound in the city markets, or 10 cents higher than in 1901. The price of all classes of poultry has advanced steadily, even chickens being at an almost prohibitive figure. Eggs also have risen as far as prices are concerned, being quoted at 40 cents a dozen. Poultry-raisers, to take advantage of the scarcity in turkeys, are killing their chickens to get the big prices.
