

The Democratic Times

VOL. XXXIII.

JACKSONVILLE, OREGON, WEDNESDAY, DECEMBER 9, 1903.

NO. 49

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic. "I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial; but gradually grew worse until I could hardly bear, taste or smell. I then concluded to try Hood's Sarsaparilla, after taking five bottles I was cured and have not had any return of the disease since." *Kramer, Kansas.*

Hood's Sarsaparilla

Cures catarrh—it soothes and strengthens the mucous membrane and builds up the whole system.

It appears that the voting machine has come to stay and a long time ago the public will be devotedly thankful at this simplification of the cumbersome machinery of our elections. Machines were used in the recent elections in New York City, and a trial of them was made in the last municipal contest in San Francisco. They proved a complete success, the returns of each precinct being known ten minutes after the closing of the polls.

JOHN ALEXANDER DOWIE has issued a command to his simple-minded followers to sell their belongings and place in his hands \$2,000,000 for the advancement of Zion. It is to be hoped that the command will be obeyed. One of the surest and quickest ways of curing idleness is to remove its environment, and the possession of money is inevitably the worst possible environment for idiots. When Dowie's followers have nothing to give they will be powerless to assault common sense.

ANOTHER ATTEMPT is being made to unite the farmers under the name of "The Farmers Educational and Co-operative Union of America," its avowed objects being "to teach the farmers to buy and sell in bulk, to educate about agricultural lines and to eschew politics, but nevertheless to discuss political economy." The movement began at Emory, Raines county, Tex., ten months ago, and has grown until it is established in every portion of the state. Its promoters, who are not named, hope the farmers' union will spread over the nation.

It seems that District Attorney Conn of Lake and Klamath has finally awakened to the enormity of the crime committed by Philip Barry, the young man who killed Timothy Ahern in cold blood, near Flash, some long since, and he proposes to have him tried for murder. His deputy, Geo. S. Nickerson, had him bound over on a charge of manslaughter, and he was out on bail. There was much indignation expressed by the people over this apparent miscarriage of justice, which Mr. Conn was not slow in heeding.

THE sailing of part of the American fleet of warships for the Caribbean sea, to take part in the maneuvers during the coming winter, again directs attention to the growing importance of those waters for strategic purposes. In Europe the Mediterranean has long been regarded as the common naval battleground, and in that sea the several powers have their strongest naval forces constantly engaged in studying the problems that might arise in case of war. Within recent years, however, the scene has been shifting, and while the Mediterranean has not been forgotten or abandoned, the Caribbean has been growing in international attention.

THE United States department of agriculture is doing a great work for the country in the line of practical education in farming. Agriculture is a science, and it can only advance through the practical application of the results of study and research. The practical farmer, like the practical mechanic, must follow and utilize the work done in the laboratory by the patient investigator and scholar. Secretary Wilson's annual report to Congress opens with a discussion of the educational requirements of the research work of the department. Although the department has availed itself to the fullest extent of graduates of the agricultural colleges, it has been necessary, in view of the rapid development of the work, to secure competent men wherever they could be found. In the training of specialists for its various lines of work the department has some practically a post-graduate institution. Mr. Wilson, in illustration of this fact, reports the admission to the department since 1897 of 496 students; 249 of these are still in the department, not less than 132 having passed into the classified service. The most successful farmer is the man who makes the most application of the discoveries of the scientists, both in the use of his soil and in methods of cultivation. Agriculture is advancing as a science as rapidly as electricity or surgery or mechanics. It is wonderful to think how the civilization of the world has advanced through the introduction of scientific methods of study.

CHRISTMAS BALL.

A dancing party will be given at Rose's Hall, Applegate, Christmas night. The best of music and supper will be provided. Tickets are \$2.00, supper and horse-feed, \$2.00. Nothing will be left undone to make this a first-class affair.

Be Quick.

Not a moment should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. It never fails, and is pleasant and safe to take. For sale by all Druggists.

SETTLE UP NOTICE.

All persons indebted to the undersigned are requested to call and settle immediately. Accounts not paid by Jan. 1, 1904, will be placed in an attorney's hands for collection. A word to the wise is sufficient. DUNNINGTON & DENREFF, Jacksonville, Nov. 19, 1903.

WANTED—SEVERAL PERSONS.

Character and good reputation in each state one in this county required to represent and advertise old established wealthy business houses of solid financial standing. Salary \$21.00 weekly with expenses additional, all payable in cash Friday every Wednesday from head offices. Horse and carriage furnished when necessary. References. Enclose self-addressed envelope. Colonial, 332 Dearborn St. Chicago.

Several of our merchants are shipping mistletoe to the larger cities, both north and south, for the holiday season. This has grown into a considerable industry.

SERVICE ON JURIES.

Juries are indispensable under our system of jurisprudence. The work of grand and petit trial juries is essential in both civil actions and criminal prosecutions. The province of the jury is to determine the facts. Men of intelligence, respectability and honor are needed for service on juries. The list of persons liable to jury duty are presumed to include all who are qualified and legally liable to serve. The names of a sufficient number to constitute a panel are drawn by lot from the whole number whenever a jury is required and the persons drawn are expected and required to serve unless excused by the court.

Head About to Burst From Severe Bilious Attack.

"I had a severe bilious attack and felt like my head was about to burst when I got hold of a free sample of Chamberlain's Stomach and Liver Tablets. I took a dose of them after supper and the next day felt like a new man and have been feeling happy ever since," says Mr. J. W. Smith of Juliet, Texas. For biliousness, stomach troubles and constipation these Tablets have no equal. Price 25 cents. For sale by all druggists.

The Two-Minute Trotter.

In attempting to determine the most potent factors that have contributed to the production of the two-minute trotter many different theories are necessarily suggested, all possessing more or less merit and entitled to be considered in arriving at a correct conclusion, and while the views I entertain may not be in harmony with those of other men who have given the subject careful consideration, they are the result of my best judgment, based upon observation and an experience of nearly 40 years.

Another Sawmill.

The venerable wife of Ben. Eggleston writes Ed. C. Nud, Iowa, Sedgwick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me. I used three 50c bottles. It is the greatest liniment I ever used; had recommended it to a number of persons; all express themselves as being benefited by it. I now walk without crutches, able to perform a great deal of light labor on the farm." 25c, 50c and \$1.00. Dr. J. Hinkle, Central Point, Ore.

Another Sawmill.

D. L. Avery, J. Bassener, M. H. Abbey and J. D. Holton, Vancouver, Wash., who have timber claims located near Grants Pass, may build a sawmill. Should their proffers be accepted by the government they contemplate building a sawmill either at Grants Pass or some place between there and Tule Caines, a point on E. on creek, which only intersects their claims, but taps a large timber belt in Josephine county. In either case a private railway will be built from Twin Cabins to Grants Pass for the purpose of transporting lumber and sawlogs, thus giving ample facilities for the shipment of lumber over the Southern Pacific railway to various ports and the eastern markets.

BRIEF MENTION.

This is the season of society elections. Cool, frosty weather is the order. Nights are cold enough for nearly any body.

They Had a Jolly Time.

The Southern Oregon Shriners of Al Kader Temple, Portland, who left Ashland for Redding on the mid-night train, Friday, to attend a special ceremonial session of Islam Temple of San Francisco, held at that place, the next day, returned Sunday evening. They report a most enjoyable trip and a large gathering of mystic Shriners at Shasta's country-seat. A class of 75 novitiates were led across the burning sands to Mecca, some 400 Shriners from far and near joining in the ceremonies of the occasion, which concluded with an elaborate banquet at Hotel Lorenz.

PERSONAL MENTION.

Mrs. Jo Orth has been making Modford a visit. Mrs. B. P. Thoms was a Jacksonville visitor Tuesday. Chas. Sullivan and his family have become residents of Modford. Miss Ada Norris, who has been quite ill, is convalescent, and we are pleased to learn.

LOCAL NOTES.

Wm. Cameron of Union was among us one day last week. N. C. Gunn, a prominent citizen of Phoenix, was in Modford Wednesday. Grant Shell has returned from California, where he has been for sometime past. Miss C. Lion and Mrs. T. Cameron were in Modford the forepart of the week.

Presented With a Charter.

Melita Commander, No. 8, Knights Templar, of Grants Pass, which has been working for several months under special dispensation, was formally presented with its charter Monday evening by Grand Commander Geo. H. Hill of Portland, Grand Secretary Warden Frank J. Miller of Albany, Grand Prelate A. M. Knapp of Portland and Grand Captain-General Geo. H. Burnett of Salem.

CURED PARALYSIS.

W. S. Bally, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I had also used it for sores, frostbites and skin eruptions. It does the work." 25c, 50c, \$1.00. Dr. J. Hinkle, Central Point, Ore.

Ask President's Aid.

Senator Mitchell has called on the President, to bring to his attention the general up-of government land matters in Oregon by the temporary withdrawal of lands for inclusion in forest reserves and the suspension of entries made under the timber and stone act. He pointed out the great damage being done the public by this procedure. He stated that 22 temporary settlements of land from all forms of entry have been made and upwards of 10,000 timber and stone entries have been suspended and many homestead entries are also tied up.

December Jury Panel.

The next regular term of the Circuit Court for Jackson county will begin Monday, Dec. 14th. The docket is not a long one, having few important cases on it, and will soon be disposed of.

A Strange Suicide.

The body of John Shay was found Saturday morning, suspended from rafters in a small shed adjoining his home at Dunsuir. Indications point to a clear case of suicide and that the rash act was committed some time after 12 o'clock Thursday night. The sad affair is apparently a sequel to the murder of John Inhoff by C. B. McKenzie at Dunsuir.
