Aching Joints

In the fingers, toes, arms, and other parts of the body, are joints that are inflamed and swollen by rheumatism—that acid condition of the blood which affects the muscles also.

Sufferers dread to move, especially after sitting or lying long, and their condition is commonly worse in wet weather.

"It has been a long time since we have been without Hood's Sarsaparilla. My father thinks he could not do without it. He has been troubled with rheumatism since he was a boy, and Hood's Sarsaparilla is the only medicine he can take that will enable him to take his place in the field." Miss Ada Doty, Sidney, Iowa.

Hood's Sarsaparilla and Pills

Remove the cause of rheumatism—no outward application can. Take them.

THE refusal of the dean of Westminster Abbey to allow the ashes of Herbert Spencer, the great philosopher, to rest there, is another illustration of "the ass kicking a dead lion." The world thinks none the less of the dead because of this episode.

KAISER WILHELM of Germany seems to have fully recovered from the operation which is said to have been performed for cancer of the throat. It is very often the case that the sickness of the heads of nations is exaggerated, and this is perhaps another instance of it. The Emperor of Germany is the greatest of European rulers, and has no superior in the world; hence his loss would be irreparable.

THE National Republican convention will be held in Chicago, beginning at noon, on June 21st next. Pittsburgh and St. Louis were rivals of Chicago for the convention. Each city was well represented in oratory before the committee, and each had offers to make. Pittsburgh offered \$100,000, Chicago \$75,000 and a hall, and St. Louis \$40,000 and a hall. The vote stood 43 for Chicago, 7 for Pittsburgh and 1 for St. Louis.

THE coal companies who agreed last winter to arbitrate the strike, now refuse to obey the findings of the board, because they cannot be enforced in court. If the miners had refused, they would have been anarchists. The time will come when laws will be passed that will control these coal barons, and if they continue to disregard the welfare of every one else they are liable to find that they will not be handled with gloves either.

THE tax law introduced by Representative Phelps of Morrow, which is the cause of the special session called by Gov. Chamberlain, should be repealed. The law is intended to supplant is good enough. Under it every dollar of the state tax levy of 1903 has been paid into the State Treasury, and the new year will be commenced with every county square with the state in this regard. The total amount of the state tax is \$760,000, of which sum \$25,000 was apportioned separately as an Agricultural College fund. The state tax is payable in two installments. Thirty days' additional time may be taken without incurring an interest penalty under the present tax collection system. The county clerks have been able to collect taxes promptly and have had funds with which to pay the state taxes when due. Why change it?

THE Oregonians who the Oregon Senators are likely to be called upon to recommend a new man for receiver of the Roseburg Land Office in place of James H. Booth, whose reappointment, as well as that of Register Bridges, they requested some time ago. A careful and thorough investigation has been made into the records of both men. No objection is raised to Bridges, but Booth is shown to be a prominent officer in the Booth-Kelly Lumber Company, and its relations with that company, which has been extensively operating in timber lands in Southern Oregon and Northern California, leads Secretary Hitchcock to believe that Booth should not hold a Government and private office simultaneously. Booth has already served a year and a half beyond his appointed term.

THE introduction of the study of agriculture and horticulture into the public schools should be encouraged everywhere. Students and advocates of agricultural education and training will find encouragement in comprehensive plans now in process of being put in practical operation in Minnesota. Agriculture is to be introduced extensively into the rural schools, and a bulletin has already been prepared and published for the use of teachers. The book comprises over two hundred exercises and experiments, and a copy will be furnished to each rural teacher in the state. Timely exercises and studies are provided for each season of the year, and the topics under consideration are those of greatest practical moment to the farmers of the respective localities. Each topic is treated under four subdivisions: First, the object sought; second, materials to be used; third, plan of work; fourth, suggestive facts to the teacher. Field crops, horticulture, dairying, chicken raising, stock feeding, housekeeping, dairying, cooking and sewing are thus systematically treated by educational experts.

A Fatal Accident.

James Maden, in the employ of the Western Union Telegraph Co., as a lineman, received injuries while at work with the construction gang, north of Grants Pass, Saturday afternoon, from which he died the same day. J. H. McFarland, in charge of a force of men, was distributing poles along the railroad, on which the Telegraph Company will place a new line, and had reached a point midway between Grants Pass and the station north of that place. The method of distributing these poles is attended with some danger, as the train which carries them is under slow motion as the big timbers are thrown off. According to report the end of a big stick hit Maden and threw him from the two cars; but whether the force of the blow or being thrown under the cars caused the injuries is not stated. Everything possible was done for him, but death followed shortly. Deceased was a native of Denmark. The remains were taken to Portland for interment, says the Tidings.

His Politics the Wrong Brand

D. T. Sears, who has been holding a position in the internal revenue service at Spokane—that of gauger—was removed by Collector Crocker last week. He is a Democrat, but has been immune for several years under civil service regulations. Mr. Sears held a similar position here while the McFarland bill was in operation and a long time afterwards. What his future plans are he has not divulged.

Circuit Court Notes.

The December term of the circuit court for Jackson county is in session in Jacksonville. It promises to be a protracted one, as there are quite a number of jury cases.

A grand jury was empaneled, consisting of J. Nunan foreman, H. H. Taylor, R. H. Halley, J. G. Hodges, A. B. Salmars, P. Hull, H. L. Gregory, A. Thompson as bailiffs. It has already found several true bills.

Chas. Schultz again fills the position of court bailiff, in which capacity he has served so long.

The grand jury has found a true bill against E. Graham, who burglarized Sheriff Rader's store at Talent. His address is not known at present.

A business man of Jacksonville was before the grand jury Monday, charged with selling small mirrors embellished with obscene pictures. We learn that he has been indicted.

Roy Hulbert, who was charged with being a member of the Lyons gang of horse thieves, had his trial Monday. Several witnesses from Eugene, among whom were Constable Smith, Marshall Stiles, Mr. Brackett and A. N. Striker, testified; also Mr. Culver and Mr. Talmidge of Dunsmuir, Calif., were examined. The jury was not long in acquitting the defendant.

J. J. Boasey, who lives a few miles south of Jacksonville, has been indicted for trespassing on the land of Mr. Clark, a neighbor.

Just Like Her.

An old man would not believe that he could hear his wife talk at a distance of five miles by telephone.

His better half was in a country shop seven miles away, where there was a telephone, and the skeptic was also in a place where there was a similar instrument.

On being told to operate it he walked boldly up and shouted, "Hello, Sarah!"

At that instant lightning struck the telephone and knocked the old man down. As he scrambled to his feet he excitedly cried: "That's Sarah, every inch."

Hinkle, Central Point, Ore.

A Wonderful Old Man Dies.

At Salinas, Calif., Dec. 11th, following a sudden collapse, Jesse D. Carr, the well-known California pioneer, politician and millionaire landowner, died; aged 89 years. He possessed much land in Klamath and Lake counties, Oregon, and had considerable trouble with the Government on account of fencing public territory.

Mr. Carr at one time owned over 100,000 acres of land in Oregon and California, but was dispossessed of much of it. He was born in Tennessee, June 10, 1814, and was a sutler in the Mexican war, rendering great service to Gen. Zachary Taylor. He came to California in 1849, and later was collector of the port at San Francisco.

He engaged in farming, stockraising, mail contracting and banking. He commenced the mail service in 1866, and carried the first mail that was ever carried between Virginia City and Boise City. He carried mail between Oroville, Calif., and Portland, Oregon, for four years, working daily something over 500 horses on that route. His estate is worth over \$1,000,000.

The Prune Association.

The annual report of the William et al. Valley Prune Association shows that the association had in its pool this year some 3,277,000 pounds of Italian prunes and 675,000 pounds of Petites, or a total of nearly 4,000,000 pounds.

It says at the opening of the season prunes were sold on a 2 1/2c basis, but this was later reduced to 2 1/4c for all below 30s, and the price at present is on a 2 1/2c basis. No dividends have yet been declared, but it is the intention to close up accounts on Petites and declare a dividend on December 20.

The opinion is expressed in the report that the demand and prices will improve after the first of the year. At the meeting of stockholders there was a unanimity of opinion in favor of the co-operative plan of marketing the crop.

It is not generally known that a law passed at the last legislature provides for the appointment of the road supervisors of the county by the county court instead of their election as heretofore. Unless the coming special session of legislature repeals the law passed at the last regular session the court will make the appointments. The law may be repealed, as it is considered by many to be unsatisfactory. In case it falls upon the county court to make the appointments many of those now holding the office of supervisor will be named to succeed themselves, as they seem to give satisfaction.

Burglary at Gold Hill.

The hardware store of A. L. Harvey, at Gold Hill, was entered last Thursday night, and a number of knives, razors and revolvers stolen therefrom. The circumstances left no doubt that it was committed by tramps.

Policeman Eglin of Ashland arrested a negro answering the description of the Chief Chase by the Marshal of Gold Hill, but he was discharged, as no incriminating evidence against him could be found.

Two men were arrested Monday at the Dunn ranch, situated a few miles southeast of Ashland, while trying to sell a knife with A. L. Harvey's name inscribed on it. We have not learned the result of their examination.

An Interesting Discovery.

It is believed that the remains and treasures recently found in an Indian grave on the bank of Rogue River, near Table Rock, by Elbert and Warren Hulbert, sons of A. N. Hulbert of Sam's Valley, were those of a prominent warrior of the Rogue River tribe, who ruled supreme in the Valley of the Rogue when the white man came over half a century ago. In the grave, beside the skeleton, was an old-time Dutch oven, such as the miners used in the early days in which to cook their flapjacks and "Dutch loaves." And in the oven were a number of Mexican, Peruvian and Spanish coins, with holes punched in them and strung on a buckskin thong. None of the coins bore a date later than 1840, and some of them were dated as early as 1820, proving that the Indian must have gone to his happy hunting grounds early in 1850 or the latter part of the '40s.

Other things found in the grave, which undoubtedly comprised the redskin's most highly-prized earthly treasures, were a quantity of Indian shell money, or wampum, two stone pestles, a scalp lock of auburn hair—which tells the story of an early-day tragedy—dice and cleaver, and the remains of a pack-saddle.

Table Rock was the headquarters for all the tribes of the Rogue River, and in its shadow chiefs met in council. The place, too, was an Indian village stood, and about Gold Butte, the present site of the power dam of the Condon Water & Power Company, are yet to be seen the pits over which the many tepees stood.

The Greenback is steadily dropping 40 stamps and is approximately producing \$200,000 per year. C. L. Brewster, of New York, the owner of the property, has just made his annual inspection, and is well pleased with the outlook. He has been inspecting some placer mines situated in Stevie's Fork district, Jackson county, belonging to the Oro Grand Mining Co., with a view of investment. Mr. Brewster recently returned from Siberia with his consulting engineer, where he has been for six months developing quartz propositions. He states that he has given up work there and that Southern Oregon is good enough for him.

The big copper deposit of the Coast Range Copper Company, of Roseburg, covered originally by 16 individual claims and located near the Illinois River, in Curry county, has been bonded to F. K. Krebs for \$150,000. It is understood that Mr. Krebs is acting for a syndicate of Spokane capitalists and mining men, headed by the well-known mining operator, Patrick Clark. This bond covers a period of nine months, but development of the property is to commence right away. Some of the richest copper ore ever seen in this state has been taken from this ledge.

Ashtand Went Dry.

The municipal election held at Ashland Tuesday resulted in a victory for the prohibitionists. Their majority is 24. No liquor can therefore be sold legally in that town during the ensuing year.

The proposed charter amendments, providing for the issuance of bonds with which to establish a sewer system and perfect the present water system, also providing for municipal ownership of an electric light and power plant and the submission of the liquor-license question to the voters annually, were all carried.

Sent to the Penitentiary.

Walter Wyland, who created somewhat of a sensation in these parts before being placed in the Jackson county jail, will spend 8 years in the Idaho penitentiary, for the crime of stealing several head of cattle.

Sheriff Rader has been informed by the officer who took Wyland back to that state that the judge before whom he was brought considered that he was a dangerous man and deserved a long term.

While the sheriff was taking him to the penitentiary Wyland broke out with the small pox, and it became necessary to quarantine him.

We do not need to give all the reasons why Scott's Emulsion restores the strength and flesh and color of good health to those who suffer from sick blood.

The fact that it is the best preparation of Cod Liver Oil, rich in nutrition, full of healthy stimulation is a suggestion as to why it does what it does.
