IT is expected that this year will witness great strides in the progress of ærial navigation. The prizes offered by the St. Louis Exposition have acted as an incentive to such an extent that some of the keenest experts have ventured to predict the flyingmachine a practical achievement' before the end of the year. Any one who wishes a wealth of information on the subject within a short space cannot do better than read Mr. John Brisben Walker's article on "The Final Conquest of the Air" in the March Cosmopolitan. It is, moreover, profusely illustrated and describes an ingenious scheme of Mr. Walker's for experiments with æroplanes with perfect safety to the operator.

FAVORITE LILIES.

When and How to Set the Bulbs Some Easily Grown Varieties. The lilies, with the exception of candidum and exelsum, may be planted to advantage in November. Auratum, the beautiful gold banded lily of Japan, is best set ten or twelve inches deep; the others from four to six inches deep. The lancifolium or speciosum varieties are perhaps the most popular lilies grown, as they are of easy culture and produce large flowers of delicate beauty on strong stems.

The lancifolium lilles include albun (white), rubrum (white, shaded with

rose and spotted with deep red,) and melpomene (rich blood crimson, heavily Jacksonville spotted). These lilles grow from two to four feet high and bloom in August. Everybody knows the splendid tiger Blies, with their rich tones of scarlet or orange salmon, spotted with black. The thunbergianums range from lemon color to orange red. Having in mind our country here and there, I think I am quite safe Why not reclothe with white pine. hemlock or whatever has been cut away? Besides this, take the Douglas fir from Colorado. It is as hardy as a rock, its timber is of very great value, and it is a fast growing tree. So much is it valued that thousands of pounds of seeds find their way to Europe annually for the forming of forests there. The Colorado blue spruce and its variety from the Pacific are also in great demand for the same purpose, seeds being shipped in large quantities. Nothing can be said against the titles. Nothing can be said against the many eucalypti. There is too much evidence to the contrary for that.-Joseph Meehan in

"I had a most stubborn cough for many years. It deprived me of sleep and I grew very thin. I then tried Ayer's Cherry Pectoral, and was quickly cured.' R. N. Mann, Fall Mills, Tenn.

Sixty years of cures and such testimony as the above have taught us what Ayer's Cherry Pectoral will do.

We know it's the greatest cough remedy ever made. And you will say so, too, after you try it. There's cure in every drop. Three sizes : 25c., 50c., \$1. All druggists.

Consult your doctor. If he says take it then do as he says. If he tells you not to take it, then don't take it. He knows Leave it with him. We are willing.
