The greatest byproduct in the world in religious matters is the one who prays the loudest. The soldier who never "smelt powder" is frequently found to be the greatest braggart. The political orator who talks most loudly of honor and patriotism is often the one who is most closely allied with those who are raiding the public and abusing the confidence of the people.

ALONG with strikes, now kinds of breakfast foods, etc., comes a new trouble which unfortunately may worry some of us, and that is the threatened diamond famine. The mines of South Africa are nearing exhaustion, and there is no other source of supply to which the world can turn. The De Beers Co., which handles 98 per cent of the entire output, cannot fill its contract for a display at St. Louis.

This work of delimiting the Canada-Alaska boundary, according to the finding of the London tribunal, will be begun this month, and will be prosecuted by several parties of Canadian and American surveyors, operating conjointly, until the end of September. From Mount St. Elias northward to the frozen sea, the line has already been laid along the parallel according to treaty. This portion of the boundary was not in dispute. From St. Elias east and around the coast trip to the head of Portland Canal, a distance of 550 miles, the mountain peaks will be assumed as boundary points wherever such have been marked on the map accompanying the finding of the tribunal.

THE brilliant Japanese successes at Kinohwa and Nanshan Hill are unsettling the ideas of war that we have been painfully acquiring during the past half dozen years. Bloch has taught us in theory and South Africa in practice that assaults upon entrenched positions defended by troops armed with modern weapons are almost hopeless. But the Japanese have assaulted positions that were not only entrenched but fortified, and have stormed them as gallantly as if the Japanese wanted the right of way for a railroad to Port Arthur, no doubt such an arrangement could have been effected. Russians appear to blame England and the United States for the trouble, in a desire to secure trade or territory. The United States distinctly stated it wanted no territory whatever; but Russia, England, France and Germany wanted also and are still pursuing that policy. The United States would rather see China and Japan hold their territories and have their subjects stay there, as this country don't want them to invade America.

RUSSIA, in her agreement with the powers, could have prevented any trouble with Japan, by evacuating Manchuria in accordance with treaty, but evidently did not think the Japanese would put up such a good fight. If Russia wanted the right of way for a railroad to Port Arthur, no doubt such an arrangement could have been effected. Russians appear to blame England and the United States for the trouble, in a desire to secure trade or territory. The United States distinctly stated it wanted no territory whatever; but Russia, England, France and Germany wanted also and are still pursuing that policy. The United States would rather see China and Japan hold their territories and have their subjects stay there, as this country don't want them to invade America.

JOHN B. ROCKWELL, Jr., in a recent talk to his bible class said: "Faith gives substance to the religious aspirations of the soul, assuring us that they rest on truth and fact and are not mere castles in the air. The trouble with us men is that we do not have sufficient faith. We should have more faith in God and more faith in our fellow men. The fact that we have all been deceived at times by people we have placed faith in should not make us lose heart." These are good words, and if they had been uttered by some country minister struggling along on the promise of \$250 per year they might have found lodging in some earnest hearer. Coming as they do from a man whose family is under prejudice more or less justified, they for the most part become as sounding brass or tinkling cymbal.

DURING the past few days a mile jog in the lives of a great many young people has been marked by graduating exercises, in which they formed the central figures. Proud parents, loving friends and patient instructors have listened attentively to youthful plans for increasing and perpetuating all the virtues, for strengthening and perfecting forms of government, and for other projects unheard of until they are announced in the dainty little programs. But let no one make light of these subjects and their efforts. If a student overreaches himself in choosing a subject no harm is done to the student, and the student who in time becomes a fully aware of his overconfidence as though it were pointed out at the time. There is a tendency, already noticeable, to select commonplace subjects with which the student is better able to deal and which they will take more pride in exhibiting in later years. Whatever the subject, however presented, let the critic remember that graduation stands for something. If a student does not know what it is, let one of the graduates tell him.

Sued by His Doctor.

"A doctor here has sued me for \$12.50, which I claimed was excessive for a case of cholera morbus," says White, of Coahuila, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he had used, as I had good reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by City Drug Store.

WANTED.

Agents are paid with success. Send 50c for sample (half price) Write quick. Dr. White Electric Comb Co., Decatur Ill.

THE TARIFF PLANK.

It is Giving the Managers of the G. O. P. Much Anxiety.

Senator Aldrich says the Republicans will revise the tariff when it is necessary to do so, but as the senator manages the Republican tariff programme and in turn is controlled by the trusts the time for revision is certain to be in the distant future. Those of us who are not in the minority of high trust prices, have seen the necessity for tariff reform ever since the combined boosted prices beyond the ability of the poor man to pay. The Rockefeller trust, the Standard Oil trust, with whom Senator Aldrich is connected, will hardly consider it necessary to revise the tariff unless to raise it to a higher plane.

The Republican leaders are now trying to agree on tariff and trust planks to be incorporated in the platform to be adopted at Chicago, and the same juggling with words that will allow both factions to stand on the platform is certain to be presented to the voters. Senators Aldrich and Lodge are said to be preparing the planks under the close supervision of President Roosevelt, and the voter that will not be able to find what he wants will be hard to please.

Yet the fact remains that the protectionists and trust interests will write the platform and also control the action of the Republican national convention, and as every revision of the tariff by the Republicans has resulted in increasing duties it is certain that if the Republican party wins the election that high prices for all the necessities of life are still maintained, and yet wages are declining, with a vast number of workers unemployed and many imported industries running at a loss. The tariff is a high tariff, which the Republicans declare produces prosperity, is in full working order. The price of many farm products is falling, and yet the cost of living shows but little if any decrease. The best trust, the coal trust, the salt trust, the oil trust, the sugar trust and the minor combinations are paying large dividends, fostered in most cases by the protection the tariff gives them.

It would seem, therefore, Senator Aldrich to the contrary notwithstanding, the Republican national platform should declare when the tariff will be revised and if the revision shall provide for higher or lower duties, especially on trust products.

TWO SETS OF PLUNDERERS.

Beef Trust and Cattle Barons Are Robbers of the Same ilk.

The organization of the western cattle barons to fight the beef combine is an anomaly, as both are after the same game of plundering the public. The barons have banded themselves together into what might be termed the grass trust and are trying to get the farmers of the western states to help them to fight the beef trust. The cattle barons are even worse robbers than the beef barons, in that they monopolize all the valuable government land and through their retainers prevent, by force or arms if necessary, any owner of a small herd or section from intruding at the peril of his life.

To show the power of these cattle barons they have succeeded in forcing President Roosevelt to give up his intention of removing the barred wire fences with which the barons have unlawfully inclosed about all the government land on the western plains. Politically both these combines are Republicans and their contributions to the campaign fund of that party, which probably accounts for their immunity from punishment by the administration. Farmers will best conserve their own interests by attacking both the beef trust and the grass trust, who are monopolists and will plunder the farmers after they have settled their own differences.

The Tariff Tax.

It has been estimated by expert statisticians that the tariff tax paid to the trusts by the head of the family exceeds by more than five times what is received by the trusts from the public that the average for each family closely approaches \$100. These figures are obtained by making careful estimates based upon the amounts which are spent for each of the most important articles consumed. The most expensate thing in the monopoly the tariff gives the trusts and corporations is that it allows them to sell their surplus products cheaper abroad than here, which shows the enormous profit realized from the home market. When the trusts export their products they have to pay freight and other expenses and the tariff tax that all other countries impose except England, and yet undersell the same class of products produced in the country they export their products to.

Mr. Babcock's Opinion.

It is pleasing to know that Representative Babcock, chairman of the Republican congressional committee, is not suffering from insomnia caused by dismal forebodings of Republican defeat. It is the opinion of Mr. Babcock that the country is content with political conditions as they are—his party in power and he in office. We give his views freely for what they are worth.—New York American.

Japanese Defeat Slavs in Battle Near Wafangtien—Both Sides Lose Heavily.

Tien Tsin, June 6.—Four thousand Russians belonging to General Stakelberg's brigade on May 31st attacked 1500 Japanese occupying a position 150 miles south of Wafangtien. The Russians were repulsed, losing 2000 killed and 400 wounded. The Japanese lost more than 100 killed.

Tokio, June 6.—The Russian gunboat Giliak was torpedoed and destroyed at Port Arthur Saturday. Chofoo, June 6.—The Russian consul here has received news that a large Japanese vessel has been sunk by a mine of Talienwan. The news has not been confirmed.

Cossacks Repulsed.

Tokio, June 6.—The Japanese and Russian forces located north of Palanlung, which were in a series of brushes during the early part of last week, had another encounter on Friday, June 3d, near Chai Chia Tun. On that day the Japanese cavalry met the Russians at the Japanese numbered 2000 men and were composed of infantry, detachments of cavalry and artillery. They were pressing the Japanese cavalry when the Japanese assembled their entire force and engaged the enemy. The Russians drew off gradually and at 5:30 in the afternoon they retired to Telissu. The Japanese had four men killed, and four men wounded in this fighting.

A report has been received here from General Kuraki, saying that on Friday last a detachment was dispatched from Ai Yang Cheng (Ai Yang Fienmen), to the northeast of Feng Wang Cheng, and four men wounded in this fighting.

But Two Miles Separate Armies.

Chofoo, June 6.—But two miles separated the Japanese and Russian armies on the Liao Tung peninsula on June 2d, according to Chinese who have arrived here from Dalny.

CUTTER BEING DISABLED.

Is Struck by the Schooner Spokane and Both Vessels Are Badly Damaged.

San Francisco—In heavy weather Saturday, off Point Reyes, the revenue cutter Bear, famous for the rescue took in the relief expedition to the Arctic with the Thetis some years ago, was nearly sunk as a result of being struck by the heavy lumber schooner Spokane. A stout hull saved the Bear, but she emerged from the encounter badly crippled and had to put back to port.

MOB BURNS FIGHT ARENA

Spectators, Incensed by Failure to See Bull Fight, Fires the Building.

St. Louis, June 6.—Incensed over their failure to see a "genuine Spanish bull fight," which the authorities had stopped, a riot was started in an arena near the World's fair grounds last night by a crowd of 2500 men and boys, who were unable to get their money back, and the building was burned to the ground. The price of admission charged was \$1. Four men were placed under arrest by the authorities of St. Louis county, charged with the destruction of property. The crowd, thinking these men were connected with the show, made an attempt to mob them, and in their encounter with the deputy sheriffs a number were roughly handled and some received scalp wounds. The building is said to have cost \$2500. It is a total loss, with no insurance.

The initial performance by the company of Spanish bull fighters had been advertised widely, but the governor, in response to numerous complaints, ordered that it not be allowed to take place. Despite these orders a large crowd assembled in the arena at the advertised time. Before the regular performance a number of cowboys drove in some bulls, which they ran around the ring in true wild west style. The crowd soon became tired of this and called for the bull fight.

The announcement was then made that the bull fight would be proceeded with. As the matadors came into the ring a county official stepped up to the announcer and handed him a paper, informing him that the proposed show could not take place. When this became known to the crowd they leaped into the arena and demanded the return of their money.

Falling to get this, the crowd went to the office, which was in a small building outside, and began to stone the structure. This was followed by attempts to burn the arena, which is an immense building, constructed of concrete. Bits of burning paper were thrown at the woodwork and finally some one went inside and dropped a lighted match in a pile of hay under the arena. The whole structure was soon on fire and before long was in flames.

The fire engine that responded to the alarm struck in the mud, and there was nothing to stop the progress of the flames. The fire department of the World's fair was called out to fight the fire, but they found that it was necessary, but the wind blew in another direction.

EXPLOSION COSTS SCORE OF LIVES

Meager Details of Terrible Disaster in Colorado.

Colorado Springs, Colo., June 6.—An explosion of powder wrecked the Florence and Cripple Creek train at Findley station, on Bull Hill, early this morning, in the Cripple Creek district, and resulted in the death of between fifteen and twenty people.

No explanation of the explosion or further details of the loss of life can be secured.

ADRIFT IN MID-OCEAN.

Steamer Pleiades Picked Up at Sea by the Nicomedia.

Victoria, B. C., June 6.—Apprehension in regard to the steamship Pleiades, which left Japan several days in advance of the Empress of Japan, which arrived last Tuesday, with upward of 100 passengers for this port, has been in a measure relieved.

The Pleiades ran into the same rough weather that made the Empress' voyage anything but monotonous, and suffered thereby, among other things, her shaft being snapped, and the big vessel rendered comparatively helpless.

In this condition she was picked up by the German steamer Nicomedia, which was making her initial voyage from Japan to Portland under the O. R. and N. flag. The Nicomedia is now towing her up the straits in a lively gale, happily favorable, and the two steamers should make William Head quarantine this morning. The Pleiades has latterly had more than her share of adventures. She made a sensational escape from Port Arthur after the war broke out, and has since made one voyage between the Orient and Puget sound. It is probable that she will be docked at Esquimault for repairs.

SAIR ATTENDANCE INCREASES.

St. Louis, June 6.—Following are the record admissions for the week ending Saturday, June 4th: Monday, May 30th, 73,247; Tuesday, 48,400; Wednesday, 53,548; Thursday, 49,186; Friday, 60,185; Saturday, 92,685. Total for the week ending June 4th, 378,146. Thus we last week showed their earliest attendance of any at the fair.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with kidney troubles. If the child urinates too often, if the urine smells like fish or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of this difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is a distressing condition of the kidneys and bladder and not a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle free, also pamphlet telling all about it, including many of the thousands of testimonials received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
