TERRIBLE SUFFERING

THIS YOUNG WOMAN APPEALED IN VAIN FOR HELP.

When Hope had Almost Sunk Into Utter Despair Relief Came from an Unexpected Source.

Mrs. Emma Heidebreder, of No. 1323 Joy street, Burlington, Iowa, whose husband is an employe of the Rand Lumber Co., tells a story of pitiable suffering.

"For about five years," she says, "I had a host of physical ills that kept me invalid and puzzled the doctors. Some of them thought I was going into consumption. At times was so weak that I could not comb my hair or even wash my face. Then excruciating pains ran suddenly up my thigh and I had to be carried to bed screaming in my agony. I could no longer do my work and the drudgery upon my husband's purse was very heavy. I craved food but what I ate only gave me discomfort. My liver was torpid, and often I had to be carried to the door for air to save me from suffocating."

"The worst was the pain which seemed as if my thigh were being pushed out of my body. The best doctors could do was to administer to me. Once they thought I could not live for more than two days. In one of my worst attacks, a friend said: 'Why don't you try Dr. Williams' Pink Pills?' They are the only thing that ever helped my rheumatism."

"I took his advice. After using one box I felt better, and I continued to use the pills for three or four months with steady improvement until I was well. For four years I have been able to do all my household work, and no longer have to take medicine for any serious trouble. I gave one box of Dr. Williams' Pink Pills to a man on crutches because of rheumatism and advised my market woman to buy a box when she was complaining of the same trouble. I heard that he was soon able to throw his crutches away, and she told me she had got rid of the rheumatism by the use of one box and could not thank me too much."

Testimony multiplies as to the magnificent curative powers of Dr. Williams' Pink Pills for Pale People in cases of rheumatism, neuralgia, nervous headache, palpitation of the heart and all forms of weakness in either male or female. They are sold by all druggists throughout the world.

It is not necessary for a politician to buy public favor with money; it is not requisite that he shall be a machine man; it is not obligatory upon him to cater either to the whims of the bosses or to the prejudice of the masses—in order to gain and maintain a standing in public office. We hear a great deal in these times of the decadence of the old spirits of integrity by which men justified their elevation to and their retention of their official position; and perhaps the criticism is true to a considerable extent. But the fact is not with the "boss" but with the official himself; for he might have equal favor by the better means employed in preceding generations, when ideals certainly were not as dead as they are now alleged to be. A notable instance of this fact is in the career of one man, Joseph W. Folk, district attorney at St. Louis. Mr. Folk retired at an early age, as does many another young man, with an obligation upon him to do duty. That was the length, the breadth, and thickness of his purpose; and unlike some others he adhered to it.

THE question of a change in the assessment rates of the A. O. U. W. will come up again at the Grand Lodge in this state when it meets at Portland in July. It is claimed that the older members are not paying as much as they should toward keeping up the order. It is now proposed that the rate on members over 55 shall be placed at \$4.20 per month. This will work a great hardship on many who have been paying their assessments in the order for a number of years, and in some instances will force them to drop out of the order, and as they are now too old to insure themselves, they will have to do without insurance.

Ashland and Gold Hill played a fast and well-contested game on the former's grounds Sunday. It was anybody's game until the end. The Nuggets were too many for Huiien's Peaches, however, and won by a score of 6 to 5. Romer and Cleveland both did good work in the box, as also did most of the other players, errors being few.

The following is the official score:

Umpire, King.

Time of game, 1 hour and 45 minutes.

The best and closest game of the season was played on the Medford Athletic Association's grounds, last Sunday, by the Medford and Jacksonville teams. The latter won by a score of 2 to 1 after nine exciting and well-played innings. It was a pitchers' battle from beginning to end, both Hutton and Lester doing splendid work and being well supported. There were a few errors, but not of a serious character. "We were unable to obtain the official score in time for this issue."

Medford and Ashland played a fast game on the grounds of the latter Saturday. The score was kept busy marking down tallies, and when the agony was ended the score stood 17 to 13 in favor of Medford. It was evidently an off-day for both teams. Both Henley and Martin were easily found by the batters.

BY INNINGS

Medford	1	2	3	0	0	4	3	—17
Ashland	2	0	0	5	1	3	2	—13

In race-horse parlance, "they are all in a bunch." Ashland still leads, but by a considerably reduced margin, having lost two games, Saturday and Sunday. Medford and Jacksonville are tied for second place and Gold Hill not far behind.

It is certain if Ashland and Gold Hill would fix up their grounds, as they should, better games and more interesting ones would be played at both places. This ought to be insisted on by the patrons of the sport as well as the visiting teams.

A Big Fire At Sisson.

Sisson, Calif., was visited by the most disastrous fire in its history Sunday afternoon. Three entire business blocks were burned, and a great part of the residence portion of the town went up in flames. The flames says that reports received in Ashland that nothing but the Southern Pacific depot and what is locally known as "Whiskeytown" escaped the flames.

The fire started at 2:30 o'clock in the confectionery store of J. F. Hansen, from a defective fuse, and from there spread to the business section. The total loss is placed at \$200,000, with insurance of about \$60,000. The heaviest losers are the Siskiyou Lumber & Mercantile Co., \$30,000; Shuler-Knox Company, \$20,000; Sharpe, \$4,000; Mirror Office, \$3,000. The following lost heavily: Messrs. Binckel, Emmons, Williams, Hansen, Osborn, Sloan, Lee & Silverstein, Bascom, Patchin, Wheeler, Brookfield, Woods, Bregan, Edson, Union Hall Association, Heaz, Douglas, Clessens, Henshaw, Keyser, Kassen, Herman, Kotel and others, whose losses in the aggregate amount to \$110,000.

The office of the Postal Telegraph Company, the telephone company's office and the Postal's line, extending a distance of three-quarters of a mile, were burned.

Chamberlain's Stomach and Liver Tablets Better than a Doctor's Prescription.

J. W. Turner, of Truhart, Va., writes that Chamberlain's Stomach and Liver Tablets have done him more good than anything he could get from a doctor. If any physician in this county was able to compound a medicine that would produce such gratifying results in cases of stomach troubles, biliousness or constipation, his whole time would be used in preparing this one medicine. For sale by all City Drug Store.

Extensive Irrigation.

By digging a tunnel 7000 feet long through the base of a hill, the Klamath Irrigation Company will provide water for the reclamation of 30,000 acres of arid land, thus more than doubling the area of irrigated land in Klamath Basin.

"I have no doubt of the success of the project," said State Treasurer Moore, upon his return from a visit to Klamath county. "Work is already in progress and the irrigation company has made contracts with farmers for the irrigation of 25,000 to 30,000 acres of land. Some of the land is already watered from the Ankeny ditch, and the farmers are merely changing their patronage. When the new system has been completed there will be 50,000 acres of irrigated land in Klamath Basin, and it will be one of the prettiest valleys in Oregon."

This rapid development of irrigation work means the building of a railroad across Eastern Oregon. Such a splendid road for county assessor, Jack A. Fry, of Phoenix precinct was a recent Medford visitor. He made a splendid run for county assessor, Jack A. Fry, of Phoenix precinct was a recent Medford visitor. St. Louis, June 27—Governor Pardee of California, accompanied by Commissioners Wiggins and Filcher, Saturday began an inspection of the California exhibits at the World's Fair.

He first visited Mining Gulch, where the state is represented by a mill building, in which are installed two working mills and concentrators. From there the party passed to the mines, education, forestry and agricultural buildings. Although but little time was allowed in each department, the governor expressed himself as well satisfied with what the preliminary inspection developed.

A HEAVY AUTO BILL.

San Francisco, June 27.—M. S. Cook, a young New Yorker whose philosophy of life is modeled after the epicurean principle, was arrested in Los Angeles Sunday on the charge of defrauding a San Francisco automobile liveryman with whom he ran up a bill of \$500 in three days last week. A detective will bring the young man back to San Francisco to appear before Judge Morgan.

Cook, who is 25 years old and a stylish dresser, is said to have won a considerable fortune in New York real estate not long ago, and the short time he was in this city he spent money with the prodigality of a millionaire trying to unburden himself of surplus income.
