Liver and Kidneys

It is highly important that these organs should properly perform their functions. When they don't, what lameness of the side and back, what yellowness of the skin, what constipation, bad taste in the mouth, sick headache, pimples and blotches, and loss of courage, tell the story.

Hood's Sarsaparilla

Gives these organs vigor and tone for the proper performance of their functions, and cures all their ordinary ailments. Take it.

Fish in Crater Lake.

The Klamath Falls Republican says that W. F. Arant, superintendent of Crater Lake National Park, announces that quantities of fish have been discovered in Crater Lake. Some of the boys went out in the boat and they were leaving the shore saw several large trout coming from the deep water; a few minutes after there were several more, and then a large beauty, about 30 inches long, swam by. On Sunday they went across to the island, and the trout were quite thick there; so it has been proven that trout will live and increase in Crater Lake. Fish were first put there in '87 and several times since, but this is the first year any number have been seen in the waters.

OREGON has the best of her adjacent neighbors, in one way, and that is the general state and county election is over and forgotten, while the people of Washington and Idaho are just beginning to get cleverly mixed in the political strife. There are some compensating advantages in having the general election in June, after all. This cuts out the political turmoil for a part of the year, at least.

John J. Paakey, the expert fisherman, has moved to Elk Creek, where he is employed at the government hatchery.

A dancing party will be given at Wilson's Opera House next Friday evening. Miller's popular orchestra will furnish the music. Don't fail to be there.

Billy Hulen of Ashland, well known baseball circles, was at Roseburg Thursday, where he became initiated into the mysteries of Elkdom. Earl Landers, the train dispatcher, became an Elk at the same time.

Alex. Orme, ex-sheriff of Jackson county, has joined his family, who have been at Seattle for some time past. He expects to return in the fall.

Jon G. Martin of Astoria will soon become a resident of Medford, having purchased property here some time ago. He was recently granted an increase of pension.

Sheriff Rader went to Albany Tuesday evening, and it is believed that he will return with one of the escaped prisoners, Wilson having been heard of along the line.

Will Virgin, who has been in the U. S. Navy and made a trip to the Orient, returned to Ashland Sunday. He will remain, having had a sufficiency of "life on the ocean wave."

Henry Barneburg has purchased the interest of his brother, "Peter," in the big stock ranch located in the Cove, 10 miles east of Ashland. About 900 head of cattle were included in the sale.

The real property belonging to the estate of the late John Woods was sold by Deputy Sheriff Crawford in Jacksonville last Saturday. There were a number of bidders, principally from Woodville and Wimer, and fair prices were realized.

L. A. Cranes of Port Klamath has brought suit against Daniel Cronmiller to recover \$1235, which he claims is due him for some cattle which were sold by the latter, who claims that he paid the money.

J. Kershaw, late of Grant county and his wife were in Medford Monday. They were accompanied by A. H. Wyland, the pioneer stockman, who has sold Mr. K. 240 acres of his land. The price paid was \$3000.

Dayton Elliott, who has been a resident of this county for several years past, coming from Crook county, died in Wimer precinct last Friday. He was a sufferer from acute asthma. The remains were taken to Eugene, of which city the deceased was formerly a resident.

Wm. H. Barr has lost several head of horses lately. Their death is attributed to eating hay grown in an orchard and on which had fallen poisonous materials used in spraying fruit trees. This is a matter that should not be overlooked by orchardists.

Five cottages at Shasta Retreat were destroyed by fire Thursday. The fire started from a defective fuse in a cottage occupied by Charles Adams, an Oakland engineer, who was taking a bath at the time. He lost money and diamonds in the fire valued at \$400.

According to the Express, Thine Berwert, jeplet "Sharkey," who is well known here, had a narrow escape. Ollie Hill, who is in the employ of Chas. Horton near Bonanza, went on a tear at Klamath Falls Friday afternoon and played the part of a "bad" man. Going into Wilson's saloon and staggering up to the bar, he flashed the gun, and calling out to the bartender, "Sharkey," who was at the time drawing a glass of beer, "Will I shoot? Will I shoot?" answering his own question in the affirmative and did shoot, the ball striking the wall not very far from Sharkey's head. The desperate man was seized by a bystander from behind, his gun taken away from him and the town marshal sent for. He was food heavily the next day.

W. P. Hoffner came down from Big Butte Friday exceedingly wrath. He discovered that his daughter, Sadie, had eloped with O. R. Hays, a young man living in the same neighborhood; but the license had been issued and it was too late to stop proceedings when he reached the valley. So Billian sensibly got over his angry spell and let the couple off with some good advice, which it is hoped they will follow.

The Southern Oregon edition of Mineral Wealth, compiled by Dittmar Bros., has been issued. It is without doubt the handsomest, most concise and reliable resume of the mineral resources of Jackson and Josephine counties ever published. The illustrations are profuse and beautiful, including a number of Southern Oregon scenes and views of our principal towns and mines. The publishers are certainly deserving of much credit.

Messrs. McClure and Smith, who are representing the Oregon Savings Bank, that is interesting our people in the scheme of placing their savings on interest, are meeting with considerable success. They have already placed quite a number of little banks. This is something of importance to nearly everybody, and it should be given a fair trial at least.

Al. Geiser of Sumpter, the wide-awake mining man, has returned from a trip to Sixty county, Calif., where he examined some mines. He no longer since bonded the property belonging to Chas. Kreutzer, located a few miles west of Jacksonville. It is reported that Mr. Geiser's favorable impression of our mineral resources has resulted in a number of prominent Baker City and Sumpter mining men turning their eyes this way. If they should become interested here much will be done toward exploiting and developing some of the numerous promising properties to be found in Southern Oregon.

Dr. D. J. S. Pearce, who recently returned from Klamath county, reports that his son, Dan, who was so seriously injured by the falling of a hay derrick, is recovering. It is a wonder that he was not killed, as he fell a distance of nearly 60 feet.

The well-knownureka mine, located in Soldier Creek district, Josephine county, is showing up better than ever. A. F. Nelson, the general manager, reports development progressing steadily.
