"Korn Kob"

"Korn Kob," says the Golden Era, our old correspondent, again writes us. His letter indicates a strange mixture of melancholy and desperation. His misfortunes have indeed been heavy, but we trust he is philosopher enough to live them down:

## DEATH IN THE HOUSE OF KORN KOB.

EDITOR OF THE GOLDEN ERA.—*Suspensus Surs.*—In sorrow I brake a long silence; and now that it is broke, I don't care a cent what bekums of the peeces. Fizzikally, morally, and mentally I am annihilated, smasht, squasht, demolisht, kaved in, drove up, exploded, disseverd, evaporatid, distroyd, skat terid to the phour winds of heven. A calamity has befallen the house of Korn Kob, more fatal than the small pox to a tribe of Diggers, more destructive than the stroke of a six-ton pile-driver to a nest of yung rats, more hart rending than the sacking of Troy or Karthage, more harrering than the veto of the U. S. Bank or the tax on China-meu—one that has left me a rock on the grate hewman see, not worth more than fifteen cents for anything except to cut up into fish bait. O, that I had dide when I was no bigger than a junk-bottle! For a mildu is on my hart as thick a the skum on western phlog-pond in August, and pall of misphor-pond envelops me, so impenetrable that I can no more ketch a glimpse of hope thru it than I kan of dalite by looking into the bung-hole of a whisky-barrel.

I am alone in the world, with nothing to kling to but a pint of pee-knuts and a long handled pryng pan. Mrs. K., the wife of my boosum, who could turn the krank of an organ like a seraf, and little Kristofer, the joy of the house and the hardest little feller on shuze you ever saw, are both gone! Mrs. K. dide two months ago of the kolery morbus. The blo was unexpected, an fell upon me like a brick from a sixth-story winder. But I stood up under it, for Kristofer was left. To berry her decently, I sold every thing in the house except the pryng pan, which Mrs. K. rekwested me to kepe in remembrance of her, and for several weeks I walkt the streets with a basket of pee-knuts on one arm and Kristofer hangin to the uther. The pee-knut bizness was lookin up, and I prospered. But deth wanted Kristofer, the joy of my hart and the hope of his kuntry, and one rany nite the water kame thru the roof of our house and gave him a kold, and the next, while I was kookin pee-knuts in the only utensil left, he kalled me to the straght bed, and told me he saw his little throate was swellid, his cheek gru pale, his ize klozd, and while I was bendin over him a gust of wind burst in the dore and bore away in his chilf breath the sole of Kristofer. I watched by him all nite, and the next day berried him beside his mother.

For a weak I mourned and refused to be kumforted. Erth lost his charms and munny its valyew to me. I sold my pee-knuts for three kups for a bit, and phillid the pokits of children gratis. This saved my life, for I intended to kommit suicide as soon as I sold out my stock. It excited the ire of a mersenary vender of the artikle in the neighborhood, and he undertuk to thrash me. All the strength and shivalry of my an-cesters returned, and I buckled into him. I whipt him in just one minnit by Sperry's kloek, but he bit a pece out of one of my ears. To revenge this outrage is all I kare about livin for. Last nite I killed his dog, and next Munday I shall take my place beside his stand, and sell pee-knuts for half price till I brake him up, then hammer him into a jelly, and take my flite to that world where pee-knuts gro spontaneous and the weery are at rest.

Spasmodikally, yures,  
P. K. V. KORN KOB.

GETTING OVER A DIFFICULTY.—A class which graduated not over a thousand years ago, embraced among its members one Tom Elliott, an incorrigible wag, who was not noted for any particular and marked attention to his studies. Mathematics was a particular object of Tom's disregard, and this caused him an occasional *jeu d'esprit* with the dry professor. On one occasion, the professor, during the recitation, asked Tom to explain the horizontal parallax of the sun. Tom replied: "I don't know, sir."

"But," said the professor, "suppose you were appointed by the government to ascertain it—what would you do?"

"I resign," gravely responded Tom, amid the convulsive laughter of the class, and even the professor actually perpetrated a grin.

It is told that when minister Miles prayed for rain he left nothing uncertain. He said, "O Lord, thou knowest we do not want thee to send us rain which shall pour down in fury and swell our streams, and sweep away our hay-cocks, and fences and bridges; but, Lord, we want it to come drizzle-drooze—drizzle-drooze, for about a week.—Amen."

BATES ACQUITTED ON ONE COUNT.—Henry Bates, the delinquent State Treasurer, was acquitted by the jury at Auburn, on Saturday night, Feb. 20th. The indictment charged him with having failed to pay over \$47,947.87, received by him as State Treasurer.—*Sacramento Age.*

A man from the country, whose wife had eloped with another fellow, and carried off the feather bed, was in Louisville the other day in search of them—not that he cared anything for the wife—but the feathers," said he, "them's worth 48 cents a pound."

BRIEK BUSINESS.—At a husking frolic "down east," recently, two hundred bushels of golden yellow corn were husked, forty-eight girls kissed, one couple married, and seven more "engaged," all in one evening. Talk of stagnation in business!

There is a continuous line of railroad from Portland, Maine, to St. Louis, Mo., 1446 miles, through 13 States and 10 large cities.

BYARD TAYLOR AS PRINTER.—The editor of the Plymouth (Ill.) *Locomotive*, who was a printer in the same office where Bayard Taylor 'served his time,' tells some interesting reminiscences of the great traveler:

"We had the honor to succeed him in our term of 'devilship' in the *Village Record* office, Westchester, Chester county, Pa. We well remember the time when he started out on his first 'tramp,' with his small sachel, containing a change or two of linen, and with fifty cents in capital. The apprentices in those days had to carry the papers through the country on horseback, and our route was just past his father's house. We do not know of a single time, through rain or shine, that old Mr. Taylor did not meet us at the end of the lane with a happy smile, wishing us a good day, and as we would hand him the *Weeky Record* he would remark, 'a fair exchange is no robbery,' filling one side of our saddlebags with nice apples and grapes. He was a member of the Society of Friends; with his little farm and family around him he was a happy man indeed. He used to inquire anxiously after Bayard, and said 'he liked to ramble around too much; he was not steady enough.'—Little he knew then that his Bayard, the printer's apprentice, would be one day quoted as the greatest traveling historian that America could boast of.

HORRIBLE CASE OF POISONING.—*Grass Valley, Feb. 22d.*—Last night, about half past six o'clock, our town was thrown into a state of great consternation, by the startling report that Michael Brannan, late President of Mount Hope Mining Co., with his entire family, were found locked up in their room, all in the arms of death. The citizens hurried to the scene of woe, and found the report but too true. The jury returned the following verdict: That Michael Brannan came to his death by prussic acid administered by his own hands; and that Lorinda, his wife, and Ellen, Robert, and Lo-rinda, his children, came to their deaths by prussic acid administered by said Michael Brannan under temporary insanity.

It appears that Brannan has been laboring under financial difficulties for some time, and became so severely involved that he despaired of being able by the exertions of a life time to extricate himself from his embarrassments. This is supposed to have pressed so heavily upon his mind as to cause him to destroy himself. They were found lying about in different parts of the room. It is said that they were very much devoted to each other, and passionately fond of their children. Brannan was an Irishman by birth.

A youth of seventeen meeting an acquaintance in the street, says: "Guess who's dead?"

"Mr. Jones, I suppose; I heard he was very sick."

"No, it aint it's my ma! She died this morning."

Another: A young man from the country called in at a hardware store in town, and asked for a new kind of reaping machine recently introduced. He was requested to walk back into another part of the store, and it would be shown to him. As he was going on he saw a huge circular saw, and tapping it with his hand as he passed, he said:

"I had an old daddy out in two with one of them things 't'other day."

Tender-hearted creatures, both these fellows!

The principal avenue of our city, writes a learned friend in Detroit, has a toll-gate just by the Elmwood Cemetery road. As the cemetery had been laid out some time previous to the construction of the plank-road, it was made one of the conditions of the company's charter that all funeral processions should go back and forth free.—One day as Dr. Price, a celebrated physician, stopped to pay his bill, he remarked to the gate keeper:

"Considering the benevolent character of our profession, I think you ought to let us pass free of charge."

"No, no, doctor," the keeper readily replied, "we couldn't afford that. You send too many dead heads through here as it is."

The doctor paid his toll, and never asked any favor after that.

"Charlie, just fancy what people are saying!"

"Well, Georgie, what are they saying?"

"Why—that—that—you and are going—a—to—be—married!"

"Ah, never mind, Georgie—we know better—we are not so foolish!"

Miss Georgie looked blank.

A man from the country, whose wife had eloped with another fellow, and carried off the feather bed, was in Louisville the other day in search of them—not that he cared anything for the wife—but the feathers," said he, "them's worth 48 cents a pound."

BRIEK BUSINESS.—At a husking frolic "down east," recently, two hundred bushels of golden yellow corn were husked, forty-eight girls kissed, one couple married, and seven more "engaged," all in one evening. Talk of stagnation in business!

There is a continuous line of railroad from Portland, Maine, to St. Louis, Mo., 1446 miles, through 13 States and 10 large cities.

Dr. Wistar's Balsam of Wild Cherry. For the Instant Relief, and Rapid Cure of Coughs, Colds, Hoarseness, Croup, Bronchitis, Influenza, Pain in the Breast or Side, etc.

A fair question. Answer it to suit yourselves. Would you prefer to have health restored and life prolonged by (what our physicians say is) quackery, than to die scientifically? You all know of wonderful cures effected by Dr. Wistar's Balsam of Wild Cherry, and yet you entertain a kind of prejudice, because you choose to call it patent medicine. It is only because you do not know Dr. Wistar. If your family physician had made a great medical discovery, could he not seal his bottle and cure a patient in Timbuctoo as well as at home? This is only the fact with Wistar's Balsam. It is important to you, invalid. Throw away your delusions. Wistar's Balsam is performing wonderful cures. It will cure you.

BE CAREFUL! as there are many counterfeits. Look well at the signature before purchasing—take none unless it has the name of Sanford & Park engraved on the outside wrapper, as all others are **BAKED COUNTERFEITS.**

**PARK & WHITE** are the only Agents, to whom all orders should be addressed. Also, Importers, Wholesale and Retail Agents of all valuable Patent Medicines, warranted genuine. 433-435 132 Washington street, San Francisco.

## THE NEW YORK STEAM SAW-MILL AND MACHINE COMPANY.

CAPITAL \$250,000.

This company has been organized with the above capital for the purpose of supplying the demand for the

### COMBINATION PORTABLE STEAM SAW-MILL, AND OTHER IMPROVED MACHINERY.

They have purchased the entire machinery business heretofore carried on by J. M. Emerson & Co., &c. the Montgomery Works at Yonkers, on the Hudson, near this city, and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds at more liberal rates, than has been offered at any other establishment.

THE COMBINATION SAW-MILL was patented October, 1856, and is now generally acknowledged to be the cheapest, most practical, and efficient lumber manufacturing machine in the world. A large number of them are in successful operation in different sections of the country, Canada, Cuba, and South America, and wherever their merits have been tested they are being adopted by lumber manufacturers in preference to all other mills.

The following letter expresses the general opinion of those who are using the Combination Mill:

Messrs. EMERSON & Co.—Gentlemen: I have tried the saw-mill purchased of you, and will say that it performs well, and more than meets my expectations. I am well pleased with its performance. I set it up on a small stream that afforded constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3,000 feet of beautiful lumber in 12 hours, with something less than one cord of wood. It is the very thing we have so much needed in our country for a long time. With a little trouble and expense, we are able to move it from five to ten miles per day, and set it up in the heart of the timber, which saves the great burden of hauling the logs a long distance to the mill. Yours, respectfully,  
JESSE KER, JR.,  
Louisville, Tennessee.

The Company have purchased LUND'S PATENT FEED ARRANGEMENT, which is illustrated and described in the Scientific American for October 24. This adds greatly to the efficiency of the mill.

The Combination Mill, with all the recent improvements, and steam power of 15 horses, is capable sawing from 3,000 to 4,000 feet in twelve hours, and is sold for \$1,650.

The New York Circular Saw-Mill is manufactured by this Company. It is of superior construction, and sold for 25 per cent less than other mills of no greater capacity. A mill with 34 to 54-inch saw can be sold for \$450 to \$500, and with a 20 horse engine and boiler is sold for \$2,200.

STEAM ENGINES and BOILERS; ENGINES of from one to 100 horse power; LOCOMOTIVE, TUBULAR, FLUE and CYLINDER BOILERS furnished at greatly reduced prices from former quotations.

Drawings, with plans and specifications for buildings and machinery, furnished gratis to our customers.

Competent mechanics are sent out to put up and set in operation our machinery when required.

We also manufacture SHINGLE MACHINES, PLANING MACHINES, Sugar Mills, and Machinery in general.

Special attention paid to getting up Shafting and Pulleys for manufacturers, and all kinds of Mill-Wright work.

This Company are selling in great numbers a Patent CONICAL BURK-STONE MILL, for flour, corn meal, and all kinds of feed, which is pronounced by experienced millers, both in this country and Europe, the BEST MILL EVER CONSTRUCTED. It will grind more grain in the same time, and with half the power, of any mill of the same price in the market.

We also furnish other styles of Grain-Mills, when required.

J. M. EMERSON & Co., Agents,  
No. 371 Broadway, New York.

## Great reduction in prices.

Jacksonville, May 20th, 1857.

# Dr. Young.

DR. J. C. YOUNG'S PRIVATE MEDICAL ROOMS, N. E. Corner California and Montgomery streets, SAN FRANCISCO.

TO THE AFFLICTED.—Read the following RECOMMENDATORY LETTERS and then judge between Dr. Young and those vipers that malign his motives. Avoid such men as you would a pestilence, for THERE IS DEATH in their treatment. All afflicted with Diseases of a Private or any other nature should call upon Dr. J. C. Young, and they would then avoid imposition, and assist the Doctor in his herculean labor of suppressing quackery and empiricism. Dr. Young's charges are moderate and within the reach of the most humble.

IMPORTANT.—Dr. J. C. Young wishes to call the attention of invalids to his course of practice. The Dr. has long since abandoned the mercurial treatment, and has strictly followed the Vegetable Practice. Patients under treatment with him are not confined to the house, nor taken from their business, but can go about and eat as usual. The Dr.'s mode of treatment of cases of debility, both general and local, is not surpassed by any physician, and always results in a perfect removal of their troubles. Dr. Y. has discovered a new mode of treating affections of the Liver, which after a fair trial has been submitted to the Professors of several of the medical institutions of the States, and pronounced by them, as perfectly successful, and has been adopted by them in their practice. In the treatment of incipient consumption, and disease of the blood, the Dr. stands pre-eminent in his profession, and will warrant a cure in all cases. The following testimonial speaks for itself:

Dr. J. C. Young, Sir:—Your mode of treating affections of the Liver and disease of the Blood, has proved by repeated trials, to be the best yet offered to the faculty, and has been adopted by the board. Continue to study the human system as you have done, and you will yet stand at the head of your profession.

W. R. HORNER,  
Prof. of Anatomy, University, Penn.

HAVE CONFIDENCE.—Dr. YOUNG will guarantee a perfect and permanent cure in the following cases, or charge nothing for his services: Syphilis, Gonorrhoea, Stricture of the Urethra, Affection of the Prostate Gland, Weakness of the Genital Organs, Impotency, Sterility, both in male and female, Spermatorrhoea, or Seminal Weakness, Nocturnal Emissions, Rheumatism, Dyspepsia, Indigestion, Fever and Ague, Incipient Consumption, and all irregularities in Females, together with all diseases of Women and Children; also Nervousness, Palpitation of the Heart, &c.

Persons afflicted with symptoms after being treated, should consult Dr. Young at once, as no disease is cured unless the patient feels perfectly well. If there is a particle of disease left in the system, it will break out at some future time, when least expected, or be handed to an innocent offspring. Persons who have been treated with mercury should be very cautious in believing that they are well, for it is a scientific fact that the mercury will mingle with the venereal, and form disease a great deal worse than the original. All those who have reason to think, by bad feelings, that they have been treated thus, should consult Dr. Young, and he should examine their cases and tell them at once how they stand.

VOLUNTARY CERTIFICATE.—TO ALL WHOM IT MAY CONCERN.—This is to certify that I, B. F. Luning, applied to Dr. J. C. Young, to be treated for a general debility, brought on by hard work at mining in the water, and a pneumatic affection in my limbs, which almost deprived me of their use, that the above complaints had troubled me for a long time—one of them for several years, and the other about eighteen months. Overcome by the pain and anxiety occasioned by them, I had given up all hopes of ever again enjoying good health. In this condition, I called upon Dr. J. C. Young, and after the lapse of five months, I am perfectly well and feel nearly as strong as I ever did. I can recommend every one affected to his care, for he cured me, and has cured several of my friends that I recommended to his care. Afflicted with different diseases, some of them bad cases, of a very bad and dangerous nature.

Given this my voluntary testimony in favor of Dr. J. C. Young, in hopes that it may induce all those afflicted, to call on him, and avoid the impostors who have robbed me, not only of money, but to a certain extent of my health.

B. F. LUNING.

GREEN HORN GULCH, Kern River, }  
September 2, 1856. }

DEAR SIR: It is with pleasure that I hasten to answer your letter, enquiring how I get along. I have entirely recovered from the complaints for which your medical skill was required, and I assure you I feel grateful to you for the health I now enjoy. Struck as I was from the very jaws of death, and saved from an untold amount of suffering. Were I in the city where I could do it, this would have the solemnity of an oath, but I am in a mining camp, there is no Justice of the peace within several miles of me, and so you must publish without it. I do not like to name my disease, and I suppose it is not requisite, as you treat all kinds of disease.

Yours,  
G. LANGDON  
To Dr. J. C. Young.

MARRIED, Sept. 27th, 1856.

DR. J. C. YOUNG, in answer to your request, as to how my case is getting along, I would state that I am perfectly well, and have been so for about one month. I should have written before, but have been waiting to see if it would return. I am now satisfied that I have seen the last of it. My case was said to be a very bad one by all the physicians that examined me. They all called it a mercurial disease, and said there "was no help for it." You called it scrofulous, mixed with a mercurial affection, and said you could cure me, and you have done so. I can only thank you for it and recommend all persons afflicted to give you a fair trial.

Yours till death,  
C. L. RAILS, JR.

THE undersigned has on hand, and is always ready to manufacture to order, all kinds of

**Table Rock Bakery**

For sale by J. W. STEARNS.

ness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

MENTALLY, the fearful effects on the mind are more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, self-distrust, aversion to society, self-distrust, love of solitude, timidity, &c., are some of the evils produced.

All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to perfect health. Let no false delicacy prevent you, but apply immediately, and save yourself from the dreadful and awful consequences of this terrible malady.

WEAKNESS OF THE ORGANS immediately cured, and full vigor restored. Office corner of Montgomery and California streets, over Pacific Express, San Francisco, where all letters must be directed to insure attention.

J. C. YOUNG, M. D.

BEWARE OF IMPOSITION.—IN consequence of the wide spread celebrity of Dr. YOUNG, numerous impostors have sprung into existence, pretending to be perfect masters of the healing art, and have succeeded in imposing upon a few of the unwary sufferers. Persons wishing to consult a physician, should be very careful how they put confidence in the published statements of such charlatans, for they are as unscrupulous in such statements as in their practice of medicine, and are very unsafe to trust. They will first deceive you by false certificates, procured from "drunken loafers," who perjure themselves to get money to satisfy the cravings of a diseased appetite. When such gains your confidence, he will then dose you with mercury and other drugs, and after they have robbed you of your money and injured your constitution, they will cast you off, with the charge, that you have not followed their directions.

The only way to avoid such impostors, is to consult Dr. J. C. Young, the Pioneer Advertising Physician of California. At a meeting of the Medical Faculty of this State, called to investigate the source of malpractice that has caused so much suffering in this country, it was unanimously recommended that all the afflicted should consult Dr. Young, as he was the only regularly educated Physician now advertising in California, all others in his line being quacks and impostors, and are not to be trusted. The afflicted will please take notice, that there was not a physician at the meeting who had ever seen or heard of a single case of malpractice from Dr. Young, while not one of them but had seen a number of cases from the foreign quacks, who so vainly set forth their pretended virtues in the public prints.

The above facts should be borne in mind by all seeking medical assistance.

Think heaven, they are getting thoroughly exposed, and it will not be long before they will leave to fly the country, to avoid the just indignation of an outraged public. Then will good people thank Dr. Young for his continued efforts to banish quackery from our midst.

Dr. YOUNG can be consulted from 9 A. to 5 P. M., at his office, corner California and Montgomery streets, over the Pacific Express Office, San Francisco. All letters containing the usual fee of \$10 will meet with prompt attention.

THE VERY BEST REMEDY FOR PURIFYING THE BLOOD, And for the Cure of

STUBBORN ULCERS, LIVER COMPLAINT, MERCURIAL DISEASE, GOUTY AFFECTIONS, GENERAL DEBILITY, &c.

AND AS A GENERAL TONIC FOR THE SYSTEM, IT IS UNRIVALED.

It has long been a most important desideratum in the practice of medicine, to obtain a remedy similar to this, and accordingly we find it resorted to almost universally in cases of Scrofula, Liver Disease, Salt Rheum, General Prostration of the Vital Powers, and all those tormenting diseases of the skin so trying to the patience and injurious to the health. Although possessed of powerful healing properties, it is entirely harmless, and will not injure the most

**DELICATE CONSTITUTION.**  
When in perfect health, no effect is produced by its use, except an increase of appetite; but when disease is seated in the frame, and carrying fast its victim along the path of life, then its mysterious influence is felt and seen; it restores new life and vigor, and brings health and strength to the suffering and diseased.

**SCROFULOUS SORE EYES.**  
The following important testimony is from South Kingston, E. I. In this case the Scrofulous Pills was recommended by the family Physician.

Mrs. SARAH GENTLEMAN.—My little daughter, when one year old, was attacked with a scrofulous humor on her face, which soon after extended into her eyes, causing almost total blindness. In one of these, and discharging her whole face. I employed two physicians to attend her who exhausted their utmost skill to give her relief, but it all proved unavailing, and finally one of them remarked to me that he had known of some striking cures effected by Sands' Scrofulous Pills, and advised me to try it. I obtained one bottle, which the commercial rating, and before it was all used up it had effected an entire cure. It is now over four years since she was cured, and there has been no reappearance of the disease, and we are satisfied that it is a perfect cure.

Especially yours,  
GEORGE ROBINSON.
