

Oregon Sentinel.

Rachel.

The greatest of French artists, died recently at her estate at Cannes; she had not played since she left America. It is but little more than two years since the night of her debut in this city, when at the Metropolitan theatre was gathered to receive her the most brilliant and intellectual audience ever seen in New York; she played there nearly two months, to houses generally crowded and constantly increasing in numbers to the close of her engagement. After a few nights in Boston she returned hither, and performed another series of characters at the Academy of Music and Niblo's; after which she left for Philadelphia, but on the second night of her playing there took a cold, from which she never recovered. The South of this country, the balmy, tropical air of Cuba, even the far famed Egyptian climate, each of which was tried in turn, could not suffice to restore the great tragic actress the health she lost on these, to her ill fated shores.

Rachel, like so many of the gifted children of genius, sprang for the people; a poor Jewess, educated for the stage, but with little prospect of ever attaining eminence in that or any other profession, she struggled through her earlier years; at first, singing in the public streets, and afterwards adopted by a professor of declamation. She played at first without success, whether without manifesting her marvelous abilities, it is impossible now to say; but these could not long remain hidden, and a second debut at the Theatre Francaise established her fame when she was but seventeen years of age.

The play was Les Horaces of Corneille, in which she, rather than the poet, created the character of Camille. Her performance of this part was immediately recognized by the most critical audiences in the world as transcending any exhibition that had been known on the tragic stage by the present generation; and the verdict was constantly repeated by all capable of appreciating the most consummate art, or alive to the influence of the loftiest genius, wherever Rachel afterwards appeared. Her triumphs were not confined to own country; she was the first histrionic genius who was able to subdue audiences before whom she spoke in an unknown tongue; but she spoke the language of passion, understood and felt by all, and her greatness was as apparent at St. Petersburg or New York as at Paris. For twenty years she was unrivaled, but just before her death, just indeed previous to her sailing for America, another actress appeared, who in some points even surpassed Rachel.

Ristori played in Paris, was pronounced a worthy compeer of the Jewess, was even thought by some to have shaken the supremacy of her predecessor, and since then Rachel has never performed in the old world. She came hither, and gathered fresh glories in an untried field, but never stood again on the stage where she had so long been queen.—N. Y. Day Book.

FROM THE SANDWICH ISLANDS.—Our dates are to Feb. 27th, by the Yankee. We give a few items of intelligence: George Frederick Meekham, Commander of H. B. M. steamer Vixen, lying in the harbor of Honolulu, died on board his vessel, on Wednesday evening, 17th Feb., of bilious fever, ending in congestion of the lungs. He was 30 years old, and had served on board the Arctic in the northern seas. The bees recently carried to Honolulu from San Jose, California, have given off one swarm, and another was expected in a few days. It has been remarked that these bees produce wax of an unusually white character—white wax being rarer and more valuable than yellow wax.

Rowe and Marshall's Circus, the first that ever visited the Sandwich Islands, had been performing in Honolulu, and were to give three more exhibitions previous to sailing for New Zealand. The performances were attended by large numbers.

A severe storm raged at Lahaina, blowing down and unroofing houses, destroying plantations, and doing considerable damage generally. A terrible whirlwind passed through the town, which, besides doing great injury to various buildings, was so severe as to twist the skin completely off of a Kanaka, "just the same as if he had been scalded." At Honolulu, with the exception of an occasional squall, the gale was rather moderate, with but little rain.—Polynesian.

We paid a visit to the woolen manufactory in this place one day last week, and were shown about the same by Mr. Pratt, the gentlemanly superintendent. The company are now engaged in the manufacture of blankets, and are turning out a superior article. They have 480 spindles, and 15 looms. It is the first woolen mill on the Pacific. A. S. Watt, is the factor, or business agent.—Statesman.

EMIGRATION TO THE GADSDEN PURCHASE.—Several companies, says the Yreka Union, have recently left San Francisco for the Gadsden Purchase, where they purpose to settle, in anticipation of the improved condition of the country that will follow a Territorial organization, which event, it is confidently expected will transpire during the present session of Congress.

YREKA AND SHASTA WAGON ROAD. We see, says the Yreka Union, that the "Shasta and Yreka Turnpike Road Company" are preparing for an energetic campaign the coming summer, against the mountains lying between us and our neighboring town, Shasta. They have advertised to receive proposals, until the 29th inst., for the construction of a wagon road from the Mountain House, on Clear creek, on the east side of Trinity Mountain, (to which point there is now a good stage road from Shasta,) over the mountain to the ferry on Trinity river, and thence up Trinity valley to the New York House, immediately at the east base of Scott Mountain, and for the building of four bridges on Trinity River.

ANOTHER.—The Shasta Republican of last Saturday, says:—"The Pitt River passenger route from this place to Yreka will be opened in about ten days from this time. Passengers will go by stage to Pitt River, thence by saddle to Soda Springs, and thence again by stage to Yreka. Leaving this place at five o'clock a. m., passengers will reach Yreka on the evening of the same day."

The Union adds: In a few days the road will be in a condition to run coaches twelve miles below Soda Springs, which will leave but thirty miles by way of this new route to be traveled on mules. We do not think, however, that the trip will regularly be made from Shasta to this place in a single day, the distance being rather over than under one hundred miles.

YET ANOTHER.—We learn by the Trinity Journal says the Union, that active measures are being adopted for the building of a good wagon road from Weaverville to Trinity Centre, which, when the road is completed over Scott Mountain and through Trinity Valley, will put us in communication with Weaverville. The Crescent City road will soon be finished; so we are soon to have a wagon road connection with Shasta, Weaverville and Crescent City. Two years ago the practicability of such a connection with any of those towns was not settled.

PARDONS GRANTED.—Gov. Weller has pardoned J. H. Green, convicted of forgery in San Francisco, in 1853, and sentenced to the State Prison for five years. He has fully served out his term, and the Governor says satisfactory evidence of his good conduct, during imprisonment and since his discharge, has been furnished. He, therefore, pardons and restores him to citizenship. Also, Geo. E. Nias, indicted by the Grand Jury of San Francisco, in December, 1857, for an assault with a deadly weapon with an intent to commit bodily injury, and sentenced by the Court of Sessions to pay a fine of sixty dollars, or be imprisoned until said fine be paid by law. The Governor says his excellent character has been certified to him, and that "the assault was made under provocation difficult for human nature to resist." The fine is, therefore, remitted, and the prisoner ordered discharged.

On the 10th day of February, A. D. 1858, F. Whitebread was pardoned upon the express condition that he should leave this State within twenty days from the date aforesaid, and never return thereto, and that a violation of said condition should operate as a forfeiture of all the rights and immunities conferred by the pardon. It has been satisfactorily represented to the Governor by his physician, under oath, that he is laboring under a disease, perhaps incurable, which makes it impossible for him to be moved, and that a compliance with the order would terminate his life. The Governor has consequently ordered that the time of his departure from the State be extended to the 15th day of May, 1858.—Sacramento Union.

AMENDMENTS TO THE CONSTITUTION OF CALIFORNIA.—The Judiciary Committee of the Assembly, to whom was referred a bill to amend Article VI of the Constitution, which defines the judicial power of the State, have agreed upon, and reported the amendments. They are important, as they re-organize our judiciary system. The number of judges it is proposed to increase to five, which is an amendment much needed. The labor of the Court is too great for three men. The term of office is extended, as well as the jurisdiction of the Court, in the way of issuing original process. A Court of Common Pleas is substituted for the County Court and Court of Sessions. But the amendment proposed which is most acceptable of all others to us, is that which requires the election of Judges to be held at a time when no political offices are to be filled. To preserve the judiciary uncontaminated, such an amendment is absolutely required. With us, this amendment would carry the others.—Sacramento Union.

GET A HOME.—Get a home, rich or poor, get a home, and love that home, and make it happy to wife and children by your presence; learn to love simple pleasures, flowers of God's own planting and music of his own; let the bird, wind and waterfall. So shall you help to stem the tide of desolation, poverty and despair, that comes upon so many through scorn of little things. O, the charm of a little home; comforts dwell therein; shun the gilded halls of society.

Education is better than wealth.

L. J. CZAPKAY'S Grand Medical and Surgical Institute.

Sacramento street, below Montgomery, opposite Pacific Mail Steamship Company's Office, San Francisco.

Established in 1854, for the Permanent Cure of all Private and Chronic Diseases, and the Suppression of Quackery.

Attendant and Resident Physician, L. J. CZAPKAY, M. D.

Late in the Hungarian Revolutionary War, Chief Surgeon to the 24th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pest, Hungary, and the late lecturer on the Diseases of Women and Children.

Communications strictly confidential. Consultations, by letter or otherwise, free. Address, DR. L. J. CZAPKAY, Sacramento Street, San Francisco, Cal.

TO THE AFFLICTED.—Dr. L. J. Czapkay returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of Chronic Diseases of the Lungs, Liver, Kidneys, digestive and genital organs, and all private diseases, viz: Sphaculous ulcers, gonorrhoea, gleet, strictures, seminal weakness and all the horrid consequences of self-abuse, and all the venereal diseases, and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

SUFFER NOT WHEN A CURE IS GUARANTEED in all stages of secret diseases, self-abuse, nervous debility, syphilis in all its stages, strictures, gleet, gravel, diabetes, diseases of the kidney, and bladder, mercurial rheumatism, scrofula, pains in the bones and ankles, diseases of the lungs, throat, nose and eyes, neuralgia upon the body or limbs, dropsy, epileptic fits, St. Vitus' dance, and all diseases arising from a derangement of the sexual organs, such as nervous trembling, loss of memory, loss of power, general weakness, dimness of vision with peculiar spots appearing before the eyes, loss of sight, wakefulness, dyspepsia, liver disease, eruptions upon the face, pain in the back and head, female irregularities, and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines prescribed are pleasant, without odor, entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice, in Europe, the Atlantic States, and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy cure. Private diseases are the greatest diseases to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease, but in a shorter time fill the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption.

But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions, and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities and all diseases of males and females treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures. Medicines with full directions, sent to any part of the State, Oregon and Washington Territories, by packets communicating their symptoms by letter. Business correspondence strictly confidential. Address, DR. L. J. CZAPKAY, Medical Institute, Sacramento st., below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco.

DR. L. J. CZAPKAY'S PRIVATE Medical and Surgical Institute is on Sacramento street, below Montgomery, opposite the Pacific Mail Steamship Company's Office, San Francisco. The Doctor offers free consultations, and asks no remuneration unless he effects a cure. Office hours, from 9 a. m. to 9 p. m.

CERTIFICATE. I, the undersigned, Governor of Hungary, do testify hereby, that Dr. L. J. Czapkay has served during the contest for Hungarian liberty, as Chief Surgeon in the Hungarian army, with faithful perseverance, and do recommend him to the sympathy, attention and protection of all those who are capable of appreciating patriotic self-sacrifice and undeserved misfortune.

KOSSUTH LAJOS, Governor of Hungary. Washington City, Jan. 6, 1852.

SPERMATORRHOEA, or Local Weakness, nervous debility, low spirits, loss

of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c. &c. The mind is more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, self-distrust, love of solitude, timidity, &c. are some of the evils produced.

All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to perfect health. Let no false delicacy prevent you, but apply immediately, and save yourself from the dreadful and awful consequences of this terrible malady.

WEAKNESS OF THE EYES.—The Office corner of Montgomery and California streets, over Pacific Express, San Francisco, where all letters must be directed to insure attention. J. C. YOUNG, M. D.

BEWARE OF IMPOSITION.—In consequence of the wide spread celebrity of Dr. YOUNG, numerous impostors have sprung into existence, pretending to be perfect masters of the healing art, and have succeeded in imposing upon a few of the unwary sufferers. Persons wishing to consult a physician, should be very careful how they put confidence in the published statements of such charlatans, for they are as unscrupulous in such statements as in their practice of medicine, and are very unsafe to trust. They will first deceive you by false certificates, procured from "drunken loafers," who perjure themselves to get money to satisfy the cravings of a diseased appetite. When such quacks gain your confidence, he will then dose you with mercury and other drugs, and after they have robbed you of your money and injured your constitution, they will cast you off, with the charge, that you have not followed their directions.

The only way to avoid such impostors, is to consult Dr. J. C. Young, the Pioneer Advertising Physician of California. At a meeting of the Medical Faculty of this State, called to investigate the source of malpractice, that has caused so much suffering in this country, it was unanimously recommended that all the afflicted should consult Dr. Young, as he was the only regularly educated Physician now advertising in California, and others in his line being quacks and all impostors, and are not to be trusted. The afflicted will please take notice, that there was not a physician at the meeting who had ever seen or heard of a single case of malpractice from Dr. Young, while not one of them but had seen a number of cases from the foreign quacks, who so wantonly set forth their pretended virtues in the public prints. The above facts should be borne in mind by all seeking medical assistance.

Thank heaven, they are getting thoroughly exposed, and it will not long before they will have to fly the country, to avoid the just indignation of an outraged public. Then will good people thank Dr. Young for his continued efforts to banish quackery from our midst.

DR. J. C. YOUNG can be consulted from 5 A. M. to 5 P. M., at his office, corner California and Montgomery streets, over the Pacific Express Office, San Francisco. All letters containing the usual fee of \$10 will meet with prompt attention. 2 2m3

Regular Mail Lin OF FOUR HORSE COACHES BETWEEN OREGON CITY AND CORVALLIS

WE beg leave to inform our friends, both in Oregon Territory and California, that we conduct the Mail Line, and are prepared to accommodate passengers to and from Oregon City to Corvallis upon the arrival of every U. S. Mail, as well as carrying those of the interior on the same route.

Leave Oregon City on every Monday and Wednesday at 7 A. M. Leave Salem on every Saturday and Tuesday. The Coaches will leave for Corvallis, with the Mail upon the arrival of the Coaches from Oregon City.

For a full description of the most reasonable terms, for all kinds of money down, and no grumbling, makes short credit and friends for life. Office at the Livery Stable.

RAY & DREW, C. F. RAY, Sept 16, 1856. 46fr

Table Rock Bakery AND CONFECTIONERY, ORGON STREET. THE undersigned has on hand, and is always ready to manufacture to order, all kinds of Pastry, Confectionery, Cakes, &c. &c.

All kinds of Syrups, and everything in his line of business, usually found in the Confectionery in the cities. WM. HESSE & CO. Jacksonville, Dec. 1, 21.

Wm. Hoffman, AUDITOR OF JACKSON COUNTY. OFFICE—At the Post Office, next door to Pat. Ryan's, Jacksonville O. T.

And PENSIONS FOR SOLDIERS. THE undersigned will attend to the procuring of Bounty Lands, under the Act of March 2d, 1855, for persons who have been regularly mustered into the United States service for the term of fourteen days, or more. Persons who were engaged in either of the Indian wars in this country, and all widows and orphans of such persons, are entitled to 160 acres of land, and by forwarding the necessary proof of their service to the undersigned, the official forms will be made out and forwarded to the proper Department at Washington which will ensure the return of a LAND WARRANT for the applicant.

Having a competent agent at Washington, it enables me to transact this kind of business with great efficiency and dispatch. Charges moderate. Address—W. G. T. VAULT, Jacksonville, O. T.

Clothing of all kinds For sale low, by J. W. STEARNS.

Dr. Young. DR. J. C. YOUNG'S PRIVATE MEDICAL ROOMS, N. E. Corner California and Montgomery streets, SAN FRANCISCO.

TO THE AFFLICTED.—Read the following RECOMMENDATORY LETTERS and then judge between Dr. Young and those quacks that malign his motives. Avoid such men as you would a pestilence, for there is death in their treatment. All afflicted with Diseases of a Private or any other nature should call upon Dr. J. C. Young, and they would then avoid imposition and assist the Doctor in his herculean labor of suppressing quackery and empiricism. Dr. Young's charges are moderate and within the reach of the most humble.

IMPORTANT.—Dr. J. C. Young wishes to call the attention of invalids to his course of practice. The Dr. has long since abandoned the mercurial treatment, and has strictly followed the Vegetable Practice. Patients under treatment with him are not confined to the house, nor taken from their business, but can go about and eat as usual. The Dr.'s mode of treatment of cases of debility, both general and sexual, is not surpassed by any physician, and always results in a perfect removal of their troubles. Dr. Y. has discovered a new mode of treating affections of the Liver, after a fair trial has been submitted to the Professors of several of the medical institutions of the States, and pronounced by them, as perfectly successful, and has been adopted by them in their practice. In the treatment of incipient consumption, and disease of the blood, the Dr. stands pre-eminent in his profession, and will warrant a cure in all cases. The following testimonials speak for itself: Dr. J. C. Young.—Sir: Your mode of treating affections of the Liver and disease of the Blood, has proved by repeated trials, to be the best yet offered to the faculty, and has been adopted by the board. Continue to study the human system as you have done, and you will yet stand at the head of your profession. W. R. HORNER, Prof. of Anatomy, University, Penna.

HAVE CONFIDENCE.—Dr. YOUNG will guarantee a perfect and permanent cure in the following cases, or charge nothing for his services: Syphilis, Gonorrhoea, Stricture of the Urethra, Affection of the Prostate Gland, Weakness of the Genital Organs, Impotency, Sterility, both in male and female, Permatara, or Seminal Weakness, Nocturnal Emissions, Rheumatism, Dyspepsia, Indigestion, Fever and Ague, Nephritic Consumption, and all irregularities in Female, together with all diseases of Women and Children; also Nervousness, Palpitation of the Heart, &c. Persons afflicted with symptoms after being treated, should consult Dr. Young at once, as no disease is cured unless the patient feels perfectly well. If there is a particle of disease left in the system, it will break out at some future time, when least expected, or be handed to an innocent offspring. Persons who have been treated with mercury should be very cautious in believing that they are well, for it is a scientific fact that the mercury will mingle with the venereal, and form disease a great deal worse than the original. All those who have reason to think, by bad feelings, that they have been treated thus, should consult Dr. Young, and he should examine their cases and tell them at once how they stand.

VOLUNTARY CERTIFICATE.—TO ALL WHOM IT MAY CONCERN.—This is to certify that I, B. F. Luning, applied to Dr. J. C. Young, to be treated for a general debility, brought on by hard work at mining in the water, and a pneumatic affection in my limbs, which almost deprived me of their use, that the above complaints and troubled me for a long time—some of them for several years, and the other about eighteen months. Overcome by the pain and anxiety occasioned by them, I had given up all hopes of ever again enjoying good health. In this condition, I called upon Dr. J. C. Young, and after the lapse of five months, I am perfectly well and feel nearly as strong as I ever did. I can recommend every one afflicted to his care, for he cured me, and has cured several of my friends that I recommended to his care, afflicted with different diseases, some of them had cases, of a very bad and dangerous nature. Given this my voluntary testimony in favor of Dr. J. C. Young in hopes that it may induce all those afflicted, to call on him, and avoid the impostors who have robbed me, not only of money, but to a certain extent of my health. B. F. LUNING.

GREEN HORN GULCH, Korn River, } September 2, 1856. } DEAR SIR: It is with pleasure that I hasten to answer your letter, enquiring how I get along. I have entirely recovered from the complaints for which your medical skill was required, and I assure you I feel grateful to you for the health I now enjoy. Snatched as I was from the very jaws of death, and saved from an untold amount of suffering. Were I in the city where I could do it, this would have the solemnity of an oath, but I am in a mining camp, there is no Justice of the Peace within several miles of me, and so you must publish without it. I do not like to name my disease, and I suppose it is not requisite, as you treat all kinds of disease. Yours, G. LANGDON To Dr. J. C. Young.

MARIPOSA, Sept. 27th, 1856. DR. J. C. YOUNG.—Sir: In answer to your request, as to how my case is getting along, I would state that I am perfectly well, and have been so for about one month. I should have written before, but have been waiting to see if it would return. I am now satisfied that I have seen the last of it. My case was said to be a very bad one by all the physicians that examined me. They all called it a mercurial disease, and said there "was no help for it." You called it scrofulous, mixed with a mercurial affection, and said you could cure me, and you have done so. I can only thank you for it and recommend all persons afflicted to give you a fair trial. Yours till death, C. L. RAILS, Jr.

CONSTITUTIONAL DEBILITY, OR Seminal Weakness.—Dr. Young addresses those having injured themselves by private and improper indulgence in the secret and solitary habit that ruins the body and mind, unfitting them for either business or society. The following are some of the sad and melancholy effects produced by early habits of youth, viz: weakness

of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c. &c. The mind is more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, self-distrust, love of solitude, timidity, &c. are some of the evils produced.

All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to perfect health. Let no false delicacy prevent you, but apply immediately, and save yourself from the dreadful and awful consequences of this terrible malady.

WEAKNESS OF THE EYES.—The Office corner of Montgomery and California streets, over Pacific Express, San Francisco, where all letters must be directed to insure attention. J. C. YOUNG, M. D.

BEWARE OF IMPOSITION.—In consequence of the wide spread celebrity of Dr. YOUNG, numerous impostors have sprung into existence, pretending to be perfect masters of the healing art, and have succeeded in imposing upon a few of the unwary sufferers.
