**DR. LIVINGSTONE'S NEW AFRICAN EXPEDITION.**—At a late meeting of the Royal Geographical Society of London, Sir R. Marchison observed that Dr. Livingstone would not be able to attend another meeting of the Society before he set off on his return to Africa. Dr. Livingstone would go this time not alone, but would be accompanied by five able assistants in his labors. After ascending ascending the Zambesi as high as they could, they would put together the steam launch which has been constructed for navigating the shallow water. Dr. Livingstone would take with him an iron house and establish himself on the high ground not far from the banks of the river, which he expects to prove salubrious, and he will go accompanied by Mrs. Livingstone. The Portuguese Government had kindly offered to render him every possible assistance in his progress through the Portuguese territory. Dr. Livingstone said he relied much on the aid of the scientific gentlemen who were to accompany him. Capt. Beddingfield would be able to give more accurate accounts of the navigation of the Zambesi and its tributaries, and of the prospects of establishing water intercourse with the interior. From Dr. Kirk, the botanist of the expedition, they might expect to derive valuable information respecting the plants and vegetation, and the probability of practically cultivating cotton and other products. Mr. Thornton, the geologist and practical mineralogist, would be able to ascertain the value of mineral products, particularly of the coal, of which Dr. Livingstone had brought specimens. Mr. Baines, the artist of the expedition, would, with the aid of his brother, bring back photographs of the scenes in Southern Africa, so that when they returned to this country he hoped they would come provided with very valuable and interesting information.

**KANSAS.**—They are getting tired of the thing, even in Kansas. We clip the following paragraph from the Leavenworth Daily Ledger of the 15th February:

"Let the Leocompton Constitution pass, and let representatives elected be called together and elect the two U. S. Senators, and the agony is all over.— True, there may be a faction in the Free State party who will not be successful, and may endeavor to keep up this infernal nigger agitation, from the fact that they have been 'ruled out' from a participation in the 'spoils'; but that is nothing, they can be easily choked off and made to bite the dust by the stern will of the people. 'Demagogues' and 'fanatics' of both parties are no longer in the hearts and affections of the people, and their ranting and 'roarings' will avail nothing. The people are sick, tired and disgusted with them, and will listen to their madness no more. We want peace, for that brings us happiness and prosperity.

The Kansas Herald of Freedom deprecates the course of the New York Tribune and other presses of that character, and favors the immediate admission of Kansas under the Leocompton constitution, and says that people can then peacefully proceed to make such amendments to their constitution as the majority shall think proper.

**INAUGURATION OF THE EQUESTRIAN STATUE OF WASHINGTON.**—At Richmond, Va., on the 22d February, the new equestrian statue of Washington was inaugurated with appropriate ceremonies, the occasion being one of magnificent display. The Hon. R. M. T. Hunter delivered a masterly oration. About 15,000 people were present, including many members of Congress. On the following day vast multitudes assembled at the Richmond Theatre to witness the presentation of Washington's case to the Hon. Edward Everett, and also the presentation of Washington's spy glass to Mr. Yancy. The ceremonies were very imposing. Mr. Mumford, Secretary of State, made the presentation speech, which was admirable. The responses of both the recipients excited general and enthusiastic applause. On the same evening, by request, Mr. Everett repeated his oration on Washington to an audience of several thousand.

A man or a journal that can approve the Leocompton villainy, must be prepared to justify and sustain any fraud and wickedness that the dispenser of Federal patronage might desire.—N. Y. Tribune.

With the exception always, Mr. Tribune, of that other "villainy" connected with a \$1,000 lobby check, so long stowed away in the breeches pocket of a somewhat distinguished editor. Does Mr. Greeley know who it was?—N. Y. News, March 6th.

The Virginia State Senate has passed a bill prohibiting the emission of bank notes of a less denomination than ten dollars, after the 1st of August, 1858, and of a less denomination than twenty dollars after the 1st of August, 1859.

**FRAGRANT ASSOCIATIONS.**—The Hartford Times, speaking of a certain ex-clergyman, late of Boston, and later left in total darkness, and assailed with rotten eggs while attempting to lecture in Bangor, as "the ex-Rev. Mr. Killoch of fragrant associations."

Conscience—the "still, small voice."

## THE CASKET OF DIAMONDS!

A Weekly Journal containing 32 columns of choice reading matter of a character calculated to instruct, amuse, and interest the general reader, will be commenced on the 1st Saturday in March, 1858.

**ONLY \$1 PER ANNUM IN ADVANCE.**

**The Casket of Diamonds** Will be the cheapest, best and most entertaining Weekly Paper ever published in New York.

**Diamonds! Diamonds! Diamonds!** 20 Thousand Dollars worth of pure California Diamonds, set in every conceivable style of elegant Gold Jewelry, to be presented to the subscribers of the Casket of Diamonds. There are no gifts worth less than 25 cents, and from that up to \$300.

**GIFTS! GIFTS! GIFTS!!!** EVERY SUBSCRIBER Will receive a beautiful gift in Gold or Diamond Jewelry immediately on receipt of his or her name, accompanied by the amount of subscription money.

**The Subscribers' Names,** As fast as received, will be placed in regular rotation on our books, opposite designating Nos., and the gift containing a corresponding No. will be sent IMMEDIATELY, post paid, to the subscriber.

**Ladies! Ladies! Ladies!!!** You can get a large number of subscribers for the Casket of Diamonds by a little extra exertion, and for every 10 subscribers names you forward us, accompanied by the money, we will send you a beautiful diamond gift. We make the same offer to the gentleman.

Please bear in mind the fact that every subscriber to the Casket of Diamonds will receive a beautiful gift immediately receipt of his or her name accompanied by the subscription money.

Persons wishing to commence with the First No. should send in immediately, as the gift they will receive will encourage them to speak to others of their success, and thereby assist materially in increasing our subscription list to commence with the first No.

Among the interesting features of our Paper will be a Love correspondence of the most thrilling and exciting character, which took place in Paris, in 1855, betwixt an English Gentleman and French lady—the tyrannical opposition of the lady's father to the union of his daughter with the English gentleman is described in the most vivid and interesting manner, as well as the successful plots of the young lady to elude the vigilance and cruelty of her heartless father.

These letters are deeply interesting, and of a pure, high-toned character. Each Subscriber must send 3 three cent postage stamps for return postage on gift.

**NELSON, HICKS & CO.,** Proprietors of the Casket of Diamonds, 113 1/2 Nassau Street, New York.

## PHYSIO-MEDICAL INFIRMARY.

**A. B. OVERBECK, M. D.**

**I TAKE THIS METHOD OF INFORMING THE PUBLIC** that I have fitted up, at my residence at Pleasant Grove, two miles east of Jacksonville, a suitable building for the reception and treatment of persons afflicted with any form of disease. Patients will be boarded and treated at this infirmary at prices varying with their conditions and wants. Those who cannot remain in the infirmary will be examined and provided with medicines and directions peculiar to their system—a mode of treatment by which thousands have been cured and restored to health—at very moderate charges.

I have ample arrangements for the administration of the various kinds of Baths—medicated, vapor, warm, cold, &c.

The distinguishing feature of the Physio-medic Practice consists in the administration of an innocent medication. All agents, whether mineral or vegetable, that are known to act as poisons, are rejected from my practice. The Physio-medic practice signifies the treatment of disease with agents that act in harmony with the recuperative powers of nature.

N. B.—No person will be received at the infirmary who cannot furnish good guarantee of payment.

## BATHS!

The public generally will be accommodated at any time with any of the above specified Baths. The Bathing-room and tubs are lined with zinc, and will be entirely free from taint.

**A. B. OVERBECK, M. D.** Pleasant Grove, Sept. 19, 1857. 301r

## Special Notice.

**COLUMBIAN DINING HALL!** Portland, Oregon.

**THE PROPRIETORS** of this favorite Eating Establishment, respectfully inform all whom it concerns, that they have leased, and are now engaged in repairing, changing, cleaning, refitting, improving and changing the building on the corner of Front and Washington streets, formerly known as the "Columbian," and recently as the "Carter House," and adjoining the "Columbian Dining Hall," for the better accommodation of the traveling community with Board and Lodging. The House will be completed and fully furnished, with 100 of the BEST TABLES in Oregon, and ready for the accommodation of Travelers and Weekly Boarders—Ladies and Gents—by the 20th of March. When opened, it will be known as the "COLUMBIAN," and kept in manner and style second to none in Oregon. Prices will always be the lowest, and Fare the best, as heretofore. March 11, 1858. 132r

## MEDICAL INFIRMARY.

**THE UNDERSIGNED HAVING FITTED UP** an establishment of the above description in

**KERBYVILLE, O. T.,** is prepared to receive patients. They will be treated by the day, or otherwise; everything furnished except clothing. He has a Bath Room attached—enabling him to administer various medical baths, Saline, Alkaline, Calomel, Sulphur, Iodine, Nitro-muriatic acid, etc., Cold and Warm.

An experience of sixteen years in the practice of medicine, and a thorough knowledge of the human system, enables him to render satisfaction to all applicants. He treats Rheumatism in its various stages with universal success, as can be attested by many citizens of Oregon. Cures guaranteed, when required by the patient.

N. B.—Charges moderate, and pay demanded. **M. C. BARKWELL, M. D.** Jan. 1st, 1858. 54r

## Notice—Settle!

**ALL PERSONS HAVING UNSETTLED** Accounts with the Phoenix Mills are requested to call immediately and SETTLE THE SAME, as I am desirous to close all the present accounts.

**S. M. WAIT,** Phoenix Mills, Jan. 20, 1858.

## L. J. CZAPKAY'S

**Grand Medical and Surgical Institute.** Sacramento street below Montgomery, opposite Pacific Mail Steamship Company's Office, San Francisco.

**Established in 1854, for the Permanent Cure of all Private and Chronic Diseases, and the Suppression of Quackery.**

Attendant and Resident Physician, **L. J. CZAPKAY, M. D.,** Late in the Hungarian Revolutionary War, Chief Surgeon to the 24th Regiment of Honvéd, Chief Surgeon to the Military Hospital of Pesth, Hungary, and the late lecturer on the Diseases of Women and Children.

Communications strictly confidential. Consultations, by letter or otherwise, free. Address, **DR. L. J. CZAPKAY,** San Francisco, Cal.

## TO THE AFFLICTED.—Dr. L. J. CZAPKAY

returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of Chronic Diseases of the Lungs, Liver, Kidneys, digestive and genital organs, and all private diseases, viz: Syphilitic ulcers, gonorrhoea, strictures, seminal weakness, and all the horrid consequences of self-abuse, and he hopes that his long experience and successful practice of many years will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, and during the Hungarian war and campaigns, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury—charges moderate—treats his patients in a correct and honorable way—has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

## SUFFER NOT WHEN A CURE IS GUARANTEED

in all stages of secret diseases, self-abuse, nervous debility, syphilis in all its stages, stricture, gonorrhoea, diabetes, diseases of the kidney, and bladder, mercurial rheumatism, scrofula, pains in the bones and ankles, diseases of the lungs, throat, nose and eyes, ulcers upon the body or limbs, dropsy, epileptic fits, St. Vitus' dance, and all diseases arising from a derangement of the secret organs, such as nervous trembling, loss of memory, loss of power, general weakness, dimness of vision with peculiar spots appearing before the eyes, loss of sight, wakefulness, dyspepsia, liver disease, eruptions on the face, pain in the back and head, female irregularities, and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected, by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines prescribed are pleasant, without odor, entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice, in Europe, the Atlantic States, and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases, had been given up to die by their physicians which warrants me in promising to the afflicted, who may place themselves under my care, a speedy cure. Private diseases are the greatest diseases to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption.

But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, leprosy, ulcers, eruptions, and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents proper development of the system, disqualifies for marriage, society, business, and all other enjoyments, and leaves the sufferer wretched in body and mind, predisposed to consumption, and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities and all diseases of males and females treated on principles established by fifteen years of practice and executed by thousands of the most respectable cures. Medical certificates, full directions, sent to any part of the State, Oregon and Washington Territories, by patients communicating their symptoms by letter. Business correspondence strictly confidential.

Address **DR. L. J. CZAPKAY,** Medical Institute, Sacramento st., below Montgomery, opposite Pacific Mail Steamship Co.'s Office, San Francisco.

**DR. L. J. CZAPKAY'S PRIVATE** Medical and Surgical Institute is on Sacramento street, below Montgomery, opposite the Pacific Mail Steamship Company's Office, San Francisco. The Doctor offers free consultation, and asks no remuneration unless he effects a cure. Office hours, from 9 A. M. to 9 P. M.

## CERTIFICATE.

I, the undersigned, Governor of Hungary, do testify hereby that **DR. L. J. CZAPKAY** has served during the contest for Hungarian liberty, as Chief Surgeon in the Hungarian army, with faithful perseverance—wherever I have given him this certificate, and do recommend him to the sympathy, attention and protection of all those who are capable of appreciating patriotic self-sacrifice and undeviating fortitude.

**KOSSUTH LAJOS,** Governor of Hungary. Washington City, Jan. 6, 1854.

## SPERMATORRHEA, or Local Weakness, nervous debility, low spirits, lassitude, weakness of the limbs and back, indisposition and incapacity for labor and study, dullness of apprehension, loss of memory, aversion to society, loss of self-respect, timidity, self-distrust, dizziness, head-ache, involuntary discharges, pains in the side, affections of the eyes, pimples on the face, sexual and other infirmities in man, are cured without fail, by the justly celebrated Physician and Surgeon, **DR. L. J. CZAPKAY.** His method of curing diseases is new, (unknown to others), and hence his great success. All consultations, by letter or otherwise, free. Address **L. J. CZAPKAY, M. D.,** San Francisco.

## Dr. Young.

**DR. J. C. YOUNG'S PRIVATE MEDICAL ROOMS,** N. E. Corner California and Montgomery streets, SAN FRANCISCO.

**TO THE AFFLICTED.**—Read the following RECOMMENDATORY LETTERS and then judge between Dr. Young and those quacks that malign his motives. Avoid such men as you would a pestilence, for there is death in their treatment. All afflicted with Diseases of a Private or any other nature should consult Dr. J. C. Young, and they would then avoid imposition and assist the Doctor in his herculean labor of suppressing quackery and empiricism. Dr. Young's charges are moderate and within the reach of the most humble.

**THE GREATEST DISCOVERY OF THE AGE!**—Great Blessing to Mankind—Innocent but Potent!—**DR. L. J. CZAPKAY'S** Proprietary, (self-disinfecting agent)—a sure preventive against gonorrhoea and syphilitic diseases, and an unsurpassed remedy for venereal, scrofulous, gangrenous and cancerous ulcers, fistula discharges from the vagina, uterus and urethra, and all cutaneous eruptions and diseases. As inoculation is a preventive against small pox, so is Dr. Czap- kay's Proprietary a preventive against all syphilitic and gonorrhoeal diseases. All though harmless in itself, it possesses the power of chemically destroying the syphilitic virus, and thereby saving thousands from being infected by the most loathsome of all diseases. Let no young man who appreciates health be without Dr. Czap- kay's Proprietary. It is in every convenient to use, being used as a soap.— Price, \$5. For sale at Dr. Czap- kay's Private Medical and Surgical Institute, Sacramento street, below Montgomery, opposite P. M. S. Co.'s office, San Francisco. 11m3

**IMPORTANT.**—Dr. J. C. Young wishes to call the attention of invalids to his course of practice. The Dr. has long since abandoned the mercurial treatment, and has strictly followed the Vegetable Practice. Patients under treatment with him are not confined to the house, nor taken from their business, but can go about and eat as usual. The Dr.'s mode of treatment of cases of debility, both general and sexual, is not surpassed by any physician, and always results in a perfect removal of the troubles. Dr. Y. has discovered a new mode of treating affections of the Liver, which after a fair trial has been submitted to the Professors of several of the medical institutions of the States, and pronounced by them, as perfectly successful, and has been adopted by them in their practice. In the treatment of incipient consumption, and disease of the blood, the Dr. stands pre-eminent in his profession, and will warrant a cure in all cases. The following testimonial speaks for itself.

**DR. J. C. YOUNG.**—Sir: Your mode of treating affections of the Liver and disease of the Blood, has proved by repeated trials, to be the best yet offered to the faculty, and has been adopted by the board. Continue to study the human system as you have done, and you will yet stand at the head of your profession.

**W. R. HORNER,** Prof. of Anatomy, University, Penn.

**HAVE CONFIDENCE.**—**DR. YOUNG** will guarantee a perfect and permanent cure in the following cases, or charge nothing for his services: Syphilis, Gonorrhoea, Stricture of the Urethra, Affection of the Prostate Gland, Weakness of the Genital Organs, Impotency, Sterility, both in male and female, Spermatorrhea, or Seminal Weakness, Nocturnal Emissions, Rheumatism, Dyspepsia, Indigestion, Fever and Ague, Incipient Consumption, and all irregularities in Females, together with all diseases of Women and Children; also Nervousness, Palpitation of the Heart, &c. Persons afflicted with symptoms after being treated, should consult Dr. Young at once, as no disease is cured unless the patient feels perfectly well. If there is a particle of disease left in the system, it will break out at some future time, when least expected, or be handed to an innocent offspring. Persons who have been treated with mercury should be very cautious in believing that they are well, for it is a scientific fact that the mercury will mingle with the venereal, and form a disease a great deal worse than the original. All those who have reason to think, by bad feelings, that they have been treated thus, should consult Dr. Young, and he should examine their cases and tell them at once how they stand.

## UNIFORM REMEDY

**Messrs. A. B. & D. SANDS,** Gentlemen.—It gives me pleasure to send you the following statement in regard to my son. He took a severe cold, and after eight weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was caused by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and foot at one time. We had five different physicians, but none relieved him much; and the last winter found him so emaciated and low that he was unable to leave his bed, suffering the most excruciating pain. During this time the bone had become so much affected, that piece after piece came out, of which he has now more than twenty-five pieces in a bottle, varying from one inch to one and a half inches in length. We had given up all hopes of his recovery; but at this time we were informed by your agents, that if we would use your health and appetite began immediately to improve, and so rapid was the change that less than a dozen bottles effected a perfect cure.

With gratitude, I remain truly yours, **DARBUS BALLARD.**
