AGENTS GETTING RICH!

The union of EMERSON'S MAGAZINE and PUTNAM'S MONTHLY has given to the consolidated work a circulation second to but one similar publication in the country, and has secured for it a combination of literary and artistic talent probably unrivaled by any in the world. During the first month, the sale in the trade and demand from subscribers exceeded 90,000 copies, and the numbers already issued of the consolidated work are universally conceded to have surpassed, in the richness of their literary contents, and the beauty and profusion of their pictorial illustrations, any magazine ever issued from the American press. Encouraged by these evidences of favor, they have determined to commence the new volume January with still additional attractions, and to offer such inducements to subscribers as cannot fail to place it in circulation, at the head of American magazines. With this view they now announce the following splendid programme. They have purchased that superb and costly steel-plate engraving,

THE LAST SUPPER.

and will present a copy of it to every three dollar subscriber for the year 1855. It was engraved at a cost of over \$6,000, by the late celebrated A. L. Dick, from the original of Raphael Morgan, after Leonardo Da Vinci, and is the largest steel-plate engraving ever executed in this country, being three times the size of the ordinary three-dollar engravings.

The first impressions of this engraving are held at \$10, and it was the intention of the artist that none of the engravings should ever be offered for less than \$5, being richly worth that amount. Thus every \$3 subscriber will receive the Magazine for one year—cheap at \$3—and this splendid engraving, richly worth \$5; thus getting for \$3 the value of \$8.

We shall commence striking off the engravings immedately, yet it can hardly be expected that impressions of so large a plate can be taken as fast as they will be called for by subscribers. We shall, therefore, furnish them in the order in which subscriptions are received. Those who desire to obtain their engravings early, and from the first impressions, should send in their subscriptions without delay. The engraving can be sent on rollers, by mail, or in any other manner, as subscribers shall direct.

\$20,000 IN WORKS OF ART.

In addition to the superb engraving of "THE LAST SUPPER," which will be presented to every three-dollar subscriber for 1855, the publishers have completed arrangements for the distribution, on the 25th day of December, 1855, of a series of splendid works of art, consisting of one hundred rich and rare Oil Paintings, valued at from \$100 to \$1,000 each. Also 2,000 magnificent Steel-Plate Engravings, worth from \$3 to \$5 each, and 1,000 choice Holiday Books, worth from \$1 to \$5 each, making in all, over Three Thousand Gifts, worth TWENTY THOUSAND dollars.

Incluse \$5 to the publishers, and you will commence receiving the Magazine by return mail. You will also receive with the first copy a numbered subscription receipt entitling you to the Engraving of

"THE LAST SUPPER."

and a chance to draw one of these "THREE THOUSAND PRIZES."

Reasons why You should Subscribe for
EMERSON'S MAGAZINE.
For 1855.

First: Because its literary contents will during the year, endorse contributions from over one hundred writers and thinkers, numbering among them the most distinguished of American authors.

Second: Because its editorial department, "Our Studio," "Our Window," and "Our Olio," will each be conducted by an able editor—and it will surpass, in the variety and richness of its editorial contents, any other magazine.

Third: Because it will contain, during the year, nearly six hundred original pictorial illustrations from designs by the fine American artists.

Fourth: Because for the sum of \$3 you will receive this splendid monthly, more richly worth that sum than any other magazine, and the superb engraving of "THE LAST SUPPER," worth \$5.

Fifth: Because you will very likely draw one of the three thousand prizes to be distributed on the 25th day of December, 1855; perhaps one that is worth \$1,000.

Notwithstanding that these extraordinary inducements can hardly fail to accomplish the objects of the publishers without further efforts, yet they have determined to continue through the year

THE GREAT LIBRARY OFFER.

To any person who will get up a club of twenty-four subscribers, either at one or more post offices, we will present a splendid Library, consisting of over Forty Large Bound Volumes, embracing the most popular works in the market. The club may be formed at the club price, \$2 a year, without the engraving, or at the full price, \$3, with the engraving of the Last Supper to each subscriber. List and description of the Library, and specimen copy of the Magazine, will be forwarded on receipt of 25 cents. Over 200 Libraries, or 8,000 volumes, have already been distributed in accordance with this offer, and we should be glad of an opportunity to furnish a Library to every clergyman, to every school teacher, or to some one at every post office in the country.

OKSMITH & CO.,

THE NEW YORK STEAM SAW-MILL AND MACHINE COMPANY.

CAPITAL \$250,000.

This company has been organized with the above capital for the purpose of supplying the demand for the

COMBINATION PORTABLE STEAM SAW-MILL,

AND OTHER IMPROVED MACHINERY.

They have purchased the entire machinery business heretofore carried on by J. M. Emerson & Co., also the Montgomery Works at Yonkers, on the Hudson, near this city, and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds at more liberal rates, than has been offered at any other establishment.

THE COMBINATION SAW-MILL was patented October, 1856, and is now generally acknowledged to be the cheapest, most practical, and efficient lumber manufacturing machine in the world. A large number of them are in successful operation in different sections of the country, Canada, Cuba, and South America, and wherever their merits have been tested they are being adopted by lumber manufacturers in preference to all other mills.

The following letter expresses the general opinion of those who are using the Combination Mill:

Messrs. EMERSON & CO.—Gentlemen: I have tried this saw-mill purchased of you, and will say that it performs well, and more than meets my expectations. I am well pleased with its performance. I set it up in a small stream, and afford constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3,000 feet of beautiful lumber in 12 hours, with something less than one cord of wood. It is the very thing we have so much need of in our country for a long time. With a little trouble and expense, we are able to move it from five to ten miles per day, and set it up in the heart of the timber, which saves the great burden of hauling the logs a long distance to the mill. Yours, respectively,

JESSE KERR, JR.,
Louisville, Tennessee.

The Company have pur-hased LUND'S PATENT FEED ARRANGEMENT, which is illustrated and described in the Scientific American for October 24. This adds greatly to the efficiency of the mill.

The Combination Mill, with all the recent improvements, and steam power of 15 horses, is capable sawing from 3,000 to 4,000 feet in twelve hours, and is sold for

\$2,000 in WORKS OF ART.

In addition to the superb engraving of "THE LAST SUPPER," which will be presented to every three-dollar subscriber for 1855, the publishers have completed arrangements for the distribution, on the 25th day of December, 1855, of a series of splendid works of art, consisting of one hundred rich and rare Oil Paintings, valued at from \$100 to \$1,000 each. W. C. YOUNG, M. D.

BEWARE OF IMPOSITION.—IN

consequence of the wide spread celebrity of Dr. YOUNG, numerous impostors have sprung into existence, pretending to be perfect masters of the healing art, and have succeeded in imposing upon a few of the unwary sufferers. Persons wishing to consult a physician, should be very careful how they put confidence in the published statements of such charlatans, for they are as unscrupulous in such statements as in their practice.

IMPORTANT.—Dr. J. C. Young wishes to call the attention of invalids to his course of practice. The Dr. has long since abandoned the merciful treatment, and has strictly followed the Vegetable Practice.

Patients under treatment with him are not confined to the house, nor taken away from their business, but can go about and eat as usual. The Dr. mode of treatment of cases of debility, both general and sexual, is not surpassed by any physician, and always results in a perfect removal of their troubles.

Dr. Y. has discovered a new mode of treating affections of the Liver, which after a fair trial has been submitted to the Professors of several of the medical institutions of the States, and pronounced by them as perfectly successful, and has been adopted by them in their practice.

Dr. J. C. Young wishes to call the attention of invalids to his course of practice.
