NORTH CAROLINA.—Traveling on the cars from O to M...

"Why, gentlemen, a dog with a long tail in North Carolina would be as great a show as a nigger with three heads."

"They cut 'em off to prevent them knocking off the huckleberries when they are chasing foxes and rabbits that run through the woods."

"Phew!" came from a listener. "Fact, certain as rain; and you never see a man or boy there with buttons on his pants."

"What then?" "Pegs," replied the other, "that impale after persimmons."

"Go it, Bat," cheered one of his acquaintances. "And I expect you another thing," he continued, "they have to bell the little singers there, just as we do calves."

"What for?" "So their owners can tell which gopher hole they're in."

A general scream followed this—the engine squealed, and we all jumped off at M.

RESPECTABILITY.—The popular way of estimating the respectability of an individual or family is very pointedly hit off in the following street dialogue of two "gemmen of color," we clip from an exchange:

"Cato, does you know dem Johnnings up dar in Congo Place is going to be berry 'spectable folks?"

"Wall, Scipio, I thought dey was getting along berry well, but I doesn't know how 'spectable dey is."

"How 'spectable does you tink, Cato?"

"Wall, guess about three thousand dollars."

"More 'spectable dan dat."

"Wall, how 'spectable is dey?"

"Wy, five thousand dollars and a house and lot."

"Whew! good by, Cato, I must give 'em a call!"

A Kentucky lawyer on circuit was asked to dine with the Judge. At the table, the Judge, as is his custom, asked a blessing, and then rose and took from the sideboard a bottle of Old Bourbon, of which he invited his guest to partake, as he did freely himself, as is also his custom. After dinner the lawyer said:

"Judge, will you permit me to ask you a question?"

"Oh, certainly," replied the Judge. "What is it?"

"I observe," said the lawyer, "that after you asked a blessing, you set on the bottle. Now I wish to know whether you were ashamed to ask a blessing on the liquor, or whether you thought it good enough without?"

The Judge took the case under advisement.

PROGRESS.—A schoolboy about six years of age approaches the master with a bold front and self-confident air and the following conversation ensued—

"May I be dismissed, sir?"

"What reason have you for making the request, Thomas?"

"I want to take my woman out a sleighing, sir."

"Never abuse one who was once your bosom friend, however bitter now."

Never insult poverty. Never speak contemptuously of woman kind. Never speak of your father as the "old man."

A lame attorney wanted to be enrolled in a volunteer company.

"You'll never do, Peter," said the officer. "Why?"

"The more we'd tell you to march, the more you'd halt."

Footie once asked a man with out a sense of tune in him, "Why are you forever humming that tune?"

"Because it haunts me," was the reply. "No wonder," said Footie, "you are always murdering it!"

CHARACTER.—Two ladies presented themselves at a masquerade ball. The doorkeeper asked what characters they personated.

Dr. L. J. Czapka's

Medical and Surgical Institute. L. J. CZAPKA, M. D., Late in the Hungarian Revolutionary War, Chief Surgeon to the 24th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary, and the late lecturer on the Diseases of Women and Children.

Communications strictly confidential. Consultations, by letter or otherwise, free. Address, DR. L. J. CZAPKA, San Francisco, Cal.

TO THE AFFLICTED.—Dr. L. J. Czapka returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of Chronic diseases of the Lungs, Liver, Kidneys, digestive and genital organs, and all private diseases, viz: Syphilitic ulcers, constitutive weakness, consequence of self-abuse, and he hopes that his long years of successful practice of many years will continue to ensure him a share of public patronage.

By the practice of many years in Europe and the United States, and during the Hungarian war and campaigns, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury—charges moderate—treats his patients in a correct and honorable way—has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

SUFFER NOT WHEN A CURE IS GUARANTEED in all stages of secret diseases, self-abuse, nervous debility, syphilis in all its stages, stricture, gonorrhoea, diabetes, diseases of the kidney, and bladder, mercurial rheumatism, scrofula, pains in the bones and ankles, diseases of the lungs, throat, nose and eyes, ulcers upon the body or limbs, dropsy, epileptic fits, St. Vitus' dance, and all diseases arising from a derangement of the sexual organs, such as nervous trembling, loss of memory, loss of power, general weakness, dimness of vision with peculiar spots appearing before the eyes, loss of sight, wakefulness, dyspepsia, liver disease, eruptions upon the face, pain in the back and head, female irregularities, and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians and resisted all their means of cure. The medicines prescribed are pleasant, without odor, entirely vegetable, causing no sickness, and free from mercury or bismuth. During fifteen years of practice, in Europe, the Atlantic States, and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above mentioned diseases, had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected, a majority of the cures being effected by the hands of incompetent persons who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption.

But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, rickets, stricture, and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities and all diseases of males and females treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures. Medicines with full directions, sent to any part of the State, Oregon and Washington Territories, by patients communicating their symptoms by confidential letter. Business correspondence strictly confidential.

Dr. J. C. Young's

Private Medical Rooms, N. E. Corner California and Montgomery streets, SAN FRANCISCO. TO THE AFFLICTED.—Read the following RECOMMENDATORY LETTERS and then judge between Dr. Young and those vendors that malign his motives. Avoid such men as you would a pestilence, for there is death in their treatment. All afflicted with Diseases of a Private or any other nature should call upon Dr. J. C. Young, and they would then avoid imposition and assist the Doctor in his herculean labor of suppressing quackery and empiricism. Dr. Young's charges are moderate and within the reach of the most humble.

IMPORTANT.—Dr. J. C. Young wishes to call the attention of invalids to his course of practice. The Dr. has long since abandoned the mercurial treatment, and has strictly followed the Vegetable Practice. Patients under treatment with him are not confined to the house, nor taken from their business, but can go about and eat as usual. The Dr.'s mode of treatment is of course healthy, both general and sexual, is not surpassed by any physician, and always results in a perfect removal of their troubles. Dr. Y. has discovered a new mode of treating affections of the Liver, which after a fair trial has been submitted to the Professors of several of the medical institutions of the States, and pronounced by them, as perfectly successful, and has been adopted by them in their practice. In the treatment of incipient consumption, and disease of the blood, the Dr. stands pre-eminent in his profession, and will warrant a cure in all cases. The following testimonials speak for itself:

Dr. J. C. Young, Sir: Your mode of treating affections of the Liver and disease of the Blood, has proved by repeated trials, to be the best yet offered in the faculty, and has been adopted by the board. Continue to study the human system as you have done, and you will yet stand at the head of your profession.

W. R. HORNER, Prof. of Anatomy, University, Penn.

HAVE CONFIDENCE.—Dr. YOUNG will guarantee a perfect and permanent cure in the following cases, or charge nothing for his services: Syphilis, Gonorrhoea, Stricture of the Urethra, Affection of the Prostate Gland, Weakness of the Genital Organs, Impotency, Sterility, both in male and female, Spermatorrhoea, or Seminal Weakness, Nocturnal Emissions, Rheumatism, Dyspepsia, Indigestion, Fever and Ague, Incipient Consumption, and all irregularities in Females, together with all Diseases of Women and Children; and also Nervousness, Palpitation of the Heart, &c.

Persons afflicted with symptoms after being treated, should consult Dr. Young at once, as no disease is cured unless the patient feels perfectly well. If there is a particle of disease left in the system, it will break out at some future time, when least expected, or be handed to another offspring. Persons who have been treated with mercury should be very cautious in believing that they are well, for it is a scientific fact that the mercury will mingle with the venereal, and form disease a great deal worse than the original. All those who have reason to think, by bad feelings, that they have been treated, should consult Dr. Young, and he should examine their cases and tell them at once how they stand.

Voluntary Certificate.—TO ALL WHOM IT MAY CONCERN.—This is to certify that I, B. F. Luning, applied to Dr. J. C. Young, to be treated for a general debility, brought on by hard work at mining in the water, and a pneumatic affection in my limbs, which almost deprived me of their use, that the above complaints had troubled me for a long time—one of them for several years, and the other about eighteen months. Overcome by the pain and anxiety occasioned by them, I had given up all hopes of ever again enjoying good health. In this condition, I called upon Dr. J. C. Young, and after the lapse of five months, I am perfectly well, and feel nearly as strong as I ever did. I can recommend every one affected to his care, for he cured me, and has cured several of my friends that I recommended to his care, afflicted with different diseases, some of them bad cases, of a very bad and dangerous nature.

Given this my voluntary testimony in favor of Dr. J. C. Young, in hopes that it may induce all those afflicted, to call on him, and avoid the impostors who have robbed me, not only of money, but to a certain extent of my health.

B. F. LUNING. GREEK HORN GULCH, Kern River, } September 2, 1856.

DEAR SIR: It is with pleasure that I hasten to answer your letter, enquiring how I get along. I have entirely recovered from the complaints for which your medical skill was required, and I assure you I feel grateful to you for the health I now enjoy. Scathed as I was from the very jaws of death, and saved from an untold amount of suffering, were I in the city where I could do it, this would have the solemnity of an oath, but I am in a mining camp, there is no Justice of the Peace within several miles of me, and so you must publish without it. I do not like to name my disease, and I suppose it is not requisite, as you treat all kinds of disease.

Yours, G. LANGDON. To Dr. J. C. Young.

MARIPOSA, Sept. 27th, 1856. DR. J. C. YOUNG, Sir: In answer to your request, as to how my case is getting along, I would state that I am perfectly well, and have been so for about one month. I should have written before, but have been waiting to see if it would return to me. My case was said to be a very bad one by all the physicians that examined me. They all called it a mercurial disease, and said there "was no help for it." You called it scrofulous, mixed with a mercurial affection, and said you could cure me, and you have done so. I can only thank you for it and recommend all persons afflicted to give you a fair trial.

Yours till death, C. L. RAILS, JR.

CONSTITUTIONAL DEBILITY, OR Seminal Weakness.—Dr. Young addresses those having injured themselves by private and improper indulgence in the secret and solitary habit that ruins the body and mind, confining them for either business or society. The following are some of the sad and melancholy effects produced by early habits of youth, viz: weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, dyspepsia, nervousness, irritability, derangement of the digestive functions, general debility, symptoms of consumption, &c.

Mentally, the fearful effects on the mind are more to be dreaded. Loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, love of solitude, timidity, &c., are some of the evils produced. All persons who are afflicted with any of the above symptoms should not fail to call on Dr. Young, and be at once restored to perfect health. Let no false delicacy prevent you, but apply immediately, and save yourself from the dreadful and awful consequences of this terrible malady.

WEAKNESS OF THE ORGANS immediately cured, and full vigor restored. Office corner of Montgomery and California streets, over Pacific Express, San Francisco, where all letters must be directed to insure attention. J. C. YOUNG, M. D.
