To the Committee on Military Affairs of the House of Representatives of Oregon Ter-

to exhibit to you all the accounts current, abstracts, vouchers, and other papers in my possession, which relate to the receipt or disburse-ment of moneys. I am unable to find any pre-cedent for the publication of my accounts sim-ilar in character to those on file in my office, even after they had been finally audited by the proper departments, but these papers are du-plicates of accounts not yet audited by the de-partment at Washington, although they have been examined, approved and specially com-mended to the favorable consideration of those departments, by the commission appointed on the part of the United States to audit and al-

low the accounts of the late volunteer service.

The abstracts you desire, properly accompany the accounts current, and vouchers that support them should be examined in connection with those vouchers, and ought not to be separated from them even for examination,

much less for publication.

My accounts current, abstracts and vouchers support each other, and taken together constitute a full and complete set of papers, and I am unwilling to separate them.
