

MISCELLANEOUS.

FOR THE HARVEST OF 1859!! THE BEST COMBINED REAPER and MOWER In use, as endorsed by the United States Agricultural Society.

MANNY'S PATENT WITH WOOD'S IMPROVEMENT I HAVE now been in the business of manufacturing Reapers and Mowers for

Seven Years, and my Machine has only been perfected by the most diligent and thorough trial and experiment, and there are not other Machines worthy the attention of Farmers. I do claim that mine has secured the title of THE BEST COMBINED REAPER and MOWER IN USE:

And is unsurpassed either as a Reaper or Mower—and I claim for it the credit and confidence that belongs to a standard article of the most perfect performance for the coming harvest is much superior in material and workmanship to any ever before offered to the public.

SPECIAL NOTICE. TREADWELL & CO. are sole owners of the MANNY MACHINE, for the State of California, and the Territories of Oregon and Washington, and are fully authorized and empowered to prosecute all infringers.

WALTER A. WOOD, Manufacturer and Proprietor. CAUTION. All persons are cautioned against venturing or using said Machine in the State or Territories aforesaid without a certificate from the owners. The makers for the coming harvest are much superior in material and workmanship to any ever before offered to the public.

Machines and Agricultural Goods of every description. Hand-sawn stock and best assortment on the coast, 8,000 Pounds—Steel and Cast. For sale at our Warehouse, Corner California & Battery streets, San Francisco. TREADWELL & CO. Sept. 1st, '58. 50 md

DR. WEBBER'S SANGUIFER; Invigorating Cordial.

What Constitutes Health? Rich Pure Blood, Natural Perceptibility, Good Appetite for Food, Sleep, Exercise and the Enjoyments of Nature, with strength of Body, Mind and Limbs—Activity of the Liver, and all other Natural Functions; such a state is felt by all after using this.

IT ENLIVENES THE TORPID LIVER, ELICITS ALL ILLIQUOR MATTER FROM THE SYSTEM, causes SCURVY or Free PERSPIRATION, as necessary to health, PURIFIES & ENRICHES THE BLOOD, GIVES STRENGTH TO THE LIMBS AND BODY, and is positively infallible in ALL NERVOUS DISEASES, TREMBLING OR WAKEFULNESS.

READ A LIST OF CURES. A case of Child's Ague, Transient General Debility, and all the symptoms of a young man.

Mr. Erish Works, who arrived from Panama March 23, completely prostrated, weak and scarcely able to move; had the Panama Fever three months, had pains in his bones, chills, no appetite, strength or energy; he used Webber's Cordial two weeks, and felt so strong and well that on the 17th he went to sea to the mines, where he is now working.

From Gen. F. Cook, Esq., the present proprietor and builder of the Forest Theatre, Sacramento. SAN FRANCISCO, APR. 20, 1856.

I hereby certify that I have, on several occasions, taken Dr. Webber's Invigorating Cordial, for febrile, remittent, and general debility, and have found it highly beneficial as a nerve, tonic and alterative, and believe it to be, as a curative, all it is represented.

Subscribed and sworn before me this 20th day of August, 1856. W. L. HOPKINS, N. P. Notary Public. Chewers and Smokers, Read This!

I, Frederick C. Hall, general stocker, Mokelumne Hill, do hereby certify that for the constant use of tobacco for many years, I became enfeebled to skin and bones, my digestion destroyed, all I ate disagreed, and a constant pain in my chest, a fearful nervousness and trembling, and general weakness, made me apply for medical aid. The large quantity of medicine I took during eight months delugated me more and more, and my friends feared I was in a rapid decline. At this time I commenced taking Dr. Webber's Invigorating Cordial and I do solemnly aver, that in five weeks I was strong, robust, and in good health, and weighed fifteen pounds more than when I commenced taking it.

A Letter for the Constitutionally Weak. SACRAMENTO, Dec. 19, 1855. Respected Friend: A peculiar ailment has lately occurred in my practice, where Dr. Jacob Webber's Invigorating Sanguifer, or Cordial, has had the most benign effect. Young Mr. G., of this city, was placed under my care, and notwithstanding the use of all the remedies on my part, he continued to waste till he was nearly a skeleton; his appetite was very bad, his sleep restless, his spirit very much depressed, and a general prostration of the nervous system together with occasional chills and fever made me fear for his recovery. In fact, he had used, six, but three bottles of your Cordial, and the effect on him is really extraordinary—he has gained nine pounds of flesh. Nothing but a sense of duty to the afflicted could induce me to write this. Most respectfully, your friend, EZRA E. BOURNE.

Sarsaparilla and Bitter Detoxics, Read! Dear Sir: I wish to inform you that I have taken, in seven months, over sixty bottles of Sarsaparilla, Bitters and other remedies for confirmed dyspepsia, weakness of my system, without getting any particular relief. Two bottles of your Cordial have benefited me so much that I am a different being. Please to send two bottles more, which I feel sure will effect a perfect cure. If this will benefit you or the afflicted, you are at liberty to use it.

FLEET, KLUCKLE, House Painter. PRICE REDUCED to \$3, quart bottles; or two for \$5. Sold by all the respectable Druggists in California & Oregon. Wholesale Agents—PARK & WHITE, BELLINGTON & CO. San Francisco. 5md

"GREAT REPUBLIC" MONTHLY. To the Public, the Book and Periodical Trade, and the Press: WE HAVE the honor to announce that we shall issue, on or about the 1st of December, the First number of a new illustrated Magazine, to be called the "Great Republic."

It is intended to make this Magazine superior in every respect to anything ever before issued in this country. The general scope of its character can best be understood by its name. It will be thoroughly national—not sectional or sectarian, and wholly lay. It will offer to writers and thinkers of this Union a non-partisan field, where they can meet on the highest ground of contemporary literature. It will aim to gather about it every variety of intellect.

The range of articles will be a wide one, covering among other grounds, Economy, Statistics, Historical Tales, Stories, Historical Incidents, Reviews, Critiques, Biographies, Scientific Articles, Travels, Table Talk, Dramas, Incidents, Politics, Poems, Ballads, Satires, Science, Music, Correspondence, Gossip, &c., illustrated in the highest style of wood engraving.

The literary department will present general variety, combined with more thorough excellence. It is believed, that ever before offered to the American public in a single periodical. Each number will contain an original piece of music composed expressly for this work.

Of the superior excellence of the Magazine in every respect, and of the certainty of its permanent success, very little need be said. TERMS.

There will be two volumes a year, of about 700 royal octavo pages each, commencing in January and July, and numbers to each volume. Subscriptions may commence at any time. Prices.—Single copies, 25 Cts. One copy 1 year, sent by mail, \$3.00 Cts. 3 copies, one year, 7.00 " 4 do " " " " 9.00 " 5 do do " " " 10.00

And all additional copies, over five, at the rate of 25 cents, if sent to the same club. Clubs may be formed at different post offices. All subscriptions must be paid in advance. Payment by Express, or by the receipt of the subscriber to the Magazine for one year, and to the editor of either of our two great steel engravings, entitled "The Last Supper," and "The City of the Great King," Four Dollars. The engraving will be sent on rollers, by mail postage.

All Postmasters and Clergymen are authorized to receive subscriptions, which they may forward to us, giving name and address of subscriber, and deducting 25 per cent for their trouble. Postage and Post Office Regulations.—The rate of postage will not exceed 3 cents for each number, to be paid in all cases at the office where it is received.

Subscribers must in all cases write names, town, county and State in full, as legibly as possible. Large sums should be remitted by draft, if possible, or registered letters.

Publishers of the "Great Republic," Nos. 112 & 114 William St., N. Y. City. WM. J. BERRY, Gunsmith, California Street, next door to the SENTINEL Office, and nearly opposite the Union Hotel, JACKSONVILLE, OREGON

SCIENTIFIC AMERICAN. PROSPECTUS. Value Fourteen cents, beginning September 11, 1858. Mechanics, Inventors, Manufacturers and Farmers: THE SCIENTIFIC AMERICAN has now commenced its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science; on the contrary, it deals with the great events going on in the scientific, mechanical and industrial world, as to please and instruct every one. If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on, in the way of improvements, in his branch of industry, or if the Farmer wishes to know the best machine in use, or how to make any substance employed in his business—if the House-wife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what
