Independent Legislative Ticket.

An independent ticket for county Representatives has made its appearance during the week. We have no knowledge of the Convention, or body, or whatever it may be called, from which this ticket sprung. All that we know about it is, that three independent candidates are before the people, soliciting their support on the day of election for the positions named. More than this we need not know, named. More than this we need not know, named. More than this we need not know, named in the information would have no probable effect upon the result, be it what it might. It is some satisfaction to know that the gentlemen nominated are not Republicans, but still we regret that themselves or their friends have thought it necessary or expedient to come out.

The Indians on Humbolt and Walker rivers are in arms, and have on their war paint. They have sent their squaws away. It is reported that 1,500 Indians have just the Sink of the Humbolt to assist the Pah-Uces in clearing out Carson Valley.

The news from the States is not as late as that given under our Telegraphic head. thought it necessary or expedient to come out in opposition to the Democratic ticket. We are aware that neither of the independents has ever seted with the Democratic party, and that each of them claim affinity only with the Old Whig party. Still, we are at loss to divine what particular object or objects they have in thus opposing a portion of the Democratic ticket. They are each one of them in opposition to the Democratic ticket. We have in thus opposing a portion of the Democratic ticket. They are, each one of them, excellent gentlemen and worthy citizens. But we ask our fellow-citizens if there is any good reason why this independent ticket should be supported in preference to that put forth by the Democracy of the county? From one or two quarters, complaints have reached us that the Democratic candidates were selected from too limited a geographical section. Surely, if they are worthy and proper gentlemen, and will make faithful and capable public servants, (which is not questioned.) this is the least important of objections. The Representatives are to labor for the benefit of the whole State, and while we would be pleased to have candidates chosen from and of the whole State, and while we would be pleased to have candidates chosen from each division of the county, we certainly would not interpore to defeat their election simply the a tri-weekly mail from this to Portland. because the section we happen to live in was seemingly neglected or slighted in the nominaticket is brought out, we ask, how is the matter helped in this independent movement? Two of the candidates are residents of Jacksonville, and the third dwells close by. Thus, if there is any merit in the geographical objection, assuredly the Democratic ticket should receive the benefit of it. We would further impire what it is these three gentlemen can necomplish for our people that the Democratic The Legislature is pretty certain to be Democratic in both branches, and it is fair to presume that friends will be better served than opponents. Considered in the light of expediency, the county's interests will be best subserved in the election of the Democratic nominees. Viewed in the way of party duty, there is but one course to pursue. We believe that Jackson county is strongly Democratic. We expect that her Democratic will prove true and loyal to the cause, in this campaign. It this belief and expectation is not disappointed, there will be no difficulty in electing our whole ticket. Independent movements are rarely product or required. They serve to create fresh political unhappy agitation, to fan the flame of present discord, and to augment strife ees cannot as well or better secure? fresh political unhappy agitation, to fan the flame of present discord, and to augment strife within communities. If it is to remedy or offset this, that the independent which affairs took there for the present, chiefly from insufficiency of the intelligence which has reached here. Until full accounts of the proceedings are had, we do not feel justified in offering extended remarks. In common with friends of the party and the Union, however, we trust that when the two divisions of the National Control of the tional Convention meet under their respective calls, the efforts of conservative National men to harmonize present troubles will be successful, and further, that wise and excellent selections will be made for the Presidency and Vice Presidency.

We shall not exceed our duty, nor overstep propriety, by assailing the independent candidates or their supporters. But we do carnestly entreat our fellow-citizens from every portion of the county are carnestly requested to attend, in order that the project may surely and satisfactorily be set on lost.
