EDITOR SENTINKE: Water is plenty and the miners are busy. There are as many men at work here as ever before. Hunt's new ditch is now completed as far as Shelby Gulch, where the water from it is being used by a number of small companies. The Butch'r Gulch Plume Company will soon be up to pay. Their flume is thirty incoes wide and nearly a mile long. It will employ about four hundred inches of water, and bids fair to pay.

Improvements are going on in this section as fast as ever before. Two sawmills near this place sell about twenty thousand feet of lumber every week, besides the quantity sold at the mill five or six miles below.
