

Affairs in the East. Nothing later than the Pony intelligence received on Monday night from St. Louis to April 1st, which we publish elsewhere, has come to the hour of our going to press.

Timors continue that the Cabinet is far from being a unit upon leading questions of State policy, and predictions are yet made in high quarters that Seward will not retain the Premiership sixty days.

The feeling created in England and France by the tariff adopted at the late session is altogether unfavorable to the Northern or Free States, and in inverse ratio, favorable to the Southern Confederacy.

If the dispatch is true that England and France have agreed to send fleets of war steamers to the Atlantic coast, it is evident these powers have interested themselves much more in regard to our national difficulties than has been imagined, and perhaps in a manner by no means to our advantage.

Some letter-writers say that the President is giving way in health under the immense pressure of greedy applicants for Federal appointments. They report him as much shaken in physical vigor and condition, and predict that he will succumb at last as Harrison did his Cabinet and friends do not interpose to keep off the coronation thong.

A BYRNE.—Late advisers give intelligence of a disagreement between the Oregon Senators over the Federal appointments. That, before the election of either of them, there was a bargain made in relation to the Government patronage, was alleged at the time, and is now pretty conclusively established.

MILITARY DIVISIONS.—Last year the Military Departments of Oregon and Washington and of California were merged into one. The Williams papers say that intelligence from Washington has been received which assures a re-establishment of the Oregon and Washington Departments. For the good of the country we shall rejoice if the report is true; but so far as Southern Oregon is interested, it makes little difference how they are directed. It seems that the claims or interests of this part of the State are altogether overlooked by the War Department, while every other nook, corner, or district of the coast is amply protected and cared for.

THE PREMIER MAIL ROUTES.—We have closely scanned the intelligence lately brought by Pony, together with the mass of information contributed by the Eastern correspondents of the California papers, in the hope of finding something further pertaining to the promised additional mail accommodations eastwise in Southern Oregon and Northern California, but all to no purpose.

MISS. LANE.—Eastern correspondents of California papers state that the late Senator had no work on the 21st ult. for Oregon.

The Emigrant Aid Appropriation. At the late session of Congress, \$30,000 was appropriated, to be expended in aid of relief of emigrants on their way to Oregon.

Mr. Baker.—Who is the letter from? Mr. Doollittle.—The President of the California State Central Committee—Dr. Baker.

Mr. Doollittle (ironically)—Dr. Baker. The nomination of Mr. Crosby was then confirmed without the raising of the yea and nays. A defeat like this is well calculated to seriously damage a Senator's influence and power.

Mr. Baker.—Who? What's the name? Mr. Doollittle (ironically)—Dr. Baker. The nomination of Mr. Crosby was then confirmed without the raising of the yea and nays.

According to Simonton, Senator Baker was an applicant for a place in the Cabinet, notwithstanding his declaration that he would not relinquish his seat in the Senate for a place in Heaven.

WHY.—The Olympia (W. T.) Standard of April 13th, gives to Senator Baker all the praise for the passage of the War Debt Bill, and to show that the Democratic press East opposed the measure, quotes the New York Herald as an instance: Do be a little more careful, Mr. Standard, in your statements.

ESCAPE OF BOWEN.—My private letter from a resident of Jacksonville, stopping temporarily at Salem, we learn that the "James" Bowen, reported as an escaped convict from the State Penitentiary, a few weeks since, is no other than George M. Bowen, who was sentenced to death for the murder of a Chinese man in this county, in 1859, and whose sentence was commuted to imprisonment for life at the solicitation of numerous citizens of this county, by Gov. Whiteaker.

THE TRICK CONFESSED.—While Mr. A. J. Thayer, the lawyer from Corvallis who has gone on to Washington to contest Col. Shell's right to a seat, was in San Francisco awaiting passage East, the Herald of that city stated that his intention or his hope was not to gain the seat for himself, but only to have Col. Shell kept from the seat. This statement was evidently made upon Thayer's own confession.

THE TRICK CONFESSED.—While Mr. A. J. Thayer, the lawyer from Corvallis who has gone on to Washington to contest Col. Shell's right to a seat, was in San Francisco awaiting passage East, the Herald of that city stated that his intention or his hope was not to gain the seat for himself, but only to have Col. Shell kept from the seat.

The Oregon Senators, Etc. J. W. Simonton, editor of the S. F. Bulletin, in his letter from Washington, March 23d, gives the following items of interest to the people of Oregon, in regard to Senators Baker and Nesmith, and the Federal appointments.

Mr. Baker.—Who is the letter from? Mr. Doollittle.—The President of the California State Central Committee—Dr. Baker.

Mr. Doollittle (ironically)—Dr. Baker. The nomination of Mr. Crosby was then confirmed without the raising of the yea and nays.

According to Simonton, Senator Baker was an applicant for a place in the Cabinet, notwithstanding his declaration that he would not relinquish his seat in the Senate for a place in Heaven.

General Intelligence. WASHINGTON March 26.—Mr. Douglas's resolution in regard to forts and arsenals, being under consideration, Mr. Breckinridge replied to Mr. Douglas's speech, delivered on the 20th. He denied that the Republicans had yielded any of their essential principles, and it was unjust to the people of the South to announce that they answer whether they had made any such abandonment.

Mr. Colamer replied.—Not as we are aware of. Mr. Breckinridge then alluded to the argument of Mr. Douglas, that Republicans had not inserted their platform in any of the bills recently passed organizing the Territories.

Mr. Douglas replied he could not conceal his surprise that the Senator from Kentucky denied all the positions he had assumed; he objects to demonstrate that there was no cause for such action, and that Kentucky was just and equal in the Territories, according to the test presented by the Senator himself.

Mr. Chase declared to a friend that he had known as much a while ago as he knows now he would not have accepted a seat in the Cabinet. It is evident there is no harmony in the Council Chambers upon either the policy of the Administration, or the distribution of the spoils.

but two dissenting votes, and adjourned sine die, without referring the Constitution to the people. The Texas General Land handed troops from the steamers Fort Jackson and Taylor, and left them on a war footing, with the equipment.

The Virginia Convention, on Saturday, adopted a resolution to terminate debate in Committee of the Whole on Thursday next. It is generally conceded that the anti-Republican ticket, with Taylor, has been successful in the St. Louis charter election.

The President has appointed George Little Marshal of North Carolina, Peter L. Foy Postmaster at St. Louis, and John L. Decker Postmaster at St. Joseph. It was reported that reinforcements for Fort Pickens had arrived.

Latest accounts from Virginia indicate an increase of secession feeling. Delegates are being instructed by their constituents in several counties to go for immediate secession. The impression is that there was a clear Union majority in the Convention.

The Duchess of Kent [Queen Victoria's mother] is dead. A New York dispatch says a Paris letter in the Times states that the English and French governments are fitting out a powerful fleet of war steamers for the United States. The suggestion came from England.

The Methodist Conference in session at Baltimore, adjourned March 23d, to Stenton, Va., after adopting a plan of separation from the Northern Church by a majority of 87. The Bishop of New York, in the Chair, declared the action void.

President Davis has made a requisition on the State of Alabama for troops, for a purpose unexplained. He had also called for 500 from Louisiana and 2,000 from Georgia.

During the late Executive session of the Senate about 400 nominations were confirmed, nearly fifty of which were sent in by the President on the last day. Secretary Chase has offered the First Controversy of the Treasury to Edwin Whittier, Richard D. Ohio, had declined.
