

TO THOSE CONCERNED.—An anonymous correspondent at Williamsburg has written to us in regard to the SENTINEL, and our Agent at that place. He tells us that quite a number of persons in that vicinity would subscribe for the paper, if our Agent was not a Republican. In reply to the correspondent and those who represent, we have to say: We should very much like to receive the patronage of every person there, as elsewhere, so as to swell the subscription list of the SENTINEL beyond that of any paper in the State. We have no regular Agents in Southern Oregon. We have entrusted business to several gentlemen in various places, who have been fully authorized to act for us in everything pertaining to the business department of the paper. Each of them has been selected solely with a view to their business tact and integrity of character. We do not care whether they are Pagans, Mohammedans, Israelites or Christians; nor whether they are Abolitionists, Republicans or Democrats, Disunionists or Union men. We looked for honest and attentive men only. The gentleman referred to at Williamsburg, Mr. R. S. Dunlap, may be a Republican, as the correspondent says. That is his privilege, and none of our business. Whatever he may be in politics, we know him to be a worthy, good, and perfectly honest gentleman, who would proscribe no man for his political predilections. He consented to act for us at Williamsburg through a spirit of friendship, and not for gain, (even had there been this latter incentive, which there is not,) and so long as he will favor us with his kind services, just so long shall we accept of his services. In all kindness to the gentlemen who have withheld their patronage because Mr. Dunlap is our authorized agent, we would say, they can learn a good lesson of liberality from him. Opposed to us in politics, he has taken and regularly paid for the SENTINEL over since we have conducted it. But in what manner can an agent affect the tone or columns of a paper? With any kind of agent, the SENTINEL would be still the same paper, look just the same, read precisely the same, contain exactly the same matter; in fact, be neither better nor worse, for the politics of any agent or no business man connected with it. We show write the original matter for the paper, and alone select whatever else its columns contain. If our fellow citizens at Williamsburg, or at any other place, wish to aid us by becoming subscribers, we shall earnestly thank them, and give them the very best paper we can get up for their entertainment and edification, but if to procure patrons we must be rude, ungrateful and insulting to gentlemen who have generously served us, then will our present subscription list never be increased.

MAY DAY.—The initial day of this month was duly observed by our towns' people. The children were treated to a merry, exhilarating holiday in the beautiful and well shaded Grove on Walker's Creek, a mile from town, where the day was passed in pretty sports and gambols. The festival was given under care of the Sunday School teachers of the Methodist Church. A beautiful cold collation was provided for the creature comfort of all in attendance, large and small, and the occasion was marked with appropriate exercises, prayer, address, singing, &c. About one hundred persons in all participated in the celebration. A number of the young gentlemen, with young ladies accompanying, left town at an early hour in buggies for the upper part of the Valley, where arrangements had been made for a picnic, and a dance in the evening. A joyous time they had of it.

The Germans honored the day in true Fatherland style. Early in the morning an American flag was raised at the May-pole head, amidst the thunders from our avil artillery, and the shouts and huzzas of our Country-loving German adopted citizens. Until late in the evening a glorious Teutonic-American social merry-making was uninterruptedly enjoyed. During the afternoon, a pertinent and happily conceived address was delivered by D. Wm. Douthett, Esq.

Throughout, we believe, the day was admirably passed by the respective holiday parties. In point of weather, a more lovely day was never renowned to innocent pleasure-seekers. Not a cloud was visible, the air was pure and balmy, the temperature soft, genial and inspiring, as the breath from Heaven.

MORE QUARTZ.—Fresh discoveries of gold quartz have been found within the fortnight at Shively Gulch, up the right fork of Jackson creek. The lucky finders are Mr. Z. Sheets and Dr. Boatman. A sack full of the quartz was shown us at Haines Bros., on Thursday. In all of which gold was plainly discernible. We are not aware that any of the rock has been submitted to a test to ascertain the product, but it cannot fail to realize richly. This is the fourth lode already discovered in Shively Gulch, and the older ones are held at high figures, which is fair evidence of their prospects so far. As the quartz mill is close at hand, there is little doubt that the ensuing season will be a busy one in that vicinity, among the quartz miners.

FROM THE NORTH.—A terrible casualty occurred in British Columbia waters on the 14th April. The steamer *Fort Yale*, while on her upward trip, exploded her boilers. The following is the list of killed and injured: Killed—Samuel Powers, blacksmith; Joel Osborne, fireman; and the cook (name not known). Injured—Jas. Elison, Thos. King, Capt. Grant, Dr. Oliver, Hon. J. Langley, Mr. Stevens, and a number of others, whose names do not appear. The Captain, Smith Jameson, is supposed to be lost. He was a brother of Captain Archibald Jameson, long employed in steaming on the Willamette. Another brother, Captain Arthur Jameson, was lost on the steamer *Portland* when she went over the Willamette Falls a few years ago.

The boilers of Homer's saw mill, at New Westminster, exploded on the 13th. No one injured. Large bands of cattle are being driven from the Willamette and lower Columbia to the new Northern mines. The daughter of a Mr. Martin, living near Portland, was so badly burned last Saturday by her clothes accidentally taking fire that she died in a few hours. The Democracy of Vancouver have already agreed to inaugurate in their preliminary councils, quarrel in haste and repeat at leisure, gentle men.

TOWN IMPROVEMENTS.—We do not believe there is a town in all Oregon which has improved within the past year as much as this thriving little town of Jacksonville. Notwithstanding the general dullness in almost every branch of trade, building, repairing, improving, ornamenting and beautifying has progressed to an unprecedented extent. A walk upon any of the new commanding hills will discover to the observer, by the fresh, new look, a dozen or more buildings put up since the opening of Spring, while as many more can be seen, with roofs only a shade darker and older looking, which were put up last Fall, or through the Winter. Besides the completed new houses and the few still in process of construction, we hear of more substantial improvements, soon to be commenced. The lot on California street, nearly opposite Anderson & Glenn's, was sold during the week by Dr. L. Ganning to Sachs Bros. for \$1,200. It is 25 feet front and 75 feet depth. The purchasers intend to build a good fire-proof brick store on the lot at once. When finished, adjoining Love & Bilger's brick, as it will be, the risk of fire on that side of the street will be much reduced. Jacksonville is going ahead smartly.

FRIGHTAGE AND COST.—A material improvement is inaugurated for the season, in respect to the charges upon goods from San Francisco, via Crescent City, which will enable the merchants to lay down their stocks at lower figures, and, per consequence, cause a reduction of prices to purchasers here. The new line of steamers of Hollanday & Flint will carry freight at \$10 per ton, the whole year round; lighters at Crescent City is reduced from \$3 to \$2.50 per ton, or goods can be landed on the new wharf nearly completed, at \$2 per ton. Drayage is 75 cents per ton from lighter or wharf to the warehouse. A capacious, safe warehouse has been erected by Dugan & Wall for the accommodation of freighters, and the firm receives, forward and attend to the regular transportation of goods for \$2 per ton commission. Teams are now engaged to haul the bulk of Spring and Summer stocks at four cents per pound. These figures will make a marked difference in the prices of goods between former years and this year.

HON. LANSING STOUT.—This faithful public servant was, agreeably to report published a few weeks ago, married on the 3d of April to Miss Sue Plowden, at the residence of her parents, St. Mary's on the Potomac. The bride is said to be beautiful and wealthy. We look for the arrival of Mr. Stout and his lady during the present month. They will visit Jacksonville on their way to Portland.

CADETSHIP.—It is stated that the son of the late Delazon Smith has received the appointment of the Cadetship at West Point, recently made vacant by resignation of a son of Gen. Lane, who accepted a Lieutenant's commission in the army of the Southern Confederacy.

THE FEELING.—So far as reports have reached us from California the large majority of the papers seem to be in favor of preserving a strictly neutral course between the hostile parties East. The news of hostilities has occasioned deep concern and sorrow.

DREYFUS.—To give room to the thrilling news by Pony, we defer a number of local items, and a few original and selected articles of interest. We give readers over three columns of telegraphic news, sent expressly to the SENTINEL.

NEW GOODS.—Still they come. Brunner & Bro. are now in the field with a heavy new stock, just suited to the market. See their advertisement.

OREGON APPOINTMENTS.—The appointment of W. L. Adams, editor of the *Argus*, as Collector at Astoria, is the only Federal appointment noticed for Oregon.

WAR DEBT.—Scrip-holders will find the official instructions from the Third Auditor in our advertisement columns.

Correspondence. WILLIAMSBURG, May 1st, '61. EDITOR SENTINEL.—Our quiet little town has again witnessed another mining casualty. Sydney Rathbone was crushed to death on Monday by the caving of a bank underneath which he was sluicing, in the claim of Fuller & Co. It is said he was from Illinois, and emigrated to this country in 1852. He was buried yesterday. The miners are generally doing better than they have for some time past. The ditch of Maury & Davis supplies an abundance of water, and it is furnished at a reduced price, which enables miners to work ground that heretofore would not pay. Messrs. Henry & Witzel took a nugget from their claim yesterday which weighed over thirteen ounces—the largest piece found in these diggings. The claim has paid them good wages all along. We are about to have mail service performed for our accommodation at last—a convenience we should have had long ago. The contractor, Mr. Geo. P. Johnson, has given assurance that he will bring the mail regularly, as soon as he can get matters working right under the new semi-weekly mail arrangement. Altogether, the prospects of Williamsburg look more flattering now than they have for a long time. Yours, R. S. DUNLAP.

FROM THE NORTH.—A terrible casualty occurred in British Columbia waters on the 14th April. The steamer *Fort Yale*, while on her upward trip, exploded her boilers. The following is the list of killed and injured: Killed—Samuel Powers, blacksmith; Joel Osborne, fireman; and the cook (name not known). Injured—Jas. Elison, Thos. King, Capt. Grant, Dr. Oliver, Hon. LATEST! BLOCKADE DECLARED! Riot in Baltimore. TROOPS FROM CANADA. VIRGINIA SECEDED. Secession Feeling Spreading.

We received the following thrilling news by telegraph from York, Thursday night: YORK, May 1st, 1861. The following is from the Sacramento *Union* Extra of today: CANON CITY, May 1st. The Pony Express has just arrived with dispatches to April 23d. St. Louis, April 23d. The President issued his proclamation on the 18th, stating that there was an insurrection against the Government in several States; that laws for the collection of revenue cannot be executed conforming to instructions, which required the duties throughout the country to be uniform; that States had threatened to grant pretended letters of marque; therefore, the President deemed it advisable to set on foot a blockade of forces, which will be posted to prevent the exit or entrance of any vessel from the seacoast States, which were all burned. A war feeling in Canada is aroused, and 600 men from Quebec and Montreal are coming to Boston to enlist in the U. S. service. Lieut. Jones, commanding at Harper's Ferry, having heard that 1500 Virginia troops were marching against him, set fire to the arms and buildings, which were all burned. At Richmond several northern men were threatened, and had a narrow escape from hanging. Seward Clemens was held a prisoner. Commodore Paulding says the Gosport Navy Yard can be held against 10,000 men. There has been a great riot in Baltimore. The Massachusetts regiments, on attempting to pass through the city on their way to Washington were attacked by a mob, who threw stones and discharged pistols at them. Three soldiers were killed and several wounded. The mob increased and the Mayor attempted to stop the riot. After several hours fighting, the mob was dispersed. Martial law was proclaimed. The citizens of Baltimore and vicinity destroyed the bridges and railroad tracks. The dead bodies of the Massachusetts soldiers were to be sent home for burial. Gov. Hicks informs the President that no more troops can pass through Maryland to Washington, except only for the protection of the Capital. The N. Y. *Evening Post* learns that Jeff. Davis, at the head of the Confederate Army, was marching toward Washington. There was great excitement North in consequence. More new companies are being raised. Washington is filling with soldiers. Regiments are being raised in Tennessee for the Southern army. The feeling is intense for secession. Philadelphia dispatches state that the President will call for additional troops from Northern States to make up for deficiency caused by the refusal of the border States to furnish their quota. A party of armed workmen left Baltimore today to repair the bridges on the Baltimore and Ohio railroad. It is reported that Trimble, the former President of the road, was shot by a man when attempting to defend the property of the road. The police seized a quantity of contraband goods for the South. Parties will be arrested and tried for treason. It is stated the Baltimoreans had demanded the surrender of Fort Mifflin and threatened an attack on it. The commander replied that he would be compelled to defend it, and would fire on the city. There was a great Union meeting in New York on Saturday, the 30th. The whole city was out, and great enthusiasm prevailed. Maj. Anderson attended. Speeches were made by Jno. A. Dix, Hamilton Fish, Havens, Grinnell, and others. At Wilmington, Delaware, enlistment goes on at the rate of from 70 to 100 per day. Deacons will send a half million dollars to the secession paper at Wilmington was compelled to hoist the American flag. The N. Y. *Tribune* of the 20th says, "Orders were received from Gov. Letcher of Va., to seize the Customhouse at Wheeling, but the Union men are strong, and last night the building was guarded by the Mayor. The citizens are greatly excited by the news, and declare they will stand by the stars and stripes." The same dispatch says that Harper's Ferry is occupied by 200 men. The wild excitement prevails. Gov. Morgan of New York, has ordered the 6th and 7th regiments to go to Washington by steamer, unless railroad communication is open. Private dispatches from Baltimore say that the Union men there have no hope unless the Government will occupy the city with an overwhelming force. The Pacific Mail Steamship Company have supplied their vessels with cannon, muskets, and ammunition, to secure protection of their passengers and treasure. Orders went out sometime since to search their steamers with iron, so as to enable them to turn down the privateers or pirates that might attack them. The Washington *Star* today says an assault on Washington with such means as available can have would be simply a sacrifice of their lives. Advice from Norfolk report that the frigate *Mercury* is getting her armament aboard with all possible dispatch. Intense excitement prevails throughout the town of Missouri. Secession flags are flying, and the agents of the Federal Government are threatened with hanging. The Union men in Delaware are in a bad fix. The population is largely Union, but the secessionists have possession of all the State arms. The Governor of Missouri has called the Legislature to assemble May 24. State troops are to be mustered into service. The Governor of Kentucky is trying to get the hands to leave half million dollars to arm the State. Kentucky will remain neutral. It is stated that the Ordinance of Secession was proclaimed at Richmond on the 19th. A Confederate States' loan was taken at Richmond and New Orleans. The news of the accession of Virginia caused deep sensation. At Charleston, the venerable Edmund Ruffin fired a secession gun.

SAN FRANCISCO, May 1st. A fire broke out last night in the Mint. Nothing lost. The Mint will be closed for a few days. Coin is very scarce. RED BERRY, May 1st. The race yesterday for a purse of \$300, five entries, was won by "Billman," in two heats of a mile each. Time—1:46 1/2; 1:46 1/2. The horse "Oregon John" was distanced the first heat.

NOTICE! C. C. BIRDSEYE, Having purchased the entire stock of Goods of the late firm of KENNY & HANLON, will continue the business at the old stand, on the Corner of California and Oregon Streets.

New Winter Stock - O - F - Miners' & Farmers' GOODS!

Japan Tea. Japanese Tea differs materially from the tea prepared in China. The Chinese (with the aid of the Tea Inspection Board of London) have found it necessary to create new flavors and new styles of the herb, in order to meet the morbid tastes of inveterate tea-drinkers, and novelty in the article. Hence the mixture of many extraneous articles with the tea of commerce. Many flavors are especially obtained for that purpose, some for their delicacy of flavor, and others for their stringing qualities. The natural tea-leaf lacks uniformity of color. This is remedied by the use of Prussian blue, indigo, and sometimes with a dash of copperas. Hence the tea of China are not the genuine article drunk by the Chinese themselves; but made to suit the tastes and markets of the outside barbarians.

Japan tea consists of the pure leaf of the tea plant, or rather tree, for the best tea leaf is procured from trees over a hundred years old. The leaf is carefully plucked and placed in baskets, which are then taken hold of by the women and children, who proceed to divide each leaf into three parts, about equally. The part nearest the point of the leaf is *tsichang*, or first quality; the middle portion of the leaf is *shungo*, or second quality; and the portion nearest the stem is *shungo*, or third quality. The leaves thus divided are then rolled, as you find the tea in the shops, slightly fired, and are then considered marketable. The Japanese always fire their drawings of tea by wetting it, and thus improve its flavor. The best tea are, however, powdered, a pinch being drawn in each cup. Japanese tea will, sooner or later, become a favorite with us in the United States. It is free from the objectionable quality of Chinese teas, does not affect the nerves; and when prepared with boiling water, is a delicious beverage.

A Superior article of the above TEAS, with some other very choice brands of BLACK AND GREEN, in bulk and caddies, for sale by WADE, MORGAN & CO. ap 20:14:1m

Notice. IN about thirty days we shall be in receipt of our second Spring Shipment of Goods, COMPRISING, DRY GOODS, CLOTHING, HARDWARE, STOVES and TINWARE, IRON and STEEL, GROCERIES, AGRICULTURAL IMPLEMENTS, CARPETING, WALL PAPER, ETC.

Pay—All those indebted to me will please call and pay up immediately, to save expenses. H. BLOOM, Jacksonville, Feb. 2, 1861. 31f

New State Saloon. By John McLaughlin, This established and popular House has been re-repurchased by JOHN McLAUGHLIN, and will be conducted by him in the same uniform and excellent manner that distinguished the House in palmier days. We will keep on hand none but first class brands of— WINES, CORDIALS, Liqueurs and MALT BEVERAGES, which are regularly forwarded from noted importing houses in San Francisco. His stock of Cigars will likewise be of the best qualities. The BILLIARD TABLES are of Philan's latest improved pattern, with Marble Beds and combination cushions. In addition to the retail business, the proprietor informs his friends and the public that he is prepared to furnish customers with Wines and Liqueurs of best quality in bulk or packages, at such prices as will make it an inducement for purchasers to receive their supplies from him. Remember the old stand, corner of California and Third streets, contiguous to the Post Office and Beckman's Express. Feb. 2-3
