

A Poor Device. The Republican papers of Oregon, like their cotemporaries in California, are now endeavoring to make it appear that only themselves and such other sheets as advocate a participation in the war going on at the East, are true to the Union.

Those same papers never had a word of condemnation for those who disobeyed the laws and violated the plain provisions of the Constitution at the North. They even applauded the stealing of negroes; the mobbing of masters in quest of fugitive slaves; and the passage of unconstitutional State laws to defeat the laws of Congress.

But let us examine into facts to discover upon what sort of authority these pretended Union men found their claims to the distinction. The Crittenden Compromise would have undoubtedly quieted the difficulty between the two great sections of the Country had it been adopted.

Then again, the Democratic press were opposed to coercion, because they knew such a policy, if not contrary to right and law, was in the face of reason and possibility. The American people can never be coerced to do that which they have resolved not to do.

And now, when the land is threatened with the most horrible of all wars—that between countrymen and kindred—these papers would urge on the people of the Pacific coast to join in the murderous, fratricidal strife, and stigmatize those who counsel neutrality as "traitors."

For one, we supported the Crittenden Compromise, not that we thought it exactly right, but because it was the last basis upon which the contending sections could probably unite.

NEW PAPER.—We have received the prospectus of the Oregon State Journal, to be published every Thursday at Roseburg, Douglas County, by M. W. Maples & Co. It will be independent in politics. The terms are \$2.50 per annum if paid in advance, otherwise, \$3.00.

Gold Dust at Discount.—In consequence of the charges recently made in the purchase and shipment of bars at San Francisco, the rates for coin have increased and the price of gold dust diminished.

General Intelligence. A Montgomery dispatch of April 13th, says: Secretary Tamm has received a letter from Senator Breckinridge, and Governor Magallon, of Kentucky, expressing themselves as greatly excited and sympathizing entirely with the South.

President Davis has issued a Proclamation, inviting privateers to make war on Northern commerce with letters of marque and reprisal. He speaks of the wrongs of the past, those now threatened by the South, and the more implacable than provoker. He concludes by saying, under the blessings of Divine Providence, we may hope for a speedy, just and honorable peace.

Unless the Cincinnati seizure are promptly redressed it will cause a non-intercourse and seizure of Ohio property in New Orleans. Gov. Harris, replying to Secretary Cameron, says Tennessee will not furnish a single man for coercion, but 50,000, if necessary, for the defense of our rights and those of our Southern brethren.

Ten of the mob are reported to have been killed in the riot at Baltimore on the 19th. A club for the benefit of traitors is formed in Brooklyn. A German regiment has been formed in New York, composed of those who have served in Europe.

The New York Customhouse refuses clearance to the ports of the Seceded States. Eighty thousand cartridges were seized by the Sheriff of Albany, on the 19th, at the factory, destined for the South; and the factory threatened with destruction.

A Philadelphia dispatch of the 19th says: The City Government at last night voted resolutions to sustain the Federal Government, also to pay the salaries of all persons in the employ of the city who volunteer, looking to the Government of the State, and requesting him to sign his post, and adjourned.

A Boston dispatch of the 16th, says: A meeting of the bank officers representing all the Boston banks was held on Monday, and resolutions were adopted, to loan the State of Massachusetts ten per cent, on their entire capital for the defense of the Government.

ST. LOUIS, April 20th. A resident of Kent county, Md., has received information that the negroes were burning the houses of the whites. Two of his buildings had already been destroyed. The Toronto Globe of yesterday had a long article on the relation between England and the United States, advocating a sincere and manly alliance, for the sake of the world, and says the North had a good cause, and that the permanent good will of the American people is worth striving for, and hopes to see the rebellion put down, and the traitors dealt with as they deserve.

to stand by them. A large and enthusiastic meeting was held in the same county, at which the action of the Confederate States and the course of Gov. Jackson was indorsed, and an offer made to raise four regiments of slaves to whip an equal number of Abolitionists. Six military companies are formed.

Reports from the North show no abatement of enthusiasm in raising men and money for the war, and more volunteers were mustered than were called for, and money enough has been pledged to carry on a war several years.

It is reported that Commodore Vanderbilt has offered his whole fleet of steamers, fully armed and equipped, free of charge, to the Government. Col. Cushing had arrived at Harpersburg, and left for Washington. He says that Gen. Lee, with 5,000 Virginia troops, was covering Arlington Heights.

Gov. Letcher has prohibited the exportation of flour north. Negroes in Maryland were raising and burning their masters houses; also in Louisiana. A gentleman who left New Orleans Friday says that the whole country between Jackson, Tenn, and New Orleans is in arms.

On the night of the 26th, 20,000 stand of arms were taken from the St. Louis Arsenal and sent to Springfield, Ill. A person just returned from towns in Alabama and Mississippi says that hundreds of men were returning from Fort Pickens deserted, and saying that it could not be held.

Gen. Scott, in answer to statement of Gen. Harper, that Virginia will never send an attack upon the Capital from her soil and he would be happy to have it confirmed, but would advise the Government to desist from the present course of proceeding for its safety.
