

**THE OREGON SENTINEL.**  
SATURDAY, -- JULY 27, 1861.

JUDG. PRIM.—This gentleman has been taken to task by a correspondent of the Portland *Times*, writing from Kerbyville, for the manner in which he administered the oath to an Attorney who made application to be admitted in his Court, upon a certificate regularly issued by some one of the Courts in the Willamette, to the effect that the Judge failed to require of said Attorney an oath to support the Constitution of the United States. This correspondent should know, if he does not, that if ever he makes application for admission to the bar of any Court, he will be required to make oath that he will support, not only the Constitution of this State, but that of the United States, and no Judge in this State would more rigidly enforce this rule than the one of whom he complains; but if an Attorney presented himself upon a certificate, duly authenticated, it would be optional with the Judge whether he would require an additional obligation.

QUARTZ.—Since the water has failed in the creeks and gulches, many of the miners have turned their attention to prospecting for gold bearing quartz, and to a closer examination of those ledges that were opened last year contiguous to this place. The result of this application has not been unrewarded. The claim owned by Messrs. Johnson & Co., situated on the right hand Fork of Jackson creek, has turned out some beautiful specimens, and as rich as the most ardent seeker of gold could desire, samples of which can be seen at the store of Mr. Birdseye or in our office. There is no longer any doubt but that the hills surrounding us are rich in precious metals, and it only requires an effort to demonstrate it.

OREGON MARBLE.—B. F. Dowell, Esq., has sent us a beautiful specimen of white marble, taken from a quarry about twenty miles from this place, and four miles southwest of Williamsburg, in Josephine county, where there is mountain of it, of all sizes and of all colors, from the common blue to the finest white Italian marble. A vein runs through the mountain, which is eight at the top of the ground, about one hundred yards in width, and as white as the piece sent us. A good wagon road runs within a mile of the quarry. Mr. Dowell left here on the 15th, with his team and four men, and returned in four days with a pure white block, six feet long, two and one-half feet wide and nine inches thick.

AGGREGATE QUARTZ LONG.—It is reported around town, that last week this company cleaned up (840) eight hundred and forty ounces. The new arras they have been working on are nearly completed. We do not hesitate to say that there is more gold dust shipped from Jacksonville in one week, than has been found in the whole N. & W. Ferry country. Suppose that the above amount of dust had come from the Northern mines and taken out in the short space of time it was, we should not have been surprised if our entire population, with a few exceptions, had gone North; but as it is, it made no excitement whatever.

GRASSES.—Mr. John N. Durham, of Willow Springs, has left in our office some fair specimens of grasses, which surpass anything of the grass kind that we have ever seen. The two thick bunches of wild clover measure four feet four inches from end to end; a bunch of timothy measures six feet ten inches, and the orchard grass five feet six inches. Can it be beat?

THE CROPS.—For the past few weeks our farmers have been busily engaged harvesting their crops. From all we can learn, the yield of will be grain double that of any previous year, more ground having been sown and the product to the acre over an average.

WATER DITCH.—A correspondent writing from Kerbyville to the Portland *Times* says: "Col. Stevens is making experiments with a view of taking Applegate Creek into Jacksonville." Success to his experiments.

STRAWS.—A friend, writing from Salem, uses the following language: "Everybody is stampeding for the mines, and if one-half of them bring back as much as they take away, money will be plenty."

PREACHING.—Rev. A. M. WILLIAMS will preach in the Methodist Church to-morrow morning at 11 o'clock—Rev. Mr. Driver at 7 o'clock.

SHELDON'S SHOW.—By reference to our advertising column it will be seen that we are to have a show to-night. We think the show is well worth the admittance charged.

HOT.—Yesterday at 4 P.M., the thermometer stood at 96 degrees in the shade.

RETURNED.—Mr. John Hillman returned this week, having been on a visit to the Old Folks in the Atlantic States.

SOLDIERS AND SAILORS TRUE TO THE FLAG.—In his message, President Lincoln pays the compliment to the soldiers and sailors of the United States a high compliment. He says that not a private soldier, sailor in the Army and Navy of the United States has proved a traitor to his country. They have been true to the flag, while hundreds of officers who were educated and lived upon the pay received from the United States, deserted their colors, and accepted commands in the rebel army. This is a high tribute to the patriotism of the soldier and sailor.

There is, however, an explanation of this fact which partially accounts for it. The officers who have deserted their colors—who have acted the traitor to their country—are all by birth natives of some one of the Southern States. These States have furnished their full quota of officers in the Army and Navy; but who ever heard of their furnishing a private soldier for the Army or a common sailor for the Navy?

Like the younger sons of noblemen in England, the sons of planters in the South seek for commissions in the Army or Navy; with this class of men labor is degrading, and hence they seek a profession which a Gentleman may adopt without any sacrifice of personal pride. The Army and Navy have furnished two branches of a profession suited to the ambition and pride of young men in the South whose fathers could not furnish them a fortune, and here we have the secret of there being so great a number of Army and Navy officers from the South in proportion to the population. The idea that a Southern man should not engage in any calling not suited to his estimate of the proper emoluments for a man who desires to be considered a Southern gentleman, has probably operated to prevent men of Southern birth from enlisting as soldiers or sailors.

Bibles and Testaments.

A SUPPLY OF Bibles and Testaments, in various styles, recently received and for sale at cost and charges, at the Repository of the Jackson County Bible Society in Jacksonville. Wm. HOFFMAN, Depositary. June 15, 1861.

TERMS—CASH OR GOOD SECURITY.

CHAS. B. BROOKS, M. D.

Jacksonville, July 28, 1861. 28-46

JUSTICES BLANKS for sale at THIS OFFICE.

E. C. SESSIONS.—We see by the last issue of this paper that Ashbury has "scooted" from the establishment, taking with him the subscription list. We know not who has hold of the paper, but the true-blue Union sentiment expressed in its leading article, so different from anything heretofore found in its columns, is exceedingly refreshing. Hear how it talks:

Civil war is a terrible calamity, but national dishonor, national disintegration would far worse. We want no divided Republic; no Northern, Southern or Pacific Republics; but our own Republic—one nationality, embracing a continent represented by our flag, the most august in the world.

In a crisis like this, no man who loves his country, be tricked into treason or sympathy for traitors, by a nickname or false use of terms. Secession is rebellion, and treason is the legitimate enforcement of the law. Nor can any sophistry make a distinction between states and individuals.

### SELLING OFF, SELLING OFF!

AT COST,

AT THE—

### CHEAP CASH STORE

—OR—
