"TO THE EFFICIENT AND PERMANENT OF YOUR UNION, A GOVERNMENT FOR THE WHOLE IS INDISPENSABLE."—Washington.

JACKSONVILLE.

SATURDAY, FEB. 22, 1862.

A Political Novelty.

We have said before, if the political doctors succeeded in galvanizing into life a certain defunct carcass, which the mourners persist in calling Democracy, that it would be unlike anything heretofore known in the political history of this country.

Resolved, that we are opposed to the employment of force by the general Government against the seceded States, for the purpose of compelling obedience and submission to the Federal authority.

And in another resolution we find the following language: Resolved, then, we are in favor of the recognition of the Confederate States.

There is no mistaking the import of this language. Its meaning is clear, plain and palpable. It is treason pure and simple—treason, foul and damnable.

Resolved, that we are opposed to the employment of force by the general Government against the seceded States, for the purpose of compelling obedience and submission to the Federal authority.

ocrat organizations in these great States. They seek no affiliations with the apologists of treason and disunion. They still remember the heroic words of the immortal Jackson: "The Union must be preserved at all hazards."

The Negatives.

There is a class of men in every community, State and nation, whose peculiar province it is to growl at the actions of others and the general movement of the civilized world.

The people are moving in this matter all over the State, and there is a majesty in their movements that evinces a determination to redeem the sullied honor of our youthful State; for the honor and loyalty of Oregon stands impeached and sullied before the grand inquiry of the nation.
