

THE OREGON SENTINEL.

SATURDAY, MARCH 15, 1862.

Read This.—If any of our numerous readers wish to know where to purchase goods cheap, in this city, we refer them to our advertising columns. Men who advertise liberally always do a heavier business than those who do not advertise at all. As they sell more goods in a given length of time than the merchant who does not advertise, they can afford to sell them cheaper and at a less per cent. profit. Our experience in purchasing convinces us that such is always the case. Let us illustrate. Here is a merchant who advertises liberally, and he sells \$10,000 worth of goods per month; here is another who does not advertise at all; his sales in the same place do not amount to over half that sum per month. Now, it must be evident to every thinking man that the first could flourish and grow rich on a less per cent. than the second. Why is it that some merchants wither and die on the very spot where others flourish and grow rich? To read the papers published in the vicinity of the two, and the mystery is explained. Jacksonville is no exception to the rule. Those who advertise, let the people know what they are doing and what they have got. We repeat again, if you wish to know where to purchase goods cheap, consult our advertising columns.

MATERIALS.—Mr. John N. Durham, on Tuesday last, treated us to a fine cake of maple sugar, made on his farm near Willow Springs. It is as palatable as any we ever tasted in the States. If any more of our friends should manufacture any, why, we wish distinctly understood that we are a good judge of the article. Aham!

Mr. Durham says there are at least 150 men at Willow Springs, Blackwell, Almanor, Kars Creek and Paddy's diggings, and that they are making from 3 to 20 dollars per day to be held at Eugene City, Lane county, on Wednesday, the 9th day of April, 1862, for the purpose of nominating a Union ticket for State officers and Member of Congress.

FATAL AFFRAY.—On Sunday morning last, about 6 o'clock, at Willow Springs, a man by the name of George Beaver shot an individual by the name of Perry Kling five times. The first shot struck Kling in the neck; the second in the knee, ranging up and breaking the thigh; the other three shots took effect in the chest. Kling died about five o'clock on Tuesday morning. Beaver, it is supposed, has gone to Salmon river. The instrument used in the above savage work was a revolver. The general facts as we understand them are these: The attack was made by Beaver on Kling from behind, and no unknown words were passed between the parties before Beaver shot Kling in the neck. The last shot hit Kling in the back whilst he was retreating, and lodged against the skin near the pit of the stomach.

A coroner's inquest was held on Tuesday, and a full *second* examination had, and the verdict of the jury was in accordance with the above facts. Mr. J. N. Durham acted as Coroner.

Quarantine Box.—By the politicians of B. M. Darrow, Esq., we have been shown specimens of the bonds issued by the Government to pay off the debt, necessarily incurred by the people of Oregon, in the Indian War of 1855 and 1856. They are in \$50, \$100 and \$500 bonds. They are payable on demand after the year 1891, and draw interest at the rate of six per cent. per annum. The fifty dollar bonds are surrounded with the signature of Salmon P. Chase; the one hundred dollar bonds with the signature of Wm. H. Seward; the eight side; the \$500 bonds are surrounded by the signature of Eagle Abe himself. All sums under fifty dollars are paid in drafts on the Treasury.

JACKSON COUNTY CONVENTION.—It will be remembered by all of our readers living in Jackson county, that one week from today is the time for the meeting of the Union Convention. We hope to hear of a large attendance and an enthusiastic and patriotic time. Let no Melvin man stay at home when the several intervals of life country are at stake. Turn out, one and all, and bid your counsels and advice in the nomination of a right kind of ticket—a ticket that you will be proud to support at the coming election. We understand that Mr. Preston, Esq., is to address the Convention. May he be filled with patriotic fire.

INDIANA COUNTY CONVENTION.—We this week publish a call signed by thirty-six names for a Union Convention to be held at Roseburg, in said county, on the 29th day of this month. The Convention is to be a delegates one, and the Pacific Meetings are to be held on the 22d. This is right, gentlemen; keep the ball rolling. Your call has the ring of the genuine metal in it and is clear and luminous in its statement of the position of Union men in Oregon. Nine out of ten secession sympathizers can refuse to support a ticket nominated on such a platform. The Union must and shall be preserved! There is only two sides to the question. Every man must be for the United States or against it. There can be no neutrals in this war—only Friends and Traitors.

MEMPHIS.—Orders were received by the Postmaster of this place on Monday evening last, to exclude the *Gazette* from the mails. The Editor in a sort of vindictive address treats the matter as a very funny affair, but we have been unable to rec just where the laugh comes in. Is it funny to be placed under the withering ban of the most liberal Government in the world—to be outlawed from the rights and privileges freely accorded to the loyal? Is the position of the culprit standing before the Judge, to receive the sentence of the Law, a funny one? We don't appreciate the joke.

CASUALTY.—On Wednesday, a little girl about three years old, fell into one of the uncovered mining pit in this town and came very near drowning. Its life was despaired for a while, but it is recovering. It is a wonder that older children do not get drowned in the uncovered holes that abound in this place. We wish our City Fathers would look into this matter, and close up some of these watery roads to the mineral region.

IMBED WITH THE SPIRIT OF THE TIMES.—We learn that Dr. John Herbold, who is now at Kerbyville, Josephine county, is a relative of Gen. Sigel; and that he is an accomplished swordsman, and an adept at light infantry drill. He is putting the members of Capt. Matthew's company through these exercises. Success to the Doctor, we say.

APPOINTMENT.—Mr. A. E. Rogers, of this place has received an appointment as Indian Agent. Where the field of his labors will be, he does not know.

YACON HOUSE.—It will be seen by reference to our advertising columns, that this well known house has changed hands. Messrs. Bowman & Boyle now have charge of it. The traveling public will always find "our Host" on hand, attentive to their wants, and ever ready to furnish a "square meal" at the shortest notice. Give them a call.

THE STAGE TO CANARYVILLE now make daily trips from Canyonville to this place; also from Yreka. This Stage Company has been of incalculable benefit to Southern Oregon. It has placed us in regular communication with California and Northern Oregon; and makes us feel, not only that we live in an age of light and knowledge, but also that we live in a land of enterprise and energy.

MAIZE SUGAR.—Mr. John N. Durham, on Tuesday last, treated us to a fine cake of maple sugar, made on his farm near Willow Springs. It is as palatable as any we ever tasted in the States. If any more of our friends should manufacture any, why, we wish distinctly understood that we are a good judge of the article. Aham!

From the North.

A friend writing to us from Salem, under date of February 24th, says: "We have had a number of the Winters, so far, and are just commencing to have another, but of a different kind. It is raining as you know it only can rain in these parts. I never knew Oregonians to rejoice over rain before in the winter time. For near two months the ground has been covered with snow from six inches to two feet deep. The prairies are now beginning to look bare. All the forage in the country has been cut out. The destruction of all kinds of stock has been great, but I think the worst is to come yet. Cold rains and no feed is worse than snow with plenty of hay. Everything that the country affords is in good demand. If the farmers of Rogue River have any cattle to spare they will find a good market for them up North. Cattle are held higher here, now, than they have been for the last four years."

Washington Territory contains an area of 200,000 square miles, 131,400,000 acres. There are 24 counties in the Territory, two of which (Idaho and Nez Perce) were created by the last session of the Legislature. Its population is 414,416—5,489 of whom are set down to Nez Perce, and 5,742 to Shoshone county.

A gentleman writing from Corvallis to a friend in this Valley, says: Bring your horses feed with you as far as you can, when you start for the Northern mines, for there is no feed here except what the Stage Company owns. Do not start before the first of April."

Mr. G. W. Vaughn has commenced a suit against the city of Portland for damages in the sum of \$17,000, which he alleges he sustained by the removal of a frame building from his wharf, in 1859, by the then city authorities.

A letter writer from Salmon river, to the *Marysville Express*, says: "I will say to you, and to all of my friends, come on, for there is a good thing for us all. Be sure and come armed, for we will have about 1500 Snake Indians to whip next summer."

The *Portland Times* says, there are not less than 1,000 Californians in that city, en route for the Northern mines. The editor complements them as an orderly and intelligent class of men.

The time for holding the next session of the Oregon Conference, M. E. Church, is fixed for the 6th of August next. Rev. Bishop Simpson is to preside.

Smallpox is said to prevail slightly at Portland.

Memphis.

We clip the following from the *S. F. Evening Bulletin*:

Memphis a year ago was the second cotton mart of the South. In the year ending Sept. 1, 1860, it shipped 400,000 bales. Three great systems of railroads centered here; the Memphis and New Orleans, the Memphis and Charleston, which have lately suffered somewhat in their bridges at the hands of the Unionists of Northern Alabama, and the Memphis and Ohio, which is no longer of much use to the mercantile. Early in the course of the rebellion Memphis took a stand with the insurgents. The citizens held an enthusiastic meeting to rejoice over the secession of South Carolina on the 20th of Dec. Nine days afterward they held a "Union meeting," which was scarcely less reasonable—passing resolutions against coercion, favoring a convention of Southern States to demand their rights, and if these rights were refused to take action instantly for seceding. On the 29th of April they did a thing that has made their name ever since highly offensive to every loyal soul. In the city is one solitary square and in that square stands a statue of Jackson, on which is inscribed the immortal legend, "The Union must and shall be preserved!" By the side of this statue a pit had been dug. Five hundred men approached the statue, the band played the *Death March*, and behind them came eight pall-bearers bearing the Union flag. With mock solemnity the Stars and Stripes were lowered into the pit and buried, and the five hundred returned, apparently thoughtful that the insult they had offered to the mute statue of the Hero of New Orleans and to the flag of our country must be avenged before a twelve-month had come round.

Next to Charleston, there is no city in the whole South that demands the avenging stroke of the Government more than this contaminated city. When she buried the noble emblem of the Republic, she buried with it her enemies, her prosperity and her future glory. The first shall have a speedy retribution, the latter may be compelled to wait for the Judge. What a world of infamy and shame was in the act of burying the American flag beneath the statue of the immortal Jackson! And still the men who did the traitorous act, and those who sympathize with them, claim to be Democrats! May Heaven save us from such Democracy. Some such Democrats are furiously growing just now, because the Government does not see fit to patronize such a lovely kind of Democracy.

RECORDED WITH THE SPIRIT OF THE TIMES.—We learn that Dr. John Herbold, who is now at Kerbyville, Josephine county, is a relative of Gen. Sigel; and that he is an accomplished swordsman, and an adept at light infantry drill. He is putting the members of Capt. Matthew's company through these exercises. Success to the Doctor, we say.

APPOINTMENT.—Mr. A. E. Rogers, of this place has received an appointment as Indian Agent. Where the field of his labors will be, he does not know.

JACKSON COUNTY MASS UNION CONVENTION!

The qualified voters of Jackson County who are in favor of the suppression of the present wicked rebellion—of a vigorous prosecution of war so long as necessary to frustrate the mad schemes of armed traitors—who are opposed to any peace other than the honorable one sure to come when rebels and their sympathizers submit to the constitutionally elected and qualified authorities and legally enacted laws of the Government—who think more of country than of party prejudice and individual preference—who are in favor of supporting the General Government in its endeavors to defend the Constitution, execute the laws, and preserve the Union, and who are willing to unite for the election of a ticket upon such a basis at the coming general election, without reference to former political associations, are respectfully requested to meet in Mass Convention at JACKSONVILLE, on SATURDAY, March, 29th, at 1 o'clock p.m., for the purpose of nominating a ticket for County Officers, for the purpose of selecting delegates to a State Convention to be held at Eugene City, Lane county, on Wednesday, the 9th day of April, 1862, for the purpose of nominating a Union ticket for State officers and Member of Congress.

Col. Cornelius has appointed Dr. W. H. Watkins, of Portland, Oregon of the Oregon Cavalry Regiment.

The Corvallis *Union* says that this Government will be destroyed, and the Union men will be glad to escape to Canada.

As the Secessionists claim to be the only genuine Union men in existence on this coast, just now, we presume the above is an enunciation of their coming fate. We always thought they had a sort of predilection for a monarchy.

A Hint to Farmers.—The *Oregon Farmer* truthfully remarks:

True policy in a family is to supply its own wants as nearly as possible, from the farm, and this is the true policy of any community, small or great, a town, a city, or a nation, to live, as far as it can be done, on their own home industry.

A letter from Olympia says that "cattle are dying everywhere; hay retailing at five cents, and none to be had in large quantities; oats one dollar per bushel, and flour nine dollars per barrel.

Dr. E. White has been appointed Special Indian Agent for this coast.

Potatoes are worth four dollars a bushel at Portland—flour ten dollars per barrel.

Horses are dying in Marion county from a disease called stomach staggers.
