

BY OVERLAND TELEGRAPH.

(TELEGRAPHED TO YREKA FOR THE SENTINEL.)

Dates to July 22d.

Philadelphia, 20th.—The Enquirer has dispatches dated Hagerstown, 19th, stating that the rear guard of Lee's army left Martinsburg on Saturday morning...

Cincinnati, 20th.—Our forces are continually capturing Morgan's men. B. J. Buck was captured this morning. Over 1,300 prisoners have already been taken.

New York, 21st.—Sterling 138a139; gold 125a125b.

The Advertiser's Fort Monroe letter, dated July 18th, says returned prisoners from Richmond do not think any of Bragg's forces had reached there. Gen. D. H. Hill is commanding the troops in Richmond...

Richmond papers of July 14th, report that the Federals were landing in force at Brandon, on James river, doubtless, it says, to make a raid on the Weldon and Petersburg R. R. Brandon is 30 miles from Petersburg.

Chicago, 21st.—The Richmond Enquirer, of the 15th, contains Jeff. Davis' proclamation, calling out under the conscription all whites between eighteen and forty-five, to serve three years under penalty of being punished for desertion in case of disobedience to the call.

Cincinnati, 21st.—The following was received at headquarters last night:

We chased John Morgan and his command over fifty miles to day. After heavy skirmishing for six or seven miles between the 45th Ohio, which was in advance, we succeeded in bringing the enemy to a stand about three o'clock, when a fight ensued, lasting one hour, when the rebels fled, taking refuge upon a high bluff. I sent a flag demanding the immediate surrender of Morgan's command.

Morgan's artillery, and about two thousand five hundred prisoners, including Ballou's, are expected to arrive here to-day. After being driven back from the river on Sunday, a detachment moved up the river towards Belleville, and compelled citizens to furnish flatboats by which three hundred escaped, just as the gunboats appeared; the remainder on the Ohio shore were attacked by the gunboats and cavalry and scattered.

New York, 21st.—Late Southern papers have the following: Jackson, Miss., 15th.—Pemberton and staff arrived here last night. The enemy have been shelling all evening. They are being reinforced.

Jackson, Miss., 16th.—The enemy made a heavy attack on our right and center but were repulsed. The enemy's reinforcements are being pushed on our right to cross Pearl river and flank our entire position.

Cairo, 21st.—Yazoo City, which has been occupied by rebels, was taken by the Union forces under Gen. Herron, July 15th. 250 prisoners were taken. The gunboat, DeKalb, which accompanied the expedition, was blown up by torpedoes. Three steamers were burned.

Gen. Lanman, with Sherman's advance, is reported to have made a premature attack on Jackson, Miss., on the 13th, and to have been repulsed with a loss of three hundred men.

The news in regard to Sherman's campaign against Johnston is very meagre. Transports convoyed by gunboats have gone up Red River; object unknown.

Chicago, July 22d.—By direction of the President the following officers are retired from active service: Major Gen. Wool, Brig. Gen. Harney, Brevet Gen. Harvey Brown, Col. Justin Dimick, Chas. S. Merchaut and Sweet, and Col. Martin Davis.

New York, July 22d.—During a gale yesterday, a wall of the 18th Precinct Station house on 22d street fell, crushing a number of women and children. Thus far 11 bodies have been removed—it is not known how many remain. The building was destroyed last week by the mob. The ruins at the time of the fall was full of women and children, hunting for coal and wood.

New York, July 22d.—The Herald's dispatch from Washington says all efforts to induce the Government to suspend the draft in New York, are unavailing. The conduct of the rioters there has rendered it in the estimation of the authorities imperatively necessary that the draft be enforced.

Memphis, July 20th.—Vicksburg dates to 18th received. Gen. Sherman ordered a charge on the rebel works at Jackson on the 17th, but found that the rebels had abandoned their position, only a few stragglers were found, and but few guns and little ammunition. A portion of Sherman's army now occupy Jackson, at which place is his headquarters, the remainder is now on its way to Vicksburg. Johnson's army on its retreat was compelled to swim Pearl river.

Niches was occupied by Federals under Gen. Ronson on the 15th. After his arrival he crossed the Mississippi and captured a rebel battery of 9 guns, he then marched into the country and captured 247 boxes of ammunition, and nine more guns. At Niches he found 5,000 head of cattle, 400 hog-heads of sugar which were taken possession of in the name of the United States.

Fortress Monroe, July 21st.—Gunnboat E. I. son from Charleston, Fr d y 17th, reported a battle commencing that day, by sea and land. She brings no particulars.

New York, July 21st.—Gold this morning opened at 127, with sales at 128, 129j.

San Francisco, 22d.—Private dispatches received to-day from New York say gold is quoted this morning at 123. Legal Tenders 77 to 78.

ONE OF THE SPEECHES.—During the last Senatorial contest in Missouri, Brockmyer made a speech, of which, as it is off the partitions of the several candidates admirably, we append an outline:

Mr. Brockmyer—I do not rise, sir, for the purpose of making a speech. I only desire to address a few words in favor of my particular candidate. Sir, when I look abroad and see the devastated condition of Missouri—when I listen to the wails of the widow and the shrieks of the orphan—when I behold the watery elements of Missouri inevitably running down hill, I feel at once the necessity—the paramount necessity—of electing my particular candidate for the United States Senate. [Laughter] When I look at the patriots on my right and the patriots on my left; when I think of the heroic labors they have performed in vindicating the great Constitution of my country, I am at once convinced of the paramount necessity of electing my particular candidate. [Loud laughter.] Sir, when I reflect that trees will grow in the forests; that rocks will rest immediately on the hills, and that pigs will invariably squeal when hungry, I am more than ever convinced of the paramount necessity of electing my particular candidate. [Rounds of laughter.] Gentlemen, when I look abroad of the terrible war that is devastating the whole nation; when I see the people groaning beneath the burden of taxation; when I see want, suffering, starvation, even, stalking through the land; when I see the people's interests disregarded, and honorable legislators manifesting their very high appreciation of the banking interests of the State by breaking faith banks—then it is, sir, more than ever, that I have a realizing sense of the paramount necessity of electing my particular candidate. [Renewed laughter.] Oh, gentlemen, how can you, how dare you fritter away your time in this way! When you return to your constituents, then you will realize the great blunder you have committed in having failed in electing my particular candidate. It has not been my intention to throw a fire-brand in the way of harmonizing the great Emancipation party. I have at all times and under all circumstances, counseled conciliation, concession, compromise—everything for the sake—of electing my particular candidate. [Laughter.] I beseech you gentlemen, to remember that we are reclining on downy beds and cushioned chairs, receiving \$5 per day and public documents, while thousands of orphans throughout the country to-day are unprotected from the chilling blasts of Winter; I beseech you to remember the great interests that are at stake; consider the broad expanse of the mighty State of Missouri—her great agricultural resources, her mineral wealth, and the tremendous latent muscle she possesses, only waiting to be developed preparatory to knocking aside all competitors in the march of progress and civilization—consider all this, I beseech you, calmly, soberly, dispassionately; reflect, likewise, that mules are stubborn, and that kackasses will kick, and wheel into line, stand shoulder to shoulder, and resolve that you will see, that you do see the great and paramount necessity of electing my particular candidate. [Loud laughter.]

IMPORTANCE TO THE TEETH OF CLEANLINESS.—Our teeth decay. Hence uncleanly mouths, bad breath, imperfect mastication. Everybody regrets it. What is the cause? I reply, want of cleanliness. A clean tooth never decays. The mouth is a warm place—98 deg. Particles of meat between the teeth soon decompose. Gums and teeth must suffer. Perfect cleanliness will preserve the teeth to old age. How shall it be secured? Use a quill pick and rinse the mouth after eating. Brush and castile soap every morning; the brush and simple water on going to bed. Bestow this trifling care upon your precious teeth and you will keep them and ruin the dentists. Neglect it, and you will be sorry all your lives. Children forget. Watch them. The first teeth determine the character of the second set. Give them equal care. Sugar, acids, saleratus and hot things, are nothing when compared with food decomposing between the teeth. Mercurialization may loosen the teeth, long use may wear them out, but keep them clean and they will never decay. This advice is worth more than thousands of dollars to every boy and girl.—Dr. Lewis.

Among the subscriptions for the Government 5:20 bonds, was one from Kentucky, of \$350,000 in gold, which at the present premium on gold will buy over half a million of the loan. This, from the State of Kentucky, shows a confidence in the right quarter.

At a Copperhead meeting in Indiana, recently, one of the speakers execrated Mr. Lincoln for denying the people "the right of Corpus Christi."

To the Afflicted. Of all diseases, the first great cause Springs from neglect of Nature's laws.

SUFFER NOT WHEN A CURE IS GUARANTEED in all Secret Diseases. Self-abuse, nervous debility, syphilis in all its stages, strictures, gleet, gravel, diabetes, diseases of the kidneys and bladder, mercurial rheumatism, scrofula, pains in the bones and ankles, diseases of the lungs, throat, nose and eyes, ulcers upon the body or limbs, cancer, dropsy, epileptic fits, St. Vitus' dance, and all diseases arising from a derangement of the sexual organs, such as nervous trembling, loss of memory, loss of power, general weakness, dimness of vision, with peculiar spots appearing before the eyes, loss of sight, wakefulness, dyspepsia, liver diseases, eruptions upon the face, pain in the back and head, female irregularities, and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted all their means of cure. The medicines prescribed are pleasant and without odor, entirely vegetable, causing no sickness, and free from mercury and poison. During twenty years' practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands who, in the last stages of the above mentioned diseases, had been given up to die by their physicians; which warrant me in promising to the afflicted, who may place themselves under my care, a perfect and speedy cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula and many other diseases, and should be a terror to the human family. A permanent cure is securely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease and treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life carried by a virus which betrays itself in scrofula, tetter, ulcers, eruptions, and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

SELF-ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of diseases causes so destructive a drain upon the system, drawing its thousands of victims, through a few years of suffering, to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence, I assure the unfortunate victim of self-abuse that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, any patient can be restored to robust and vigorous health.

Irregularities, and all diseases of males and females are treated on principles established by twenty years practice, and sanctioned by thousands of the most remarkable cures. Medicines, with full directions, sent to any part of the State, Oregon, Nevada and Washington Territories, by patients commencing their symptoms by letter. Business correspondence strictly confidential. Address, L. J. CZAPKAY, M. D., San Francisco.

The Doctor offers free consultation, and asks no remuneration unless he effects a cure. je20td
