

"TO THE EFFICACY AND PERMANENCY OF YOUR UNION, A GOVERNMENT FOR THE WHOLE IS INDISPENSABLE."—Washington.

JACKSONVILLE, OREGON.

SATURDAY EVENING, - SEPT. 5, 1863.

No News.—We have failed to receive dispatches since Wednesday evening. The wires are probably down.

Rev. P. M. Starr will preach in the Methodist Church of this place to-morrow at the usual hour.

MASSAGE.—The Grand Lodge of F. and A. Masons, of Oregon, meets in Salem, on the 21st of this month.

GREAT DEMOCRATIC VICTORY.—The Democracy have carried Lawrence, Kansas, by an overwhelming majority!—mostly guerrillas under Quantrell.

"HIBERNIA" has written a stirring appeal to his fellow-Irishmen in California, to stand true to the cause of liberty and the land of their adoption, by voting the Union ticket. The communication was published in the Union of 31st ult.

STRAUCK IR.—Mr. A. Rockefeller, formerly of this county, but now in the Express business between Walls Walls and Bank City, is one of a fortunate party who have discovered a rich quartz ledge near Auburn. May it yield him all the money he wants.

Circulars scattered about town yesterday advertised that Rev. Conkling would deliver a lecture on "the Prophecies and the Crisis." We did not attend the lecture, but understand that the style of the lecture like the orthography on the printed circular, was original.

In the published call for a Democratic meeting at the Court House in this place to-day, there is not the name of a single person who voted the Union ticket at the last election. The name "J. Ross," which appears in the call does not represent Col. John E. Ross, but is probably the name of an imaginary person.

Information has been received in this place, by private letter, that Enoch Fruit has been arrested and is in prison at Crescent City, California. It is a mistake, or probably a "goak," as late accounts state that he was plying his vocation as "Road Agent" (highwayman) up North.

SENATOR HARDING, in a letter to A. G. Henry, of Olympia, denies that he ever said that, "if in Ohio, he would vote for Vallandigham," but on the contrary says: "I disapprove of his [Vallandigham's] whole course since the opening of the rebellion, and on all occasions, when speaking of it, and in the conversation referred to, expressed my disapprobation, and usually in strong terms." We will publish the letter in our next issue.

"If the Democracy fall to rush to the rescue, we may as well bid farewell to our liberties and submit to the yoke of despotism."—T. Vault.

The "despotism" of law and order has driven cut-throats from their native States. The "despotism" of the law which commands "Thou shalt not bear false witness" would justly deprive many a perjured copperhead of his "liberty." That's what's the matter.

SOLD OUT.—Mr. Wm. Johnson informed us on Wednesday evening that he had sold out his express business, from Jacksonville to Waldo, to Mr. J. A. Landis, of Douglas county. He intends visiting his old home in Vermont. Mr. Johnson's absence will be regretted, as he was one of the most popular of expressmen. The only objection ever urged against him was his irreproachable habit of seroely "blaming" any person who ventured to express Copperhead sentiments in his presence. He commends Mr. Landis as an "A No 1" man and master expressman.

HEAVY ROBBERY.—We are informed by stage passengers from Yreka, that Henry Greenberg, Erlenbach & Guillemith, bankers of that place, were robbed of \$8,000 in coin and dust, on Tuesday night of this week. Before closing the bank on the night in question, the clerks had exercised their usual caution, examining the room to ascertain that no one was concealed therein; carefully locked up all the valuables in the safe, and seen that the doors and windows of the bank were securely fastened. The following morning the clerk returned from his sleeping room, which was two blocks distant from the bank, and was astonished yond measure to find that the safe was open, and all the gold coin and dust missing. Our informant says that the safe had been fastened by a "combination" lock; but it seems that the "combination" did not trouble the expert thief, for he only opened the safe with all the ease of a banker pursuing his legitimate business. A window shutter was unfastened and ajar, which revealed the mode of egress of the rascal. The robber was undoubtedly well acquainted with the premises, but he has covered up his tracks so skillfully that it is very doubtful whether he will ever be discovered and caught.

TREASON—"DEMOCRACY."—Charles R. Street, editor of the Marysville Express, acknowledges that he is the author of a treasonable letter produced and published by Union papers of California. The letter reveals that Congressman Burch, Latham, Joe Lane, and Stout, and other prominent Breckinridge Democrats, were plotting to revolutionize the Pacific States, withdraw them from the Union, and form them into a Pacific Republic. Their deliberate purpose to inaugurate civil war on this coast was only frustrated by the timely arrival of General Sumner at San Francisco. He relieved Col. A. S. Johnson, took charge of the military department, and thus foiled the designs of the traitors.

The Review is now puffing the Marysville Express, (edited by an acknowledged traitor,) as the "best Democratic paper on the coast."

Thus it is, day by day evidence accumulates that it is as possible for "a camel to go through the eye of a needle," as it is for an honest man to distinguish the difference between treason and modern democracy.

CALIFORNIA ELECTION.—So far as heard from the California election has resulted gloriously for the Union ticket. Siskiyou county has been redeemed from the dominion of Copperheads and has been planted, by the noble action of her patriotic and loyal citizens, fairly and squarely on the Constitution, and for the use of every effective means for the suppression of the present monster rebellion. Every man on the Union ticket has been triumphantly elected by majorities ranging from thirty to one hundred, without the vote of their volunteer soldiers.

San Francisco is reported to have rolled up 6000 majority for the Union ticket. Sacramento gave 1,500 majority.

This is as far, at the present writing, (Friday evening) as we are able to give majorities. The above facts ought to be taken into consideration prayerfully by the little coterie of Democratic dead men who are advertised to hold a convocation at the Court House on the morrow.

PEACHES.—Mr. Thomas F. Floyd, of Josephine county, on Wednesday last, sent to us, by Wm. Johnson, expressman, a box of the largest, choicest and most beautiful peaches we have ever seen. The famous fruit-gardens of New Jersey never raised more luscious peaches. Their average weight was nine ounces, and their circumference ten inches; their color, a bright blushing red, and their flavor sweet, juicy and exceedingly luscious. They were of the variety, termed by Mr. Johnson, "Rare-ripenes." We are confident that such peaches would take a premium at the State Fair.

THE PACIFIC CONGRESSMEN.—The Washington correspondent of the Sacramento Union, under date of 4th ult., says: Senator Conness is still in New York, waiting for a cool spell before coming to Washington, probably. Senator Newsmith is rusticated at the Isles of Shoals, off Portsmouth (N. H.) McBride, of Oregon, is rusticated at Irvington (N. J.) with his family. Senator McDougal may be seen any hot day riding on Pennsylvania avenue, with a black "orderly" following about two blocks in the rear, to pick the Senator up in case he should fall off—from fatigue.

NEGRO CONSRIPTS.—In Washington (as we learn by a correspondent to the Sacramento Union), up to Aug. 4th, there were 3,421 persons drafted, of whom, just 815 were colored men. Had not the negroes been included in the draft, just 815 more white men would have been drafted. Consequently the professional Secesh have not a word to say about the propriety of putting negroes into the ranks, when the expediency of the thing become so personally interesting. The correspondent remarks: "It is 'high-toned' to denounce the policy of arming the African malignants to fight gentlemen, withal, but it is comfortably safe for the aforesaid malignants to carry a musket which the chivalrous son of a snob might have to pay \$300 to evade carrying."

TROUBLE AMONG THE "SAINTS."—Joseph Smith, the younger, has created a schism in the Church of Mormon. He is endeavoring to have polygamy abolished. Joseph has sent two of his disciples to Utah to preach his doctrine. Brigham has let loose his vile tongue with torrents of abuse. But the apostles of the better faith are undaunted, and, in defiance of fierce threats, preach in the streets, and in the houses of gentiles, to large congregations of Mormons. The Mormons are becoming heartily tired of the beastly tyranny of Brigham, and are sighing for a new prophet. The women more especially look with favor upon the new preachers, whose doctrines will lift them from their present deep degradation. Joseph will earn the gratitude of humanity if he succeeds in overthrowing a "religion" that inculcates polygamy as an essential virtue.

CATHOLIC.—The following card from the Archbishop Alemany, of San Francisco will correct the erroneous impression generally prevailing, that the S. F. Monitor is, or has been, an official organ for the Catholic Church. The Copperhead articles in the Monitor should therefore be regarded only as the vapors of an unscrupulous politician:—

To the Public: As some journals of this State, alleging in their justification the tone and sentiments of certain so-called Catholic periodicals and journals, have assailed and misrepresented the principles of the Catholic Church, I deem it my duty to disavow any responsibility for articles and statements without her sanction or approbation, and to state that the periodicals and journals alluded to not only have not this sanction, but are not always faithful exponents of the doctrines and wishes of the Catholic Church, which in this diocese has no official organ.

JOSEPH S. ALEMANY, Archbishop of San Francisco, San Francisco, August 27, 1863.

THE "C. S. A." TO BE RECOGNIZED BY MEXICO.—By news received from the city of Mexico, to the 24th, it is apparent that the new Franco-Mexican Monarchy designs giving our Government serious trouble. We clip the following from the S. F. Bulletin's news column:

There seems to be no doubt, from the movements taking place, that the present Triumvirate will recognize the Southern Confederacy, and are now only waiting for news from Europe, as to whether Maximilian will accept the Throne before they act. If he does accept, there is no doubt such recognition will take place forthwith. There is much ill-feeling existing between the French and Americans residing in Mexico in regard to this subject. One of the Franco-Mexican papers, published in the city of Mexico, gives this subject its principal attention. It argues that by recognizing the South, they will make the United States perfectly powerless, as the Mexican ports on the Gulf of Mexico and those on the Pacific coast will be occupied by French squadrons to defend them. It proceeds to show that by giving the Southern Confederacy ports in which to fit out their privateers, and allowing them to take their prizes into these ports for adjudication, the utmost the United States could do would be to declare war against the present Imperial Government in Mexico. That, however, would be a farce, for they (the Imperial Government of Mexico) would be recognized by all the European powers, which, combined, would soon blot out of existence the great humbug which has been existing on the American continent—popular sovereignty—the common people attempting to rule! Such humbug has at last exploded, and now it behooves the European Governments to put the final stroke, so as to preserve the peace and the Governments now existing on the continent of Europe.

The "relic of by gone days" of chivalry who controls the Confederate organ in this place, names James B. Kelly of Wasco county, as his choice for Representative to Congress. Of course he refers to the "Democratic" Congress at Richmond, for certainly Arkansas cannot wish to be represented in the "Abolition" Congress which meets at Washington.
