

THE OREGON SENTINEL

JURIS OF THE UNITED STATES SUPREME COURT.—The injustice done to the Supreme Court by the remarks of W. Phillips the other evening is capable of even more potent demonstration than that given us heretofore. It will be remembered that Justice Wayne and Chief Justice Roger Taney united in their decision of the Court last Spring, recognizing the belligerent rights of the Government, of the President's proclamation of April, 1861, and condemning vessels captured before Congress had met and recognized the state of war. The Court was equally divided on this question, and Chief Justice Taney led the minority. We do not say that all the dissenters were disloyal, but it is very evident that no disloyalist would have voted with the majority. We are further gratified that Justice Grier, although he always before voted with the Democratic majority, voted the Union ticket in Pennsylvania last Fall and this. It is said that a gentleman offered him a ticket of this type last Fall, which he refused, saying: "No, sir; I vote for my country this year."—*N. F. Tribune.*

GENERAL GRANT.—From Gen. Grant's struggle at Belmont to his last at Chattanooga, the men led by him have fought more steadily, bravely and successfully than those of any other portion of the army. In looking back over the history of the war, the eye rests upon no more glorious pages than those whereon written Fort Donelson, Vicksburg and Chattanooga. We rejoice to say that we do not think General Grant has the slightest idea of flourishing as one of the numbing legislators of Napoleon. He has no other followers, is not a candidate for the presidency, holds no correspondence with politicians, never grumbles at President Lincoln or General Halleck, does not consider himself a persecuted man, and is content with the position and assigned him. He never needs to be redemptorially to fight the enemy, the plain reason that he is prompt to whenever the opportunity offers. He speaks for himself, and takes pains with his reputation. In fact he is a model for all our officers.—*Philadelphia American.*

MISSISSIPPI JUSTICE.—But few of our readers are aware of the fact that the Chinese in this city have Courts of their own, and certain laws which they rigidly enforce, frequently imposing the death penalty. In the latter is the case, the prisoner is sent back to China, with a record of the trial, and finding of the Court. These are sent to the Chinese authorities, who forthwith proceed to execute the decree of the Court. One of the greatest terrors of the Chinese thieves is to be tried by their own Courts, for their Judges seem to know by heart when an attempt is made to cheat by the introduction of a false witness, though the Chinese have no hesitation in juring themselves in an American Court of Justice, they are remarkable care to do anything of the kind when before their own Courts. Each commercial house has a Court of its own, and a representative of each company compose a Court of Supreme Court. Several days since a thief was brought before Judge Beard, upon a charge of grand larceny, the evidence would not warrant his conviction. He was, however, immediately seized by the Chinese, and has been confined to the penalty imposed by the Court.—*Call.*

NOW IS THE TIME TO ENLIST.—The very large bounties of \$302 for those who enlist before the first of March ensuing, and \$402 for those who re-enlist, is offered by Act of Congress, Jan. 12th. A laboring man can save more money by accepting this offer than he can otherwise make, as the pay is equivalent to \$40 or \$50 a month; and, besides, if a draft on this coast is required, the volunteers will be most honorably exempt. Lieutenant Underwood, of Company C, has a recruiting office in Jacksonville, and is desirous of enrolling the names of fifteen or twenty good men, and we can assure all such that Co. C is commanded by officers that they can honor and respect.

"Come, Bill, it's 10 o'clock; I think we had better be going, for it's time honest folks was at home."
"Well, yes," was the reply; "I must be off, but you needn't go on that account."
MACHINE POETRY.—
The man who doth no paper take,
Grudging five dollars once a year,
Will never a good husband make,
Because his wife can never know what is going on in the world, and his children will very ignorant and ridiculous appear.
The last line is very lengthy for the most scientific poetical jingle, but the moral is sublime.

A poor lecturer was congratulated the other day on the pleasures of popularity. "Don't you find it pleasant," said a pretty woman, "to be surrounded by a crowd of ladies in the way you were last night after the lecture?" "Yes," said—, smiling his acknowledgment of the compliment, "but it would be vastly pleasanter to be surrounded by one!"

Six fingered babies are reported by Dr. D. J. Macgowan, of the army, to be comparatively frequent among the negroes of Northern Virginia. The Doctor, from his observations, estimates that at least one per cent. of the young darlings of that region are born thus abnormally "polydactylous."

DIDN'T PAY.—A farmer's wife meeting one of her neighbors returning from market, inquired, "What do they pay for eggs at market, now?" "I got only eight cents a dozen for mine," he replied. "Eight cents a dozen?" said the indignant dame. "Well I shall not sell my eggs for eight cents—it don't pay for the wear and tear of the hen!"

During the last three months 10,500 horses have been purchased in Chicago for the Government, of which 2,070 have been shipped to St. Louis, 1,000 to Louisville, and 7,430 to Washington. The price paid was \$120, making the cost, when delivered in Washington, \$134 each.

A Jew was observed noticing very intently a prodigious ham. "What are you doing to that ham, Master Jacob?" "I was saying to it, almost thou persuadest me to be a Christian."

One of the slaves freed in Louisiana and brought North has the name of his late master branded on his forehead. What a brand of infamy is that for the owner.

Considerable merriment was occasioned at a wedding in Winsted, Ct., not long since, by the clergyman devoutly praying for "all the friends of the deceased."

Gen. Whittier has issued an order directing that Capt. John F. Noble be assigned the position of a Second Lieutenant in the Oregon cavalry.

The *Mountaineer* says it is determined to claim the Congressman at the coming election, from the country east of the Cascade mountains.

Don't expect to be called a good fellow a moment longer than you consent to do precisely what other people wish you to do.

To the Afflicted.
Of all diseases, the first great cause is Sprague from neglect of Nature's laws. SUFFER NOT WHEN A CURE IS GUARANTEED. In all severe Diseases, Debility, nervous debility, epilepsy in all its stages, asthmas, pleur, gravel, diabetes, diseases of the kidneys and bladder, mercurial rheumatism, scrofula, pains in the bones and ankles, diseases of the lungs, throat, nose and eyes, ulcers upon the body or limbs, cancer, dropsy, squirts, the St. Vitus' dance, and all diseases arising from a derangement of the sexual organs, such as nervous trembling, loss of memory, loss of power, general weakness, dimness of vision, with peculiar spots appearing before the eyes, loss of sight, watchfulness, dyspepsia, liver diseases, eruptions upon the face, spots in the back and head, female irregularities, and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted all their modes of cure. The medicines prescribed are pleasant and without odor, entirely vegetable, causing no sickness, and free from mercury and balsam. During twenty years' practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands who, in the last stages of the above mentioned diseases, had been given up to die by their physicians; which was not in promising to the afflicted, who may place themselves under my care, a perfect and speedy cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected, a majority of the great killing diseases of the afflicted, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions, and other affections of the skin, eyes, throat and lungs, enabling upon them a brief existence of suffering, and consigning them to an early grave.

SELF-DEFENSE is another formidable enemy to health, for nothing else in the great catalogue of diseases causes so destructive a drain upon the system, drawing its thousands of victims, through a few years of suffering, to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferers wretched to body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence, I assure the unfortunate victim of self-abuse that a permanent and speedy cure can be effected, and, with the abandonment of vicious practices, my patient can be restored to robust and vigorous health. Irregularities, and all diseases of males and females are treated on principles established by twenty years practice, and sanctioned by thousands of the most remarkable cures. Medicines, with full directions, sent to any part of the State, Oregon, Nevada and Washington Territories, by patients communicating their symptoms by letter. Business correspondence strictly confidential. Address, DR. L. J. CZAPKAY, M. D., San Francisco.
Eggs—The Doctor offers free consultation, and asks no remuneration unless he effects a cure. feb2w8
