WEALTH AND RESOURCES OF OREGON. COMMUNICATIONS from all parts of the State of Oregon, and especially from the Willamette, Umpqua, and Rogue River Valleys...

1st. Statements and statistics in relation to the productiveness and character of the soil, as tried in the cultivation of wheat, oats, barley, rye, corn, buckwheat, tobacco, flax and hemp, potatoes, the orchard, and the garden.

2d. Statements and statistics with regard to the increase and cost of raising horses, cattle, sheep and hogs.

3d. Statements and statistics in relation to the cost and expense of cultivating field crops, of the different kinds, and the average price received for the same, by the farmer, and where sold.

4th. The average amount of land actually cultivated by the farmers generally.

5th. Statements and statistics with regard to mines of the precious metals, copper, iron, lead, tin, coal, and deposits of fire-clay, pottery-clay, hydraulic cement, and quarries of marble, slate, limestone, and building stone.

6th. Statements with regard to the distribution of living springs of pure water, running streams, sulphur, soda and other mineral water, springs or deposits of petroleum, (commonly known as rock oil or sea-weed oil), the regularity and character of the climate, and the general health.

In addition to the information on the above named subjects, correspondents are requested to state any other matter that would be useful in furnishing a correct opinion of the natural wealth and resources of Oregon.

The object of procuring the information herein requested, is that the same may be digested and faithfully and fully compiled into the form of a Report, to be published with the maps and report of the Railroad survey, now being made by Col. Charles Barry, under the auspices of the California and Columbia River Railroad Company.

These Reports will be printed and gratuitously distributed among Congressmen, Eastern Capitalists, Newspaper men, Emigrant Societies, and every other place where they will have an influence for good in Oregon; not only for the benefit of the Railroad Company, but equally so for the State. There will also be incorporated in the Report statistics of the amount of arable land in each county, and the amount under cultivation, &c. No one can fail to see the immense influence that such a Report must have on the growth and prosperity of the State; and it is therefore hoped that persons in every neighborhood, in every county, will not only feel it a pleasure, but also a duty to the State and the public generally, to respond to this advertisement in a lengthy and carefully prepared communication.

Due acknowledgment will be made in the published Report, to all those who contribute information for it. All communications should be sent in prior to the first day of October next, addressed to Secretary C. C. R. Railroad Co., 25 3/4 Salem Oregon.

WHY WILL YOU BE SICK! It is strange that so many persons will suffer for years with disease, when they can be so readily cured.

DR. A. BALL has been established in San Francisco for ten years, and during that period has not failed to effect a cure in a single case that he has undertaken.

Dr. Ball, after a study of forty years, has succeeded in compounding a medicine of PURELY VEGETABLE PREPARATIONS, that will cure the most obstinate cases of Rheumatism, Syphilis, Impetigo, Skin diseases, and all complaints arising from impure blood, without injury to the system.

Dr. Ball's LABORER, for the relief of the Weak and Irregularities, to which six or seven million of the Pacific coast are subject, owing principally to the peculiarities of the climate, is the best preparation yet discovered by the Medical Faculty, as thousands that have used it can bear testimony.

Dr. Ball is an Englishman; he is a regularly educated physician of forty years standing, and has a diploma which would be pleased to show to those who may wish to see it.

Persons living at a certain distance, and sending a description of their complaint, can have their mail boxes put up in a package and sent by mail or express, in such a manner as not only to secure safety in transit, but so that no person would suspect what are the contents.

References sent by mail to those who may wish to inquire as to the Doctor's ability before placing themselves in his charge.

WHAT KILLED HIM? Dr. Hall, in his "Journal of Health," speaking of the death of Washington Irving says: "The above question, and adds: 'He might well have remained with us for years to come, had it not been for advice kindly intended, no doubt, but given in thoughtlessness and reckless ignorance.'

HE HAD A COLD! which, by some unjudicious prescription, had been converted into an asthma. Who gave that prescription, or what it was, the outside world may never know." Let me say to Dr. Hall, that that "prescription" was not

Newell's Pulmonary Syrup, for that is an article that does not engender least disease, nor is it productive of any asthmatic affections. On the contrary, it will cure such affections; and as for

COUGHS AND COLDS, the world never saw a better remedy, and never will, until Nature presents some new ingredient out of which to prepare it. Don't be afraid to use it freely. Every article in it is from Nature's own Laboratory—the same to-day as they were a thousand years ago—all calculated to soothe, heal and strengthen. There is no

Better Family Medicine! Keep it in the house, use it freely, give it to your children upon the slightest indication of a cold, and you will think and speak of it as all that have become acquainted with its merits.

All indications of age are composed of fatty masses, destroying the elasticity and beauty of the hair, and affording of themselves no dressing. Heimstreet's inimitable coloring not only restores hair to its natural color by an easy process, but gives the hair a

Luxuriant Beauty, promotes its growth, prevents its falling out, eradicates the dandruff, and imparts health and pleasantness to the head. Letter From Col. Drew. Were permitted, says the Yreka Union, to publish the following, which will not be read with considerable interest.

GENERAL McHARDY.—Private telegrams have been received by military gentlemen at Henderson's, announcing that G. B. McHardy would leave San Francisco on the steamer of the 17th, for a visit to this portion of the Military Department of the Pacific.—Daily Oregonian.

RAILROAD INOS.—The bark Sea, Merrill, now discharging a cargo at Conch's wharf in this city, brought a large quantity of railroad iron for the roads of the O. S. N. Company at the Cascades and Dalles portages. The unthinking portion of our community would forget that we had railroads in Washington Territory and Oregon, except for such events.—Oregonian.

APPRAISAL AT SALEM.—A serious affair occurred on the 11th between Indian Superintendent Huntington and W. H. Watkins, in Health, Dearborn & Co's store. Watkins made personal and abusive remarks in Huntington's presence about the rebellion publication of a letter in the Statesman purporting to have been written by Watkins. Huntington slapped Watkins in the face, when the latter knocked him down with a Macejago bottle, striking him several times. Huntington's face is seriously cut up.—Oregonian.
