

THE OREGON SENTINEL

"Well Aliek, how's your brother Ike getting on, these times?" Oh, first-rate. Got a start in the world—married a widow with nine children."

A brother editor says truth is his polar star; but the fact is, he never got within a million miles of either.

If a man flatters you, calculate that he considers you a fool.

Why are chickens necks like door-bells? Because they are often wrong for company.

THE AMERICAN CONFLICT. GREAT REBELLION.

ALL those who wish to obtain a correct and thorough knowledge of the affairs of our government, with the least possible trouble, should subscribe for the American Conflict, a history of the Great Rebellion in the United States, showing its causes, incidents and results. The author commences at the formation of our government, and traces the growing conflict through the entire period of our national existence to its culmination in open rebellion; and here the vast superiority of Greely's history presents a grand contrast to those superficial works which must soon be laid aside and forgotten. The first volume has nearly twice the amount of reading matter (besides portraits, engravings, etc., in proportion) of any other history of the war. It contains 648 large, closely packed, double-column, royal octavo pages, and bears evidence throughout of the mastery of the writer, and is replete with interest and instruction—every page. It is a candid, faithful history, written without passion or partiality, in which friend and foe alike are treated with impartiality, and a right regard to freedom from favor or prejudice.

IN THIS CITY FOR

"A cough is generally the effect of a cold, which has either been improperly treated or entirely neglected. When it proves obstinate, there is always reason to fear its consequences, as this shows a weak state of the lungs, and is often the forerunner of consumption."—Buchanan's Domestic Medicine

STOP THAT COUGHING

Some of you can't, and we pity you. You have tried every remedy but the one which is the most effective. It is not surprising you should be reluctant to try some thing else after the many experiments you have made of truly compound medicines foisted on the public as a certain cure; but

Newell's Pulmonary Syrup,

Is really the Very Best remedy ever compounded for the cure of coughs, colds, Sore throat, asthma, whooping cough, bronchitis and consumption. Thousands of people in California and Oregon have been already benefited by its curative powers.

WHAT KILLED HIM?

Dr. HALL, in his "Journal of Health," speaking of the death of Washington Irving asks the above question, and adds: "He might well have remained with us for years to come, had it not been for advice kindly intended, no doubt, but given in thoughtlessness and reckless ignorance."

HE HAD A COLD!

which, by some unjudicious prescription, had been converted into an asthma. Who gave that prescription, or what it was, the outside world may never know." Let me say to Dr. Hall, that that "prescription" was not

Newell's Pulmonary Syrup.

Keep it in the house, use it freely, give it to your children upon the slightest indication of a cold, and you will think and speak of it as all do who have become acquainted with its merits.
