And the speaker, Charles Graham, a tall, handsome man, sauntered leisurely out of the room.

Helen Graham threw herself wearily back in her chair, while tears trickled fast through her white fingers clasped so tightly over her aching brow. She was a slight fragile creature, not beautiful, but with a world of love and tenderness shining in her soft brown eyes, and a sweet, winning look that reemed to appeal at once to one's heart. She lablized her husband, lavishing the whole wealth of her nature upon him and he received it with a careless indifference; on the whole, it was rather pleasant to feel that there was a heart so completely in his power that one word of his could bring sunshine to that face or gloom it with sorrow. Al, yes, power over weman's heart is ever sweet to man !

A white face, rigid in its despair, looked forth from the rose tree; the eyes rested on the forms that had just passed, he circling her in his arms and her head drooping low on his shoulder. Then a turn in the path hid them, and with a shiver of agony Helen Graham staggered. The life blood bubbled up from her lips, and she felt. THE IMMENSITY OF GREMAN EMPORACION. The London Times says that eighty thousand Germans, emigrated hat year via. Hamburg and Breman, About 15,000 more, it is calculated, left for the same destination by way of Prance, Regland and Belgium. The Hamburg American Steamship Company are just doubling the number of their ships, expecting a like influx of passengers in the immediate future. If political dissatisfaction remains as strongly pronounced in Germany as it now anticipations no doubt will be fulfilled. Contrary to what was formerly the case, when very poor people would lay by a few thalers to carry them over, a considerable portion of emigrants now consist of small farmers, with a thousand or two of thalers in their markets in their pockets.

> A LIEARD IN A WOMAN'S STOMACH FOUR YEARS .- A young woman of the name of Sherwood, belonging to St. George, New Brunswick, who lived as a domestic with St. Pool, of Calais, about a year ago complained of a living creature being in her stomach, and applied to several physicians to relieve her of it, but to no effect. At length it grew so troublesome, and had such a debilitating effect upon her, that she gave up her place and went home to die, as she fully expected; for to live in such a state she felt and knew was an impossibility. After she got home, Dr. Rouse was called, after hearing her story, left her a powerful emetic, with directions how and when to take it.
