[REPORTED]

Meeting of the Board of Trustees.

The Board of Trustees met January 18th, 1867, pursuant to adjournment."

proposed plan for improving Oregon Street, and offered the following resolution:

Resolved, That the bids received for grading and gravelling Oregon Street, under the specifications, be now awarded to the lowest bidders, as they are reported by the committee,

The resolution was seconded by Mr. Brentane. Nr. Taylor said he was op-posed to the whole scheme, and would vote to reject all bids under the specifications; that he was not opposed to making all necessary repairs upon the street, but did not think that it required, at present, such an outlay, and that under the existing state of our town fiwere not warranted in going on with the work and expending 8 or 9 hundred dollars; that Oregon Street was certainwould, of course, increase the expense.

was a singular proposition to contract for grading and gravelling a street over private property. He did not doubt that the street would be established there, perhaps, before long; but let us have the street before we exercise autherity over it. There had been no grade established for any one of the sections, on any part of Oregon Street, and this should be done, as it had been on California Street, before gravelling, As regarded the sixty petitioners, he knew many of them were opposed to baving the work done as proposed; that they were not committed to any such scheme; that to put ten inches of gravel upon section first would raise the street above the sidewalk; that the street was already of a high grade and ought not to be raised at all. He said he had ever been in favor of expending all of our money upon the streets of the town, but that we had no money now to expend, and if we had he would be

opposed to expending it as proposed. The question was taken on the reso lution, and resulted as follows: Yeas, Davis and Brentano; nays, Taylor, Mil-ler and Mr. President-this defeated the whole scheme. On motion of Mr. Davis, the Board

adjourned.

shall be deemed vacant," and he wanted to know if Mr. Taylor could now act here.

The President explained, by saying that M. Taylor had had leave of absence; and that the question ought to have come up at the last meeting, if at all, as Mr. Taylor was then present and acting with the Board, and was appointed one of a committee with Mr. Davis, and they, together, had submit-ted a report at this meeting, and there could now be no question as to Mr. Taylor's right to his seat.

No further action was taken on the subject.

Mr. Taylor, with regard to the reso-lution, further asked where the money was to come from to pay for this work -8 or 9 hundred dellars.

Mr. Davis said the contractors were to wait, and we could issue scrip.

Mr. Taylor did not favor the propo-sition, and said we came in with 7 or 8 dollars in debt.

Mr. Davis said sixty citizens had petitioned to have the work done, and this was sufficient to justify the Board; that California Street had been graded and gravelled, while Oregon Street had had no work done on it, and everybody could see that it was in bad condition -he zealously urged that the work go on.

The President said he was opposed to the whole thing, and asked where the money was to come from. He said we could not anticipate the road tax, that was collected and expended by the Street Commissioner, and no part of it ever went into the town treasury, and it would be a long time, with the ordinary receipts of the town, before the debt could be paid; that we were now near the end of our term, and he thought we would not be justified in saddling a debt of 8 or 9 hundred dollars upon the town. You have proposed, he said, to let out on contract, for grading, and gravelling over, a tract, a part of which is private property, where you have no street, and where no street was ever laid out or declared; that it
